Satisfaction Guaranteed

AS TO OUR RESPONSIBILITY

THE VERY FIRST FACT WE WISH TO DRIVE

HOME is that the HARTMAN FURNITURE & CARPET COMPANY was established in 1855. The year of 1916 marks our 61st anniversary. On the following pages you will find photographic reproductions of our immense Chicago mail-order plant and a few of our great chain of retail stores, forcibly illustrating our progress.

SO VAST AN ENTERPRISE AS OURS

has taken sixty-one years to build and the investment of many millions of dollars. Yet, even time and money could never have accomplished such tremendous growth if we had not ALWAYS dealt fairly and honestly with our customers. Success of any kind is generally MERITED. We must GIVE in order to GET. After a fruit tree ceases to bear fruit we chop it down and use it for kindling. It is a natural LAW that if you want to succeed you must give others the BEST that is in you ALL THE TIME. That is why, after sixty-one years, we are today the LARGEST home-furnishing organization in the world. We have succeeded MOST because we have served the people BEST. The little acorn of business honesty and good faith that was implanted into the heart of our business 61 years ago, could not help but grow into the giant oak of today—because the best interests of our customers has always been our first consideration. We gave them, always, the best that was in us, in every respect. In return our customers gave us their utmost confidence and helped us to grow.

YOU HAVE EVERY RIGHT TO KNOW

something about a firm and the RESPONSIBILITY of the firm you are thinking of doing business with before you pay out hard-earned money on any purchase. With this in mind let us state a few simple facts:

SUCH WONDERFUL GROWTH AND SUCCESS AS OURS

CAN GROW OUT OF ONLY ONE CONDITION. Years ago we started out with the firm determination in our hearts to please and satisfy EACH and EVERY customer, no matter who they were, where they lived, or how big or small their purchase from us might be; and we have followed this policy unflinchingly in every case, regardless of possible loss to us. Then, when we started to grow and we numbered our customers in the thousands, our success did not make us less conscientious; and now, after many years, with over a million and a half customers on our books, we are PROUD to say that success has still not changed our policies. Fair, honest dealing is still our motto. It is our inseparable

FOR OVER THREE-SCORE YEARS

we have been in business. We have succeeded. We have grown to be the largest home-furnishing organization in the world. The 61st year of our business career finds us a PERMANENT establishment—AND IN BUSINESS TO STAY! By honest, square-deal methods we have grown from a modest beginning to our present unquestionable supremacy with more than a million and a half customers on our books. You will find "Hartman" homes—"The Nests that Hartman Feathered"—in every nook and corner of the United States; from the Great Lakes to the Gulf of Mexico; from the Atlantic to the Pacific Ocean. We have a combined capital of over \$12,000,000. Any bank, any newspaper, any farm paper, or magazine will testify to our responsibility, for our organization today stands out alone and supreme—a commercial giant, towering head and shoulders above any and all competition.

THE TREMENDOUS SIZE ALONE

of this institution is sufficient guarantee of our honesty of purpose. The PERMANENCY of our enterprise, the FINANCIAL SOLIDITY are both irrefutable proof that time and test have found no flaw or weakness in us, and substantially proves that our honesty and responsibility are both beyond question.

DURING OUR SIXTY-ONE YEAR BUSINESS

JOURNEY millions of satisfied customers have proven conclusively and to their own satisfaction that our service was the best, most efficient and courteous; our methods and policies honorable; our ability to serve the widest in scope; our credit-system extremely generous; our values honest. Nowhere else in the world will you find another institution like this—one which has found its way so THOROUGHLY into the homes and hearts of the people.

able principle—it is the corner-stone of our business. It is even more than this—IT IS THE SECRET OF OUR TREMENDOUS SUCCESS—it is the secret for the implicit CONFIDENCE with which our customers honor us after once dealing with us; and there will be no exception anywhere at any time toward anyone. Time has taught us that it is better to have your KINDLY FEELING than your money. Therefore, you are safe, absolutely, in dealing with us, because we guarantee you satisfaction; because we are here to STAY; because you are dealing with the LARGEST HOME-FURNISHING ORGANIZATION IN THE WORLD; in fact,—because it is Hartman's, which means HEADQUARTERS.

OUR LIBERAL CREDIT PLAN

OUR UNMATCHABLE BARGAINS AND LOW PRICES.

When you look through this Catalog and notice how low our prices are for the high quality of the goods we offer—or if you compare these prices and qualities with other houses or your home town dealers' prices, say to yourself, "There is a reason for such high quality at such low prices."

There IS a reason for it and a GOOD one: Situated as we are in the very heart of the greatest furniture market in the world, we have the finest facilities for picking the very cream of the goods on the market. Then, do not forget this: We buy in THOUSANDS where other firms or retail dealers buy in hundreds or dozens. We buy more at one time than most retail furniture houses buy in years, because we buy for our immense mail-order plant, and our great chain of retail stores. Buying this way (in the largest quantities known) we can afford to sell at a lower price than any other furniture concern in this country, and save you considerable money on almost any article you select; and you get the best that enormous buying power and experience can command.

We bring the cream of the world's furniture markets right into your own home where you can comfortably select the things you want to beautify your home from the greatest variety of furniture EVER ASSEMBLED BY ANY ONE CONCERN.

Think what this means: The world's best—the largest range for selection—brought right into your own home. No one else can give you such an UNLIMITED variety to choose from—no one else can quote you such bargain prices or such generous, easy credit terms.

REMEMBER THAT YOU CAN TAKE A YEAR TO PAY YOUR BILL IF YOU WISH IT.

A Hartman purchase means that you'll have the FINEST, the BEST that our keen, experienced group of buyers could POSSIBLY find after thoroughly searching all through the furniture markets of the entire world.

WHAT OUR IRONCLAD, LEGAL GUARANTEE MEANS

ON THE INSIDE FRONT COVER of this catalog you will find our guarantee printed in full. Read it carefully before looking through this catalog. It is the strongest guarantee possible to frame—and protects you absolutely—you take no chance whatever—you risk positively nothing. We have always bought only thoroughly dependable merchandise, which we are not afraid to guarantee. That is why we fully pledge ourselves to return your money and whatever freight charges you have paid both ways, if, for any reason whatsoever, you are not satisfied with your purchase; or if you find the goods unsatisfactory or misrepresented.

We are in business to STAY, and we CAN'T AFFORD to have dissatisfied customers. You are the sole judge and jury in this decision, too. We put the furniture in your home and you can use it, examine it; the whole family can inspect it, and judge its value and beauty. Until you say that you are satisfied with the goods we do not consider that the sale has been made.

WE EXTEND LIBERAL CREDIT TO EVERYONE—EVERYWHERE.

Your income makes no difference. It doesn't make a particle of difference where you live or how much you earn, we extend you the invitation to beautify your home and enjoy the comforts of a finely-furnished home while you are paying for it.

On page 1 you will find our terms, giving first payment and monthly payment according to the amount of your bill. A glance will show you how EXTREMELY LIBERAL these terms are, and how easy it is to have a beautiful home and pay for it in small monthly payments which you will never miss. Hartman's is the most modern method of extending credit known. Experience has taught us that we can trust implicitly the people who build and love their homes. We know that people who are buying home-comforts are the kind we want for customers, and the kind we are glad to trust to the fullest extent. In extending you credit we do not quibble; we do not ask questions; there is no red tape about our system whatsoever; there are NO EXTRA CHARGES of any kind; no mortgage to sign; no interest to pay, and we ask for no security or recommendations; we have no collectors—all payments are made by mail, and no matter if your order is small or large, it will receive the same careful, prompt and courteous attention.

OURS IS A CONFIDENTIAL, DIGNIFIED CREDIT, FREE FROM ANY AND ALL OBJECTIONABLE FEATURES.

All you have to do is to make out your order on one of our printed order-blanks and send it, together with the first small payment, AND THAT IS ALL THAT THERE IS TO IT. After that you pay the small monthly payment as due.

And to FURTHER show you how liberal our system is, we add this: If monthly payments cannot always be made because of sickness or loss of employment, we will GLADLY help you out by waiting a reasonable length of time until you CAN pay.

It makes no difference who you are or where you live, all you have to do is to write us if you are not satisfied and we will take care of any and all adjustments—and all adjustments are entirely at your option. We ask no questions; there will be no unpleasantness, no delay, no red tape, no arguments. If we can't save you money and sell you the right kind of goods at the right price and please you thoroughly, we won't argue the matter with you at all. We will return every penny you sent us, and any transportation charges you have paid out. We built this business by FAIR DEALING, and we will continue to deal FAIRLY and HONESTLY with EACH and EVERY customer. Thus you see that you risk absolutely nothing whatever in ordering anything pictured or described in this catalog.

This is our guarantee, and back of it is a 61-year honest mercantile reputation, our \$12,000,000 capital, and the solemn pledge of the greatest home furnishing organization in the world. You risk nothing when you deal with Hartman's. We do not want a dissatisfied customer at any price.

How to Start an Account

PLEASE REFER to the index of this catalog, which gives the page numbers of all articles we offer. Pick out the goods you want. Write your order plainly on one of our printed order blanks. Go over the order to make sure that all is clear and complete. Be careful to sign your name in full and write your address plainly. Give your post office address, name of County and State; also the railway station to which you wish your goods shipped. Give the catalog number of each article you want. When an article is listed in several sizes state size wanted. Also mention color you desire. Figure up the total of your bill, then refer to page 1 of this catalog, which shows you how to determine your

payments and how much each payment should be. We can not open a charge account for accounts less than \$5.00.

Take a full Year to pay

WE TRUST YOU ABSOLUTELY and give you plenty of time to pay for the things you select. Remember that the size of your income has no bearing whatever on the size of the order you send us. With credit as easy to get as it is from us, there is no reason in the world why you should be without the things you have long wished for. So, if you really desire a beautiful home, this is your opportunity—SELECT FROM THIS BOOK AND SEND IN YOUR ORDERS AT ONCE.

You will find that our modern method of extending credit is QUIET, DIGNIFIED and CONFIDENTIAL. There are no embarrassing or disagreeable conditions connected with the way we do business, as you will find out, after trading

with us. We give you a square deal, and expect a square deal from you.

ALL Dealings Confidential

WHEN YOU ORDER goods from us they are shipped to you marked with plain tags. We do this because, as a rule, our customers do not want their local dealer to know from whom they are buying. He gives no liberal credit, his prices are high, and his assortment does not compare with ours. This is why people prefer to buy from us, because we make our open-charge-account credit STRICTLY CONFIDENTIAL. Every precaution is taken to insure each transaction being held PRIVATE. We even address letters to you in envelopes that do not bear any mark of our being a credit-giving house. No one need feel embarrassed, however, because they buy on credit, but most people prefer to keep such affairs to themselves. Credit is a

thing one should be proud of; because, it shows you are trusted and are considered honest by those who extend the credit.

How to Send Money

THE SAFEST and most satisfactory method of sending money is by POST OFFICE MONEY ORDER, Express Money Order or Bank Draft. Either of these must be made payable to the firm, using the full name as given. It is not advisable for you to send us your personal check, because there will be a charge at this end for collection. Should you send cash, it should be by registered letter. If payment is made by money order or bank draft and either should be lost in the mail a duplicate may be easily procured and the money would not be lost. If you live on a R. F. D. route, give your letter and money to the rural mail carrier and he will buy a money order for you and send it to us. Write your name EXACTLY THE SAME WAY EACH

TIME YOU WRITE TO US; it will enable us to reply promptly and will eliminate mistakes.

Our Stock ready to ship

WE CARRY THE LARGEST FINISHED, READY-TO-SHIP STOCK OF HOUSE-FURNISHINGS IN THE UNITED STATES. A large percentage of the goods you order from this catalog will be shipped in one shipment, direct to you from Chicago, instead of coming from various points.

All goods, whether shipped from Chicago or factories, or warehouses, are carefully inspected before being packed. We take every precaution to see that goods reach you in perfect condition. Occasionally, it is necessary to ship large, bulky articles "knocked down." Shipped in a "knocked down" state, you save money on the lesser freight charge, and the large articles are easier to handle, thus saving them from possible injury.

No Cash Discount Allowed

WE QUOTE ONE PRICE to all, whether you pay us cash or buy from us on credit. Customers who wish to pay cash are just as welcome to our Bargains as credit customers. It is simply impossible for us to give any discount whatever, because our catalog prices are figured with only ONE small percentage of profit added to the SPECIAL LOW FACTORY PRICES we obtain through our great quantity buying power. You pay us no middlemen's profits as this is entirely eliminated. There is NOTHING ADDED for the credit we extend, and, as our price on every article we sell is lower than that of dealers and mail-order houses, you can see that it is absolutely out of the question to allow any discount for cash.

SIZE of Orders and C.O.D.s

WE ACCEPT ORDERS FOR ANY AMOUNT, but we do not open charge accounts for less than \$5.00. Should you wish to order small priced items amounting to less than \$5.00, please send the full amount with your order. We advise you to order goods amounting to more than \$5.00, as it is more profitable to you; besides you get the advantage of our long time credit.

WE NEVER SHIP GOODS C. O. D., because we sell on open-charge-account, credit-terms. We take all risk by allowing customers to have full possession of the Goods before they are paid for, and if, after comparison and inspection, you decide not to keep them, the goods may be returned to us at our expense, as

per our legal guarantee, and any money you have paid us as well as freight charges paid out by you will be promptly refunded.

Prompt Shipment

OUR SHIPPING STATION HAS IMMEDIATE ACCESS TO THE TRACKS OF 24 RAILROADS and is located right in the heart of Chicago's most important transportation center. This gives us the advantage of getting shipments out in the quickest possible time. Monstrous elevators load all outgoing freight directly into cars, switched immediately before our great merchandise building, where the goods you order are selected, inspected and carefully packed.

WE GUARANTEE SAFE DELIVERY and exercise EVERY effort to prevent the LEAST mishap or damage to goods while in transit. In order to completely relieve our customers of every element of risk, we take it upon ourselves to guar-

antee safe delivery.

For further important information on this subject please read "DAMAGES AND ERRORS" below.

FREIGHT charges paid by you—

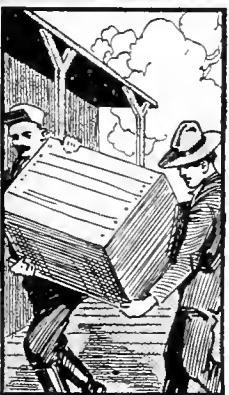

CUSTOMERS PAY THE FREIGHT WHEN THEY RECEIVE THE GOODS, EXCEPT WHEN WE SHIP GOODS to any prepaid station where there is no agent to collect the freight charges, these charges must be prepaid by you.

Figure the freight charges to some town near you, which is equally distant from Chicago; by referring to page 14 for table of freight rates. Look over the freight rates carefully; if your point is not mentioned take the nearest town to you as a basis, and you will have no trouble in estimating the charges. In the case of prepaid stations, include the extra amount for prepaying freight with your order so that we can prepay the freight for you.

Be liberal in your freight allowance; if you send more than is required the balance left will be credited to your account.

Returning About Goods

BEFORE YOU RETURN ANY GOODS, on account of error or any dissatisfaction, BE SURE TO WRITE US. State in your letter what you desire; advise us fully as to the number of articles you wish to return; give the date of your purchase, and your account number. We can then adjust matters to your entire satisfaction. All transportation charges in adjusting errors are paid by us. We promise you the best care and attention to every detail and guarantee to please you ABSOLUTELY and THOROUGHLY. WE take all the risk, selling under LEGAL GUARANTEE of satisfaction or your money back. Our intention is that anything you buy here shall be not only satisfactory, but GOOD VALUE for

your money. Big value is a part of the satisfaction we guarantee, AND WE LIVE UP TO OUR AGREEMENT.

Unnecessary Correspondence

We are MORE than glad to answer customers' letters at ALL times; glad to give you any information about our prices, terms, merchandise and freight rates. However, correspondence and time may be saved if you will READ THE INFORMATION PRINTED ON THE FRONT PAGES OF THIS CATALOG. We wish to avoid, as much as possible, all unnecessary correspondence in order to keep our expenses down so that we can always quote our low prices. It requires an enormous army of clerks and correspondents to answer letters from over a million customers, and we ask you to co-operate with us by studying the information and instructions printed in this catalog. If

you will observe the rules we have outlined, we feel confident we can adjust all matters satisfactorily.

Damages —and Errors

IT IS VERY IMPORTANT that you be careful and inspect your shipment BEFORE accepting it from the transportation company. This should always be done so that they can be held responsible for damages or shortages which sometimes occur. Should you discover either, SEE THAT YOUR AGENT MAKES NOTATION OF THE CONDITION OF GOODS ON THE RECEIPTED EXPENSE BILL he gives you for freight you pay.

BE SURE to have the agent write the nature of the damage or shortage, if any, in full, for with this agent's notation on the expense bill, you are then in position to secure satisfaction. Send the expense bill with its notation, to us, and we'll take

up your claim immediately and do all in our power to protect you from any loss.

LET HARTMAN FEATHER YOUR NEST

Here are Interior Views of Our Administration Building

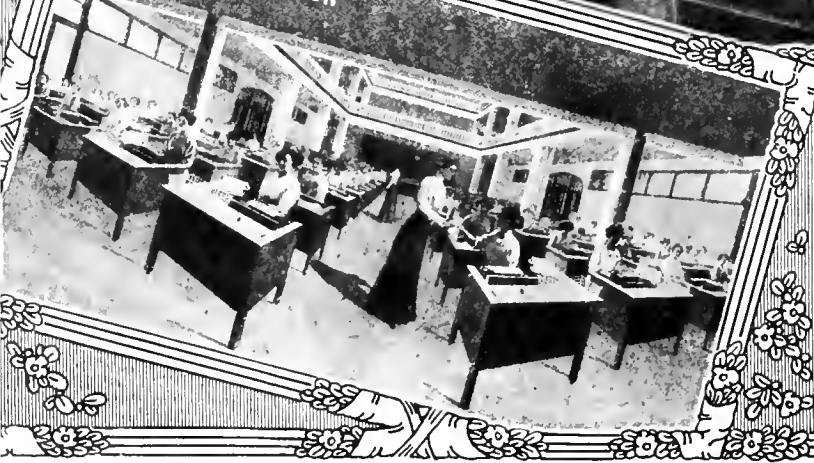

ONE OF OUR
EXECUTIVE OFFICES

A BUSINESS CONCERN as large as Hartman's cannot afford to be **SMALL** in anything, nor can we afford to misrepresent anything; therefore when we unreservedly guarantee **EVERYTHING** we sell, and **GUARANTEE** your satisfaction, we **KNOW** that we can please you. We **KNOW** that we can save you considerable money on furniture, and we **KNOW** that after you have once dealt with us you will **THINK OF HARTMAN'S** when you next think of buying furniture.

It is, and always has been, a **PERSONAL OBLIGATION** with us to please a customer in **EVERY** respect, and to this we pledge ourselves fully.

STENOGRAPHIC DIVISION

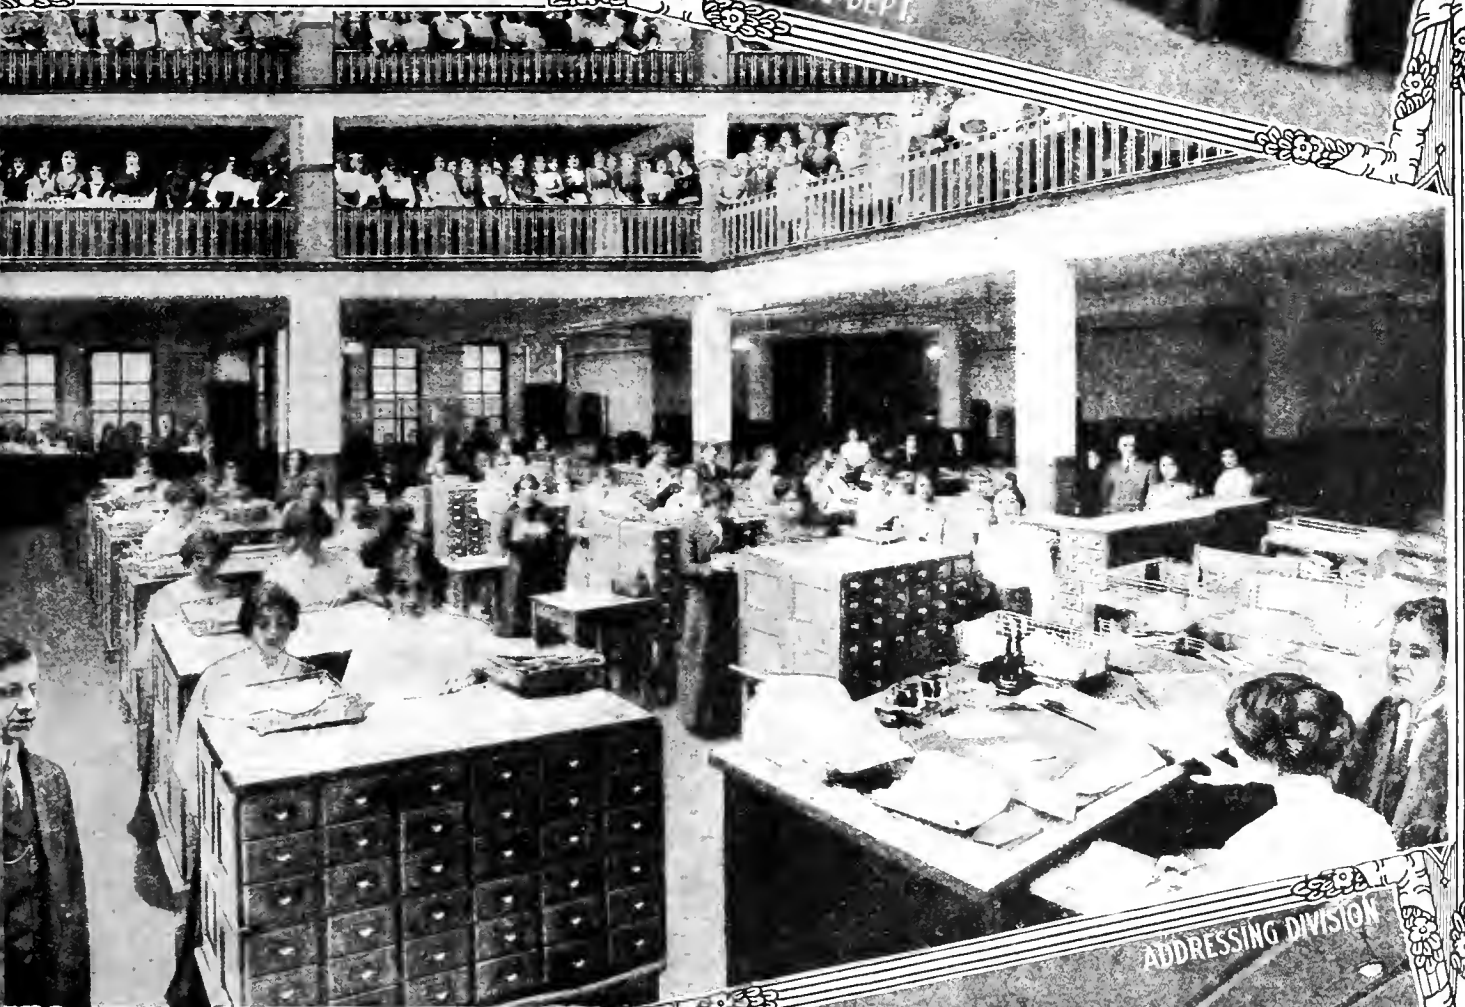

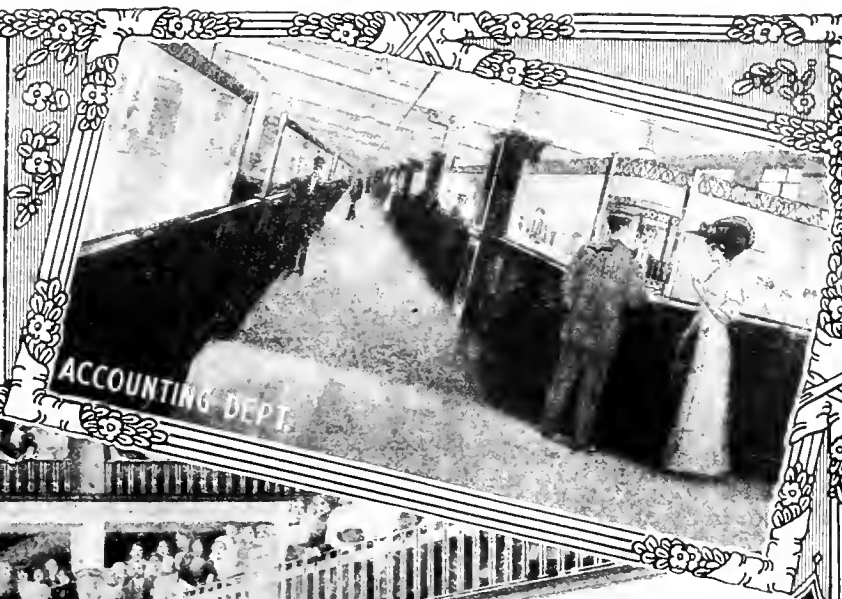

THE PICTURES on this page are photographs of some of the departments of our great mail-order plant, which covers an entire city block and has a frontage on four important streets. These offices are used exclusively for the transaction of business with our vast army of customers located in cities and towns, villages and farms, all over the United States. It is here that over a million and a half happy families send orders for things they want—buying by mail, on our modern open-account-credit plan, the furnishings that make their homes beautiful, their farms profitable, their surroundings pleasant, and their lives more enjoyable.

LET HARTMAN FEATHER YOUR NEST

where correspondence from our million and more customers is handled

YOU WOULD ENJOY visiting our big mail-order plant in Chicago. But, since only a few of our customers come here, we reproduce photographs of our beautiful buildings, and some of their interiors, for the benefit of all who desire to know what their present or prospective trading place looks like. If you could see these great structures and study their wonderful arrangement, we know you would be wonderfully impressed. They are the finest, most modern, best equipped mail-order merchandising buildings in the United States, and if you ever visit Chicago, we extend to you a cordial invitation to call on us and inspect our wonderful institution.

OUR MODERN OFFICES marvelous shipping facilities, convenient location and fireproof construction of our buildings, make the handling of your mail orders rapid, economical and absolutely safe. Every modern office and warehouse appliance known has been installed, permitting us to handle every order with ease and with the highest possible degree of satisfaction to our customers. All this reduces our working expenses and naturally contributes to the reduction of our prices. In every manner possible we always strive to reduce the cost of home-furnishings, and other goods we sell, to a point that no other concern can equal.

HARTMAN'S

ENDORSED BY
LEADING BANKS

THE BANK LETTERS PUBLISHED ON THE FOLLOWING PAGES show you CONCLUSIVELY

how the prominent officials of the GREATEST, STRONGEST banks in the United States bear official and personal testimony to the financial responsibility, honest mercantile reputation, and absolute DEPENDABILITY of the Hartman Furniture & Carpet Company.

THESE EXPRESSIONS WERE MADE only after a long business acquaintance and close association; and every man and woman in the United States may accept WITHOUT QUESTION the statements of these great banks with their total of many millions of capital and surplus.

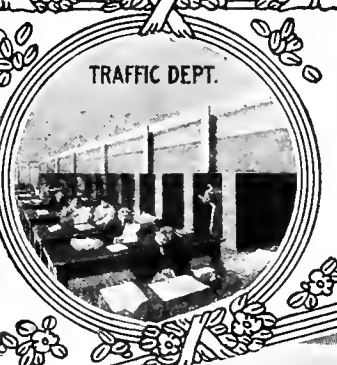

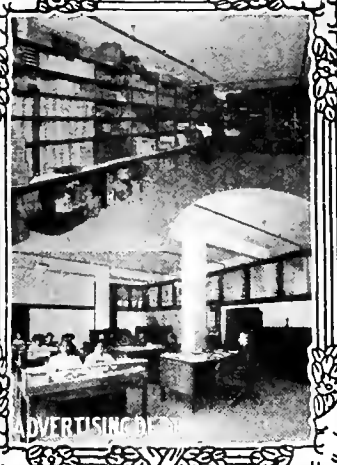

WE NOT ONLY GUARANTEE, BUT WE INSIST on your complete satisfaction in every transaction with us, and back of that pledge, is not only our enormous capital, running up into figures that are several millions of dollars MORE than any concern in our line of business, but a deep sense of our MORAL obligation as well.

IT IS AGREED, UNDERSTOOD AND GUARANTEED that all goods you order from us must measure up in every particular to our claims, and more—they must prove as MONEY-SAVING and VALUE-GIVING as we claim them to be. We leave the decision entirely in your hands.

IF YOU ARE NOT SATISFIED IN EVERY PARTICULAR in your dealings with us, you are at perfect liberty to return the goods AT OUR EXPENSE, and we will immediately, without ARGUMENT or DELAY, either send in exchange any other article you wish, or refund your money—TOGETHER WITH EVERY PENNY you have paid for freight BOTH WAYS. A fairer, squarer offer never was made by ANY firm; and you can see that you risk NOTHING in dealing with us; and you can see how genuine is our desire to make a friend of each customer.

THREE SCORE YEARS AGO WHEN WE STARTED OUR BUSINESS

we knew that our success depended in a large measure upon our customers' confidence in us. We realized that it was within our power to make or break that confidence. Millions of people have since given us their utmost confidence and in return we always give them a fair and square deal and have treated them in the fairest way we know how. We will do the same by you. Send us your order and let us prove it.

STOVES READY
FOR SHIPMENT

PACKING GOODS

HARTMAN'S IN BUSINESS TO STAY

ON PAGES 6, 7, 8, 9, 10 AND 11 YOU SEE PHOTOGRAPHS

of our great Chicago mail order plant and our chain of big retail stores in the principal cities of the United States. We show you these actual photographs that you may better realize the great size of our concern. Look at all these buildings carefully. To build up so great an enterprise has taken many years and the investment of many millions of dollars. The very vastness of this enterprise is your most binding guarantee. It means that for sixty-one years we have been here, and it means **THAT WE ARE IN BUSINESS TO STAY!**

IT STANDS TO REASON

that such a great enterprise as ours, serving over a million and a half customers, could never have been built if we did not give the people **BETTER** values at **BETTER** prices and **BETTER** treatment than they could possibly get anywhere else. Since we have been in business we have made beautiful a great many homes for the wage-earners of the country; people in every walk of life, who were shrewd enough to avail themselves of our liberal credit terms, and enjoy a fine home, while paying for it.

SO GIGANTIC A SCALE OF DOING BUSINESS

and our enormous growth tell their own story. **WE HAVE ALWAYS MADE GOOD!** We will **ALWAYS** make good, and we will always back up every word we say. It is worth something to know that you are sending your order and your money to a firm that has given over sixty consecutive years of successful service to the public. You take no risk—you are not **EXPERIMENTING** when you deal with Hartman's.

DESIGNATED DEPOSITORY OF THE UNITED STATES

THE NATIONAL BANK OF THE REPUBLIC

Capital \$2,000,000
Surplus \$1,000,000

CHICAGO.

May 5, 1909.

To Whom It May Concern:-

It affords us much pleasure to certify to the very high standing in this community of the Hartman Furniture & Carpet Company. They have had an account with this bank for over eleven years, have always had an excellent balance to their credit, and our business dealings with them have always been businesslike and satisfactory.

The Company's capital is large, their financial responsibility adequate, and, in our opinion, prospective purchasers need entertain no hesitancy whatever in having their orders accompanied by remittances.

The officers of the Company are very well and very favorably known to us, their business ability and moral standing absolutely unquestioned and their part of any contract into which they enter will undoubtedly be carried out to the letter.

Yours very truly,

John H. Hartman
President.

CHICAGO.

May 4th, 1909.

To Whom It May Concern:

The Hartman Furniture & Carpet Co. keeps a very satisfactory account with us, and our experience with them has been such that we can speak of them only in the highest terms. Its officers are gentlemen of high standing, strict integrity and long business experience, and we cheerfully recommend the Company to anyone desiring to do business with a thoroughly reliable concern.

Very respectfully,

Edwin S. Foreman

To the Patrons of the

Hartman Furniture & Carpet Co.

We are pleased to state that the standing of the Hartman Furniture & Carpet Co., of this city, is excellent.

They have had an account with this bank for the last four years, and they have always maintained a good balance to their credit. Our dealings with the house have been most satisfactory, and we have found that they manage their affairs on good business principles.

They have ample capital to meet the demands of their business and we consider them good for their business requirements. The officers of the Company are of good standing and our reports relative to them have been favorable, and we regard the Company, under its present management, good for its business needs. Yours truly,

J. H. B.

Vice-President.

Drovers Deposit National Bank

Union Stock Yards

Capital & Surplus \$1,000,000

Chicago April 29th, 1913.

TO WHOM IT MAY CONCERN:

It is a pleasure to testify to the very pleasant relations which have existed between the Hartman Furniture & Carpet Co. and this bank extending over a substantial period. Our experience indicates that the business is conducted along agreeable and thoroughly honorable lines and the management, which we believe to be excellent, is in the hands of men of unquestioned ability and integrity.

The Company occupies a very large and modern plant and in its line, is considered one of the leading houses of the country. Its capital is abundantly ample for its requirements and the immense volume of business done, indicates that the Company merits the confidence of its customers.

Yours very truly,

Joe D. B.
Vice President.

Chas. Merchants National Bank of Peoria
RESOURCES 2,500,000.

Peoria, Ill. May 12, 1909.

FRANK LUTZ, President.
WALTER LUTZ, Vice President.
JAMES LUTZ, Cashier.
JAMES LUTZ, Jr., Secretary.
JAMES LUTZ, Jr., Treasurer.

TO WHOM IT MAY CONCERN:

The Hartman Furniture Company established at Peoria one of their chain of stores five years ago, since which time they have done a large and successful business, with steadily increasing trade.

They have kept an excellent bank account with us, and their large cash resources enable them to purchase goods to the best advantage, thus giving the trade the benefit.

The Managers of the Company are well known to us, being men of high moral standing and excellent business ability.

We take pleasure in recommending them to you, and in our opinion they need have no hesitancy in accompanying their orders with recommendations, as we consider them perfectly responsible.

Very truly yours,

Fred Lutz

President.

The Germania National Bank
OF MILWAUKEE
RESOURCES \$4600,000

MILWAUKEE, WIS. June 2nd, 1911.

To Whom It May Concern:-

We are very much pleased to state that the Hartman Furniture & Carpet Co. enjoys a splendid reputation in Milwaukee.

It has been our privilege to take care of this company's banking business for a considerable time, and we are all our dealings with them, have been very satisfactory indeed.

The Hartman Company, with adequate responsibility and capital and managed by men of the best ability and high standing in the community, certainly merits the confidence of the purchasing public.

Yours very truly,

Letters of Endorsement from Leading Banks

THE BURNS NATIONAL BANK
FOUNDER, CAPITAL & DEPOSITORS
RESOURCES. 3,000,000

ST. JOSEPH, MO. June 2nd, 1911.

TO WHOM IT MAY CONCERN:-

The Hartman Furniture & Carpet Company have been valued customers of ours for a great many years. We esteem them very highly indeed, and because of that long business relationship we are in a position to speak advisedly of the splendid character and large business interests of this firm. They have stores in Chicago and this city and other cities, and all their business transactions have been an unbroken record of steadfast fidelity to high business ideals.

Mr. Leon Hartman is a gentleman of high character and possessed of large wealth, and gives his entire and exceptional attention to this business. It affords us much pleasure to commend them to your most favorable consideration, believing as we do that any orders you send to them will be attended to to your entire satisfaction.

Very truly yours,

BURNS NAT. BANK. ST. JOSEPH, MO.

L. A. Burns
President.

Bargains on Credit

RUGS, CARPETS-

Linoleums, Oil Cloths, Curtains Etc.

SELECTED FOR VALUE FROM WELL KNOWN MILLS

Our Credit Terms Make It Easy For You To Purchase

With credit as easy to get as it is from Hartman's, there is no reason in the world for people to live in poorly furnished homes. It must not be forgotten that home happiness depends a whole lot on pleasant, comfortable surroundings. They can be easily and economically acquired by this broad, liberal credit plan of ours. No matter who you are—where you live—what your occupation may be—or what your earnings are—you can buy on credit from us. After you have once started dealing with us—after you have received the benefits of a charge account with us, and found out how fair and honest our methods are, we are sure that you will at no time order home furnishings elsewhere. A trial order and comparison will settle that question.

THE CARPETS AND RUGS shown on the following colored pages are the product of the most reliable mills which have established a wide reputation for high quality, best design and beautiful colors in floor coverings. We buy these goods at decisive savings in large lots. It is the demand of our great army of over a million customers and our enormous capital that gives us the power to buy these big bargains at a price which permits us to offer them to you at our low prices.

WE WANT YOU TO KNOW that not only did our mammoth purchasing power enable us to buy our present line of rugs and carpets at a saving but our prestige in the market is so great that we practically had the choice of all the new and best designs.

WHEN YOU ORDER A RUG carpet or any other floor covering from this catalogue you have new patterns and colorings to choose from. So that you can prove all this to your own satisfaction, you can take ample time to compare prices and quality, as we will send any rug, carpet or curtain to you for examination. All you have to do is send your order—receive and take the goods in your home—let your entire family see, use and judge them—give them any test you please—then, if you are thoroughly satisfied—satisfied that the price, quality and all are just exactly as we tell you—buy them on our liberal easy payment plan. But, if for any reason whatever, you are not pleased, return the goods to us at our expense and we will be more than glad to refund your money, including the freight charges. Our policy is to satisfy.

THE FIRST IMPRESSION in buying a rug or carpet is usually made by its appearance. If the pattern is pleasing and the color combinations harmonious, the sale is usually made—but greatest care should also be given in examining the actual quality of the materials that enter into the manufacture of the goods. A rug of beauty is often like human beauty, "only skin deep," but our entire business policy is based upon a more substantial foundation than appearance. We are sure of the quality before we offer the article for sale.

THE RESULT is that you take absolutely no chances when you buy by mail of us—you are positively sure of getting the most desirable product of the best looms. We couldn't afford to ship carpets, rugs, etc., to customers unless we were pretty sure the goods would prove themselves worthy of making the order a bona fide sale—so you see we rely upon the Quality and Price as well as our liberal credit treatment to make you our steady, satisfied customer.

ACTUAL COLORS SHOWN The following pages faithfully describe and illustrate, in actual colors, our rugs, carpets and draperies so that you may get an idea of how beautiful our line really is. You have our binding guarantee as to low price, excellence and lasting quality. Now, with all these assurances, don't you think you can feel just as safe—just as satisfied—in doing your buying by mail as though you were in our establishment to make your choice?

SAVE MONEY Our offer of low price bargains makes up a great sale of floor covering and curtains. If you are in need of such goods, you will make a very wise purchase by sending us your order for whatever your wants in this line might be.

About Ordering Carpets

HOW MANY YARDS Figuring out the number of yards of carpet necessary to cover a room is a somewhat difficult task for the inexperienced and often leads to confusion through errors.

In order to simplify matters for our customers and to relieve them of the trouble of figuring out just how much carpet they need, we have prepared and print on this page a table showing the amount of carpet that will be required for various sized rooms.

Measure the length and width of your room in feet. Then refer to the table printed below, and you can quickly tell just how many yards of carpet you need.

TO GUARD AGAINST ERRORS we ask you, when ordering, to send us a diagram of each room that you wish carpeted. On this diagram plainly mark the length and width of your room in feet and inches. If your measurements are correct, there can be no errors. In ordering, be sure to state which way of the room you wish the strips to run.

PROJECTIONS---BAY WINDOWS, ETC. In case there are any bay windows, fireplaces or alcoves, or projections, in your rooms, be sure to include them in a plainly marked diagram. Show their exact location and be careful to give us exact measurements of such irregular places. These measurements should be given separate from measurements of main room. If you feel that you cannot figure the exact amount of carpet, if your room is odd-shaped, having a bay window, fireplace or alcove, give us the measurements in feet and inches, and we will be pleased to quote you the price of any quality of carpet you wish.

WE MAKE NO CHARGE whatever for matching and sewing carpets that are to be made without a border. On carpets made up with border, however, we make a small charge of 5c a yard to cover a part of the cost of sewing on the border by hand. You'll agree that this is a very liberal offer, as 5c a yard does not cover the cost of the work to us. Remember, this charge of 5c a yard is for bordered carpets only—plain carpets are sewed absolutely free.

IF YOU WANT A BORDER around the Brussels, Velvet or Axminster carpet you order, be sure and allow enough yardage. Remember, carpet border is only 22½ inches wide, and the main carpet widths are 27 inches wide. The diagram shown on this page is of a room 12 feet 9 inches by 9 feet 3 inches, and if you will follow instructions given we do not think you will experience any trouble in ordering enough carpet and border to fit your sized room.

MEASURE THE DISTANCE AROUND THE ROOM IN YARDS, which gives the exact number of yards of border required.

TO GET THE NUMBER OF STRIPS OF CARPET necessary to go inside of the border, deduct the width of two strips of border or 45 inches from width of room. Divide by 27 inches, which is the width of one strip of carpet, which gives the number of strips of carpet needed.

TO GET THE LENGTH OF STRIPS, deduct the width of two strips of border (45 inches) from length of room, which gives the length of strips.

ALLOW 1½ YARDS FOR MATCHING PATTERNS. The cost of sewing carpet with border is 5 cents per yard extra.

IF YOUR ROOM SHOULD REQUIRE MORE THAN AN EQUAL NUMBER OF STRIPS, you should still allow for one full width. If there is any waste we will send it to you with your carpet.

INGRAIN CARPET IS 36 INCHES WIDE

When your room is 13x15 feet, and you wish an Ingrain carpet, you will notice that we have to use four widths 15 feet long; that will leave one foot of your room uncovered. Now, in order not to waste two feet of carpet the entire length of your room, we simply split one width in two, using only one-half width, as our table for carpets shows you below. Again we take this same room, 13x15 feet. In case the widths of this carpet could be run any direction in the room, by using five widths and running the lengths 13 feet long, you would not only save carpet, but the widths would fit in exactly, as five widths of 36-inch carpet make exactly 15 feet.

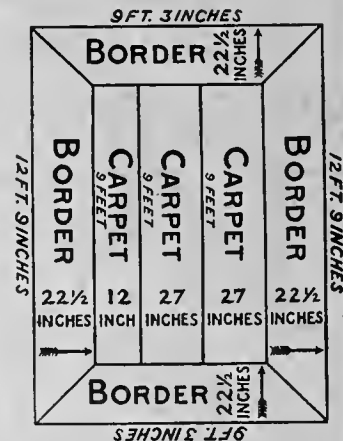

DIAGRAM SHOWING THE NUMBER OF LENGTHS OF CARPET AND BORDER NEEDED TO COVER A ROOM 9 FEET 3 INCHES WIDE BY 12 FEET 9 INCHES LONG.

Waste in Matching Carpet Explained

For the Benefit of Those Who Do Not Thoroughly Understand Why There is a Waste in Cutting Carpet So That the Pattern of Each Strip Matches, We Wish to Submit the Following Explanation: The Figure on the Edge of One Strip of Carpet Must Match the Figure in the Pattern of the Strip Adjoining. If Several Strips of Carpet Were to Be Cut a Given Length, It Might Happen That on One Strip the Figure Would Be Close to the End, While on the Next Strip the Figure Might Come Anywhere From 6 to 36 Inches from the End. You Can Readily See That It Would Not Match at the

Given Length, Hence the Necessity of Cutting the Carpet at the Next Figure That Will Match, Resulting in Waste of Material. We Always Cut Carpets to Match Perfectly, With the Least Possible Waste and Ask an Allowance of Only 1½ Yards for Waste to Every 25 Yards You Buy. This 1½ Yards Allowance is a Low Estimate. On All Carpets with Borders This Waste Must Be Cut Off in Order to Make Up the Carpet to Fit Your Room Exactly. On Carpets Without Borders, This Excess Is Left On End of Carpet and Must Be Turned Under When Laid.

Table of Room Sizes

SHOWING THE NUMBER OF YARDS OF 36-INCH INGRAIN CARPET AND THE NUMBER OF YARDS OF 27-INCH AXMINSTER, VELVET OR BRUSSELS CARPET, MADE PLAIN OR WITH BORDER, THAT WOULD BE REQUIRED FOR DIFFERENT SIZED ROOMS. IF THE SIZE OF YOUR ROOM IS NOT GIVEN, SELECT THE NEXT LARGEST SIZE TO AVOID DELAY IN FILLING YOUR ORDER.

VERY BEAUTIFUL "ESSEX" BRUSSELS RUG

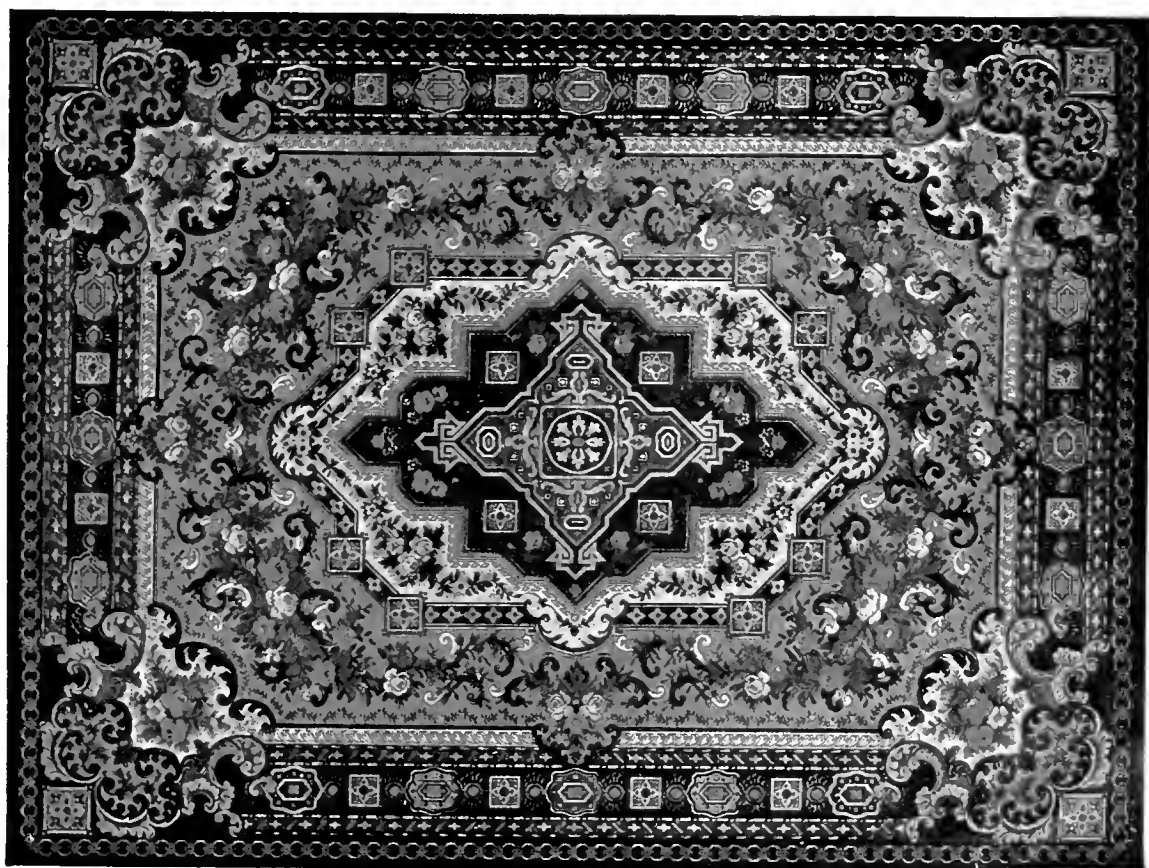

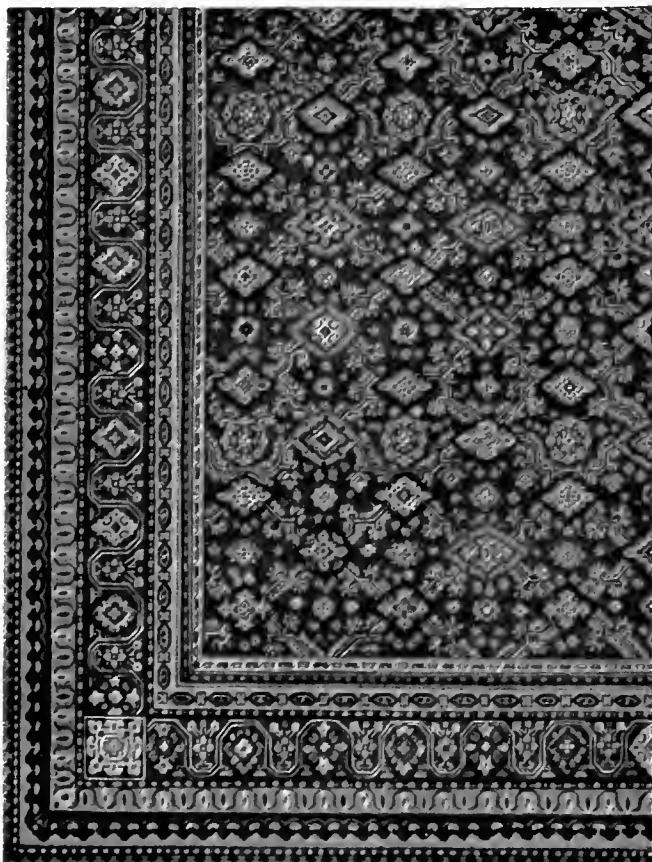

AN EXCELLENT
PATTERN WOVEN
OF FINE YARNS
GUARANTEED
TO GIVE SERVICE

Just think of the extremely low price at which we offer this handsome Brussels rug. The brown, tan, green and light colorings blend most charmingly and the design into which it is woven gives it a very effective appearance, as the illustration plainly shows. The floral medallion center is very rich and pleasing, as is the neatly arranged wreath design surrounding it and the pretty border is very artistic and the fine worsted yarns used are selected for their long wearing qualities.

REASONABLE, HIGH GRADE BRUSSELS RUGS

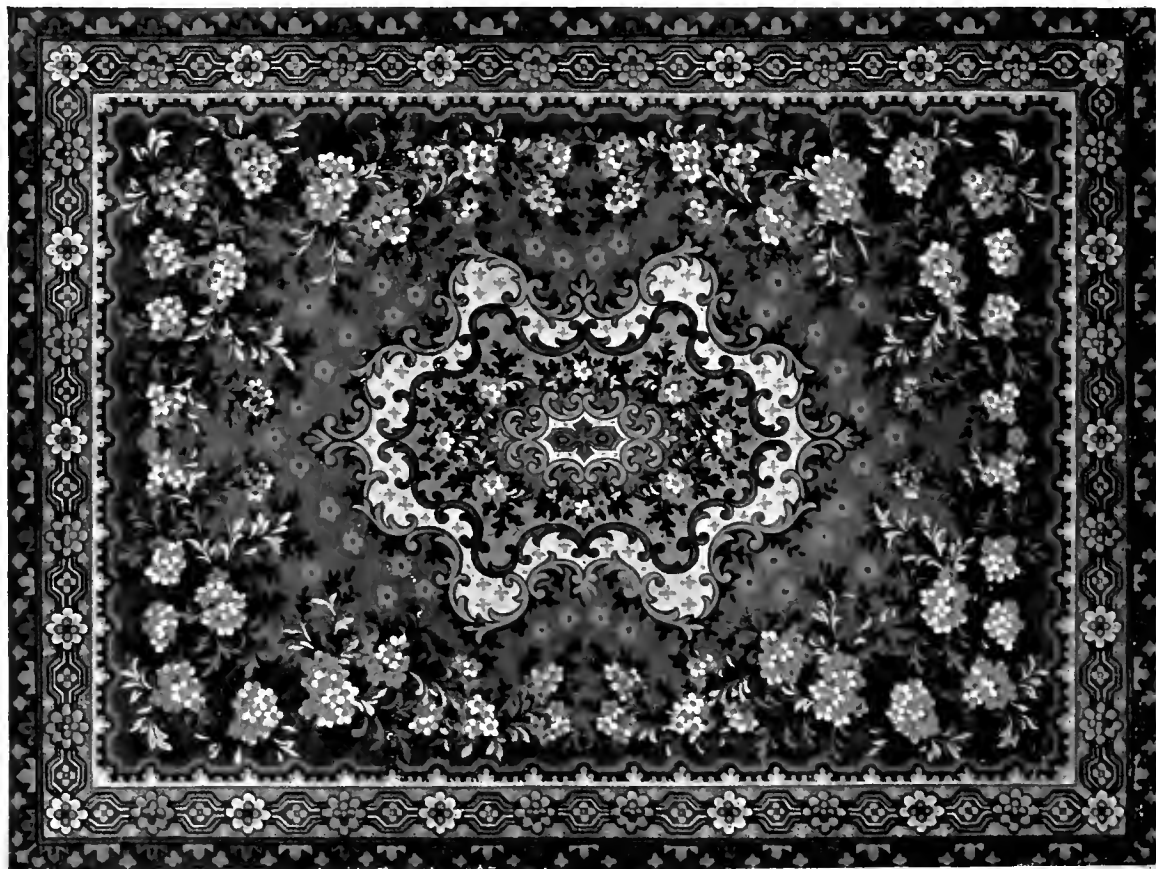

ELEGANT "ADAMS" ROOM SIZE BRUSSELS RUG

It is one of our most beautiful patterns ever woven. The hand-ome colorings of red, green, brown and tan are wonderfully blended so as to harmonize with any furnishings. The center medallion is framed with a conventional floral design in exquisite colors, while throughout the inner border are floral sprays in natural colors. The outer border is of a unique pattern. It is extra heavy, is firmly woven of the best woolen worsted yarns on a heavy warp, and has a beautiful appearance. All colors are also truly fast.

WHERE OUR LACE AND WHITE GOODS ARE MADE

is Factory Covers An Area of 7 Acres, The Grounds Embracing 63 Acres In All. Building Is 842 Feet In Width And 865 Feet In Length. About 1,000 Capable People Constitute Its Organization. It Is A Wonderful Institution In Every Way.

THE NEWEST IDEAS. This colossal mill employs a large force of thoroughly experienced and expert designers, not only in this country but abroad as well. They are kept in constant touch with all the developments in the field of decorating, and every new tendency is reflected at once in the conceptions that are brought out in our products. We particularly direct your attention to the large variety of handsomely designed lace curtains on the following pages of this catalogue. Look them over carefully for a full appreciation of the magnificent patterns, excellent values and reasonable prices.

UNSURPASSED QUALITY. The cotton yarns which are chosen in the production of our lace curtains have long, strong fibres, which insure good wearing quality. This is a point worthy of consideration, because you are certain of securing the kind of curtains which every particular housewife should demand. Service is an important factor, for the reason that when you buy lace curtains you do so with the intention of having them last for a long period of time. The bleaching and every one of the processes of finishing tends to increase and improve the wearing merit of our lace curtains.

"HARTMAN'S COLUMBIA" VACUUM SWEEPER

Wheels
Slanged—
No More Tire Trouble. Noiseless
Connecting Rods. All Metal Parts
Heavily Nickel Plated.

It Is Very
Low—Meas-
uring Only 6
Inches High.

Has Perfect Brush Adjustment—Operated by Foot. New Slotted
Hinged Nozzle and Spring Nozzle Clamp. Noiseless Fibre Bearings

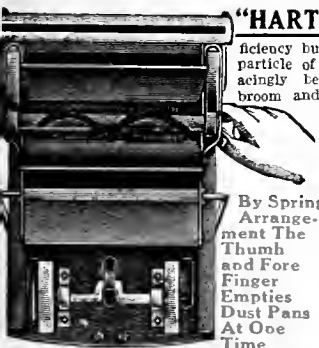

ABSOLUTELY NEW. "Hartman's Columbia" vacuum sweeper is absolutely new in
of the more expensive vacuum sweepers on the market, yet is so low in price as to easily be
within the reach of all. Besides the embodiment of the many desirable features, which we ex-
plain below, it eliminates every reasonable objection. It is low in size, measuring only 6
inches high. This advantage is found in the fact that it can be used under many pieces of
furniture where a larger sweeper is impractical. Is light in weight, runs very easily and is
silent in operation. It is a very sturdy machine and is absolutely reliable. Another feature
is the noiseless fiber bearings and bellows, lifting rods, the steel frame dust bag, wide
opening dust pans, the pressed steel top and the three-ply veneer body. There are four drive
wheels on the brush, three bellows and a 12-inch nozzle.

NEW FEATURES. Among its new features are the following: Perfect brush adjust-
ment—operated by the foot, new slotted hinged nozzle and spring
nozzle clamp, wheels slanged—which does away with tire trouble, noiseless fiber bearings and
connecting rods. All metal parts are heavily nickel plated. This machine is the result of many
years' experience in vacuum cleaner building and is made by experts in the most perfectly
equipped vacuum cleaner factory in the world. The unlimited facilities and enormous output
of the manufacturers producing "Hartman's Columbia" make possible the lowest price without
any sacrifice of quality, utility or durability. This machine is sold to you under a double
guarantee—the guarantee of this concern backed up to the letter by the maker. The tre-
mendous quantity which we order under contract enables us to purchase it at a price that
permits us to offer it to our customers at the remarkably low figure shown below.
The shipping weight is about 15 pounds.

No. OK2878. Price.....\$4.89

"HARTMAN'S IDEAL" VACUUM SWEEPER

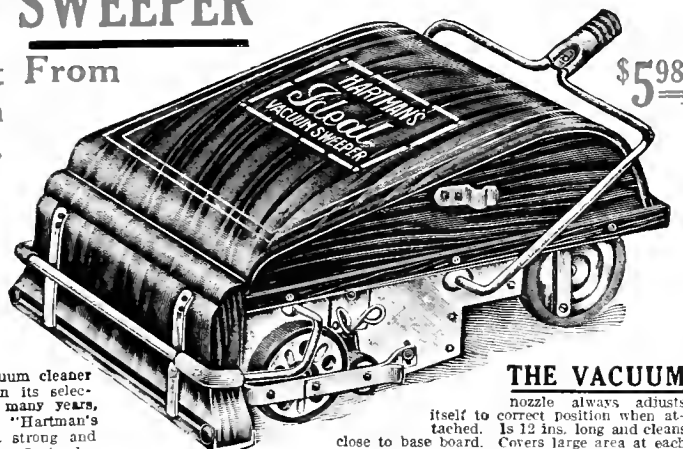

Three Bellows Pumps Extract The Dust From
The Carpet, And The Revolving Brush
Removes The Lint And Threads, Etc.

"HARTMAN'S IDEAL" is an indestructible cleaner. It not only excels in ef-
ficiency but is a remarkably low priced cleaner as well. Not a
particle of the "ground-in," germ-laden dust which lurks men-
acingly beneath your carpets and rugs, safely escaping the
broom and ordinary carpet sweeper, can resist the "Hartman's
Ideal." Its three bellows pumps create powerful suction
for extracting dust from beneath surface of car-
pet; revolving brush effectively removes all surface
sweepings. The superior quality of construction is
another point in favor of this machine.

By Spring
Arrangement
The Thumb
and Fore
Finger
Empties
Dust Pans
At One
Time

REAL ECONOMY in the purchase of a vacuum cleaner
consists of special care in its selec-
tion: If you wish to purchase but one cleaner in many years,
your choice should be the steel clad, indestructible "Hartman's
Ideal." Great care has been exercised to make it strong and
durable. It will last a long time with ordinary use. It is de-
signed so the revolving brush can be quickly and easily detached
for removing wrappings. Dust receptacle is of liberal size and
box shaped—heavy canvas drawn tightly over a metal frame (not
merely a bag). Easily emptied and sanitary.

THE VACUUM
nozzle always adjusts
itself to correct position when at-
tached. Is 12 ins. long and cleans
close to base board. Covers large area at each
stroke. Height of "Hartman's Ideal" is lowest
possible in a combination cleaner and sweeper and easily passes under
low furniture. Perfect bearings reduce noise and effort to
a minimum. Shipping weight, about 16 pounds.

No. OK1898. Price.....\$5.98

785 MODEL "P"

PITMANS

rods connecting drive wheels
bearing fibre and require no oiling or
adjustment. The finest and most durable
material obtainable for bellows cloth is used—all
alves close promptly and noiselessly. Nozzle shoe is
one piece of heavy steel stamping, heavily nicked, im-
possible to dent or scratch by running over tacks, door
nails, etc. Dust sack retains even the finest dust. Auto-
matic spring clasp hold handle upright when not in
use and prevents cleaner from tipping when carried.
Woodwork will not warp, shrink or crack. Metal parts
heavily nickel plated.

"HARTMAN'S GUARANTEED" VACUUM CLEANER

A Combination Cleaner and Sweeper That Comes
Complete With The Brush Attachment

THE METAL TOPS are made of carefully selected, rust-
less and oil free sheets of re-an-
nealed steel. Three coats of high grade enamel are then applied,
each one baked on separately, making the tops impervious to
scratches and finger marks. All moving parts are fitted with roller
bearings, which do not require oiling.

MODEL "P" combination cleaner has
three highly efficient bel-
lows to produce a continuous even suction. In
addition it is fitted with a large revolving brush
that will do its work as well as any carpet
sweeper. This brush is full sweeper size, having
4 rows of genuine bristles with spiral twist set-
ting. Instantly adjustable to brush deeply into nap or
lightly over the surface, or can be raised entirely out of
use, all by the touch of a finger. Not necessary to
slide or drag nozzle and front end of machine over carpet. Saves
nap on carpet and can be run off and onto rugs without lifting
machine from the floor. We achieve these results by supporting
the front end of the machine on two small side wheels just back of the nozzle.

Shipping weight, about 18 pounds.
No. OK1267. Model "P"—Combination Cleaner, Complete with Brush Attachment.

Both Dust Pans Dump With One Push of Button

This Is A Combination Cleaner And Sweeper Of Merit At A Low Price.

IMPORTANT

FACTS

OR

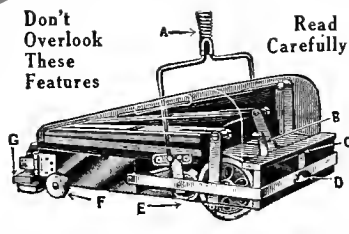

YOU

TO

REMEMBER

- Handle Bail—Pressed steel seamless tubing with taper thread insuring a permanently tight-fitting handle. Handle is made of hardwood with stained mahogany finish.
- Dust Pan Emptying Button—Empties both pans at once. One push does it.
- Brush Disconnector—By pushing the knob marked "D" up to "C"—the highest notch—the brush is raised clear of the carpet and ceases to revolve.
- Brush Adjustment—By pushing "D" to different notches, the brush is raised or lowered to get best results on carpets having a heavy, medium or light nap.

Don't
Overlook
These
Features

- Brush Wheel—Rubber friction with rear wheels insure positively driven brush.
- Front Supporting Wheels—Make the machine run easier than any other by keeping suction nozzle raised clear of the floor. This prevents suction nozzle from scraping over carpet and ruining the nap.
- Felt Bumper—A heavy braided pad over front and sides of nozzle prevents it from marring furniture.

From this detailed illustration and the explanation printed in conjunction therewith you can readily understand the many advantages that this combination sweeper and cleaner possesses.

"MONARCH" UPHOLSTERED FURNITURE

FACTORIES which produce the famous "Monarch" Upholstered Furniture are the most modern and best equipped of their kind in a. They are located right in the heart of the country's greatest shipping and manufacturing center. Mostly all goods come direct to you from Chicago, assuring prompt delivery.

THE STANDARD of perfect quality is maintained in every piece of "Monarch" Upholstered Furniture. The best workmen only are employed in the factories where these goods are produced. They work under ideal conditions, insuring the best workman-ship. The enormous output means the very lowest prices on high grade, dependable merchandise.

UNIFOLD BED DAVENPORT

Kroehler Unifold Metal Bed Unfolded
Size of Bed, 72x47 inches. Length of Sofa when closed, 52 inches between arms. All beds have pillow support.

FEATURES of the famous Unifold Davenport are many. Makes a full size Davenport bed and a full size, comfortable bed by night. Luxurious bed is folded under the seat. This bed has sanitary, indestructible steel. You don't sleep on the upholstery. The bed folds and easily by use of the new device, illustrated and described. Sufficient space between upholstered seat frame and bed insures free circulation of air all around.

UNIFOLD UPHOLSTERY CONSTRUCTION

LEATHER COTTON FLAX FIBRE CANVAS SPRINGS

ADVANTAGES of the superior upholstery and spring construction illustrated will be apparent to all careful buyers. This picture shows Unifold Sofa Bed illustrated directly above, returned into the form of a davenport. These Unifolds contain 21 highly tempered steel springs in the seat and 6 in the back, a total supported on hardwood slats, securely tied on top. Firm Heavy duck canvas over springs, with flax fibre and heavy felted cotton in seat. Tough wood fibre and cotton filling.

FELT PADS for sofa bed may be ordered at \$1.65 extra. See pages of Davenport for correct number.

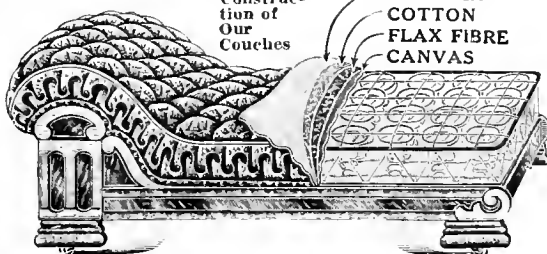

THE NEW DEVICE

used on the backs of both Unifolds and Duofolds. It automatically releases and partially opens these davenports for unfolding. It is the last word in scientific davenport construction and is a product of the well known Kroehler factory, positive safety lock.

OUR COUCHES.

The majority of our couches are made with all steel spring construction, which we consider the very best couch construction ever devised. A few of the cheaper numbers that we list, however, have heavy coil springs resting upon durable hardwood slats. Each spring is spiral cone shaped, made of high carbon heavy gauge steel wire. This means accessibility and likewise ease and comfort to fortunate purchasers.

Showing Spring and Upholstery Construction of Our Couches

UPHOLSTERING FACTS

Figured Velour is woven similar to velvet, having a heavy ground of cloth by print process. Background colors are green, red or brown. When ordering state color desired.

Cut Velour is a heavy quality material similar to corduroy, excepting that it is woven into larger block and stripe designs. Comes in beautiful two-tone colors of red, green or brown. Very serviceable.

Silk Plush. A very rich fabric generally used in upholstering high grade parlor furniture. Is soft, smooth and, as its name indicates, pure silk enters into its composition. The colors are red or green or any other standard shade.

Imitation Leather. Sometimes called "Imperial" — A ideal substitute for genuine leather. The wearing qualities far exceed the cheaper grades of split leather. Heavy leather-like surface is applied to firmly woven satin cloth. Looks like real leather. Will give years of satisfactory service. Imitation Spanish leather, sometimes called "Imperial" Spanish of a heavy satin cloth, on the upper side of which is a leatheroid coating with a beautiful grain in imitation of genuine Spanish brown leather. It is soft and pliable.

Genuine Leather that we use is of a high grade and so thoroughly satisfactory in every way that we recommend it to give absolute and unqualified satisfaction. It is soft and pliable.

Genuine Spanish Leather which we use in upholstering is of a very high quality, recommended by us for its resistance to wear and guaranteed as to service. It has an elegant grain, soft and pliable, is of a dark brown color and darker brown graining.

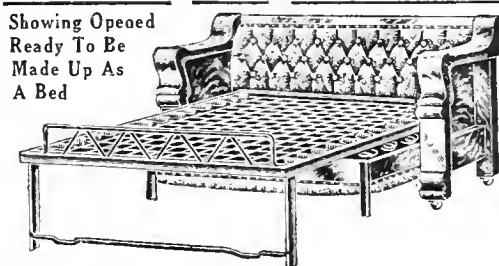

Showing the Excellent Spring and Upholstery Construction of Our Rockers.

Service and Comfort Are Assured by the Famous "Monarch" Spring Construction.

THE ROCKERS which we offer are made with spring seats, and in many cases with spring backs. All are expertly upholstered, as indicated.

DUOFOLD BED DAVENPORT

Showing Opened Ready To Be Made Up As A Bed

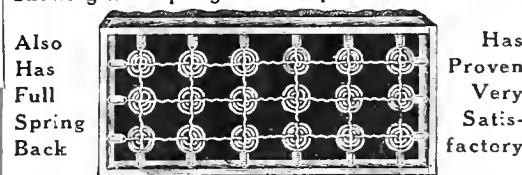

Kroehler Duofold Metal Bed Unfolded

Size of Bed, 72x48 inches. Length of the Sofa when closed, 52 inches between arms. Foot end support.

THE PICTURE above shows the Duofold with metal bed unfolded ready to be made up as a bed. Bed frame is made of steel angle iron. It folds and unfolds with well balanced, quiet motion. As you can see by the illustration, you don't sleep on the upholstery. The mattress which can be used on our Duofolds is removable for dusting. By the new device illustrated and described below to left, bed frame is released for unfolding.

UNDERSIDE OF DUOFOLD SEAT SPRINGS

Showing Wire Springs On Crimped Wire Cross Bars

This Is The Regular Duofold Seat Construction Containing 18 Premier Wire Springs Securely Fastened On Top

THIS CONSTRUCTION shows the underside of our Duofold seat. It has a spring support made of steel crimped wires running lengthwise and crosswise, fastened to the hardwood frame on the ends with helical springs, making an elastic support for the upholstering springs, which are interceded into these crimped wires. There are 18 Premier wire springs in the seat, securely fastened on top. Heavy duck canvas over springs, fine flax fibre with heavy layer of cotton felt filling. Firm edge. Full spring back with tough wood fibre and cotton filling.

THE DETAILS of every Duofold we list are explained on the various pages.

The AUTOMATIC

"Monarch" Davenports although not illustrated on this page, are shown elsewhere. Can be quickly and easily converted into a full size bed by simply raising the seat and letting the back lower automatically. To change back to davenport, raise the seat again to perpendicular position, where it locks automatically, and as it returns to original position back passes into place where it is firmly and securely held.

ABSOLUTELY SANITARY.

In the manufacture of our upholstered furniture, we wish to impress you with the fact that only new and absolutely sanitary materials are employed. This is a factor that is of importance to every prospective purchaser, as you are assured of securing merchandise that is free from germ-laden materials.

Seat Supported On
Steel Springs Resting
on Steel Channel Bars

DURABLE SOLID OAK

is used on the exposed parts of this stylish looking rocking chair, which is made for service. The finish is the popular glossed golden. One of the features of this design is the ornamental carving appearing on the ears, top rail and front posts. The seat is supported on four steel springs resting on substantial steel channel bars. Wood fibre is used as a filling, is covered with jute or similar material, over which is placed imitation Spanish brown leather, which looks like the real Spanish leather and will give satisfactory wear. The seat front is nicely decorated with neat ruffling, as illustrated.

THE BACK is separated into two panels, the upper one being button tufted. The measurements are as follows: Extreme width about 25 inches, extreme height about 36 inches, height of seat from floor 17 inches, height of back from seat 26 inches. The shapely arms measure 4 inches wide, the gracefully designed front posts are likewise 4 inches in width. The width between the arms is 20 inches, seat is 21x19 inches in size. The workmanship, the materials used and the style of this piece of furniture are such that we are certain you will deem it a very good value at the low price that we ask. Shipping weight, about 65 lbs. **\$4.88**

CHILDHOOD SHOWS THE MAN

very much as the ring indicates the day. Yet there is a difference that is vital. Human strength has not the power to alter the But human power can often influence the man if the child shows signs that are not favorable. A child's home influence can often overcome traits that might develop the wrong side of the man's character. So, after all, the home is the thing that figures in the last accounting. Our mission is to help you make the home an ideal spot for every member of the family. Remember if you are not pleased with the rocker, you can return it to us and we will cheerfully refund the money.

CH A ROCKER as this one will help to make your home complete. It is a sturdily built piece of furniture, with substantial solid oak made from one-inch stock. The finish is a handsome golden color, glossed. The arms, front legs and front seat are cut from four-inch stock. Particularly observe the swell shape front rail and the attractive carvings on top and front legs. This rocker has six strong springs under the seat, over which is set tow upholstery with jute top. The covering of the seat and back is of imitation leather, made to look and wear like the genuine leather. The seat is roomy, being 20x19 inches. The distance between the arms is 20 inches and the height of the back from the seat is about 27 inches. Shipping weight, about 50 lbs. **\$5.45**

THE VALUE OF "VALUE." When you buy a piece of merchandise, let "value" be your watchword. We encourage the standard of value and even court competition, because we thoroughly appreciate the value of our values. We have anticipated the demands of our shrewdest buyers and that is, in a word, why we do not hesitate to ask them to compare the offerings which we make with those of other mail order houses; in fact, a comparison with the buying opportunities found in the ordinary channels of trade will only strengthen our claims. A tremendous purchasing power places us in a position to secure merchandise at prices that are positively bedrock. An endless army of customers enables us to sell this same merchandise with comparative ease. The patrons who have made this institution what it is have the confidence that has encouraged us to develop our wonderful and successful business enterprise. This rocker is an example of true Hartman value.

THIS MASSIVE ROCKER

represents far more in actual worth than our low price would indicate. The arms are made of nicely grained genuine quarter-sawed oak, the balance of the frame being of seasoned and kiln dried solid oak, handsomely finished in a rich golden color. The attractive imitation Spanish brown leather is used in the upholstery. This covering bears a remarkably close resemblance to genuine Spanish leather and will wear to your complete satisfaction. One of the features of this rocker is the loose, removable seat which contains six strong springs. Another noteworthy feature is the lavish carving which appears on the top rail, the wings, front legs and front rail. Height from floor 36 in., height of back from seat 27 in., seat 19½x19 in., arms 5 in. wide, front legs 4 in. wide, front rail 5 in. wide, top rail 5 in. wide, back wings 4¾ in. Shipping wt. about 59 lbs.

FINE SOLID OAK

Sold To You On Credit

THIS ROCKER

will delight every member of the family. All of the finished parts are made of solid oak, the balance being of sound hardwood. The deep carvings on the front and back are well distributed and beautiful in style. The finish is a glossed golden oak, so popular as to require no special comment. The seat is nice and roomy and very strong, containing six stout springs. Over these springs there is a filling of tow with jute covering. The upholstery is imitation black leather which is known for its long wear, and its remarkable resemblance to genuine leather. Below we give the dimensions of this excellent number. From these measurements you can readily see what a splendidly proportioned rocker this is. But to fully appreciate its worth you should see this elegant piece of furniture in your home. Order it on approval.

MEASUREMENTS.

The seat measures 18x20 1/2 inches. The back is approximately 27 inches high. One inch stack is used on the front posts, measuring 4 1/2 inches wide and 20 inches long. The arms likewise are cut from 1 inch stock, are 4 1/2 inches in width and 21 inches in height. Particularly note the graceful center of the front post, the two paneled back and the very elegant carvings on the frame. We have not cheapened the materials in order to reduce the price. It is really worth more than we ask. Shipping weight, a out 60 lbs.

SOLID OAK

Rocker As Illustrated

THE BEST at the highest price is no more to be desired, from a standpoint of value, than the "cheapest" at the lowest figure. We list all grades of merchandise and in each grade we state emphatically that we offer the best quality at the lowest price to be secured through any of the various channels of trade. That is a pretty strong statement, but we can back up every word of it in every instance. Take the rocker illustrated to the right as a convincing example.

IT IS MADE in a substantial manner, all finished parts being constructed of thoroughly seasoned solid oak, the balance being of hardwood. The front legs and ears are lavishly carved, as shown in the illustration. The finish is a richly glossed golden oak. The upholstery is of the popular imitation Spanish brown leather, which looks like the real Spanish leather and gives no end of satisfactory service. The filling is of either wood-fibre or tow with strong jute covering. Neat button tufted back.

SIX SPRINGS are used to support the seat. This method of construction means not only long life to the rocker, but added comfort to the one who is lucky enough to select this number. Seat measures 18x20 1/2 inches in size. The lumber from which this rocker is cut is 1 inch stock. The height of back is approximately 27 inches and the other dimensions are of just a right size to give this piece of furniture both graceful and symmetrical lines. Shipping weight, about 50 pounds.

THE UNITED STATES occupies an almost unbelievable area in comparison with the European countries. Some of Europe's powerful domains cover little more than a handful of our states. If you were to take all of Europe and place it across the surface of this country, you would be dumbfounded at the relative sizes of the two—Europe with its many countries, the United States, consolidated under one central government. Yet in spite of the tremendous size of our country, HARTMAN FEATHERS THE NEST of families found from the Atlantic ocean on the east to the Pacific ocean on the west. Think what this commercial supremacy means! And although we occupy such an enviable position, bear this fact in mind: We are just as glad to receive a small order as a large one; that may seem strange to you, but it is true nevertheless. The fact is, we are building up an ever-increasing business on a policy of satisfaction to our customers, and we find that as every patron is satisfied, the more orders we receive, the greater is our following.

THIS EXCELLENT ROCKER is typical of the values that have aided in developing our wonderful business. Good sections of the back. The balance of the exposed parts of the frame are made of substantial kiln-dried solid oak. Finish is a rich golden. The seat is nice and measuring 19½x19 inches. It is supported by six springs and is filled with excelsior moss. The covering used on the seat and back is imitation Spanish brown leather, looks like the real Spanish leather and gives very satisfactory wear. Measurements as follows: Arms, 4½ in. wide; front posts, 5 in. wide; front and back rails, 4½ in. w. Wings, 4½ in.; seat is 17 inches from floor, back is 25 in. from seat to top; extra height, 39 in. Distance between arms, 20 in.; arms are 11 in. above seat. These measurements give you 20 idea of the massiveness of this model. Wt. about 60 lbs. No. 1K2225. Price..... \$5⁴⁹

Solid Oak Rocker

**Genuine Quarter-Sawed Oak Arms
& Springs Support The Seat**

A LADDER OF LIFE is filled with millions upon millions of people, all striving to reach the top. The ambitious, loving men and women are the ones who advance step by step. The inert ones whose domestic cares are neglected often slip back until they join ranks of the unsuccessful. Our purpose is to help every ambitious person reach the top of the ladder of success. We offer them the sort of furnish- to make the home ideal. Then we say, "If you want them, take them and as you are able." Such an offering is this rocker. It will improve the e's appearance and the comforts of those living in that home. It is care- made of thoroughly seasoned kiln-dried solid oak, with genuine quarter- ed oak arms, golden finish. Your attention is directed to the lavish carvings on frame, embracing the ears, front legs and seat front.

THE SEAT is supported by 6 resilient springs of good strength. This seat is filled with excelsior and moss, making it soft and comfort- The attractive 2-panel back, as well as the is covered with imitation Spanish brown leather, ing the appearance of real leather and at the same e providing a very durable covering. Back is neatly off with ruffled top. The front posts, besides being by carved are very shapely, corresponding with the eful lines of the arm rests. These arms measure in, wide. The front posts are 5 in., front rail, in., wings 5 in., panels under the arms, 2 3/4 in.

OTHER SIZES.

Extreme width, 30 in., distance between arms 20 in., seat 19x19 inches, height of seat from floor, 19 in., back 27 in. above seat. Extreme height, 57 in. Arms measure 12 in. above the seat. Shipping weight, 55 lbs.

Quartered Oak

**And Solid Oak Rocker In
A Very Artistic Design**

DOLLAR FOR DOLLAR, point by point, we consider this a very excellent value at our low price. It has genuine quarter-sawed oak arms, the balance of the frame being durable solid oak. The finish is a beautiful golden color. Being upholstered in imitation Spanish brown leather it looks like the real Spanish leather. Has toy and cotton filling of good grade, placed over four springs in the seat, supported on steel bands.

ONE OF the features of this rocker is the shaped back, the pleated ears protruding outward instead of being flat, carved frame, ruffled seat front and ruffled semi-circular back panel. Although you can obtain an idea of the beauty of the design from the illustration, we urge you to order this rocker on approval for a full appreciation of its worth. Then if you should not be pleased in any way, you are under no obligation to keep it.

THE BACK upholstering is reinforced with steel bands. The measurements of this rocker are given below. The height of the seat from the floor is 17 inches, height of back from seat 26 1/2 inches, height of back from floor 39 inches, depth of seat 19 inches, width of seat 19 inches, width overall 39 inches, shipping weight, about 50 pounds. THE TEST OF TIME.

There is no test as positive and as assuring as that of old Father Time. He picks the flaws and throws the spotlight on the best of ever. Time is the one factor that will not harbor misrepresentation, and that is why we so proudly point back to our record of three score years of successful business endeavor. Our principles have been based upon fair and square treatment to our customers. That has been the very essence of the House of Hartman and the guiding star of our business career. Satisfaction is a very big word, yet it was never so big that we could not and did not realize all of its essential features. Quality, moderate price, service, easy credit and an iron-clad guarantee demand an equal share of attention and have received their allotment of painstaking consideration. In presenting the mammoth value on this page we want you to consider that the utmost care has been exercised to maintain our reputation for stupendous value-giving. In fact, we have gone an extra step, if possible, to make this a buying opportunity of unusually tremendous significance to our customers.

THE IMPORTANT FACTS

regarding this rocker are recorded below. The frame of this rocker is made of quarter-sawed and solid oak, the backrest being constructed of durable genuine quarter-sawed oak and the hanger of substantial solid oak. The finish is a rich golden color. The elaborate embossed carvings give this fine piece of furniture an air of distinction and elegance. The back is full shaped, assuring comfort as well as attractiveness. There are six steel springs under the seat, supported by strong steel slats. The upholstery is built of Spanish brown leather, which closely resembles the genuine Spanish leather. The upholstery is of a very high grade, far above that usually found in rockers at this price. Note the ruffling across the top and across the seat front and the neatly designed bands under the arms. The arms measure 5 1/2 inches, front posts 4 1/2 inches, over all 30 1/2 inches; back is 36 inches wide and 27 inches from the seat to the top of the back, making it nice and roomy. Shipping weight is about 50 lbs. No. 1K809. Price. \$6.80

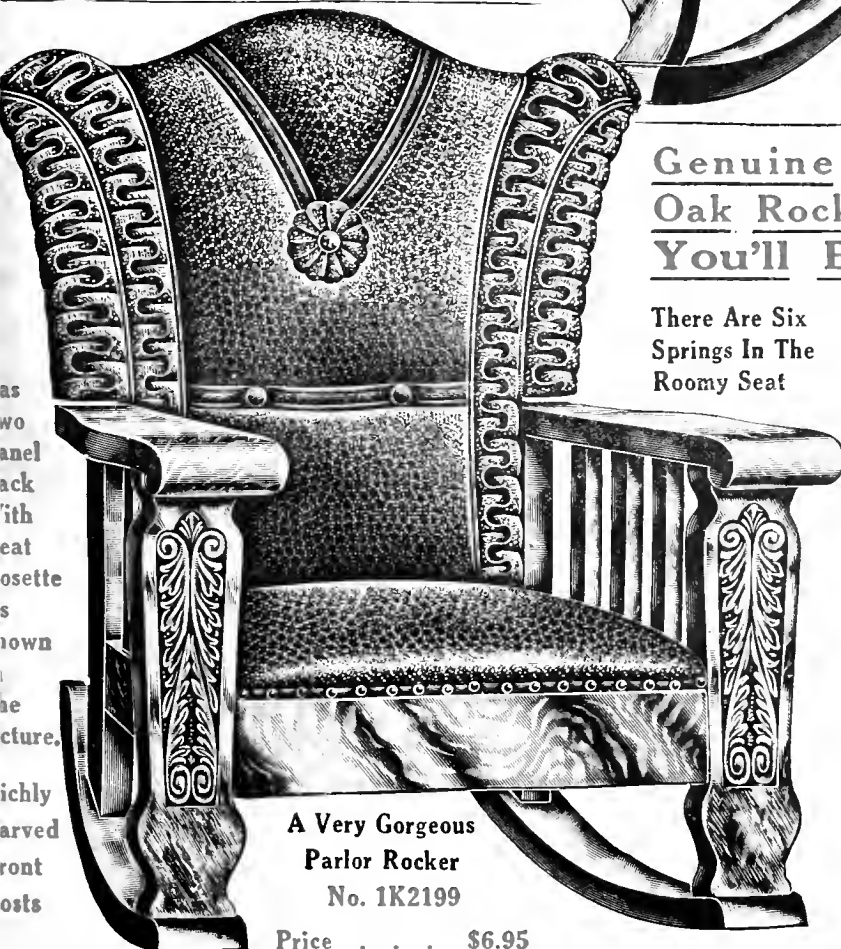

TWO REMARKABLY FINE ROCKER BARGAINS

**Quarter-Sawed And Solid Oak
Used In This Elegant Rocker.
Excellent Up-To-Date Style**

THE MASSES, NOT THE CLASSES. Abraham Lincoln led the people. There is a little episode that is typical of this great man that will bear repetition. He happened to be within earshot of a woman who commented to her companion: "What a homely man the President is." Lincoln turned to her, smiled and said: "Madam, God loves homely people; that's why he made so many of them." The martyred President was of the people. He was a plain, poor man who made good. There are hundreds of thousands who belong to the masses whom we want to help "make good." We cater to the masses, not the classes, and particularly seek to serve the hard working people of this country.

LET US AID YOU to furnish your home. Permit us to send this rocker to you upon approval. We know that you will be elated with it, because it is one of the newer and better conceptions in the art of furniture building. It is made of solid and quarter-sawed oak, in a fine golden color. The arms are made of quartered oak, while balance of rocker is of solid oak. The upholstery is imitation Spanish brown leather, which not only looks like real Spanish leather, but which gives extraordinary service. One of the features of this rocker is the loose, removable spring seat. The carvings, likewise, are very lavish, the pattern on the inside of the panels supporting the arm rests being an innovation in low priced rockers. Observe the shaped back and the attractive pleats across the top and at the sides.

THE PROPORTION throughout is very generous, as shown by the measurements which we give below. The extreme height of the rocker from the floor is 38 inches; the height of the back from the seat being 28 inches. The seat is 19½x19 inches, the width of the arms is 4½ inches; width of front rail 5½ inches; width of panels under the arms, 5 inches. The workmanship and materials that enter in the construction of this rocker are the very best obtainable at a price like this. Shipping weight, about 55 pounds.

THE MAN who makes big money but who doesn't save any of it is far worse off than the wage earner who puts aside a part of his income, even though it be comparatively small. Our purpose is to help the working men and women of this country. We can, too, if they will give us the opportunity; for we not only enable them to save through the low prices that we quote, but likewise through our liberal credit plan. By this system we give you an opportunity of adding a part of your income to your savings account, and then, besides, when you buy from us you are investing your money into something stable. You are furnishing your home and therefore you have a permanent investment.

THE FRAME. The arms and posts are made of attractive, durable, genuine quarter-sawed oak; the balance of the finished parts are constructed of seasoned and kiln-dried solid oak. The remainder of the frame is made of strong, substantial handwood. The front legs are exquisitely and gorgeously carved, as you will observe by an examination of the illustration shown. The finish is the rich, glossed, golden oak which harmonizes so well with all surroundings. The upholstery is imitation black leather, covering is a close duplicate in appearance of the real leather and is recommended for its good wearing quality. It has a two panel back with neat rosette as illustrated, and two rows of pleats on either side. A very handsome design.

THE SEAT contains six strong springs and is overlaid with either excelsior or tow filling with jute covering. The entire frame is cut from 1-inch stock and the seat measures 19x20½ inches. Height of back is approximately 27 inches. Notice the shaped, tapering arms, each supported by three slats. The construction of this rocker throughout is very substantial and the design is indeed out of the ordinary. The weight, carefully packed for shipment, is approximately 60 pounds.

On The Frame Of
This Rocker Enhance

Its Attractive Appearance

THE DESIGN

of this massive rocker is of a type that is in keeping with the progress that we have made in furniture construction; and once you see it in your home you will agree that it is an extraordinary value for the money. One of its pre-dominating features is the nicely shaped back and the removable slip seat. The elaborate carvings on the ears and front posts are of a pattern that should appeal to lovers of artistic home furnishings. All of the exposed parts are made of durable seasoned solid oak, the wide arms being constructed of genuine quarter-sawn oak. These arms are gracefully shaped, as shown in the illustration above. To serve the neat panels under the arm rests, with a neat ruffling across the top. The back is divided into two panels, the upper one being set off with a strong channel bars and is reinforced with corner blocks. See page one for our liberal, easy-to-pay credit terms.

THE UPHOLSTERY

is of a desirable quality. Wood fibre is used as a base with a fine or similar material as a covering, over which is placed an imitation Spanish brown leather, which resembles the genuine Spanish leather has good wearing qualities. The measurements are as follows: Extreme width 31 inches, extreme height about 41 inches, height of seat from floor 17 inches, height of back seat about 30 inches, width between arms 21 inches. The seat is 18x20 inches in. The attractively shaped ears measure 7 inches in width, the front posts about 5 1/2 inches and arms about 4 1/2 inches. Our liberal guarantee of satisfaction applies to this. We feel certain that you will be more than pleased with the value here offered and you to send for this rocker upon approval with the understanding that if it does not suit you in every way, you are not obliged to keep it. Shipping weight, about 80 lbs. \$7.35.

No. 1K2280. Price.....

MORRIS CHAIR

Made Of Quarter-Sawed And Solid Oak, In Golden Oak Color, Seat Contains Six Springs Supported By Steel Channel Bars.

THE ILLUSTRATION of this handsome piece of furniture does not in any way exaggerate its beautiful lines. Is made of thoroughly seasoned, kiln-dried solid oak, the arms being constructed of genuine quarter-sawed oak. Comes glossed with den oak finish. The upholstery is imitation Spanish brown leather, which looks like the genuine Spanish leather and is exceptionally durable. The seat is supported on six heavy steel coil springs, resting upon steel channel bars. The back, likewise, is reinforced by steel strips. The filling used is wood fibre and moss, adding the comfort-giving qualities of this handsome piece of furniture. The lavish carvings on the frame cannot be appreciated until you view this substantial Morris chair.

THE BACK can be adjusted to five different positions. This back is made in two-panel effect, with very attractive ruffled top. Under the broad arm rests are two panels, as shown in the illustration. The arms measure 5x25½ inches. The front posts are 5 inches wide, front rail 5½ inches wide, and the carved panels on either side of the back likewise measure 5 inches. From these dimensions you can plainly see that this is a heavy Morris chair, destined to serve its owner in a thoroughly satisfactory manner. It stands 49 inches high with the back in first position, measures 17 inches from the floor to the seat and 28 inches from the seat to the top of the back.

OTHER SIZES

Extreme width of back overall is 29 inches, distance between arms 24½ inches, seat 19x19 inches. By all means order this Morris chair and if possible order the rocker to match. Shipping weight about 55 lbs.

ROCKER TO MATCH

The Morris Chair Above.
Quartered And Solid Oak
Frame. Is Lavishly Carved.

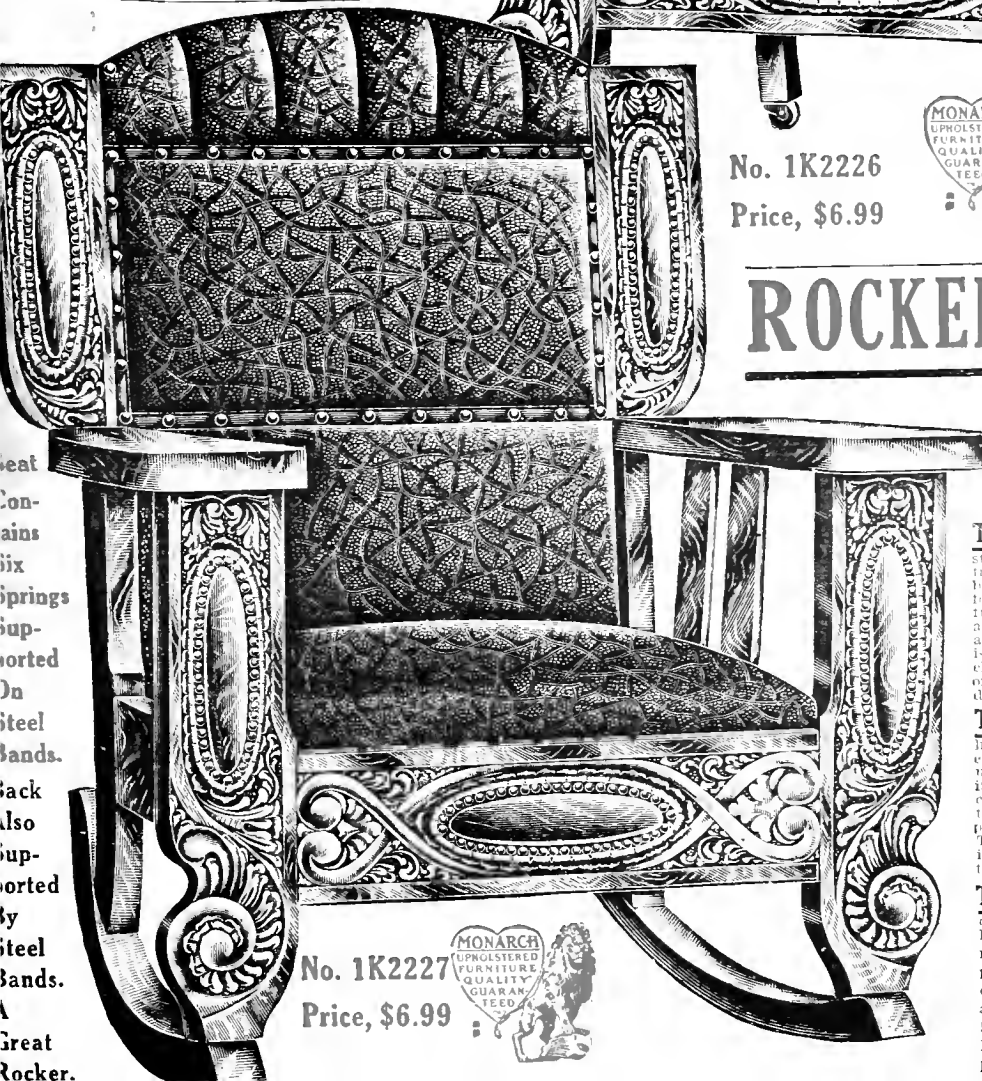

THIS ROCKER is high class in appearance, constructed of good, substantial materials, yet the price is extremely low. No way you could not wish for a better imitation than this, and we urge you to place your order for this rocker if you want your money to accomplish its fullest duty. This rocker is made of thoroughly seasoned and kiln-dried solid oak, with genuine quarter-sawed oak arms, in the rich looking gloss golden oak finish. The seat is supported on six heavy steel coil springs, resting on steel channel bars, over wood fibre and moss filling. The back of this rocker is reinforced by steel strips to add to its durability.

THE COVERING used is imitation Spanish brown leather. This looks so much like the real Spanish leather that it takes the eye of an experienced person to detect the difference. The arms measure 5x25½ inches, extreme width of back overall is 29 inches, back above seat measures 28 inches. This back comes in two-panel effect with neat ruffled top, as illustrated. Distance between arms 24½ inches. The front posts measure 5 inches wide, front rail 5½ inches wide. The carved panels on either side of back likewise are 5 inches in width. The two panels under the arm rests give this rocker the finishing touch of style.

THE SEAT measures 19x19 inches, height of seat from floor 17 inches, height overall 36 inches. This rocker makes a fine companion piece to the Morris chair described and illustrated above. Shipping weight about 55 lbs.

QUARTERED AND SOLID OAK MORRIS ROCKERS

Fitted With Patented Adjustable Recliner Attachment And Special Foot Rest

A FEATURE of this rocker is found in the fact that you can adjust the back to five different positions without leaving the seat. Another point of advantage is that the foot rest slides on metal bar and can be pulled out to different lengths and swung from side to side. By this arrangement, if foot rest is extended and you wish to change your position, with your feet resting on the floor, it is not necessary to push foot rest back. Merely swing it to either side and it is out of the way, without the inconvenience of your leaving the seat.

GENUINE QUARTER-SAWED OAK is used on the arms and front legs; the balance of the finished parts being of seasoned solid oak; all other parts of the frame are constructed of durable hardwood. You can have your choice of glossed golden or fumed finish as you desire. When ordering, please state which finish you prefer. The carved front legs are nicely shaped and measure 5 inches at the widest point and are approximately 21 1/2 inches long. The arms are made from 5-inch stock and measure about 25 inches in length. This rocker is furnished with 6 tempered coil springs. The fitting is two tow or wood fibre covered with jute. You can have your choice of either imitation black or imitation Spanish brown leather, both of which are made to resemble the real leather. When ordering, be sure to give the correct number to insure your receiving the upholstery you desire. Shipping weight, about 65 pounds.

THE STANDARD OF TRUTH. Before advertising became a recognized factor in the commercial sphere, there were many unscrupulous men who employed it as a means of deceiving prospective purchasers. As the mercantile industries of this country continued to grow toward their present colossal size, any business houses persisted in misusing the powers of advertising. Their misrepresentation made the basis for a country-wide campaign inaugurated by the Associated Advertising Clubs of America. "Truth in Advertising" was the slogan which they adopted as a standard from which no reliable house should be allowed to deviate. Years ago we established the Hartman standard the basis of truth. We did so because we felt that such a standard was the only honorable one to follow; and the result of this policy is the great and successful Hartman Institution. That is the reason why you can purchase from us with a feeling of security and safety. You know that when we make a statement concerning an article that there can be no question regarding its truth. This feeling of security in buying merchandise is a protection to the uninformed buyer and a double safeguard to those more critical in their purchases. If you are in search of a Morris chair at a low price, in justice to your own interests, you cannot afford to ignore the special value which we offer herewith. Read the paragraph to the right for full particulars.

THIS ELEGANT MORRIS CHAIR is constructed in a substantial manner. Real quarter-sawed oak showing the natural grain, is used on the arms, the balance of the lumber being kiln dried and seasoned solid oak. The finish is a rich, golden color. The lavish and elaborate carvings on the frame are very rich and attractive in design; the entire chair, in fact, is exceptionally handsome in appearance. The seat is removable and is supported by six strong, spiral springs. The back is built for comfort as well as service, having steel spring bands to reinforce it. The upholstery on both the seat and back is of imitation Spanish brown leather, which bears a resemblance to Spanish leather and recognized for its superior wearing quality. The back can be adjusted to five different positions so that you can recline at the angle that suits you best. Is fitted with glides instead of casters, to prevent scratching or marring hardwood floors and as a protection to your rugs as well. Height from floor 41 inches, height of arms from floor 24 inches, width of arms 5 1/2 inches, width of front legs 6 inches, length of arms 23 1/2 inches, width of front rail 6 inches, seat 20x21 inches, width of back 31 inches, height of back from seat 27 inches. Shipping weight about 65 pounds.

QUARTERED AND SOLID OAK

Morris Rocker With The Patented Adjustable Reclining Attachment and Patented Foot Rest

You Can Have
Your Choice
of
Fumed or Gloss
Golden Oak Finish

TO OWN a Morris rocker such as this is to know solid comfort in your home. It combines artistic appearance with ease and restfulness. The construction throughout is strong and rigid. All these desirable qualities are found at a price so low that it is within the reach of all. Is made of solid oak with genuine quarter-sawn oak arms and front posts, in an attractive, glossed golden or fumed finish. State what you prefer. The arms have artistic Colonial scrolls as illustrated.

THE UPHOLSTERING. Six resilient springs support the seat. Over the springs is placed tow or moss filling, with strong leather covering. The imitation Spanish brown leather which is used in the upholstery of this number is shown in the illustration, giving the appearance of real Spanish leather. The wearing quality of this material is better than the "cheap" grades of real leather. Nicely padded two-seam back with attractive ears, as shown. Side panels under arm rests.

PATENT FOOT REST slides on two metal bars and is so constructed that it can be pulled out to different lengths. Can also be swung from side to side, which enables you to recline in any position in absolute comfort, or push foot rest to one side with your feet resting on the floor. Can be pushed completely out of the way when not in use. Adjustable reclining attachment enables you to adjust back to five different positions without leaving the seat.

FRONT POSTS made from stock 3 in. wide. Arms measure 5 in. at the widest part. This is a Morris rocker that you will be glad to have purchased and is sold under our legal binding guarantee of satisfaction or your money refunded. Shipping weight, about 65 lbs. No. 1K2201. Price.....\$9.35

HOME RECLINER

Fumed Or Golden Solid Oak Or Handsome Mahogany Finish

"Let Hartman Feather Your Nest"

IS MADE of substantial seasoned and kiln-dried solid oak in your choice of golden or fumed finish, as you prefer. If you wish you can order this home reclining rocker in mahogany finish at the same price. When sending us your order, please tell us which finish you desire. It contains a full spring back with tow or moss filling, covered with fine fibre. Seat supported by six cone springs. The seat, back and patent foot rest are upholstered with imitation Spanish brown leather, which looks and wears like the genuine.

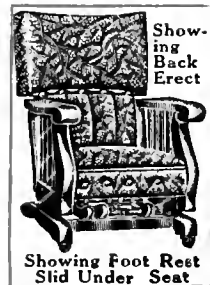

Concave Back and Foot Rest

CONCAVE

BACK and foot rest

This rocker is the most comfortable home recliner we have ever seen. A great feature is found in the fact that the back can be raised or lowered without the occupant leaving the seat, and is adjustable to five positions. When not in use, back can be set erect and foot rest folded and slid under the seat, as shown in small illustration below. Contains one set of double coil rocker springs. Platform base is very strongly made and carefully joined. The under construction of the base adds to the comfort and further insures both durability and service to this fine home reclining rocker. No point has been overlooked to make it a desirable dependable article for the home.

A HANDSOME DESIGN which is much favorable comment. You can place it in your home with the absolute assurance that from it you will get many years of genuine comfort and satisfaction. It suggests a degree of richness and luxurious comfort that would improve the most lavishly furnished home.

IF YOU STUDY the illustration, you will come to the realization that it is unquestionably beautiful, and the neatest, tastiest design you ever saw for so low a price. Look at the massive arms and high back with the flat quartered oak frame, and the rich diamond tufting. The seat is "Monarch" upholstered and contains a set of stout, oil-tempered, carbon-springs and is large, roomy and restful. It is a rocker that is different from others because of its design and distinctive individuality. Seat and back upholstered with imitation Spanish brown leather.

DETAILS. The frame is made throughout of solid and quartered oak, in golden or fumed finish, or can be ordered in mahogany and built in a manner which will give it great strength and long service. The best oil-tempered steel springs are used in the seat. The frame has massive front pillars and broad slats supporting shaped arms. The top and side quartered oak panels of the back give the rocker a very high-class appearance. It is mounted on stout oak run-ners. Shipping weight, about 75 pounds. State finish desired, when ordered.

THIS ROCKER

is graceful, yet it is distinctly "different" from most medium priced rockers. It is massive and comfortable. The upholstery is either imitation black or imitation Spanish brown leather, as you prefer, both of which closely resemble the genuine leather in appearance. You have your choice of golden or fumed finish quarter-sawn oak or of elegant mahogany veneer button tufting. The runners are very substantial as are the claw footed front posts. Below we give the dimensions in detail.

DIMENSIONS.

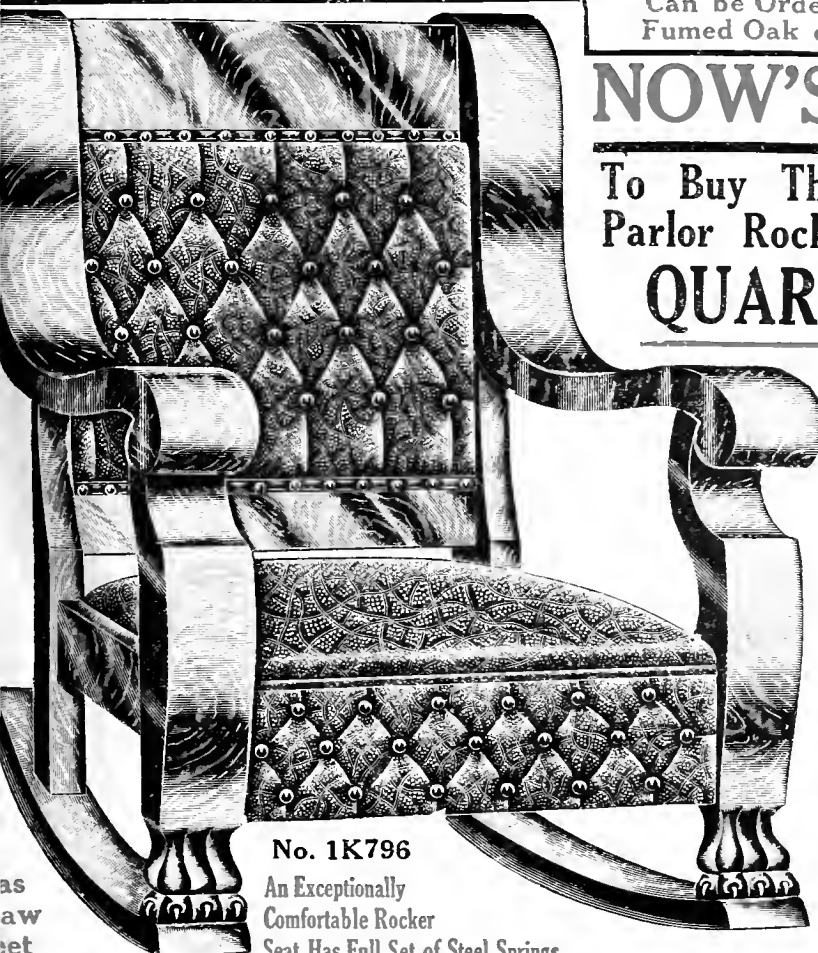

The height of the back from the seat is 27 inches; extreme width of this rocker is 26 inches; the width of the arms is 24 inches, and the depth of the seat is 21 inches. From these sizes you can form a good idea of the comparative measurements. But if after receiving it, you do not care to keep it, remember you are not obligated in any way. Shipping weight about 75 lbs.

Price Upholstered In Imitation Spanish Leather

THE ADVANTAGE of making your purchases from Hartman's is apparent to all who have had the good fortune to do their shopping here. Because the great army of customers who buy from us by mail cannot personally come to our mammoth establishment in Chicago, we make it easy for them to see whatever they desire right in their home before actually making their purchase. In other words, we find whatever you may select upon approval, so that you can satisfy yourself as to its worth; and, after making a careful examination of the article in question, if it does not please you in every way, you are not obliged to keep it. You are privileged to return it at the expense of this concern and we willingly refund all money that you have sent us, as well as any transportation charges that you may have paid. We have so much confidence in our values that we will gladly send them to you upon approval without the transaction costing you a single penny, if not satisfied.

THE CONSTRUCTION is strong, as this rocker is made by men experienced in this class of work. The materials used are likewise a thoroughly dependable quality and for that reason we have no hesitation in giving this number our heartiest endorsement and absolute guarantee. The frame is made entirely of kiln dried hardwood, the exposed parts finished in an attractive mahogany color. You can have your choice of either imitation black leather or imitation Spanish brown leather upholstery, both of which bear a resemblance to the real leather and possess good wearing qualities. Tow and cotton filling are used over five springs are used in the seat. These springs are supported on steel bands, as is the upholstery in the back, this method of construction lessening the possibility of sagging. This is a feature that will appeal to those desiring substantially constructed furniture in their home.

No. 1K2278. Price, in imitation black leather \$10.45

THE STYLE of this comfort-giving Morris rocker is shown to advantage in the illustration above. Although this picture was made from an actual photograph of the rocker itself and looks like it, we feel so enthusiastic about this offering that we are sure that after seeing it in your home, you will be even more thoroughly impressed with it than from a mere examination of the illustration shown on this page. The design is of the sort that will appeal to all true judges of artistic home furnishings. The ruffling across the top of the back, as well as across the seat front, is set off on either side by an attractive rosette, which gives it the artistic finishing touch of style. The back is divided into two sections, as shown. The large arms are well padded to add to its comfort-giving qualities, as well as its shapeliness. It has the beauty of many regulation style rocking chairs and in addition possesses the new reclining back adjustment which we explain in detail below. Read this over carefully for the full details of operation

BACK RECLINES by means of an automatic spring and knob reclining adjustment on either side of the rocker. Merely turn the knob to adjust the back to the position that you prefer. By this device, it is not necessary to leave the chair to adjust the back to the angle that is desired. The foot rest which is shown in the small illustration to the left may be folded underneath the seat entirely out of sight when not in use. That you may have a better understanding as to the proportions of this Morris Rocker, we list the measurements below: Height of the back from the floor is 16 inches, the height of the back from the seat measures 27 inches and the height of the back from the floor is 38 inches. The seat measures 20 1/4 x 20 1/4 inches, the width over all being 31 inches. It is in every way a splendid value for the money. Order this handsome rocker to be sent to you on approval. Shipping weight, about 70 pounds.

No. 1K2279. Price, in imitation Spanish leather \$10.85

LUXURIOUS ROCKER

A Magnificent Creation For The Home. Made With Spring Construction In Seat And Back. Is Well Padded. Has Restful, Shaped Arms.

BUYING ON CREDIT. Do not think for one moment that you need feel peculiar about buying goods on credit. On the contrary, you should feel very fortunate that you are trusted in this manner. And then, did you ever stop to think that most big business is done on this same basis? The promotion of giant industries are practically all handled on borrowed capital. When we offer you merchandise on credit, we are virtually doing the same thing for you—instead of loaning you the money, we are letting you buy the goods and permitting you to pay for them in easy payments. Yet, unlike the financiers who promote big industries, we do not charge you one cent of interest. That's genuine credit for you. We believe that the working classes of this country should have the same privileges as the moneyed classes and we're always ready to prove this claim.

ORDER THIS ROCKER and secure the benefit of our liberal, confident credit. It is a wonderfully luxurious rocker with resilient springs in the seat, and with back likewise supported with resilient springs. This corrugated steel wire construction also gives additional strength. The well padded seat, arm and back are filled with tow and either sea moss or wool fibre. Shaped back is divided into two sections, upper one enhanced by stitched-on straps, as illustrated. Upholstered with handsome imitation Spanish brown leather giving the appearance of the genuine. The legs and runners have the popular fumed oak finish. The arms are gracefully shaped, adding restfulness as well as attractive appearance to this handsome rocker. Buy this rocker on our easy-to-pay credit terms. Measurements are given below.

WIDTH across back, 28 in.; extreme height, 38 in.; height of back from seat, 27 in.; extreme width across arms, 28 in.; height of arm from seat, 9 in.; depth of seat, 19 in.; between arms, 20 in. Shipping weight, carefully crated, is about 70 pounds.

SPLENDID ROCKER

An Excellent Substantial Model
Made With Comfortable Seat
And Back Construction.

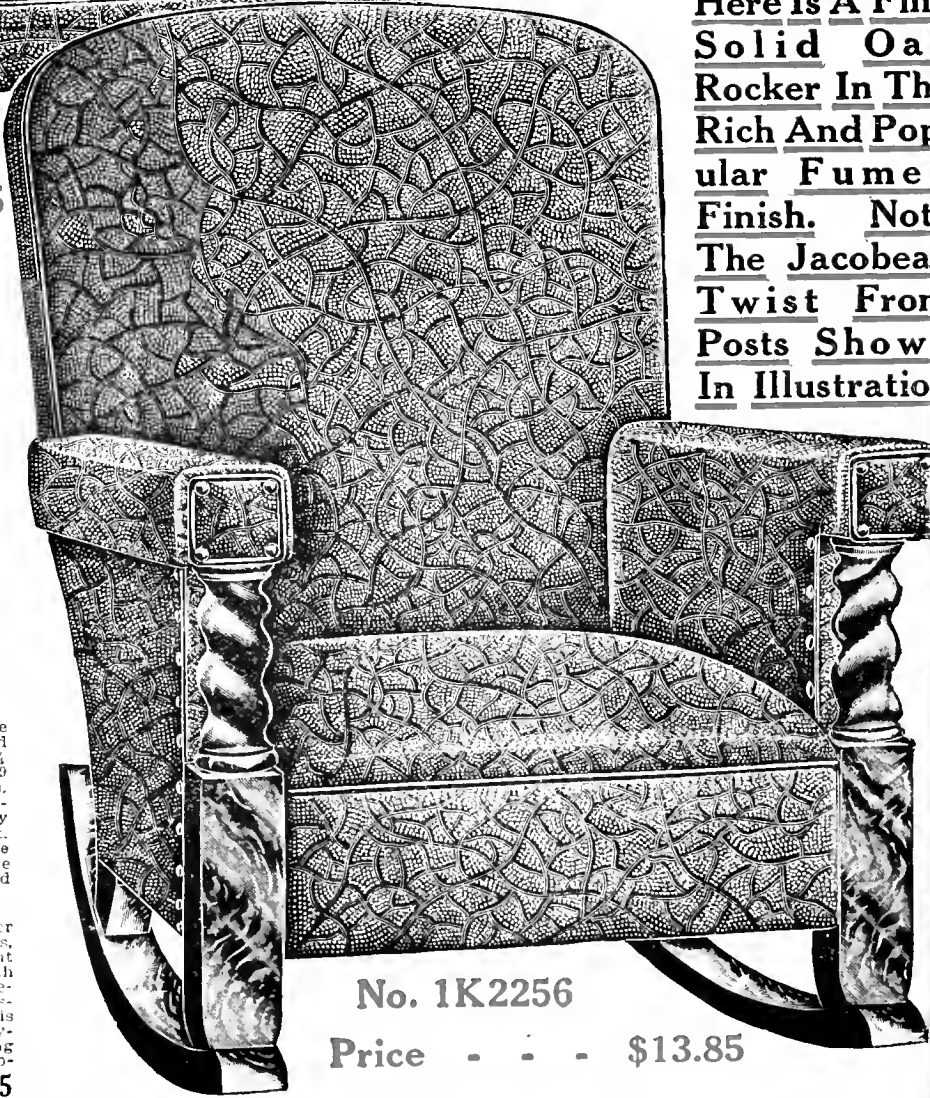

WITHOUT DOUBT this is one of the best values in a parlor rocker that we have ever seen in all the years of our merchandising experience. The illustration to the right, was made from an actual photograph of the rocker itself. And to appreciate it properly, you must see this number in your home. Upholstered in imitation Spanish brown leather, which has the appearance of real Spanish leather and will give you long and satisfactory wear.

SOLID OAK is used on the exposed parts of the frame, having the handsome fumed finish. Jacobean twist front posts are about 2 1/4 inches wide. There are 9 springs in the seat and 9 springs in the back, giving a full spring construction. Meadow tow and cotton is the filling used, with bur-lap back. The square arms measure approximately 14x23 1/2 inches and set 9 1/2 inches above the seat. The proportions throughout were designed to insure comfort as well as handsome appearance; and the designers' efforts were well rewarded in the finished product.

DIMENSIONS. Height over all 46 inches, height of back 28 inches, height of seat from floor 17 inches, width over all 27 1/2 inches, distance between arms 20 inches, seat measures 20x21 inches. Order this rocker and benefit by our easy-to-pay credit terms. Shipping weight, carefully crated, is approximately 72 lbs.

A REAL ROCKER BARGAIN

s Splendidly Upholstered And Has
Durable Spring Construction. Legs and
Runners Are In Fumed Oak Finish.

DO IT NOW. "Never put off till tomorrow what you can do today." This bit of philosophy can aptly be applied to your household requirements. Of course, if it were necessary for you to pay all cash for the goods you need, this time-honored slogan might not apply. But recall the fact that when you deal with us your word is as good as cash. That is why we trust you. If we had any doubt as to your sincerity, surely we would not offer to send this rocker on approval. Take advantage of this chance to order and "do it now."

HERE'S A ROCKER that is made for genuine comfort. Just see how luxurious is the soft, low roll. Think of coming home at night all fagged out and sinking into its inviting seat. It has a patented spring construction, having a spring seat and back. The upholstery is imitation Spanish brown leather, which looks like the genuine leather, and wears wonderfully well. The frame is of good, strong hardwood, the legs and runners being finished in artistic fumed oak. Note the overstuffed construction over the rolled arms, the gracefully shaped sides enclosing the pillow roll and the comfortable pillow roll head rest. You will never regret having ordered this fine rocker. We protect you by our legal guarantee.

GRAND ROCKER OFFER

It Is A Remarkable Value In A Parlor Rocker and Is Strongly Made. Legs and Runners Fumed Oak Finish.

YOUR ORDER for the rocker here shown will prove a convincing argument in our behalf. It will show in a conclusive manner that every statement which we make regarding our merchandise can be relied upon absolutely. It is a rocker of exceptional beauty, of splendid workmanship and durable materials. And yet the price is exceptionally low. The frame is of seasoned hardwood, the legs and runners being finished in the popular and artistic fumed oak. This rocker is generous in proportion, the ears and arms being well padded to insure comfort. The illustration is a good reproduction of this piece of furniture.

THE UPHOLSTERING. This rocker is filled with tough wood fiber with cotton top, over which is placed the very artistic imitation Spanish brown leather. This covering has the appearance of real Spanish leather and is known for its excellent wearing qualities. There are six strong springs in the seat and four in the back. These springs add life to the rocker as well as comfort.

THE DIMENSIONS: Extreme outside measure from arm to arm, 30 inches; seat 21 inches deep and 19 inches between arms, back from seat to top 26 inches; height of back from floor to top 37 inches. The strong legs are cut from 2½-inch stock, runners being made from 2-inch lumber. Arms measure 11½ inches high from front of seat. Shipping weight, about 85 pounds.

GREAT COMFORT as well as lasting satisfaction are assured to the purchaser of this rocker. It is of artistic style with nicely shaped ears, back and arms. Full steel spring construction is used under the seat. Tow, moss and cotton are the materials employed as a filling. Genuine black leather or genuine Spanish brown leather is the covering used. (The sides and back are covered with imitation leather.) The exposed wood parts are constructed of birch in rich mahogany finish. The extreme height is 40 in., size of seat 21x23 in., width of arms 4 in., extreme width 30½ in., height from floor to the seat is 16 in. The shipping weight, carefully crated, is about 100 pounds. **\$18.95**

Tell Us To Send It To You. It Is A Big Bargain

MUSEUMS OF ART We see a rocker that was used by Washington, a chair from the palace of Napoleon, the bed in which Lincoln slept, and pieces of furniture that were seen in the houses of the world's famous men and women. In your own family no doubt there are articles with which you would like to part because these are "heirlooms"—relics, as it were, used by your grandfather or great grandfather, perhaps. Some day your children will feel the same about the furniture that you have and that they remembered from their childhood. That's a good argument in favor of substantial, durable furniture such as the elegant, luxurious Turkish rocker shown above. It will give years of satisfactory service, and is an article that your generations will cherish and admire. This is an exceptionally fine rocker at the prices quoted, and because it is such a splendid value we are devoting an entire page to exploit its meritorious qualities. You must see this handsome rocker before you can realize how reasonable and at the same time how desirable it is at this price. Read the detailed descriptions in the paragraph to the right and you will marvel at the possibility of this great record-breaking offer.

FEATURES OF THIS ROCKER. Observe the luxurious, comfortable head roll between the two impressive double-ruffled wings, the soft diamond tufted back, the handsome ruffling around the front, joining the great big roll arms into a symmetrical design. And how tasteful is the front set off by the single row of ruffling just below the seat. Remember that this fine Turkish rocker has **NINE SPRINGS IN THE SEAT**, and is expertly filled with tow, cotton and hair. Is also equipped with strong coil rocker spring. The frame is made of kiln dried hardwood with handsome carved claw feet; and the rockers, plain form base, and all exposed wood parts are finished in rich mahogany color. Seat is 17 inches from floor, height of back from seat 27 inches, depth of seat 14 inches, width of seat 22 inches, width over all 35 inches. Shipping weight about 90 lbs.

SPLENDID TURKISH ROCKERS

\$11⁴⁵

**A Rocker Value
That Is Sure To
Astound You**

FINE SPRING CONSTRUCTION

SECURE THE BENEFIT

of buying from this great house of bargains. When you go into your local store to make a purchase, remember that the storekeeper has made up his mind to sell you. He is going to do all in his power to make a sale, and in his desire to do so he is likely to say something unfriendly to mail-order houses, or the unscrupulous dealer may make other false statements. All men will not do this, because some are too fair to make untruthful remarks. Don't buy from unreliable dealers because you can't have confidence in what they tell you.

YOU CAN BUY

Turkish rockers in your home town, no doubt, but you will not find the equal of this one at our prices. The frame is made entirely of kiln-dried hardwood with the exposed parts expertly finished in a rich mahogany color. The back is excellently diamond button tufted. The head rest, ears, fronts of arms and seat are artistically ruffled as shown in the illustration herewith. The carved claw feet are of a striking design. The upholstery comes in either imitation black or imitation Spanish brown leather, both of which bear a wonderful resemblance to genuine leather and wear remarkably well.

THE SEAT

has six strong springs supported on steel bands to prevent sagging. It is filled with tow and cotton and is equipped with strong coil rocker springs. The measurements are as follows: height of seat from floor, 17 inches; height of back from seat, 29 inches; depth of seat, 18½ inches; width of seat, 21 inches; width overall, 35½ inches. Comfort, appearance, durability and low price are the features of this fine Turkish rocker. Shipping weight, about 90 lbs.

DIAMOND TUFTED BACK

NO ORDER

is too small for us to handle, nor is there any chance that is too small to be mighty welcome at any time. Please remember that. No matter what your requirements may be, ask you not to hesitate to advise us either in the form of an order or the shape of an inquiry. And also bear this important fact in mind. Once your order is in our hands it will be given immediate attention. We have built up this business largely on the strength of service, well as exceptional value-giving. All correspondence is courteous and promptly handled. Buy one of these fine rockers and you will be surprised at the quality and low price. A fine value for the money.

TAKE THIS ROCKER

as an example of value-giving. It has all of the appearance and wearing quality of Turkish rockers ordinarily sold at considerably more money. The frame is made entirely of kiln-dried hardwood, with the exposed parts exceptionally well finished in a beautiful rich mahogany color. The oval lapel back is diamond tufted and is edged with beautiful ruffling, as are the arms and front of seat. The latter is likewise embellished with a unique symmetrical design, in the center of which appears a tasty rosette. The sturdy carved claw feet add to the elegance of this rocker.

THE SEAT

is of full spring construction, having nine springs supported on wood slats. The filling is tow, cotton and hair, generously supplied. The height of the seat from floor is 17 inches, the height of the back from the seat is 28 inches, depth of seat 20 inches, width of seat 21 inches, width overall 35½ inches. You can have this superior article on our liberal, long time, easy payment plan as outlined on page 1 of this catalog. Shipping weight, about 90 lbs.

FOUR PIECE LIBRARY SET

An Unequalled Value For The Money

\$14⁸⁵

NO. 5K937. PRICE COMPLETE

QUALITY IS THE FIRST CONSIDERATION IN MISSION FURNITURE

each piece of this massive mission library suit you will find strictly dependable in quality; in fact, you will find every detail of construction fully up to the standard of the best makers of mission furniture. This style of furniture has become immensely popular, and is in use in the homes of those who require the best in style and comfort.

WE WOULD like to call your special attention to the famed oak finish used on these pieces, which is obtained by special treatment, producing a rich, dark effect, which is extremely popular. It is a finish that shows to advantage the beautiful natural grain of the oak.

THIS LIBRARY SET is made throughout of substantial thoroughly seasoned heavy oak, the wood is carefully selected and each piece has a full box frame with seats securely fitted and joined to the massive corner posts. The seats in all the three chairs are of solid oak, saddle shape. The panel backs are high and broad, the table has a 36x22 inch top with full box rim, paneled ends and a broad lower shelf complete with convenient drawer in center. You can't afford to overlook this big value!

WE INVITE the most critical comparison of this splendid four piece suit, with any other suit offered by other dealers. If you desire to purchase one or more pieces separately, you may do so, but we strongly urge the purchase of the entire suit, as they match perfectly.

MADE OF THOROUGHLY SEASONED HEAVY OAK

The Plain Chair
No. 5K938

ALL THE POINTS which give perfect satisfaction are embodied in this straight back or desk chair. The high, broad paneled back, saddle shape seat and massive posts all add to the beauty of this chair. It is uniquely plain in model and is designed for use as a sort of desk chair while writing at the table.

THIS MASSIVE LIBRARY TABLE

is built strictly along modern mission style and is very handsome. The size of the top measures 22x36 inches and stands 28 inches high from the floor. It has large square corner posts and a roomy stationary shelf below, which strongly braces the legs. It is equipped with large, convenient drawers. A handsome table that is thoroughly substantial in all parts of construction and that will be found to be of wonderful durability. This table is just as good as it looks and we guarantee the quality.

THE LARGE MISSION ROCKER AND ARM CHAIR are inviting to comfort. They are big, roomy, comfortable, well made, and, together with the balance of this suit, make an ornamental addition to your home. The Arm Chair and Rocker have broad, comfortable flat arms, medium high, paneled back and large, roomy, saddle shape seats, as strong and rigid in construction as it is possible to make them.

IT IS the fundamental principle in our business that quality must never be sacrificed in order to quote low prices. It follows that you make a big saving, for we our prices on the manufacturer's cost, adding but one small profit. The more you of the quality and the price with others, the better we shall be pleased. Shipping weight entire suit, about 260 pounds.

CONSERVE the handsome design of this rocker. Is made of solid oak, fumed finish. Upholstered in imitation Spanish brown leather to look like real Spanish leather. Nicely padded seat on 5-spring panel. Artistic back as illustrated with cutout panels on either side. Shapely corner pieces under arm rests. Size of seat 19½ in. by 17½ in. deep; height of back from seat 23 in. Arms 4 in. wide. Legs cut from 2½ in. stock. Shipping weight is about 40 pounds.

\$5.35

ATTRACTIVE and artistic mission design, made of substantial quartered oak, in the foppley fumed finish. The seat is reinforced with strong corner blocks, has five springs and is large and comfortable. The seat and broad back are upholstered in imitation Spanish brown leather, which resembles real Spanish leather and gives excellent wear. Seat is 21½ inches wide by 17½ inches deep; height of back from seat 23½ inches; front posts 1½x1½ inches. Shipping weight, 50 lbs.

\$5.85

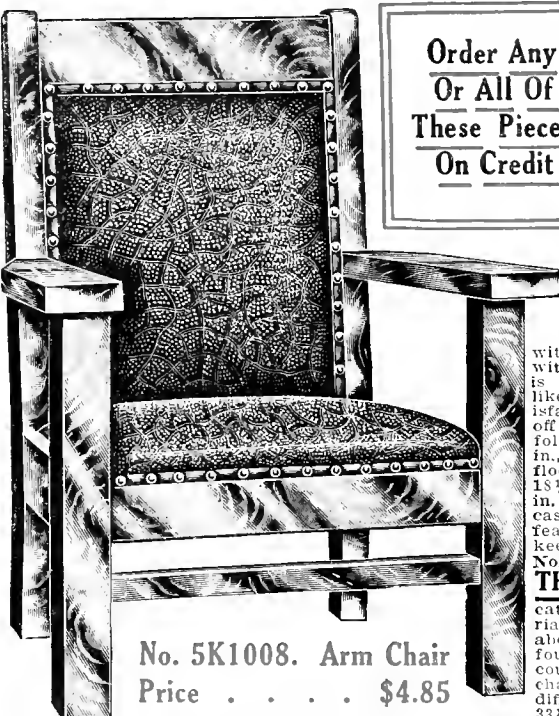

MISSION DESIGN 4-PIECE LIBRARY SET

Made Of Solid Oak In Fumed Finish

THE TABLE is exceptionally well made for one marked at so low a price. It is constructed of durable, well seasoned solid oak and finished in the popular fumed color. The roomy top measures 26x40 inches in size. Has a convenient, stationary drawer fitted with two drawer knobs (cut shows only one). It is typically mission in style, the straight line effect being apparent throughout. Has shelf below, 8 inches wide, two panels on either end as illustrated. The legs are cut from 2-inch stock and the rim measures 3½ inches deep. It is fitted with "domes of silence" instead of casters, preventing the tearing of rugs or marring of hardwood floors. ARM CHAIR is made to match the other pieces on this page. Is of correct mission design, substantially constructed of thoroughly seasoned solid oak in the rich looking fumed finish. The seat is supported on 5 springs with wood fibre and jute filling. The back is built with 4 steel slats supporting it. The upholstery used is imitation Spanish brown leather, which looks like real Spanish leather and gives very satisfactory wear. Stretcher across the front sets it off in an attractive manner. Measurements are as follows: Extreme height 38 in., extreme width 25 in., distance between arms 18 in., height of seat from floor 16½ in., of back from seat 21 in., width of back 18½ in., seat measures 18x18 inches; arms are 3½ in. wide. Fitted with "domes of silence" instead of casters. No tearing of rugs or marring of floors, a feature that will appeal to the particular house-keeper. Shipping weight, about 38 pounds. No. 5K1008. Price..... \$4.85

THE ROCKER shown to the right is a duplicate in style, construction and materials of the arm chair described above. The only vital difference is found in the runners which of course are not possessed by the chair. The total height, likewise is different, the rocker measuring only 33½ inches overall. The fumed finish, solid oak frame, the simple mission design, the attractive imitation Spanish leather upholstery, all combine to make this a desirable rocking chair for the money. Strong spring construction under the seat and the steel slat supports on the back. Ship. wt. about 40 lbs. No. 5K1009. Price..... \$5.15

See Page 1 For Terms

THE SETTEE is illustrated to the left. This picture shows the straight effect that is characteristic of the mission pattern. But it does not show the rich fumed finish presented by the article itself. It gives you a fair idea of the strong solid oak used in construction, but it cannot convey the rigidity of this piece of furniture and the good workmanship employed in making it. For that reason we ask you to send for this settee for approval, so as to convince yourself of its neat appearance and dependable quality. We are so sure that you will be well pleased with it that we are glad to assume all risk. If you are not satisfied in every way, remember that you are not obliged to keep it.

THE SEAT measures 40 inches wide by 18 inches deep. It sets about 16½ inches from the floor and is supported by 12 all-steel springs resting on channel bars. The back measures 20 inches high from the seat and is braced with interlaced steel slats. Wood fibre and jute filling is used in the upholstering, over which is placed imitation Spanish brown leather. This is made to resemble the real Spanish leather and gives very satisfactory wear. The width overall is 46 inches, the arms measure 3½ inches wide and extend 11 inches above the seat. The back is 38½ inches wide. A stretcher extends all the way across the front to correspond with the chair and rocker. This adds to its appearance as well as to its rigidity. Fitted with "domes of silence" instead of casters. Shipping weight, about 62 pounds. No. 5K1010. Price..... \$8.90

Springs in
Seats

THE ARM CHAIR. The frame is made of solid oak, in either golden oak or fumed finish. In ordering, please mention which finish is desired. Upholstered in imitation black leather or imitation Spanish brown leather, both of which look like the genuine and render exceptional wear. Seat has four springs over which there is burlap, moss and felt. Seat measures 19½ inches wide, 18 inches deep. Front posts are 1½ inches square, arms are 3½x22 inches. Back is 18 inches wide and 23 inches high above seat. Arms are neatly decorated with wood buttons. The seat frame is solidly joined to the front posts and back.

THE TABLE is built in truly characteristic Mission style with plain set dignified lines. Made of solid oak in either golden or fumed finish. State finish desired when ordering. Measures 24x36 inches. It has convenient drawer 17x17 inches, neatly set off with wood knob. Legs are solid and sturdy, made of 2-inch square stock and are constructed of substantial oak. A shelf below affords a convenient place for books and magazines. Observe the unusual design of the panels at either end of this table. They are tapered to match upper part of back panels on both chair and rocker, and add to the style of this fine piece of furniture.

THE EASY ROCKER can be had in either golden oak or fumed oak finish. Upholstered in imitation black leather or imitation Spanish brown leather, resembling genuine leather in appearance. Comfortable seat is upholstered over four springs with burlap, moss and felt. This seat is 19½ inches wide, 18 inches deep. The front posts are 1½ inches square and arms are 3½x22 inches. Back is 18 inches wide and 23 inches high above seat. Shipping weight of set complete, about 115 pounds.

THE TABLE used in this library set is well proportioned, attractive in style, excellent in workmanship. The material used is kiln dried, seasoned solid oak. You can order this set in fumed oak finish, which is so universally used in library furniture, or if you prefer, you can have it in golden oak. We particularly direct your attention to the neat panels enclosing the magazine shelf at either end. These panels are of cut-out design, symmetrical in style. They harmonize perfectly with the center back panel used on the chair and rocker. The table top measures 24x36 inches. Handy stationery drawer fitted with Mission style drawer pull. Legs are 1½x1½ inches in size and the two shelves measure 8x18½ inches. Magazine shelf screwed into legs. It is a table that will in every way prove our claims for it and we have no hesitancy in recommending this set to you. Send us your order and we know that you will be more than satisfied with your selection. The description of the chair and rocker is given in the paragraph to the right. This attractive Library Set is an exceptional value at this low price.

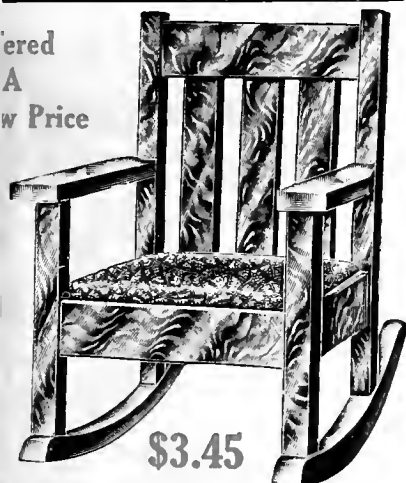

CHAIR AND ROCKER. These two pieces are perfectly and at the same time harmonize in style with the table, described to the left. Fine genuine quarter-sawed oak is used on the balance of the chair and rocker being of kiln dried, seasoned solid oak. Each is made with two padded, upholstered back panels and Mission design cutout panels. Genuine sea moss filling is used throughout seats. These seats are supported on four steel coil springs. The upholstery used is in imitation black leather or imitation Spanish brown leather, which closely resembles the genuine leather and are recognized for splendid wearing qualities. Front posts, 1½x1½ inches; arms, 3½ inches wide, 19½x19½ inches; backs, 20 inches wide and 23 inches above seat. These measurements apply to pieces. Shipping weight of complete set, about 115 pounds.

Oak

THIS LIBRARY SET is a new pattern. Mission style of excellent construction throughout. The chair and rocker are made to match perfectly. Both are upholstered with imitation Spanish brown leather, which looks like real leather. This covering is used on the spring seat and the three back panels. Observe the attractive cut-out wood panel on the back of both pieces, and the very comfortable arm rests. These pieces have expertly filled seats, set upon four strong springs.

SOLID OAK is used on all pieces, rich fumed finish. Table top measures 24x42 inches. Particularly observe the convenient shelf at the bottom and the two handy book shelves at either end. These end panels are very attractive and harmonize with the wood panel on chair and rocker. This is an excellent set and is highly endorsed by us. Shipping weight is approximately 150 lbs.

Very Unique
In Design

THE ARM CHAIR illustrated above is a true mission model, harmonizing perfectly with the other pieces of this handsome three-piece library set. It is made of solid oak, in the rich fumed finish. Upholstered over four springs with burlap, moss and felt. Covering is the popular imitation Spanish brown leather, which looks and wears like real leather. Measurements are: Seat, 19½ inches wide, 18 inches deep; front posts, 1½x1½ inches; arms, 3½x2½ inches; back, 18 inches wide; 23 inches high above the seat.

THE TABLE is unique in design, yet very practical in construction. Is made of solid oak in fumed finish. Has a 24x36 inch top, which is just a nice size. Is fitted with easy sliding drawer with mission design drawer pull and very convenient magazine racks at either side. Observe the tasteful cut-out patterned panels as shown above. Solid, substantial construction, excellent workmanship and striking style make this table a piece of furniture well worth having. This is a remarkable bargain and makes a very convenient set at a low price.

THE ROCKER is built exactly along the same lines as the chair illustrated and described to the left. Solid oak, fumed finish, imitation Spanish brown leather upholstered, resembling the genuine leather. Neat cut-out wood panels on both sides of the upholstered back. Good strong rocker. Upholstered over four springs. Shipping weight of complete set is approximately 150 pounds. Order it upon approval and if it does not please you in every way we will gladly refund your money.

THE TABLE is illustrated directly above and shows the elegance and simplicity of this true Mission design piece of library furniture. The table top is made of genuine quarter-sawed oak and measures 26x42 inches, the balance of the table being constructed of thoroughly seasoned and kiln-dried solid oak. The convenient book shelf at either end and the strong lower shelf are desirable features, as they give added strength to the table and at the same time afford additional space upon which can be placed books and magazines. The panels are made to match those on the backs of the chairs and rockers and the magazine rack. This table comes in the attractive fumed oak finish and is an approved Mission design. If you do not order the entire set of six pieces illustrated and described on this page, we would particularly urge you to choose this table and one of the rockers and the arm chair to make up a three-piece set. The prices are so reasonable and our terms so liberal that you will never miss the trifling sums that we ask. Shipping weight of table, about 60 lbs.

THESE ROCKERS are constructed with genuine quarter-sawed oak arms, the balance of frame being made of thoroughly seasoned and kiln-dried solid oak in the approved fumed finish. The seat is upholstered with imitation Spanish brown leather, as is panel in back. This covering is known for its splendid wearing quality and bears a remarkable resemblance to genuine Spanish leather. The wood panels on either side of the upholstered panel in back are constructed with cut-out design to match other pieces shown on this page. Six steel springs on steel slats support the seat. Size of seat is 19 1/2 x 19 inches. The height of the back from the seat measures 25 inches. The tapered arms give these rockers a distinctive appearance; these arms measure 4 inches in width. If you do not care to order the entire set, at least select one of these rockers, the table and arm chair, to complete a three-piece library set. You will be well pleased with this rocker, as its serviceability is just as much in its favor as its artistic appearance. Shipping weight of each rocker, about 40 lbs.

HOW WE SAVE YOU MONEY.

When you make up your mind to buy a thing you start out with the firm determination to get the most that you can possibly secure for your money. When we plan the purchase of merchandise for our million customers we do the self-same thing as you do. Of course, our tremendous purchasing power enables us to secure exceptional values; add but a reasonable profit to our low cost, and you can plainly see why this is the place to do your shopping.

HOW IT IS MADE.

The sliding hinged cover is a splendid feature that really converts the table into a desk at will. This drawer has pen groove and ink well. Be sure and note the convenient magazine rack. Wood is solid oak, fumed finish, in the artistic mission design with a swastika cut-out pattern in top panel of the chair and rocker. These pieces are of full spring construction, heavily upholstered with beautiful imitation Spanish brown leather to look like real Spanish brown leather.

MEASUREMENTS.

Chair and rocker measure 19½ inches wide and 18 inches deep. The comfortable rocker measures 23 inches above the seat and the top is 42x26 inches. The writing desk drawer is 17x17 inches. You may have another chance like this again. Order now and save yourself the possibility of disappointment. Complete set packed in one crate weighs approximately 130 pounds.

THE DESIGN of this couch recommends itself to those seeking beauty in their household furnishings; for, without question, it is one of the most artistic couches to be secured at a moderately low figure. The frame is made of substantial hardwood, veneered with genuine quarter-sawed oak. The moulding, as shown in illustration above, conforms to the curved lines of the couch itself, giving a very harmonious effect. The finish of the wood is the rich golden oak, so popular the country over. Order it on approval, according to our liberal credit terms as explained on page 1.

UPHOLSTERING is the attractive imitation black leather which looks like genuine leather. It has a spring edge and full steel spring construction, having 24 springs in the body and 4 springs in the head. Over these springs there is a covering of heavy duck canvas and a fine tow and cotton filling. This couch measures 27x75 inches, which is just the right size for comfort. It has deep, diamond tufting, as illustrated, with an extra row of tufting buttons just below the edge. Shipping weight, about 100 pounds. Price \$13.75

OUR APPROVAL OFFER is evidence of our good faith. In accordance with our guarantee we will permit you to have this beautiful couch on approval; and if it does not please you in every way, ship it back at our expense and we will stand the freight charges both ways.

MEASUREMENTS. The length of this fine looking couch is 76 inches, and the width is 27 inches. It is well proportioned, as you can readily see by a mere glance at the illustration shown above. It is upholstered in imitation black leather which looks like genuine leather and will give good service. This couch is made to last and give satisfactory wear.

FULL STEEL CONSTRUCTION.

There are twenty-four springs in the couch and four in the head, making twenty-eight in all. These are covered with heavy duck canvas and an extra fine flax fibre and cotton filling. Over this there is the imitation leather upholstery with deep diamond tufts, and with double prong tufting buttons, insuring both comfort and durability. Remember that the couch has a full spring edge construction.

THE FRAME OF THIS COUCH

is made of thoroughly seasoned kiln-dried hardwood, faced with beautifully figured quarter-sawed oak veneer. Has attractively shaped legs and carvings as illustrated. It is finished in a beautiful golden color with a high gloss finish. The picture above taken from an actual photograph of the couch itself, but you must really see the original to enjoy its elegance and beauty. Shipping weight about 100 lbs.

Is Very Handsomely Designed

IN THIS PARLOR SUIT we are offering you one of the most pleasing designs in a suit of unusually good character, both in point of appearance and construction. While the prices are exceptionally low, the suit is made with due regard to great strength and durability—the quality being there just the same as if it cost more than the price we ask. Every home should have one of these fine parlor suits. Hartman brings the price away down—saving you many dollars.

COVERINGS are made of durable materials, and no matter which you select you will be charmed by the appearance of your parlor suit when you put it in your living room. It's perfectly natural, though, that the more you invest for the upholstering of your parlor suit, the better quality of fabric you receive, and for that reason we suggest that you order one of the genuine leather coverings. The back of each piece is diamond tufted, each tuft being secured by a steel pronged upholsterer's button. The seats are constructed with a setting of "Monarch" oil tempered steel springs.

THE FRAMES are constructed in a serviceable manner, being put together most substantially, every joint well mortised and doweled. The top panel on back is adorned with a deeply carved head and rich scroll design, which greatly enhance the beauty of this elegant suit. The arms of the divan, arm chair and rocker are completed with a beautifully carved head at the front. The Birch used in the construction of these 5 pieces has been thoroughly seasoned and kiln-dried, and is finished in rich mahogany with a high finish. This suit is made to last and will give good service.

WE WANT YOU to take advantage of our generous credit plan, which is freely offered to our friends and customers, and order this magnificent suit once. Have it shipped to you on approval—examine it closely and you will find it to be the great bargain we claim. We doubt if you could duplicate this parlor suit at your local dealer's store or from any other home furnishing concern at the low prices we quote and an extra added feature to this wonderful saving in price is our liberal credit terms and furthermore, you get a year's time to pay. Shipping weight of entire set, about 255 lbs.

You can have your choice of genuine quarter-sawn oak veneer, American walnut veneer or mahogany finished birch, as you prefer. Each piece is hand rubbed and polished, giving a rich, bright finish. When ordering, be sure to state the wood that you desire. You can also have your choice of imitation black or Spanish leather, genuine black or Spanish leather or floral designed tapestry at the prices which we quote at the bottom of this page. Each one is an excellent value at our very reasonable figure.

SPRING CONSTRUCTION.

There are 5 oil tempered springs in the seats of the chairs and rocker and 8 oil tempered springs in the seat of the settee. Over these are placed tow filling with cotton top. The web bottom used on these pieces is similar to that found on the most expensive parlor suits. This construction adds firmness and lasting qualities. We direct your attention to the graceful shape of the arms, the curved lines of the backs and the pleasing contour of the front posts. Observe also the diamond tufting on the backs. These are secured with steel pronged upholstery buttons, holding the tufts firmly and securely. Take advantage of our liberal credit terms.

MEASUREMENTS. The settee measures 41 inches high. The seat is nice and roomy, the width being 43 inches and the depth 20 inches. The chair and rocker each has a 21x20 inch seat, the side chairs each has a 17x20 inch seat. These side chairs are of particularly attractive appearance with long, sweeping arms, as illustrated. This suit has our heartiest endorsement and guarantee. Shipping weight, fully packed, is about 200 pounds.

Of Upholstery
At Prices Quoted

THE LUMBER used is mahoganyized birch, in choice of dull or hand rubbed and polished finish. Tow and cotton are the materials utilized as a filling, over which is placed imitation black or Spanish leather, genuine black or Spanish leather or tapestry, as quoted below.

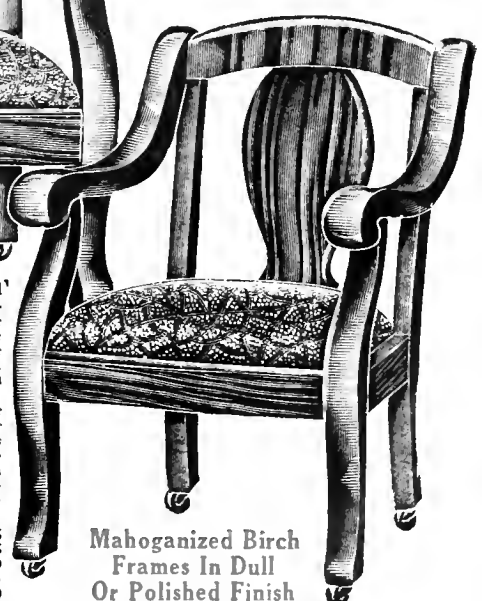

SPRING CONSTRUCTION. The chair and rocker each contain 6 springs under the seat, and the settee is made with 12 springs. Strong steel slats support these springs, adding resiliency and strength to these pieces. Observe the rich Colonial pattern of this set. The back panels are very shapely and artistic in design.

MEASUREMENTS are as follows: The extreme width of the chair and rocker is 23 in., the total height being 37 in., the chair seats are 17½x20½ in. The sofa seat is 17½x39 in., the extreme width of the sofa measuring 42 in. You can see from these dimensions that it is a suit well proportioned and roomy in size. Shipping weight, complete, about 175 pounds.

position for you are taking no chance whatever. If you want to keep your goods pay for them in easy installments, as explained on page 1 of our catalog.

THE CHAIR is a handsome, massive piece of furniture that adds grace to the finest home. It is made of fumed oak upholstered in handsome imitation Spanish leather over full spring construction in the seat and back. Height to top of back, 36 in.; width, 28 in.; size of seat, 22x29 in.; height of arm from seat, 10 in. Shipping weight, about 75 lbs.
No. 2K579. Price.....**\$10.25**

THE SOFA presents a fine appearance and resembles many models that sell for more than we ask. You will acknowledge this after you see it right in your own parlor and examine its graceful lines, its beautiful workmanship and handsome upholstery. Like the chair it is covered with imitation Spanish leather over a spring seat, back and has an artistic fumed oak frame. Length, 52 in.; size of seat, 44x20 in.; height of back from floor, 36 in. Shipping weight, about 125 lbs.
No. 2K580. Price.....**\$14.75**

THE ROCKER is made to match the other two pieces listed above and is just as comfortable, just as strongly made and just as handsome in appearance. It is beautifully upholstered in imitation Spanish leather over a spring seat and back, and has a fine artistic fumed oak frame. Its size is the same as the arm chair described above. Shipping weight, about 80 pounds.

YOUR ORDER for this suit will bring you three pieces of richly designed, Colonial style furniture, all made to match; forming a suit that will greatly enhance the appearance of your parlor. The frames are constructed of dull or hand rubbed and polished mahoganized birch. When ordering please mention the finish you prefer. The seat construction is very strong. The chair and rocker each has 6 springs under the seat, the settee being built over 12 springs. These are supported on steel slats, adding to the resiliency as well as the lasting qualities of these pieces. Over these springs there is a filling of tow and cotton. The upholstering throughout is of a thoroughly dependable quality.

MEASUREMENTS. The extreme width of the chair is 23 inches; the seat measuring 20½ inches in width and 17½ inches in depth. The total height of the chair is 37 inches. The rocker is built over the same frame as the chair. The settee measures 42 inches wide overall, the width of the seat being 39 inches, and the depth, 17½ inches. Observe the gracefully curved arms and front posts and the nicely shaped back panels. The plain paneled backs and the comfortable seats are secured with strong upholstery buttons as illustrated. Shaped panels are used under the arms. Chair and settee fitted with casters. Shipping weight about 175 pounds.

A SHORT STORY OF THIS BIG

BARGAIN is all that is necessary to convince our patrons that it is one of our leading "Monarch" sellers in parlor suits. We guarantee it to be a splendid value and it could be sold for more than the price we ask. We have ordered a big quantity of this special design for the season's rush of business. Every article in these 5-piece parlor suits is as perfect in each detail as though the selling price were really more. Don't fail to order one of these suits. Our legal guarantee will protect you.

THE HIGH QUALITY of the solid Birch frames, the strong oil-tempered steel springs, the rich mahogany finish, the expert workmanship involved in the making, the diamond tufted upholstery, exactly as shown in the illustration, and the artistic endeavor, which resulted in the designing and the elegant pattern—all have produced one of the leading "Monarch" bargains of the line. Try it in your living room, show it to your family and neighbors and if you are in any way not satisfied with your purchase and do not want to keep it send it back at our expense. Shipping weight, carefully packed, is approximately 175 lbs.

This Settee Contains 15 Springs In The
Seat Supported On Wood Slats And
14 Special Pillow Springs In Back

THE SETTEE is shown in the large illustration above. This picture was taken from an actual photograph of the article itself and conveys in a general way the grace and artistic finish of this model, but you positively cannot begin to appreciate what a wonderfully attractive and roughly comfortable piece of parlor furniture this is until you have actually seen it and tried it in your own home. The frame is made entirely of kiln dried hardwood, the exposed parts being of roughly seasoned solid oak in the ever-popular golden finish. Tow and cotton is used as a filling which is placed an imitation Spanish brown leather. This covering bears a close resemblance to the genuine Spanish leather. There are 15 springs in the seat, supported on wood slats and 14 special pillow springs in the back, supported on steel bands. The height of the seat from floor is 16½ inches, height of back from seat 22 inches, height of back from floor 36 inches, depth of seat 19½ inches, width of seat, 44½ inches, width overall 50½ inches. The arms, front posts and ears are 18 inches wide. The gorgeous Colonial shaped frame is enhanced by a spindle carved scroll on the front of the ears and on the arms, as well as at the base of the front post. Comes complete with wheels. Shipping weight, about 110 pounds.

PRIZE WINNING BED DAVENPORT DESIGN

PRODUCED BY KROEHLER, WINNER OF THE FIRST PRIZE AT THE PANAMA-PACIFIC INTERNATIONAL EXPOSITION

The Medal That Kroehler Won

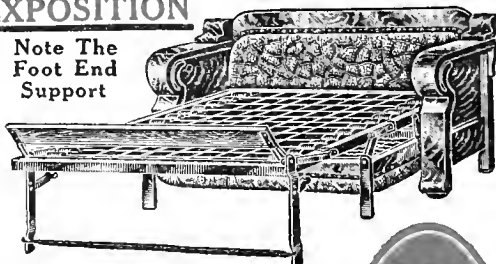

ACKNOWLEDGMENT

of the great superiority as well as recognized supremacy was the awarding of the first prize to the creator of the famous Kroehler bed davenport at the Panama-Pacific International Exposition. Kroehler received that distinction. When expert judges indicate their recognition in this manner, the consumer has a guarantee of merit that is lacking in no particular. The model which we show on this page is one of the neatest patterns that has ever been produced by the great Kroehler factories and with all, it is sold at a price that makes it one of our greatest values.

THE CONSTRUCTION.

Golden oak, fumed oak or mahogany finish. The oak davenport is made with genuine quarter-sawn oak veneer top rail, arms and front, with selected genuine quarter-sawn oak panels, the entire frame being made of kiln-dried, thoroughly seasoned solid oak. When ordered finished in golden oak, you can have your choice of dull or rubbed and polished finish. The mahogany finished davenport is constructed with genuine mahogany veneer, in dull or rubbed and polished finish. When constructed of mahogany, the panels are made of mahogany birch.

Note The Foot End Support

Dull Or Polished.

No. 2K550. Full Box Edge Felt Pad Mattress To Fit Price **\$4.65**

Choice Of Golden Or Fumed Oak Or Mahogany Finish.

MADE WITH the renowned Kroehler Duofold seat and back construction. Seat has spring support, made of steel crimped wires running lengthwise and crosswise, fastened to hardwood frame on ends with helicals, making elastic support for upholstery springs.

Genuine Quarter-Sawn Oak Veneer Or Mahogany Veneer. Used On This Elegant Model

THERE ARE 18 Premier wire springs in the seat securely fastened on top. Heavy duck canvas over springs, fine flax fibre with heavy layer of cotton felt filling; firm edge. Spring back with tough wood fibre and cotton filling. This construction has proven very satisfactory.

THE DEVICE used on the back of this davenport is a new invention. It automatically releases and partly opens this sofa bed for unfolding. Bed frame is shown in the small picture at the top of the page. Is made of steel angle iron, folds and unfolds with well balanced quiet motion. As you see by the illustration, you don't sleep on the upholstery. Mattress which can be used on this Duofold is removable for dusting.

VERY MASSIVE.

This is an exceptionally massive piece of furniture. Yet in spite of its size and proportions it is a wonderfully graceful article. Observe the pleasing contour of the Colonial scrolls shown in this number. With its use you make your living room serve as a bedroom at night. You can take care of two guests without having an idle room. Shipping weight, about 265 pounds.

UPHOLSTERY is imitation Spanish brown leather, a covering which is an excellent substitute for real leather, resembling it in appearance and found to be very substantial and durable. Is attractively set off with neat seamed seat front, as shown in the picture above.

Panels and balance of frame selected solid oak. Comes in rubbed and polished golden oak, fumed oak or mahogany birch. State which you prefer. Imitation Spanish brown leather upholstery. Seamed back; ruffling across entire seat front. When closed sofa measures 52 1/2 inches between arms; when open 72x47 inches. Shipping weight, about 250 lbs.

\$29.75

THE MASSIVE CHAIR. The top, arms and entire front are veneered with beautifully figured quarter-sawn oak. The panels and balance of the frame are seasoned, kiln dried solid oak, finished in beautiful rubbed and polished golden oak, fumed oak or mahogany birch, as you prefer. State which you desire. The upholstery is the elegant imitation Spanish brown leather, duplicate in appearance of the genuine Spanish leather; and will wear remarkably well. This chair has a full spring seat with tough fibre and cotton filling. The heavy arms, the artistically designed front posts and the rotate back posts above the arms enhance the attractive and high class appearance of this beautiful piece of parlor furniture. The seamed and ruffled seat front is neatly stitched off with upholstery buttons. Back is shaped to insure comfort. The front posts terminate in a neat scroll effect. It weighs, carefully packed to insure the lowest freight rate, about 60 pounds.

\$9.45

S A COMFORTABLE BEDROOM AT NIGHT

THE HANDSOME ROCKER.

Frame is made of heavy oak stock, thoroughly seasoned and kiln dried. The top, arms and entire front are expertly veneered with beautifully figured genuine quarter-sawn oak. The panels and balance of frame are made of selected solid oak. You can order this rocker finished in attractive rubbed and polished golden oak, fumed oak or mahogany birch. The seat is a full spring construction, with a tough fibre and cotton filling. Over this filling is carefully placed imitation Spanish brown leather. This covering is made to give the appearance of genuine Spanish leather. Has a seamed and ruffled seat front, such as are found on many higher priced rockers on the market. Shipping weight about 65 pounds.

WONDERFUL BRASS BED VALUE

Has 2-Inch Posts and New Polet Finish

\$25⁶⁵

THIS BRASS BED is an enormous value at the price we ask and is beyond comparison. The finish is the New Polet style, which is a satin finish on the posts, fillers, and top and bottom cross rods, and bright finished mounts. The bright brass ornaments form a very striking contrast to the satin (dark finished) parts. The bed is of the continuous post style, with 2-inch posts, making it very massive. The mounts are unusually large and imposing. The design of the bed is one of our new patterns for this year and is sure to meet with much favor with our customers. You should not delay in sending your order, for you can buy it on our liberal credit terms shown on page one.

YOU CAN have your choice of ordering this bed in any size: 3 ft., 3 ft. 6 inches, 4 ft. or 4 ft. 6 inches (full size), at the same price. Be sure to state size you wish, when ordering.

This is an elegant bed and is of a design that is fine enough to be placed in the bedrooms of the best appointed homes. It stands 58 inches high at head end and 38 inches high at foot end. Fillers and cross rods are 1 inch in diameter. Shipping weight, about 125 lbs.

A Very Substantial, Artistic Bed at a Genuine Bargain Price

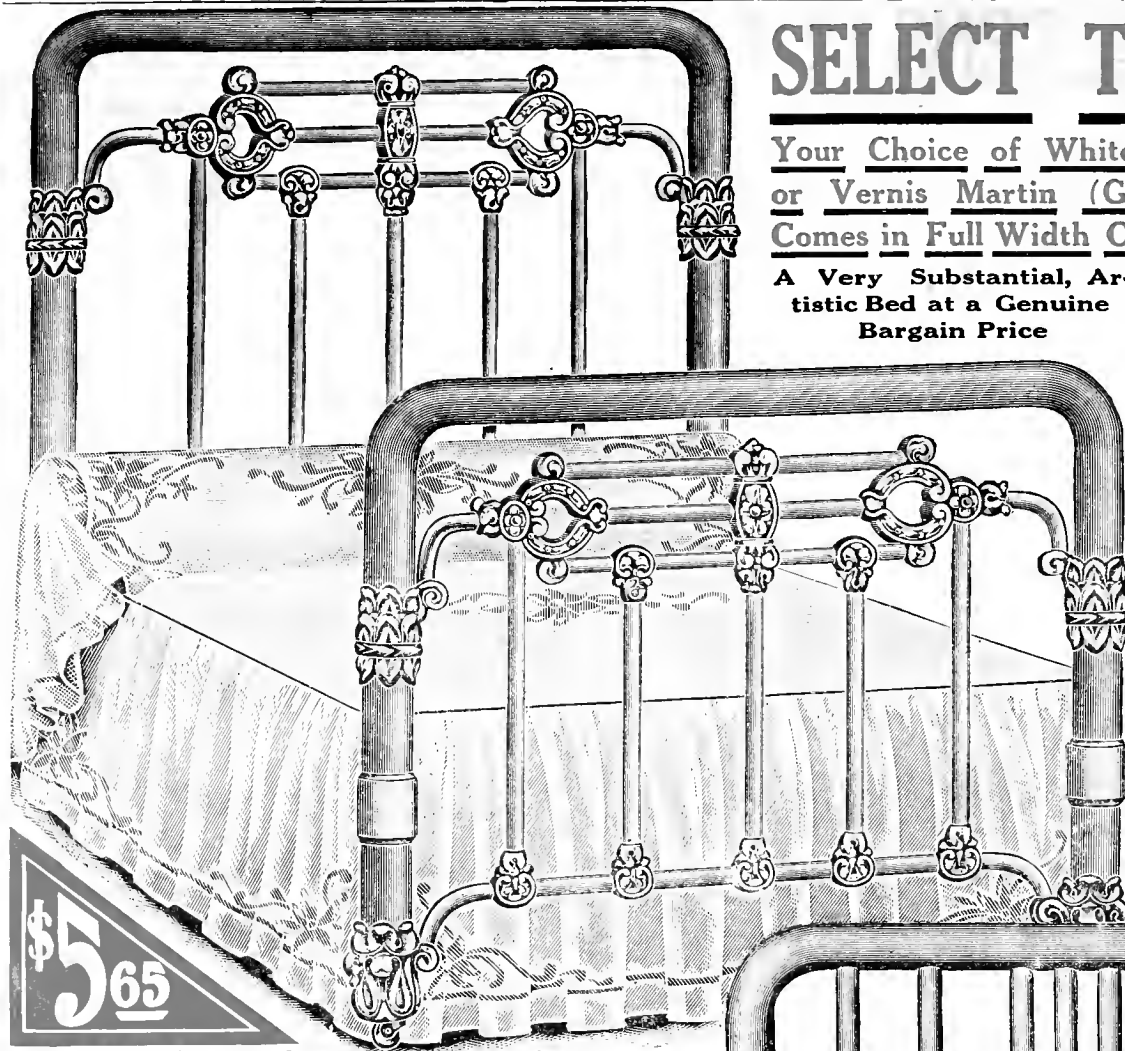

WE DON'T EXAGGERATE

Silver tongued orators and "flow" advertising writers are in the class—they may impress you for moment, but when you stop to think into their remarks you are often surprised by this fact: They are not sincere. That's where we differ: We will permit a single statement to go any book or catalog of ours that is not absolutely true to the letter every particular.

TO PROVE IT we are going to tell you the facts about this remarkable bed, and then we are going to ask you to send for it on approval, according to our terms on Page 1 of this catalogue. Then if it is not all we claim it is, or if we have exaggerated one fact, we want this bed back. We want you to keep it, and we will refund every penny it has cost. Surely you couldn't ask for a better offer than that.

TELL US whether you desire white or green or vernis martin finish. It is in one size only—4 foot 6 inches in diameter and the filling rod 5/16 inches in size. It is a very strong bed, the head end measures 57 1/2 inches and the foot end 57 inches high. Particularly observe fancy embellishment at the filler and on the posts as well as on the cross rods. It is one of the values for the money that you possibly find. Shipping weight, 80 lbs.

A CHILL-LESS BED

A Neatly Designed Bed. Finished in White or Blue Enamel or Vernis Martin

WE FEATHER THE NESTS

of the working people. We have furnished the homes of generations in many families. If our treatment were not fair, if our methods were not square, such a record would be an utter impossibility. We take pride in our past accomplishments and it is this very feeling of pride that should prompt you to buy here, because you know that we are not going to jeopardize our reputation for anything.

THIS BED is noteworthy because of the fact that it is a chill-less model as shown in the illustration to the right. Besides being very neat in pattern, this is a sanitary feature that will appeal to every housewife as a bed that can be easily cleaned. The continuous steel tube posts are 1 1/16 inches in diameter with 5/8-inch filler rods in both head and foot ends. The bottom cross rods measure 7/8-inch.

CHOICE OF white or blue enamel (gold bronze finish) or vernis martin. In ordering please tell us which size you prefer. The head end measures 57 1/2 inches from the floor, the foot end being 38 1/2 inches. This is not only an excellent article of merchandise, but is sold at a price so very reasonable as to be a value that will be appreciated by the shrewdest buyers of housefurnishing goods. Comes complete with casters. Shipping weight carefully packed is approximately 95 lbs.

Y MORE—PAY LESS. This terse statement aptly applies to your transactions if you buy from us. We always endeavor to give you more for a stipulated sum than other houses. Anyway that you figure it, you are far better off to do your shopping here. You may say to yourself: "Oh, well, it is all right for them to 'toot their own horn.' " But, friend, remember that we don't ask you to take our word for it. On the contrary we urge you to do your own investigating. We want you to convince yourself, regardless of what we have to say, and to accomplish this in the most logical manner we permit you to use the goods you buy from us on approval, so that you can determine whether or not they are all that we claim. In the event you are not thoroughly pleased in every way, you are at liberty to return whatever you use and procure your money back. We not only pay the return freight charges, but we reimburse you for the transportation charges which you paid when you received the merchandise. That is the liberal treatment you receive at the hand of this broad-gaugedness institution. In that way you are taking absolutely no chances whatever. We assume all the risk; you receive all the benefit.

THIS MASSIVE BED is a true value of the "pay less" type. We think so much of it that we devote an entire page to this one number alone. That is pretty good evidence of the confidence that we have in this value. You see how stately it is! And imagine securing anything as fine as this is elsewhere at this low price. It is a steel tube bed with iron fillers. You can have your choice of beautiful white or green enamel, or, if you prefer, we will send you the pleasing Vernis Martin (gold-bronze) finish. In ordering please tell us which you desire. The panels are of artistic floral pattern executed in natural colors, in a manner that will please the most fastidious taste. It comes in full size only, which is 4 ft. 6 in. The posts are 1 1/4 inches, the top tube 3/4 inch and the bottom tube 5/16 inch in diameter. The filler rods are 1/2 inch. The center panel at the head end measures 4x23 inches, whereas the smaller ones at the head end measure 25x14 inches. The head end is 59 1/2 inches high, the foot end 48 inches. Observe the beautiful contour of the panel frames, the unusually ornamental chills and the heavy mounts. Shipping weight about 100 pounds.

2-INCH STEEL POST BED

In the production of these beds the manufacturer has successfully attained strength without weight. Cold rolled burnished steel tubing is used. This lessens the freight cost and gives the housewife a lighter article to handle, reducing the marring of floors and tearing of rugs and carpets. The steel surface is bright, smooth and is highly polished. The finish which this kind of surface takes, approximates perfection. Have one of these beds sent on approval.

THIS MODEL illustrated to the left is made with 2-inch continuous steel tube pillars manufactured by an advanced modern process explained above. The design is of a type that will appeal to those of particular taste. It is a good bed at a very reasonable price. The filling rods measure $\frac{1}{4}$ inch, the upright fillers being 1 inch high. Comes in your choice of white or green enamel or Vernis Martin (gold bronze) finish. Made in the following widths: 3 ft., 3 ft. 6 in., 4 ft., 4 ft. 6 in. In ordering please mention finish and size desired. Shipping weight about 70 pounds.

Tube
Beds

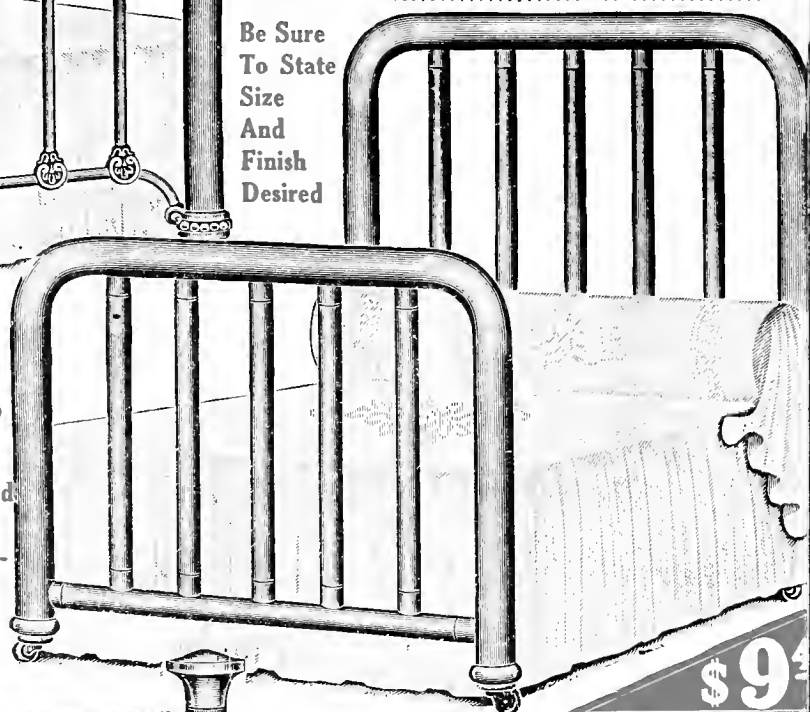

\$9.85

STUDY THE ILLUSTRATION of this simple and attractively designed steel tube bed. It has the earmarks of the more expensive brass beds and still possesses dependable qualities at a moderate price. The high quality cold rolled burnished steel tubing used is lighter in weight than the iron bed posts and still possesses great strength and durability. The housewife will appreciate the fact that it is light in weight and therefore easy to handle without sacrificing its massive and pleasing lines.

WHEN ORDERING please tell us whether you prefer the white enamel, green enamel or Vernis Martin (gold bronze) finishes. Also mention whether you desire this bed in the 3 ft., 3 ft. 6 in., or 4 ft. 6 in. size. The continuous posts measure 2 inches in diameter. All filling rods measure 1 1/16 inches in diameter. The head end stands 58 inches from floor, the foot end measuring 38 inches in height. We have no hesitancy in giving this bed our highest endorsement. Shipping weight about 89 pounds.

No. 3K1813. Price..... \$10.45

Corner bend on continuous post is practically perfect. Upright fillers tightly cold fitted into sockets which have been electrically welded to bed frame. By this electric welding metal rod ends are fused into bed frame, resulting in one solid piece of double thickness insuring rigidity.

\$9.45

TAKE YOUR CHOICE of white enamel or Vernis Martin (gold bronze) finish. This is of exceptionally high grade. Comes in 3 ft., 3 ft. 6 in., or 4 ft. widths. When ordering please mention finish and size that you desire. Pillars are 2 inches in diameter; top, bottom and filling rods each 1 inch in diameter. The head end measures 53 inches in height, the foot end measuring 36 inches. We recommend this bed as an excellent value at our figure. Shipping weight about 72 pounds.

ORDER THIS CONTINUOUS STEEL POST BED

IF YOU WANT A GOOD VALUE FOR YOUR MONEY

Possesses Massive $2\frac{1}{2}$ -Inch Posts

INTERESTING to note the view held by an early thinker on the division of the business day into three equal parts. This philosophy held the opinion that we should devote eight hours to work, eight hours to play and eight hours to rest. In years gone by it may have been possible for many to so divide their time. But in America, today, the proportion of work and play is quite different. On the other hand, most of us do take the allotted eight hours for sleep. In most of us need that amount of rest to properly perform our daily tasks. When you order that you spend one-third of your time in rest, the kind of bed you have, deserves most careful attention. And yet another feature enters into the purchase of your room outfit. Surely there's a deal of satisfaction when you retire at night to look at a nicely furnished bedroom—it gives you a sense of repose and restfulness. In the morning after a refreshing slumber, what an invigorating sensation to open your eyes upon a room beautifully and comfortably equipped! This fine looking bed will complete the beauty and comfort of your sleeping room. Order it on our approval and we are positive that you will be mightily well pleased with your purchase. Read paragraph to the right for full particulars concerning this number.

THIS MASSIVE BED has great big $2\frac{1}{2}$ -inch continuous steel pillars as shown in the large illustration on this page. And we want to impress you with the fact that the bed itself really looks like a more expensive article than it is. We believe that if you were to attempt to purchase a similar bed elsewhere you would have to pay more money. In presenting this number we have made a tremendous effort to give our customers an out-of-the-ordinary bargain and we have succeeded admirably. It comes in full size only, which is 4 feet 6 inches wide. The finish is beautiful white enamel or Vernis Martin (gold bronze), as you prefer. In ordering, please tell us which you desire us to send you. The bottom rod is 5-16-inch and the sliding rods are 3/8-inch wide. The height of the head end is 38 inches and the foot end measures 41 inches in height. The continuous pillars are adorned with artistic details, as are the other rods, as shown. It comes complete with casters. The confidence that we have in this value is evidenced by the fact that we devote an entire page to its presentation. It is a value well worthy of serious consideration. Shipping weight, about 165 pounds. **\$10.85**

Upright Fillers Tightly Cold-Fitted
Into Sockets Which Have Been Elec-
trically Welded to The Bed Frame.

NEW PROCESS STEEL BEDS

In these models the manufacturer has successfully produced light weight, high quality, cold rolled, burnished steel tube beds. They are lighter in weight than iron beds and yet are wonderfully strong. This lighter weight reduces marring of floors, tearings of rugs and carpets and likewise reduces the freight cost. This steel is about one-third the thickness of the old gas pipe. Be sure to mention in your order which finish you prefer to have us send to you.

All Have Massive
2-Inch Pillars

YOU MAY SELECT this bed in either white enamel or Vernis Martin (gold bronze) finish as you prefer. It is made in 3 ft. 6 in. and 4 ft. 6 in. sizes.

When ordering be sure to tell us the finish and size that you desire. As explained above, this bed is made of light steel tubing with a saw-blade finish that takes the enamel perfectly. Is made with 2-inch pillars; 1 1/16 top rod; 1 1/16-inch bottom and filling rod. The head end stands 44 inches from floor; the height of the foot end is 36 1/2 inches. The large model greatly improves the appearance of this steel bed. Shipping weight, about 90 pounds.

THIS COLD ROLLED BURNISHED STEEL TUBE BED IS A WONDERFUL MODERN ACHIEVEMENT Light — Beautiful — Sturdy — Inexpensive

Is Lighter Than The Iron Bed
Choice of White or Vernis Martin

No. 3K1724

STEEL BED in a popular design. This is not merely a statement, but a fact. In this number, the manufacturer has successfully made a light, high quality, Cold-Rolled, Burnished Steel Tube Bed. He has succeeded where have failed. It is lighter than the iron bed, yet is wonderfully strong. In other words, it has strength, without weight. This is a feature of two-fold advantage: it lessens the freight cost and renders the housewife a lighter article to handle. This lighter bed reduces the marring of floors and tearing of rugs and carpets. The steel is about the thickness of the old gas pipe, and the decrease in weight is proportionate. Further advancement has been achieved in the finish. This year sees the perfection of finish—perfection both in the specialized treatment of the metal surface and in the attention to this perfected surface. The steel surface is bright, smooth and as highly polished as the blade of a saw. The finish which this kind of surface will take, approximates and even as in the higher priced brass bed. Upright fillets are tightly cold-fitted into sockets which have been electrically welded to the bed frame. By this electric welding, metal rod ends are fused into bed frame, resulting in one solid piece of double

THE WONDERFUL FINISH is explained in the paragraph to the left. But you can not appreciate how nice it really is, unless you see the finished product. The enamel used flows on this bed as smooth as glass. You can have your choice of White Enamel or Vernis Martin (gold bronze) finish, as you desire. When you send your order, kindly tell us which finish you prefer. In describing this wonderful bed, we have explained how light it is to handle, in proportion to its size. But do not be misled as to the magnitude of its proportions. It is a mammoth looking bed, yet an extremely graceful one. The continuous posts are 2 inches in size; the cross rod and fillets likewise measuring 2 inches in diameter. The head end stands 32 inches from the floor; the foot end, 35 inches high. These end measurements include casters. We offer this extraordinary number in the full size, which is 4 ft. 6 inches in width. Our experience in the sale of beds dates back many years. We have bought and sold hundreds and hundreds of them in a comparatively short time. But never in the history of our experience have we seen an offering that can compare with this one in a steel tube bedstead. The value is stupendous at this incomparably low figure. Shipping weight, about 90 pounds.

SPLENDID BARGAIN IN A BED OUTFIT

Don't Miss This Unusual Value

Order One

No. 3K1725

INCLUDING
BED, SPRING
AND
MATTRESS

\$10.50

WE TRUST YOU A YEAR TO PA

IN THIS COMBINATION we have included the articles and make a specially attractive price on the entire outfit. The combination consists of a handsome iron bed, a splendid mattress and a fine set of springs.

WE GIVE you an opportunity to secure the entire outfit at a lower price than you ordinarily would be charged. It is unquestionably the biggest value of the kind that was ever brought to your notice.

THE BED is one that is made especially for us and is made of 3 1/2 inch tubing. The head of the bed measures 57 inches high. It is 4 feet 6 inches wide. The pillars and tubing are adorned with large chills and post ornaments. We give you your choice in several colors of enamel including white, pea green, and blue. In ordering, kindly state your preference, as the enamel is baked on.

THE SPRINGS are made of all steel angle iron with two rows of copper coil supports. They are of excellent quality, strong, resilient and comfortable.

THE MATTRESS is made of good materials and thoroughly guaranteed. It is covered with heavy striped ticking and is tufted in such a manner as to insure its holding its shape and prevent lumping. This mattress is made with double stitched edges and is tape stayed. Shipping weight of complete outfit, approximately 165 pounds.

BARGAIN

2⁹⁵Bed
Out-
Fit

THE BED comes in white or green enamel or Vernis Martin (gold) finish. Please state which you prefer. It is in full size only, which is 4 ft. 6 in. Stands 57½ inches at the head end and 57 inches at the foot. The posts are of the Louis style, measuring 1 1/16 inches in diameter, whereas the filling and bottom rods are all 5/16 inches in diameter. A stylishly designed model that is a "world beater" in appearance. The details of the spring and mattress are given below. Be sure and read carefully.

THE SPRING is strongly made for hard and continuous use. It is constructed of a link fabric with heavy wire edge. The links are attached to end angles by heavy oil-tempered helicals. The heavy angle iron frame is well finished in Japan and is strong and substantial. You buy springs as good as this one, but we do not emphasize the fact that we doubt if you can find as excellent a spring elsewhere. It is a bed outfit at this low price positively a wonder for the money.

THE MATTRESS is our high grade cotton top mattress. It is covered with an extra good quality of heavy ticking, in neat and handsome patterns. The edges are double stitched and the construction throughout is carefully considered with a view to preventing the mattress from matting down or becoming lumpy. Consider the worth of the bed, the spring and the mattress, and we know that you will send us your order for this low priced outfit. Shipping weight, carefully packed, complete, is approximately 100 lbs.

Full Size Bed With Continuous Posts
Neatly Set Off With Brass Rod At Head and Foot

Order By No. 3K1728 For Outfit Complete

Comes In White Or Green Enamel
Or Vernis Martin Finish

WHY NOT ORDER THIS 5-PIECE BED OUTFIT

Consisting Of Continuous Post Steel Bed, Fine Cotton Top Mattress, Link Fabric Steel Frame Spring And Two Soft, Sanitary Pillows At A Low Price

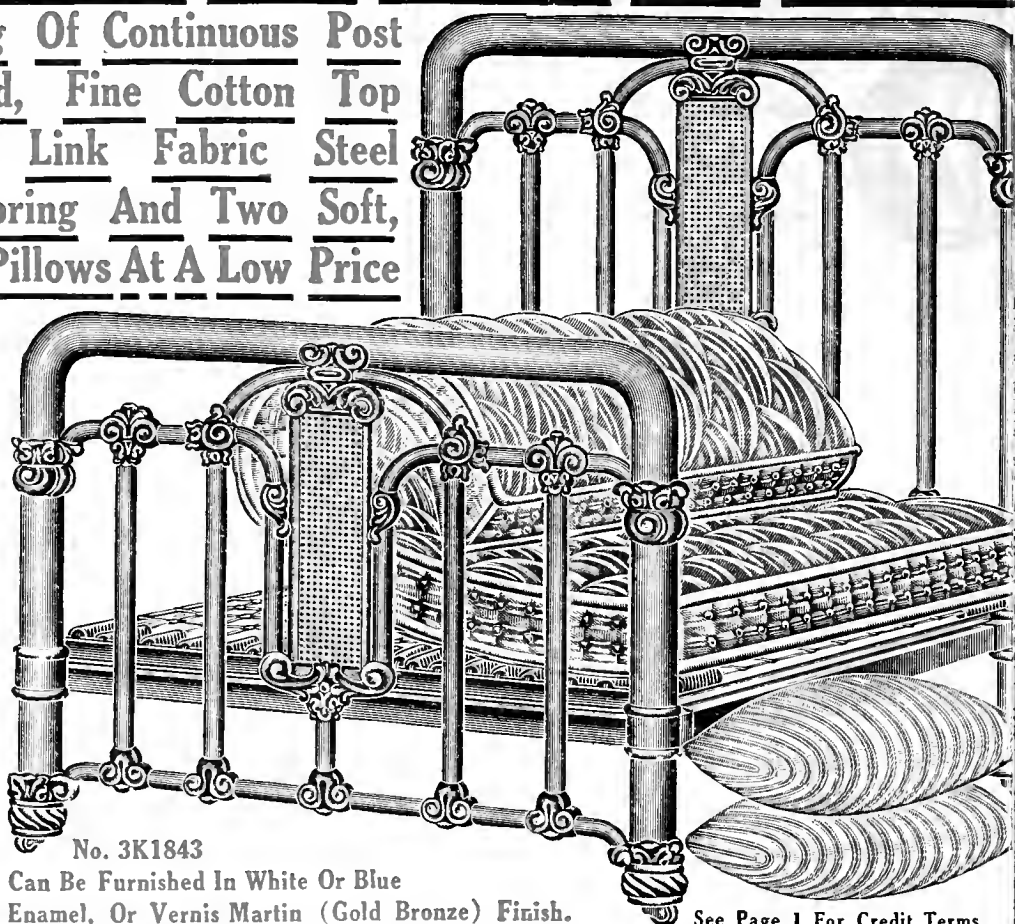

THE BED has continuous 1 1/2-16 inch steel tube posts with 5-16 inch fillers and cross rods. The height of the head end is 57 1/2 inches, while the foot end is 58 1/2 inches high. The steel panels on the head and foot ends are 4 inches wide and are decorated with a cane transfer, which looks like a real cane insert, a style which is much in vogue at the present time. Comes in full size only (4 ft., 6 in.). Can be ordered in white or blue enamel or Vernis Martin finish. State which is preferred.

THE MATTRESS is filled with good grade of excelsior and has a thick cotton top. It is covered with a strong, durable ticking and all tufting is secured by leather tufting buttons. Has double stitched edges, which give additional strength. This is a very sanitary and comfortable mattress and rarely included in a bed outfit at this low price. A durable mattress in every particular.

THE SPRING is made of a link fabric with copper wire edge and is exceptionally strong. The links are fastened to end angles by heavy, oil tempered helical, heavy angle iron frame is well finished in black Japan and is strong and substantial. You will be very well pleased with this bed spring.

THE PILLOWS are filled with choice hen feathers, properly cured and sterilized, thoroughly deodored and curled by a patented process, which makes them soft and elastic. They are odorless, sanitary and covered with a neat striped ticking. Size, 18x25 inches. They weigh about 4 1/2 pounds. Guaranteed first quality and free from foreign substances. Shipping weight of complete bed outfit, about 175 pounds.

4 ft. 6 in. Or 3 ft. 6 in. Sizes.

No. 3K1792. The Bed Can Be Ordered In
Choice Of Satin Or Bright Finishes As Desired.

THE BED is very massive in appearance, being constructed with 2-inch continuous posts. There are five 1-inch fillers and intermediate cross rods, measuring 1 inch in diameter. The bottom rod, likewise, is 1 inch in size. Head end stands 54½ inches high, foot 33½ inches from the floor. These measurements include casters. You can have your choice of either the artistic satin finish or bright finish you desire. This bed is made in two sizes—6 in. and 3 ft. 6 in. When ordering please state which you prefer.

THE MATTRESS is covered with a fine cotton felt and excelsior. The interior consists of fine cotton felt and excelsior; the top, bottom and sides are filled with a very good grade of pure elastic cotton felt, which is absolutely new. Strongly stitched, deeply tufted and made with Imperial roll edges. Secured by heavy leather tufting buttons.

THE SPRING is very strong and reliable. Possesses a link fabric spring with copper wire edge. The links are fastened to the end angles by heavy oil-tempered helicals. The frame is made of heavy angle iron, being nicely finished in black Japan. This is a spring that we can recommend, because it will give unlimited service.

THE PILLOWS are of a high grade and are filled with hen feathers, cured and sterilized. They are odorless and sanitary. They are covered with fancy art ticking. Size 18x26. This 5-piece outfit is made of dependable materials and at the price we quote it is a real bargain. Shipping weight of the outfit is approximately 250 pounds.

CONFIDENCE plays a big part in the purchase of goods of any kind. It is especially important when it comes to buying goods by mail, because you must have confidence in us, and we must have confidence in you. We state frankly that we have the utmost confidence in the average person. We trust our customers absolutely. That's why we are going to let you try this bed on approval, with the understanding that if it is not satisfactory you don't have to keep it. If it pleases you pay for it according to our easy credit terms.

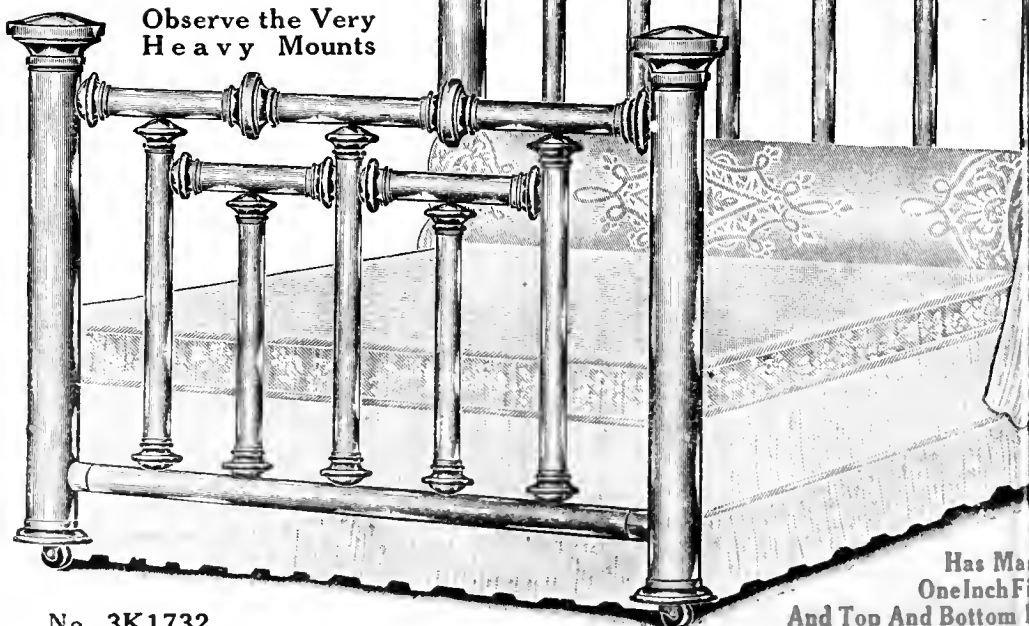

THE FINISH is the new Polet style, which is a satin finish on the posts, fillers and top and bottom rods, and bright finished mounts. The bright brass ornaments form a striking contrast to the satin (dull finished) parts. The pillars are 2 inches in size, making this a massive bed and the mounts are exceptionally big and imposing. It is a stylish pattern this season, and one that we know is destined to become exceptionally popular. Send us your order now so as to avoid any disappointment.

REMEMBER that you can have your choice of any size that you desire—3 ft., 3 ft. 3 in., 3 ft. 6 inches, 4 ft. or 4 ft. 6 inches at the same price. In sending us your order be sure to mention which size you wish. This is a bed fine enough to be placed in any bedroom no matter how elegant. Height head end, 58 in., foot end, 38 in. The price is lower than most dealers ask for Polet beds of this type. Filler rods and top and bottom rods are 1 inch. Shipping weight about 125 lbs.

No. 3K1697. STEEL BED

VERY POPULAR. This bed presents such a nice appearance that we could undoubtedly sell it for more money, but we are satisfied with a small margin of profit, and believe it good business policy to give our customers the benefits of the best bargains we can offer. It is a plain, simple pattern of great popularity. This bed has five fillers and dainty chills connect them with the top and bottom rods. The pillars measure 1 1/2 in., bottom rod and filling rods 5/8 in., height of head, 58 1/2 in.; height of foot 40 in. You can have your choice of 3 ft. 6 in., 4 ft. or 4 ft. 6 in., as you desire, at the low price we quote. Choice of pea green or Vernis Martin (gold bronze) finish. Shipping weight, about 77 lbs.

SUBSTANTIAL BEDROOM FURNITURE

THESE PIECES are inexpensive, yet attractive in design. The dressers, chiffonier and commode are all made of durable hardwood to which is applied the American quartered oak finish, which is in imitation of genuine quarter-sawn oak. The color is the popular golden in nice gloss finish.

THIS DRESSER is made with scroll feet and advantage. These standards support the heavy 24x20-inch French bevel plate mirror. The base top is of a nice size, measuring 40x19 inches. The two top drawers are overhanging and like the two full length drawers below are fitted with round wooden knobs and locks. Is made of hardwood in American quartered oak finish, made to resemble the genuine quarter-sawn oak. Glossed golden color. Comes complete with casters. Shipping weight, about 120 lbs.

No. 3K1747. Price..... \$13.75

PRINCESS DRESSER

Shown to the right is made in the same attractive design as the Colonial dresser. The American quartered oak finish is applied to the hardwood, giving the appearance of real quarter-sawn oak. The base top measures 40x19 inches and the large French bevel plate mirror is 30x18 inches. There is one large and two small drawers fitted with round wooden knobs. Front feet and mirror standards are Colonial scroll design. A very pleasing Princess Dresser and a good value for the money. Shipping weight about 110 pounds.

2-INCH STEEL POST BED. Here is a very simple, yet exceedingly popular style bed. In fact it is the simplicity of design that will appeal to the discriminating purchaser. It is a bed of which you will not tire and one whose service-giving qualities will surely appeal to you. The pillars are 2 inches in size, the top and bottom rods as well as the fillers each measuring 1 1/2 inches in diameter. The head end stands 53 inches from the floor, the foot end, 36 inches in height. You can have your choice of 3 ft. 6 in. or 4 ft. 6 in. widths. Comes in white or Vernis Martin (gold bronze) finish. In ordering state size and color that you prefer. Finish is put on by a new, improved process that approximates perfection. Shipping weight, about 72 lbs.

No. 3K1749. Price..... \$9.65

COMMODE is shown directly above. The Colonial idea is carried out by the towel rod standards and scroll feet. There is one full length drawer and two door cabinet below. These doors are paneled and, like the r, are fitted with round wooden knobs. Commode is made of hardwood to which is d a finish in imitation of genuine quarter-sawn oak, glossed golden finish. Base measures 33x19 inches. It comes complete with casters as shown. Although this commode is low in price we feel sure that you will be well pleased with its appearance. Shipping weight about 75 lbs.

No. 3K1750. Price..... \$5.95

THE CHIFFONIER above is made of substantial hardwood finished in American quartered oak which is applied to the hardwood in such a way as to look like the real quarter-sawn oak. Has overhanging top drawer and four full length drawers below, all fitted with locks. Colonial design. Mirror standards support the 16x12-inch French bevel plate mirror. Chiffonier stands 60 inches high and base top is 33x19 inches. Glossed golden finish. Is set off with Colonial scroll feet as shown in the illustration. Drawers fitted with round wooden knobs. Shipping weight is approximately 115 lbs.

Price, \$26.75

THE DRESSER is made throughout of thoroughly seasoned and kiln dried oak, golden color. The single end panels are of durable solid oak and the back panel is 3-ply lumber. The attractive serpentine shaped base top adds greatly to the appearance of this dresser. The shapely mirror frame standards, and neat carvings shown, combine to make this dresser one that demands your attention. To be sure, it is not overly lavish and it is its very simplicity that will appeal to all critical buyers. The base top measures 38x19 inches and the French bevel plate mirror is 20x18 inches. Total height is 66½ inches. The two overhanging top drawers and the two full length drawers below afford ample capacity for the needs of anyone. Round wooden knobs used on the drawers. Observe the French shaped feet and the neat panel across the bottom of this dresser. Complete with hardwood casters.

THE BED is very well constructed in a workmanlike manner and made throughout of thoroughly seasoned and kiln dried oak, golden color. The panels in both the head and foot ends are made of 3-ply lumber. You will observe that the carving at the top of the bed and that across the foot end harmonize beautifully with the embellishment appearing on the dresser as well as the commode. Like these other two pieces, the finish is a rich golden color, which will be found to be very appropriate with all surroundings. Neat French shaped front legs are attractive in appearance, as is the entire design of this piece of furniture. The rails are 72 inches long, the slats are 4 feet, 6 inches, this being a full sized bed, and the height over all is 66½ inches. This bed is furnished with hardwood casters.

THE COMMODE is the counterpart in style of the dresser shown and described above. The towel bar standards are gracefully curved to correspond with the mirror frame standards on the dresser. The deep carving is made to match perfectly; the shapely serpentine front of base top corresponds with the dresser to perfection. This commode has a full length top drawer and a double door cupboard below, as illustrated. Drawer and cupboard door both fitted with round, wooden knobs. It is made throughout of thoroughly seasoned and kiln dried oak; the single end panels are of solid oak, while the back panel is 3-ply lumber. The finish is a rich golden color to match both bed and dresser. The base top measures 30x17 inches, being just a nice size, and the height is 47 inches from the floor to the extreme top. This commode is fitted with hardwood casters. The shipping weight of these three pieces, all carefully packed to insure safe arrival, is approximately 280 pounds. **\$26.75**

Bed No. 3K1638

THE NAPOLEON BED is of imposing design and will appeal to admirers of good furniture. It is 60 inches high at the head, 6 feet 5 inches long and 4 feet 6 inches wide. This bed is hardwood finished imitation quarter-sawn oak, nicely glossed, showing the beautiful flaky effect of the wood. The posts are of exceptionally good design, which adds to the bed's massive appearance. Shipping weight, 130 pounds.

Price **\$12.95**

NO. 3K1639. COLONIAL DRESSER The Dresser of this suit is also finished imitation quarter-sawn oak, is extremely handsome and massive, the top measuring 40x20 inches. Has two top drawers with two roomy and easy sliding drawers below. The mirror is French beveled plate, measuring 24x30 inches, with heavy frame swinging in handsome shapely standards. It has a gloss finish to correspond with the other pieces in the set. Shipping weight, 125 lbs.

Price **\$15.75**

NO. 3K1640. PRINCESS DRESSER This Princess Dresser matches the other pieces exactly. Finished in imitation quartered oak, glossed. It is very dainty in appearance, made with roll swell top drawers and scroll feet. The top measures 45x22 inches and the oblong French plate mirror is 24 inches wide and 36 inches high. There are two large roomy drawers below; all are easy sliding.

Price **\$22.40**

NO. 3K1641. CHIFFONIER matches the dresser perfectly. It is made with neat Colonial front legs. The top measures 32x19 inches and the French plate mirror measures 16x20 inches. It is finished in imitation quarter-sawn oak, and is very substantial. Shipping weight, 125 pounds.

Price **\$14.95**

NO. 3K1642. COMMODOE This Commode is 32 inches wide and is 19 inches deep. It has a double top, one full-length drawer and two roomy compartments below, with paneled doors. The ends are fully paneled construction. The design harmonizes exactly with dresser and is finished in imitation quartered oak, glossed. Shipping weight, 75 pounds.

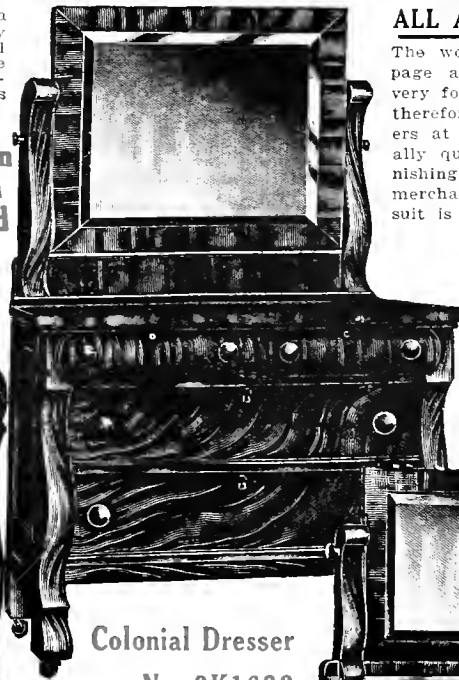

Price **\$7.50**

NO. 3K1643. DRESSING TABLE Colonial in design and a perfect match to the other pieces of this set in finish and style. Size of top 32x19 inches. The French plate beveled edge mirror measures 20x16 inches and is accurately framed and swings between Colonial standards. Has Colonial legs stoutly braced. Shipping weight, 60 pounds.

Price **\$9.75**

ALL ARE SPECIAL LEADERS.

The wonderful values given on this page are made possible through a very fortunate purchase, and we can therefore offer them to our customers at prices lower than those usually quoted by any other housefurnishing concern in the country for merchandise of this quality. This suit is made of hardwood, to which is applied a finish in imitation of quarter-sawn oak, that closely resembles the real wood. We particularly invite you to compare this suit with any similar ones, and thus see that much greater values are given here than anywhere else.

The Dresser Has
A 20 x 38 Inc
Base and 20 x 2
Inch Bevel Plat
Mirror As Show

The Bed Meas
ures Full 5
Inches In Width

THE DRESSER is the latest production of one of the largest furniture factories in America, as are the bed and commode forming this extremely attractive, highly serviceable bedroom suit. The dresser is constructed throughout of durable thoroughly seasoned hardwood, to which is applied a finish in imitation of genuine quarter-sawed oak, which very closely resembles the real wood. The rich, golden color adds greatly to its attractive appearance. Three-ply, built-up stock is used in the back and drawer bottoms. A method of interior corner bracing holds this piece of furniture perfectly square and very rigid. The base measures 20x38 inches and the French level mirror with rounded top is 20x24 inches in size. Colonial arms supporting the mirror correspond with the shapely corner posts in the base. Possesses a high gloss finish. The overhung top drawers and two full length drawers below, as illustrated. Round wooden knobs.

NAPOLÉON BED is made of the same durable materials as the dresser and the Napoleon posts harmonize beautifully with the shapely contour of the dresser posts. This very massive bed is made of thoroughly seasoned hardwood, to which is applied a highly figured imitation quartered oak finish bearing a remarkably close resemblance to genuine quarter-sawed oak. The high gloss golden oak finish enhances the appearance of the bed, making it exceptionally pleasing to the eye. The height of the head end is 58 inches, the foot end measuring 38 inches from the floor. This is not a small size bed by any means, as it measures 1 foot 54 inches in width (4 feet, 6 inches.) It is constructed throughout in a workmanlike manner, all parts being carefully cut and firmly joined. The panels are made of three-ply built-up stock which will not split or crack. Like the dresser and commode, it comes complete with casters.

COMMODOE is also constructed of kiln dried hardwood, finished in a rich imitation quartered oak. As stated above, this finish bears a wonderfully close resemblance to genuine quarter-sawed oak, so much so in fact that the average person could not tell the one from the other. Comes in a golden color to match the other pieces of this set. The base measures 18x30 inches, which is just a nice size and will prove sufficiently large for the needs of anyone. This commode stands perfectly solid, this substantial construction produced by reason of a system of interior bracing. Although this construction does not appear from the exterior it is just another example of our sincerity in presenting to you merchandise that is not skimmed in any way. The back and drawer bottoms are made of three-ply stock. Has full length drawer and double door compartment below. Round wooden knobs. Shipping weight of complete set, about 345 pounds.

NEW "IMPERIAL" CIRCASSIAN WALNUT

Or Imitation Mahogany Finish Is Used In This FINE COLONIAL BED ROOM FURNITURE

THESE PIECES

are made by a special process. The lumber used is substantial, durable hardwood to which is applied a satin (dull) Circassian walnut finish, or a dull rubbed mahogany finish, either of which so closely resembles the genuine wood that it is difficult for the most critical eye to detect the difference.

THIS DRESSER

is a very stately piece of furniture, beautifully proportioned, in the true Colonial design. The mirror frame sets between two artistically designed standards. This mirror is a fine French bevel plate and measures 24x28 inches. There are two straight front top drawers and two full length drawers below with the very striking swell front. These drawers are fitted with wood drawer pulls. The front corner posts are also of Colonial design to match the mirror standards above. The top of the dresser measures 32x42 inches and the height of the base is 36 inches. It matches the other pieces of this set perfectly. Shipping wt. is about 150 lbs.

No. 3K1645

PRINCESS DRESSER. This Princess Dresser matches the other pieces shown on this page. Has 20 x 36 inch top and 18 x 30 inch French bevel plate mirror. The two extended top drawers are straight and the two large bottom drawers have a swell front. Base is 31 inches high. Send us your order for this Princess Dresser and take advantage of our credit terms shown on page one. Ship. wt., about 120 lbs.

Heavy Plank Tops

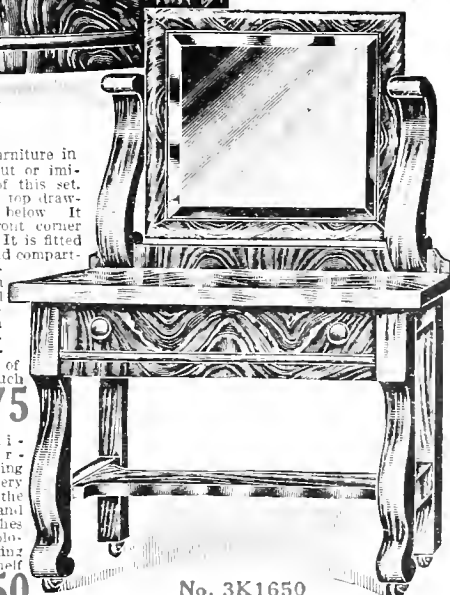

No. 3K1649

THE COMMODE is a very tasty piece of furniture in imitation mahogany finish or imitation Circassian walnut. The top measures 19x32 inches. It has a full length top drawer, two small drawers on the left and compartment below. It is beautifully finished off with Colonial shaped front corner posts, and Colonial standards supporting towel bar. It is fitted with wood knobs as shown. The two lower drawers and compartment door have swell shaped front. It is indeed a very serviceable piece of bedroom furniture and one which you should by all means have to complete this set. The special process used to give the Circassian or mahogany finish is a wonderful invention and gives you an opportunity of possessing furniture that has the appearance of genuine wood at prices that are very much lower. The shipping wt. of this stand is approximately 75 lbs.

GENUINE QUARTER-SAWED

AND SOLID OAK BED ROOM SUIT

At This Low Price

\$31⁹⁵

This Beautiful
New Set Comes
Finished In A
Rich Golden Oak,
Highly Glossed.

Dresser and
Commode Have
Artistic Serpentine
Fronts.

THE DRESSER is a very attractive piece of bedroom furniture. It possesses graceful lines, without undue or lavish embellishment. The mirror frame standards are shapely, but plain. The serpentine top and front are very artistic, but are elegant, and therefore will appeal to patrons of refined taste. There are two top drawers and two full length drawers, all fitted with round wooden knobs. The French feet enhance the appearance of this dresser, giving it the finishing touch that it requires. It is made with genuine quarter-sawed oak serpentine front, the balance of the wood being of well seasoned kiln-dried solid oak. The base top is 38 inches wide and 26 inches deep. French bevel plate mirror is 20x24 inches. Has 3-ply built-up top and drawer bottoms are constructed of 3-ply veneers. The finish is a high gloss golden oak. Comes complete with locks, key and casters.

THE BED is elegant in its simplicity. A casual glance at the illustration is sufficient to gain the approval of those who appreciate the better achievements in bedroom furniture. The French feet complete the generally pleasing effect of its design. It is made in a thoroughly workmanlike manner, is substantial in construction and contains excellent material. Genuine quarter-sawed oak is used on the panels, being selected for its large flaky grain. The balance of the bed is made of seasoned, kiln-dried solid oak. Like the dresser and commode this bed is finished in a high gloss golden oak. The head board measures 60 inches from the ground. It is a full size bed, measuring 4 feet 6 inches in width. It is equipped with slats and casters. We know that you will be well pleased with this bed if you order this suit. Be sure to read the complete description of the dresser and commode—and we know that you will want this fine suit.

THE COMMODE is made to carry out the artistic lines of the dresser, and a comparison of the two will convince you that they are matched in a very pleasing manner. The towel bar standards of the commode are of the same design as the mirror frame standards on the dresser; it possesses the same style, serpentine top and drawer and terminates in shapely French design feet. Made with a two door cupboard, with paneled fronts as illustrated. Drawer and doors fitted with round wooden knobs. Genuine quarter-sawed oak face is used on the serpentine drawer, the balance being well seasoned solid oak. The base measures 18x32 inches, and the base top is made of 3-ply built-up stock. This commode is finished in high gloss golden oak. Order this magnificent 3-piece bedroom suit and you are sure to be pleased in every way. Shipping weight of complete suit, about 325 pounds.

No. 3K1746

THE BED is a Napoleon type with attractive Colonial scroll front posts. Is made of hardwood to which is applied a finish in imitation of genuine quarter-sawn oak. High gloss golden finish. Height of head end is 58 inches, foot end 38 inches. It is a full width bed, measuring 54 inches. Comes complete with casters as shown. Shipping weight about 115 pounds.

THE COMMODE is a stylish, Colonial design to correspond with the other pieces of this set. It is made of durable, hardwood to which is applied a well known American quartered oak finish, giving the appearance of real quarter-sawn oak in high gloss golden color. Has heavy scroll posts, overhung top drawer and straight front. 18x32 inch base. Shipping weight, about 100 pounds.

THE DRESSER is a striking Colonial design. It is likewise made of substantial hardwood to which is applied the attractive American quartered oak finish. This is applied to the hardwood so as to give the appearance of real quarter-sawn oak. Has a high gloss golden finish. Two top drawers, slightly overhung and two large, roomy drawers below. Heavy Colonial posts and standards, together with the scroll feet add greatly to the appearance of this model. Base measures 21x12 inches and the French bevel plate mirror, 24x30 inches. Each piece is strongly constructed and backed by our guarantee of satisfaction or your money refunded. See page 1 for our liberal credit terms. Shipping weight, about 160 pounds.

No. 3K1118 1/2**A Three-Piece Suit Of Great Beauty**

THE BED is of artistic Napoleon style and has a massive roll extending the entire width of the foot end, and there is also massive roll across the head at the top. Both head and foot are enhanced with heavy scrolls and the feet of the foot end are in carved claw design. This bed is of full width, measuring 4 feet 6 inches and is 5 feet high at the head end.

THE DRESSER is made of thoroughly seasoned and kiln dried solid oak. The serpentine front is veneered with handsome genuine quarter-sawn oak. The single end panels are made of three ply rotary cut oak of unusually strong construction. Double moulded top is 42x21 inches. French bevel plate mirror is 28x22 inches. Standards and mirror frame ornamented by deep cut hand carvings. Trimmed with brass handles and hardwood casters. Finished rich golden.

THE COMMODE also made of solid oak. Top drawer veneered with quarter-sawn oak. Three ply single end panels. Heavy double shaped top is 34x19 inches; full serpentine top drawer to match the serpentine front of the dresser. It also has rounded posts and carved claw feet. The mirror measures 18x12 inches. Trimmed with brass handles and hardwood casters. Finished rich golden color. Shipping weight of entire suit, about 310 pounds. We recommend this suit to anyone desiring a good serviceable bed room suite.

Set No. 3K1653

THE BED is of unusual design, with bold, effective carvings in the head and foot, as illustrated. The attractiveness of this piece will at once appeal to the lover of beautiful bedroom furniture. Note the heavy claw feet, the splendid rich grain and the artistic tone that this fine bed possesses. Is 4 feet 6 inches wide; head measures 80 inches high. Bed panels are three-ply rotary cut oak, which insures service, and the large roll on the footboard is quarter-sawed oak.

THE DRESSER will back up every contention that we make for its service-giving qualities. And we say positively that no matter how far you look you will not find a more practical dresser included in a bedroom suit at our exceedingly low price. It is made to match the other pieces shown in this outfit. The entire front is made of fine flaky quarter-sawed oak. Has two small top drawers, 2 large drawers, all with attractive swell front. The mirror is a fine French Bevel Plate, measuring 24x16 inches. Has heavy claw feet resting on easy sliding casters. Base measures 42x21 inches. Is fitted with locks and key.

THE COMMODE may be secured either with or without the mirror. It is made of quarter-sawed oak and harmonizes perfectly with the other pieces in beauty of design and serviceability. Has large shaped top drawer, two smaller drawers below and compartment as shown in the illustration. This compartment has paneled door. Base measures 24x19 inches and the mirror is 18x12 inches. Profit by our liberal offer and have this fine suit of furniture sent to you. You are protected by our legal guarantee, and are taking no chances whatever. Ship. wt., about 310 lbs.

Solid Oak Mission Bedroom Furniture

In Bungalow Design

SIMPLICITY OF STYLE in bedroom furniture is simplicity results in the execution of such a suit as the one illustrated on this page. It is the kind of furniture that is particularly adapted to summer use—whereby it gets its name. The Bungalow design has met with great favor among the practical women of today. They see in it not only stateliness and beauty, but its sanitary features as well. For this furniture can be kept clean with great ease.

THE DRESSING TABLE illustrated to the left is made of substantial Solid Oak and comes in either glossed golden or fumed finish as you prefer. In ordering kindly state your preference. Like all of the other pieces in the set it is built in the mission style, Bungalow design. The top of the base is a convenient size, being 20x36 inches, and the square shaped French beveled plate mirror is 16x24 inches. This fine piece of bedroom furniture stands 60 inches high, has a full length drawer as shown, and true mission design mirror standards. Fitted with maple wheel casters. Shipping weight about 100 lbs. No. 3K1000. Price..... **\$13.50**

Metal Side Rails

QUARTER-SAWED OAK OR BIRD'S-EYE MAPLE

Tudor
Period

Bedroom Furniture

WE ASK you to carefully consider the values represented on this page. The prices are all exceptionally low, considering the high quality of the articles themselves. All are made in the William and Mary or Tudor period to correspond. You can order any one or any combination at the figures quoted. Take your choice of glossed golden quarter sawed oak or bird's-eye maple. State which you prefer when ordering.

No. 3K1182

No.
3K1180

THE BED is made with artistic turned posts as illustrated. Although this bed is dainty in style, it is substantial in construction. You can order it in genuine selected quarter sawed oak in golden gloss finish or bird's-eye maple. Please mention which you desire. Has sanitary metal side rails—a very commendable feature.

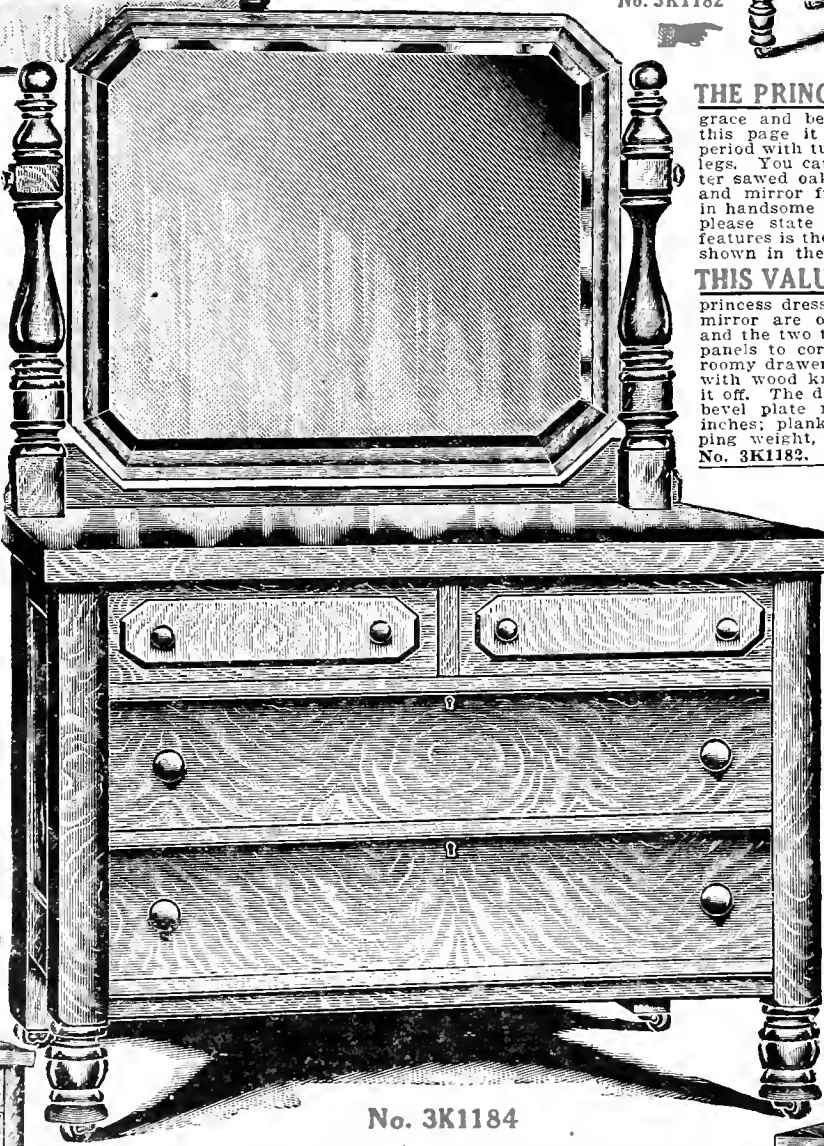

YOU SHOULD order this number if you want to combine appearance with fine workmanship. The posts are 62 inches high and the width is 4 feet 6 inches; this being a full sized bed. Is equipped with maple wheel casters. Is a great value at the price. Shipping weight about 150 pounds.
No. 3K1180. Price \$21.95

THE CHIFFONIER is shown directly below. This is likewise made of selected quarter sawed oak (except the posts, standards and mirror frame) in golden color, gloss finish or can be had in bird's-eye maple—state which you prefer. Two top drawers with octagonal raised panels; four full length drawers below.

IT IS of the Tudor period. Has moulded mirror frame, wood knobs, maple wheel casters, octagonal shape French bevel plate mirror measures 16x26 inches; height is 69 inches, plank base top dimensions are 20x36 inches. Turned standards and feet. The shipping weight, carefully packed, is about 150 pounds.
No. 3K1181. Price \$22.65

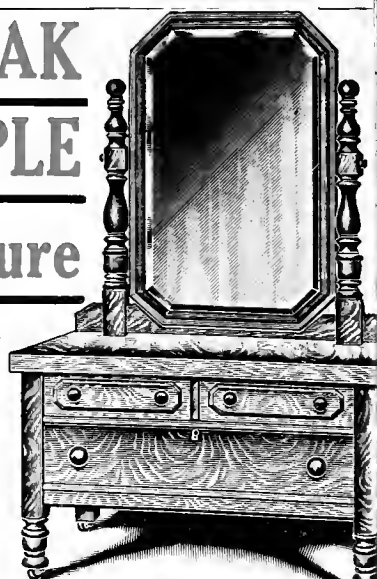

No. 3K1181

No. 3K1184

THE DRESSER is illustrated above in the large picture. It not only serves as a true representation of the dresser itself, but shows to advantage, the beautiful lines to be found in the other pieces on this page. It is a fine example of the William and Mary, or Tudor period bedroom furniture, bringing out the gracefully turned mirror frame, standards and the artistic turned legs. The moulded mirror frame, of octagonal design, corresponds with the octagonal raised panels on the two top drawers. And be sure to note the heavy plank base top. There are two full length drawers below. For further particulars about this dresser, read the paragraph to the right.

YOUR CHOICE of genuine quarter sawed oak (except posts, standards and mirror frame) in glossed golden finish or of bird's-eye maple. The top measures 42 inches wide, 21 inches deep and 1 1/2 inches thick. The mirror frame standards are 2 1/2 inches in diameter, the turned feet being 2 1/2 inches, to match. The moulding on the mirror frame is 2 inches wide. The mirror itself is a French bevel plate, being 24x30 inches in size. Stands 65 inches from the floor. Wood knobs, maple wheel casters. Complete with locks and key. The shipping weight, carefully packed to insure safe arrival, is about 175 pounds.
No. 3K1184. Price \$24.85

THE PRINCESS DRESSER is an article of extreme grace and beauty. Like the other pieces on this page it is designed in the true Tudor period with turned mirror frame standards and legs. You can order it made of genuine quarter sawed oak (excepting the posts, standards and mirror frame) in golden gloss finish, in handsome bird's-eye maple. When ordered please state which you prefer. One of its features is the stunning moulded mirror frame shown in the picture above.

THIS VALUE can be appreciated thoroughly, only after seeing the princess dresser itself. The mirror frame and mirror are of the striking octagonal shape and the two top drawers have octagonal raised panels to correspond. There is a full length roomy drawer below. These drawers are fitted with wood knobs. Maple wheel casters firm it off. The dimensions are as follows: French bevel plate mirror, 18x40 inches; height, 65 inches; plank base top, 21x42 inches. Shipping weight, about 173 pounds.
No. 3K1182. Price \$21.75

DRESSING TABLE

can be secured made of genuine quarter-sawed oak (except posts, standards and mirror frame) in the golden gloss finish. Or you can have this same piece made of bird's-eye maple at the same price. Has wood knobs and maple wheel casters. Two drawers with octagonal raised panels.

TRIPLICATE MIRROR

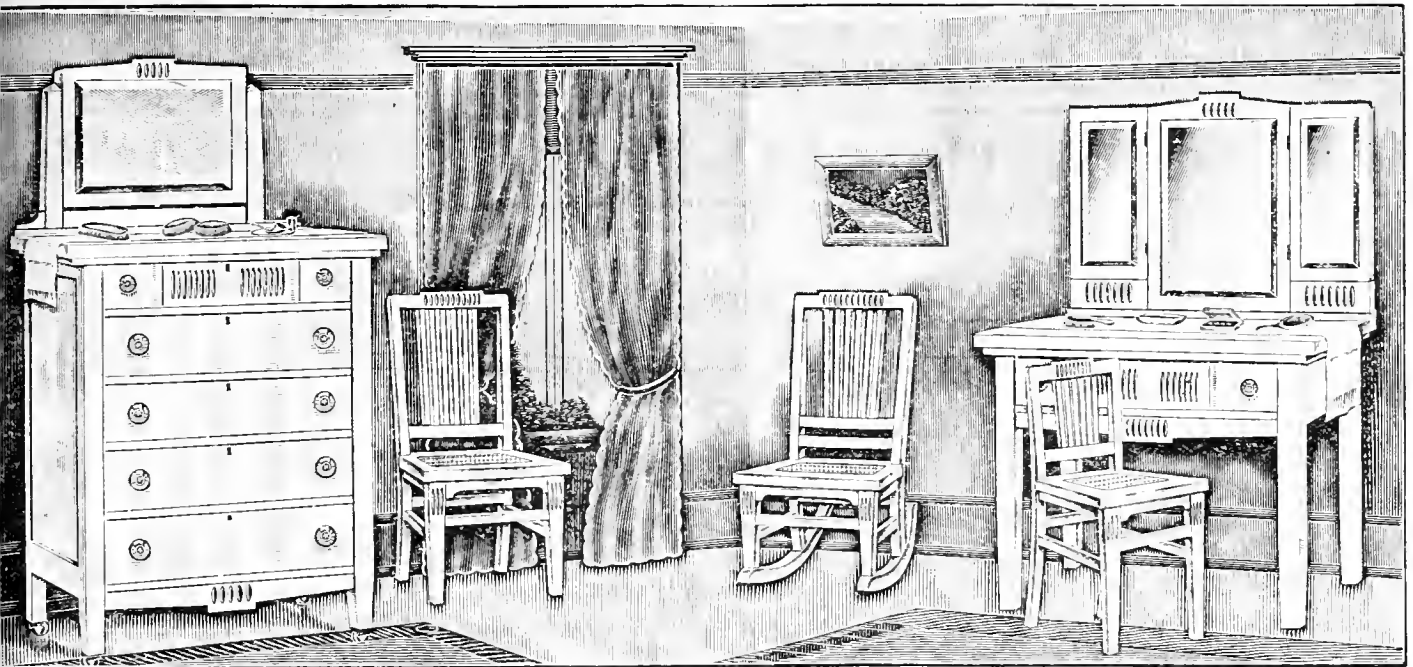

as illustrated below is a feature; you can see your image at all angles, front, back and sides, as the two end plates swing forward, when desired. Center mirror, French bevel plate, is 14x20 inches; side mirrors, plain plate, are 6 inches. Height, 54 inches, plank base top, 20x36 inches. Moulded mirror frames. A typical Tudor period dressing table. Turned brace as shown. Shipping weight, about 105 pounds.

FURNITURE THAT BEAUTIFIES THE BEDROOM

the Stylish Adams Period In Your Choice of Ivory Enamel, Waxed Golden or Fumed Oak Finish

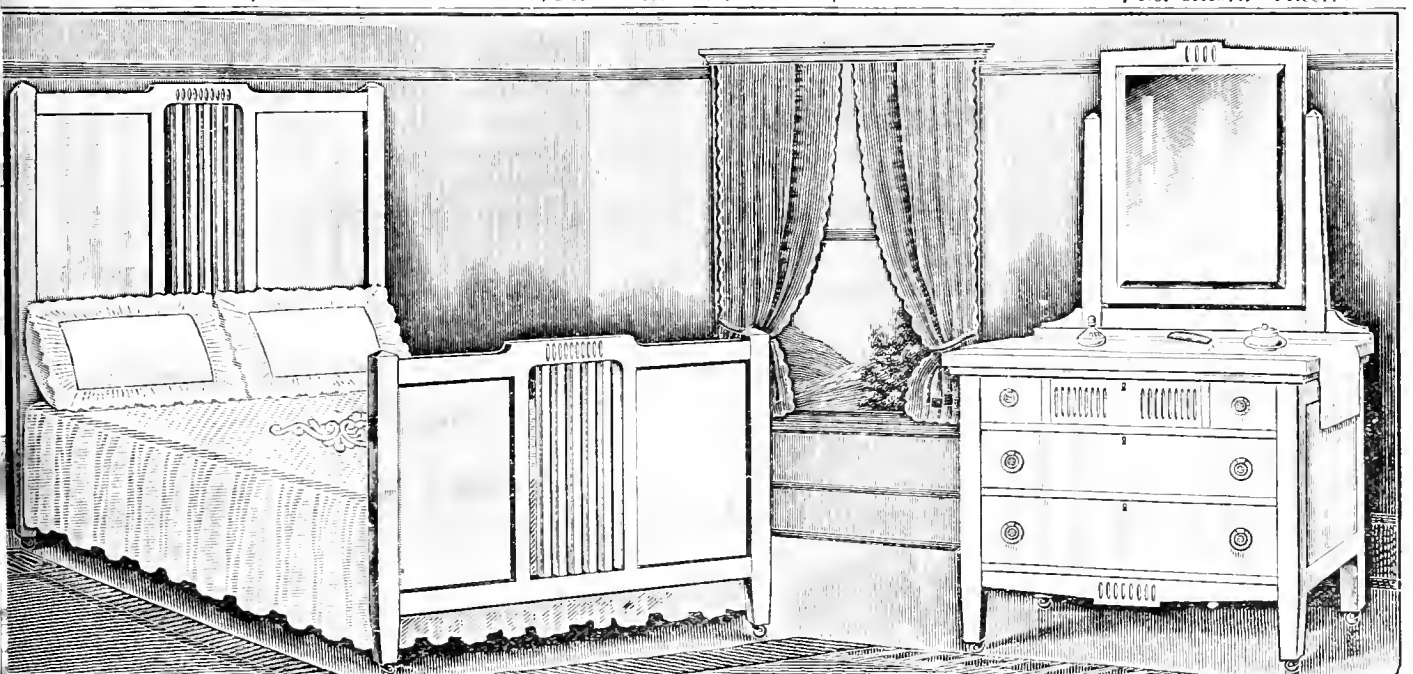

CHIFFONIER of solid oak throughout, ivory enamel, waxed golden or fumed finish. Has 3-ply built-up panels to protect it against buckling or warping. Choice of finishes given above. Has three well arranged drawers; brass drawer pulls. Table top measures 36x19 inches. Large French plate mirror is 22x14 inches; small mirrors each 18x8 in. Shpg. wt. about 110 lbs. Price, \$14.55

CHAIR is made of genuine quarter-sawn oak in choice of waxed golden or fumed finish, or ivory enamel. Kindly state which is wanted. Is made in the typical Adams period with cane seat, as illustrated. Width of seat is 16 inches, height of back 19 1/2 inches; the slats measure 1 1/4 inches wide. Legs well braced with stretchers. Shipping weight, about 12 pounds. Price, \$4.95

ROCKER matches the chair exactly, likewise being constructed in the approved Adams period design. Is made of genuine quarter-sawn oak in choice of waxed golden or fumed finish, or of ivory enamel. Sizes: Width of seat 16 inches, height of back 22 inches, width of slats 1 1/4 inches. Well made cane seat. Shipping weight is about 14 pounds. Price, \$5.95

DRESSING TABLE is built of solid oak throughout, with 3-ply built-up panels to protect it against buckling or warping. Choice of finishes given above. Has three well arranged drawers; brass drawer pulls. Table top measures 36x19 inches. Large French plate mirror is 22x14 inches; small mirrors each 18x8 in. Shpg. wt. about 110 lbs. Price, \$15.75

DRESSING TABLE CHAIR shown above is made of genuine quarter-sawn oak, or ivory enamel. Be sure to state the finish that you desire us to send. Cane seat; legs braced by stretchers. Width of seat 16 inches, height of back 13 inches, width of slats 1 1/4 inches. Shipping weight, about 12 pounds. Price, \$4.85

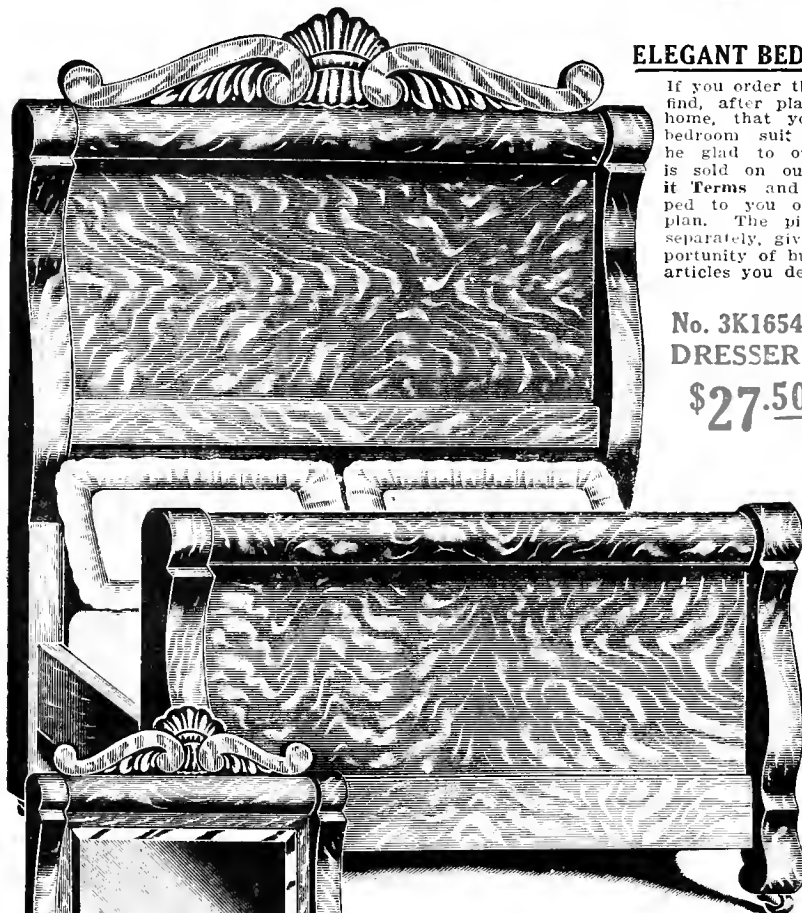

THE HANDSOME BED is shown directly above. This full size bed is designed in conformity with the popular straight line idea which characterizes the Adams period furniture. Although not in style, it is a substantially constructed piece of furniture and is made in every particular. The posts are nicely made of solid white oak. The panels are constructed of 3-ply built-up stock, which reduces the tendency to warp or split. The five-slat design in the head and foot ends unifies this artistic bedstead to a degree. You can order it in your choice of ivory enamel, waxed golden or fumed oak finish as you prefer. In sending us your order, we request you to kindly specify which finish you desire. In illustrating this bed, as well as the other pieces of this set, we have shown you how these pieces would appear when actually placed in the bedroom. Order this bed on approval, and place it in your bedroom for a thorough appreciation of its beauty. Height of head end, 42 in.; foot end, 42 in. Shipping weight, about 115 pounds. Price, \$11.95

THE ATTRACTIVE DRESSER is illustrated directly above. Like the remainder of this fine bedroom suit, it is designed in accordance with the popular straight line idea which prevails in Adams period furniture. Is made of thoroughly seasoned and kiln dried solid oak throughout, with the back, ends and drawer bottoms made of 3-ply built-up stock, which lessens warping and splitting. This dresser is made with five drawers; two full length, roomy drawers below and three small ones above, the center top drawer being set off with neat period straight line decoration. The base top measures 40x20 inches in size, and the French plate mirror is 26x22 inches. We give you your option of waxed golden, fumed oak or ivory enamel finish. In ordering, please advise which you prefer. The trimmings used on this dresser are unique in style. Are made of brass and just as shown in the illustration. They correspond with the trimmings used on the chiffonier and dressing table described above. Shipping weight, 160 pounds. Price, \$16.75

DRESSER BARGAINS IMPORTANT TO YOU

American
Quarter-

Sold on Approval

An Excellent Value

THE SIMPLE LINES

of this dresser will appeal to those who admire the plainer styles in bed room furniture. It is well proportioned, graceful in design, yet devoid of the fancy embellishments found on some dressers. It is well constructed and is offered as a good value for the money.

It is made of substantial hardwood to which is applied a finish in imitation of genuine quarter-sawed oak. This is known as American quartered oak and bears a close resemblance to the real wood. It is nicely finished in a glossed golden color that is so generally used. Has two top drawers and two full length drawers as shown.

MIRROR

is French beveled plate. It measures 16x20 inches. Frame is carved at top and is supported by nicely curved standards. Base top measures 19x38 inches; is of planked style. Fitted with round wooden drawer knobs, locks, key and casters. Ends are attractively paneled. Shipping weight, about 100 pounds.

Select This Colonial Dresser

Handsome Pattern

THIS DRESSER is made of durable hardwood, to which is applied a finish in imitation of genuine quarter-sawed oak that looks very much like the real wood. It is finished in a highly glossed golden. The stunning Colonial effect is carried out by the heavy scroll feet and shapely Colonial posts and standards. There are four drawers in the base, the two upper ones being slightly overhung, as shown in the picture. These drawers have round wooden knobs. The two lower drawers are nice and roomy and will answer the average needs. We guarantee satisfaction. Take advantage of our liberal credit terms, as shown on page one.

BASE TOP

measures 20x38 inches. There is a neat back-guard, from which there rise two mirror frame standards of Colonial design, to support the attractive French beveled plate mirror. This mirror is 20x24 inches. Consider the liberal terms upon which we sell it to you and you must agree that this is a splendid offering at this low price. Complete with locks, key and casters. Shipping weight, about 125 lbs.

THE WORKMANSHIP of this desirable piece of bedroom furniture is of a thoroughly dependable quality and is another instance where we try to go just a step further than other houses selling the same character of merchandise as we do. The details of construction are given very careful consideration; and the dresser is finished a competent inspector looks it over and passes upon it. The material used is very practical and substantial. It is made of durable hardwood, to which is added a finish in imitation of quarter-sawed oak. The effect of this finish is so close to the genuine quarter-sawed oak that the inexperienced person could not detect the difference. We will notice that the mirror rests between two very gracefully curved standards, neatly shaped with a tasteful embellishment on each side. The back panel upon which these standards are shaped sufficiently to give it grace without undue decoration. The legs are sturdy and substantial, yet plain in style. There are two top drawers and two full length drawers beneath, which give plenty of room for the needs of the average person. These drawers are fitted with round wooden drawer pulls, locks and key. Below these drawers there is a panel to properly set off the dresser and give it the "finishing touch" of style.

OUR ASSORTMENT of dressers is large. And before making your selection, we urge you to look through our entire line to familiarize yourself with the various offerings which we make. In that way you have an opportunity of seeing as to the styles, materials and prices. A comparison of these things is essential to an intelligent purchase; and one which will do justice both to yourself and to our offer. We offer this dresser to those who want a serviceable article at a low price. Of course, we do not recommend it as highly as some of the better models. But we do say with emphasis that we consider this a most excellent value for the money. Other details are found in the following paragraph.

THE MIRROR is a good quality French bevel plate measuring 24x14 inches. The base of the base is a good heavy piece of lumber measuring 38x19 inches, making the dresser just a nice size without being overly massive. In fact, if you want a dresser of about this size at a price in the neighborhood of our figure, you will do well to select this one. Take a good look at the illustration; remember, that it was taken from an actual photograph of the dresser itself; convince yourself that it is the style you want. Then we ask you to read over the description again very carefully, to be sure you have information that you desire. Shipping weight, about 110 pounds.

"DIVISION OF LABOR" is the plan adopted by the manufacturer of this well built dresser. By that we mean that certain men perform prescribed parts of the work, such as cutting out the lumber in the proper shape; others join the wood together; well trained craftsmen apply the finish, and careful packers prepare the completed product for shipment. That is known as "division of labor" because the work is divided among men who have devoted both time and care to the performance of the kind of labor entrusted to them. The small dealer frequently buys from the small manufacturer who has a limited force of workmen, because the small manufacturer is not so busy and can make up but a few articles at a time as the dealer needs them. One man in such shops does the work that it takes several men in the large factory to accomplish; and he cannot become as expert as the workman who is expending all of his efforts in one direction.

FOR THAT REASON in buying from Hartman's, who buy from the large factories, you are getting the thoroughly dependable workmanship, you are getting it at a very reasonable selling price, and you are further able to benefit by our long time, easy payment plan. This dresser is made of durable hardwood, to which is applied a finish in imitation of genuine quarter-sawed oak, that looks very much like the real wood and the average person can't tell the difference. It is finished in a highly glossed golden. The stunning Colonial effect is carried out by the heavy scroll feet and shapely Colonial posts and standards. There are four drawers in the base, the two upper ones being slightly overhung, as shown in the picture. These drawers have round wooden knobs. The two lower drawers are nice and roomy.

THE BASE TOP is of ample size for average use, measuring 29x38 inches. There is a neat back-guard, from which there rise two mirror frame standards of Colonial design, to support the attractive French bevel plate mirror. This mirror is 24x14 inches. Every line of this model reflects refinement and beauty. It is, in every way, a remarkably fine dresser for the money. And when you consider the liberal terms upon which we offer it to you, surely you must agree that this is a splendid value. It is complete with locks and key as well as casters. Send for this dresser upon approval. Ship. wt., about 125 lbs.

THE TIME TO BUY. When you are really in need of furnishings for your household, then is the time to fulfill your requirements. We do not advocate your purchasing merely because our merchandise is low in price. We will say frankly, however, that because of our bargain offers at times the great number of orders we receive reduces our stock so low that it is well to place your order early to avoid possible disappointment. It costs so little to have just what you want that you would not miss the trifling amount it requires. For that reason it is to your advantage to send us your order without delay, if you see some article that suits your fancy. Take for example this fine Princess dresser.

THIS PRINCESS DRESSER is made of hard wood to which is applied a finish in imitation of genuine quarter-sawed oak. It has a heavy plank top measuring 20x36 inches and an attractive long French beveled plate mirror measuring 18x30 inches. This mirror rests between two gracefully shaped Colonial standards, as shown in the illustration. There are two straight overhung drawers in the top and two full length drawers below, the latter being made with massive swell front. The corner posts are of beautiful Colonial design to conform with the shapely Colonial standards above. This Princess dresser is fitted with wooden drawer pulls as shown. Base height, 31 inches.

YOUR BED ROOM will be more complete if it contains this fine looking piece of furniture and after once having it you will wonder how you ever managed to get along without it. Send for it upon approval, and judge for yourself whether it comes up to the claims of extra value giving. We feel that you will be well pleased with it and be glad to avail yourself of our liberal credit terms shown on page 1. However, if it does not satisfy you in every way and you do not desire to keep it, remember that you can return it and we will reimburse you for every cent that the transaction has cost. Surely this is a liberal proposition. Shipping weight, about 120 lbs.

Order
Chiffonier To
Match

THE RICH STYLE of this Colonial Dresser is not often found here. Every housewife who likes good, high grade furniture in her home will be immensely pleased with this article, and we have never known a better model to be made that could be sold at lower figure. The chiffonier, too, which we offer to match this dresser, and which we show on another page, is equally as big a bargain. If you want two swell pieces for your bedroom, study these very carefully.

AMERICAN QUARTERED OAK finish on hardwood of an attractive grain is used on this dresser in imitation of genuine quarter-sawn oak. The rich golden finish is very popular. It is made with a square edge top, which measures 24 inches wide by 20 inches deep. A French bevel plate mirror is furnished and is 28 inches wide by 22 inches high and supported by nice curved Colonial scroll standards.

SIDE PANELS are of full length and are solidly mortised to front and back posts. The four deep drawers are equipped with locks and turned wood pulls. The two upper drawers are of small and convenient size. The front posts are curved in Colonial scroll effect. Shipping weight, about 125 pounds. If you desire to purchase the chiffonier to match this dresser, refer to No. 3K1773 shown on page 184, the price of which is given below.

NEAT COLONIAL DRESSER

**Of Massive Proportions. Made
Of American Quartered Oak
Has 45 In. Heavy Plank Top
And Rounded Mirror Frame**

**Order
The
Chiffonier
To
Match**

IF YOU STUDY the illustration of the dresser shown to the left, you can gain some idea of the excellence of this wonderfully built, thoroughly substantial article. Like its companion piece, it is made of hardwood, to which is applied a finish in imitation of quarter-sawed oak which looks like the genuine wood. It has a tasty rounded mirror frame, beautiful heavy standards, massive plank top and corner posts. The excellent construction of both dresser and chiffonier is such as to appeal to you.

THE BASE particularly we wish to call to your notice, because it measures 45 inches across, being 21 inches deep. The mirror is nice and large, measuring 22x28 inches and is of a good quality French bevel plate. There are three small top drawers made to resemble four, as shown in the picture and two full length drawers below. These are good and roomy, affording sufficient space for the needs of anyone. They are easy to slide in and out and are fitted with round wooden drawer pulls.

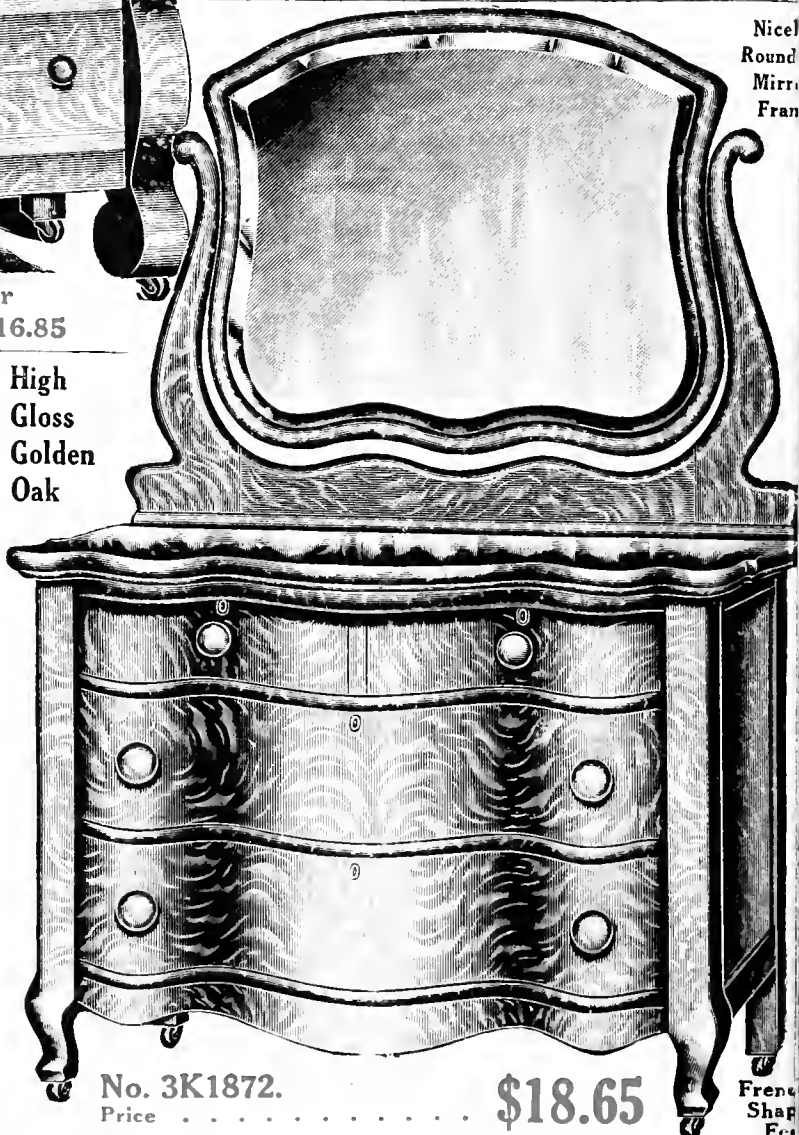

AND NOW that you know the details of this superior piece of furniture, we want to say a word about its value. We consider it one of the greatest offerings that we have ever made. In fact, we want you to shop around and see if you can find anything like it at our exceptionally low figure. Then you will really appreciate what a wonderful value it is and we know you will send in your order. Shipping weight about 150 pounds.

THE GREAT DIFFERENCE between homes is not confined to the exterior, or outward appearance, by any means. For, a great many houses that appear to be almost identical from the outside seem so unlike after stepping inside that you will marvel at the distinction. What makes this difference, we ask? Is it the amount of money spent on the furnishings? Not always. Because we have seen many homes furnished by Hartman's with really very inexpensive equipment that surpass others upon which vast sums have been expended. The taste of the individual coupled with the house from which you buy, very largely determines the attractiveness of your home. Furthermore, when you buy from us you are taking no chances. You can place the goods in your house; and if they don't measure up to your opinion of what they should be, ship them back and we pay all expenses.

ON THE OTHER HAND if the goods you buy please you, you can make your payments a little at a time as explained in detail on Page 1 of this bargain book. Order this dresser and put our offer to the test. It is substantial in every sense of the word. Genuine quarter-sawed oak is used on the entire front, base top and mirror frame and standards, the sides being of rotary cut solid oak. Serpentine shaped front is carried out on the drawers and top with the mirror frame designed to correspond. The finish is a high gloss golden oak, which harmonizes so well with the usual surroundings. There are two top drawers and two full length drawers, all fitted with turned wooden knobs. The double top effect enhances the appearance of this high-class piece of bedroom furniture.

THE ARTISTIC DESIGN is further improved by the French shaped feet. In fact, to point has been overlooked to make this number a perfect model of grace and beauty. The base top is large; it measures 42 inches wide and 21 inches deep. The French bevel plate mirror is likewise of a good size, being 24x28 inches. When this dresser was conceived, the designer and maker exceeded our fondest hopes in producing a model to sell at this price. In fact, it should be sold for more money. But both the manufacturer and ourselves have strained a point to give you something better, something finer than usual. And it is with a sense of true pride that we present this model to you at this figure. Shipping weight, about 110 pounds.

HANDSOME COLONIAL DRESSER

**IN YOUR CHOICE OF RICH
QUARTER-SAWED OAK
IMITATION CIRCASSIAN OR
MAHOGANY FINISH AT**

\$19.85

**Be Sure
To State
Finish
Preferred**

WE GUARANTEE IT if we sell it. That is the policy of this concern. It applies to every single article of merchandise that we offer to our endless string of customers the country over. You see, if we do not feel that we can guarantee an article, we will not list it. On the other hand, if you find an item in any one of our books, it must be good enough to be endorsed and guaranteed by this institution. For this reason you are taking absolutely no chances in any way, no matter what you decide to buy from us.

TAKE YOUR CHOICE of substantial, durable hardwood, to which is applied a secret satin (dull) imitation Circassian walnut finish, which closely resembles genuine Circassian walnut and it is difficult to detect the difference; of mahogany finish or of genuine quarter-sawed oak front, top and ends, gloss golden finish. Solid oak toilet. Top of base measures 42x22 inches, height of base 36 inches. Has extension front top drawers and two long swell front drawers, all fitted with wood drawer pulls. A true Colonial model. Mirror frame sets between two artistically designed standards is the French bevel plate, measuring 21x28 inches. Gracefully curved Colonial corner posts. Weight of dresser, 165 pounds.

THE CHIFFONIER to match this dresser can be ordered at price quoted below. It is a very imposing piece of furniture and comes in imitation Circassian walnut, mahogany finish or made of genuine quarter-sawed and solid oak, golden color to match the dresser. Day top measures 32x18 inches and French bevel plate mirror measures 14x20 inches. There are two small extension top drawers and four full length drawers below with swell shape front. Fitted with turned wood drawer pulls, locks, key and casters. Shipping weight, about 150 pounds.

COLONIAL DESIGN DRESSER

\$22.65

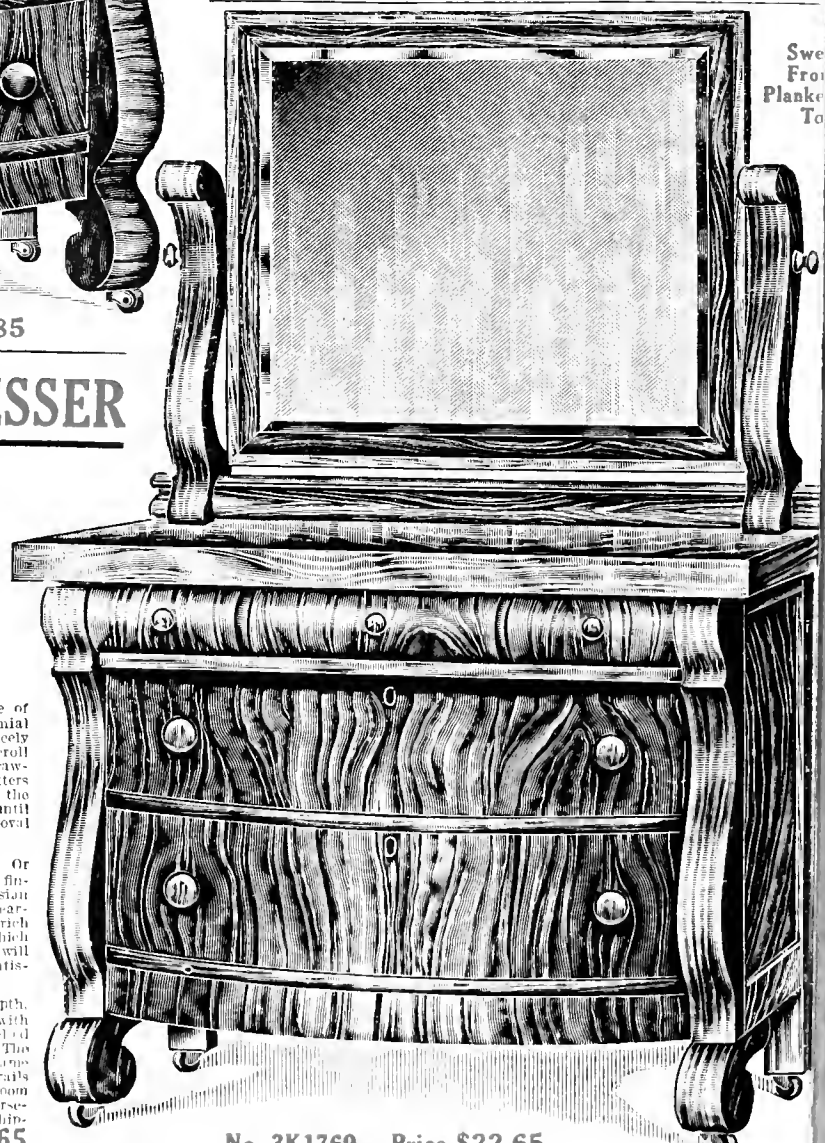

**IN THE GENUINE
QUARTER-SAWED
OAK OR IMITATION
CIRCASSIAN OR MAHOGANY**

THE ELEGANCE of this design is such as to improve the appearance of the bed room in which it is placed. Its rich Colonial lines are graceful in contour, as shown in the illustration. Observe the nicely curved mirror frame standards, massive, pleasing pilasters and attractive scroll feet. Note also the shaped mirror frame, the shaped front and rounded top drawers. Another feature of this dresser is the heavy planked top. These are matters of appearance which you can see from the illustration. But the quality of the materials and the dependable workmanship are features that are not revealed until you actually make an examination of the dresser itself. Send for it upon approval to convince yourself of its merits.

QUARTER-SAWED OAK is used on the front, top and toilet. Or if you prefer the Circassian walnut finish, you can order this dresser in "Imperial" or imitation Circassian walnut, which is a satin (dull) finish applied in such a way as to give the appearance of the real wood. We also furnish this model in imitation mahogany in rich looking dull rubbed finish. When sending in your order be sure to state which finish you desire to have us send. The wood is a matter of taste but you will secure a good value regardless of which finish you select. Our guarantee of satisfaction is your protection.

THE PLANK TOP measures 42 inches in width and 21 inches in depth. Under this base top are three small drawers with round fronts as shown. Below are two full length drawers with full swell front. These five drawers are all fitted with round wooden drawer pulls. The French bevel plate mirror measures 21x28 inches in size. Below the mirror frame is a backboard of a style to correspond with the Colonial idea which prevails throughout the design of this dresser. It is in every way a piece of bed room furniture that you will be glad to own, and goes out with our heartiest endorsement. Our liberal credit system enables you to pay for it as you use it. Shipping weight, about 170 pounds.

HANDY CHIFFOROBE

\$12⁹⁵

**COMPLETE WITH
COAT AND PANTS
HANGERS AS SHOWN**

American Quartered Oak

THIS SUBSTANTIAL mission design chifforobe will be sure to please you, not alone because of its practical features and low price, but because of its neat and attractive appearance. It is made of hardwood, to which is applied a finish in imitation of genuine quarter-sawn oak. This finish resembles the real quarter-sawn oak very closely and to the average eye looks like the real wood. Comes in a golden oak finish, which is so universally popular. It really affords two articles in one—a chifforobe and wardrobe. The wardrobe compartment has nickel sliding hanger rail and three coat hangers, as well as serpentine design pants hanger.

HAT COMPARTMENT is provided, below which are five roomy drawers. Both the paneled hat compartment door and the drawers below are fitted with round, wooden knobs. The door to the wardrobe compartment is made in two panel style and fitted with lock, as are each of the drawers to the left. Comes complete with key and casters. This chifforobe measures 60 inches in height, 40 inches in width and 20 inches in depth. The hat compartment measurements are as follows: 18 inches deep, 12 inches high, 13½ inches wide. The inside dimensions of the three top drawers are 12½ inches wide, 5½ inches high and 15 inches deep. The other dimensions are given in the paragraph below.

WARDROBE COMPARTMENT is very roomy, as shown by the following measurements: 20¾ inches wide, 48 inches high and 18 inches deep. The inside dimensions of the two lower drawers are 12½ inches wide, 6½ inches high, 15 inches deep. Top of chifforobe is handy to place articles upon. Neat back guard. (Articles not mentioned are not included.) The illustration will give you an idea of the great usefulness and convenience of this chifforobe. Order this handsome chifforobe sent on approval. If you are not pleased with it we will refund your money. Shipping weight, approximately 150 pounds.

UPERB CHIFFOROBE

**QUARTER-SAWED
OAK OR "IMPERIAL"
CIRCASSIAN WALNUT**

A Remarkable Value

ARTICLE is one that will prove a source of real comfort in the home, as well as being an article of value. It contains a large, roomy wardrobe compartment, as shown in the smaller illustration below. This is fitted with four combination nickel plated coat and trousers hangers. There are two hanging, divided, top drawers, four drawers below and one full length drawer across the bottom. The design is strictly Colonial throughout and the posts and tops are extra heavy. It contains the latest feature of angle bracing, making the case absolutely solid and rigid. You can have your choice with plain panel mirrored door at the prices quoted below.

MADE of durable solid oak with genuine figured quarter-sawed oak front, post fronts and top edges in your choice of fumed or golden finish, or if you prefer, you can have the choice of Circassian walnut finish, as illustrated. This is made of beautiful substantial material with the natural figure accentuated and having a soft satin finish. Looks like real Circassian walnut. The drawers are full depth and neatly sandpapered inside. They are fitted with round wooden drawer pulls. Note the graceful corner frame standards and the artistically curved Colonial corner shaped mirror frame and the heavy planked tops. The dimensions are given below.

DIMENSIONS. This chifforobe stands full 63 inches high and the combined top measures 43x29 inches. The lower top is 20x19 inches and the upper one, 20x24 inches. The top French beveled plate mirror is 12x16 inches and the full length door mirror of French bevel plate is 14x40 inches. It comes complete with casters. The shipping weight carefully crated is about 240 pounds.

A FINE CHIFFOROBE

**QUARTER-SAWED
AND SOLID OAK
VERY SUBSTANTIAL**

Three Pieces In One

\$26⁹⁵

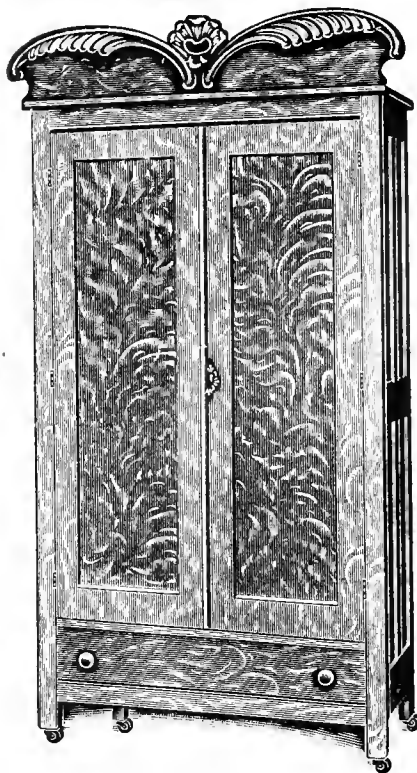

THIS CHIFFOROBE is expertly built in every particular. It is made of durable solid oak with genuine quarter-sawed oak front. This gives it a very "classy" and rich appearance. Golden or fumed oak finish. In buying this piece of furniture you are virtually getting a wardrobe, a desk and a chiffonier all in one, and at a much lower price than if they were bought singly.

DESK COMPARTMENT is fitted with pigeon holes and folding lid. Above this compartment is a 14x20-inch French bevel plate mirror. The wardrobe is finished inside and fitted with sliding nickel-plated garment fixture having four coat and pants hangers. The construction of this fine chifforobe is what is known as the "framed in" construction, which renders it very substantial and rigid.

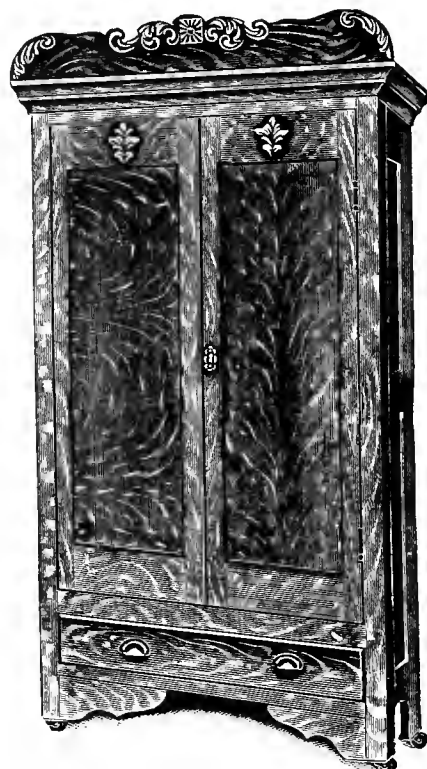

MEASUREMENTS. The height of the chifforobe is 63 inches, the tops are 21x24 and 19x21 inches, making a total width of 45 inches. The desk lid is 16 1/2 x 19 inches wide and when opened out gives ample space for a writing desk. The trimmings are of wood as illustrated. Note the artistic beveled mirror frame into which French bevel plate mirror is set; also the Colonial shaped feet, locks, key and casters. Only articles mentioned included. Shipping weight, about 200 lbs.

No. 4K661. Price..... \$26.95

THE MOTHER who does not possess a crib of this type does not realize of what a comfort she is depriving herself. It is a safeguard to your little ones not only during the night, but is also a protection to the child throughout the day. Because you can pick up the little tot and place him in the crib while you are busy in some other part of the house, with a feeling of perfect safety. It has a safety sliding side that can be lowered or raised with ease, yet affords ample protection when raised, because the very young child can not operate it.

THE PANEL is decorated with kindergarten pictures beautifully colored. This crib has full continuous posts measuring 7/8-inch in thickness. The top and bottom rails at head and foot are 1/4 inch, the panels measure 4 inches wide and 15 3/4 inches long. The sliding side has 11 spindles, each of which measures 3/4 inch; 5/16-inch top and bottom rails. Head and foot end 42 inches high. Beautiful Vernis Martin (gold bronze) finish link fabric spring is furnished with this crib. Small size, 2 ft. 6 in. wide and 4 ft. 6 in. long. Shipping weight, about 75 lbs. Larger size, 3 ft. wide and 5 ft. long. Shipping weight, about 84 lbs.

THE PRODUCT OF THE FAMOUS
CROWN BED SPRING FACTORY
Offered Direct To You At Lowest Price

THE OPPOSITE PICTURE is illustrated one of our
"Crown" all-steel sanitary
beds fitted with a cotton felt pad which should be used so that the
bed when opened as a bed will be soft and comfortable. Sanitary steel
beds and davenport are the most practical inexpensive articles of this
nature one could have in the home. They serve a double purpose, and
be used throughout the day as a couch or a davenport and at night may
be opened to a full sized, comfortable bed, and from a sanitary standpoint
much more desirable than folding beds of wooden construction.

IF YOU WANT

an extra big bargain in the way of an all-steel and
iron sanitary drop side couch—here is your opportu-
nity—it is strongly constructed and braced and will give the utmost satisfac-
tion. One drop side or the other may be elevated according to the width you
desire. When both sides are elevated it forms a 43-inch wide bed. These
sides lock with automatic braces and when raised are as firm as the frame of
the couch itself. The frame is of best Bessemer steel, securely bolted and
joined. The spring consists of Hartman substantial double link fabric, with
oil-tempered helicals and supported by two rows of oil-tempered spiral springs.
Frame and ends are of oxidized finish, with black side angles. Length of
couch bed is 71 inches; height of seat or bed 16 inches. Width when open, 43
inches; when closed, 22 inches. Shipping weight, 59 pounds.

Extra Heavy Couch Bed

SPLENDID BARGAIN. If you have never had a "Crown" brand
sanitary steel couch in your home you may
be able to form an idea of what a comfortable article it is. Here is a splen-
did bargain couch so light that it is very easily moved about the room and
placed wherever desired. The large accompanying illustration shows how the
heavy steel couch frame appears when both sides are elevated to make a full
bed, while the small picture shows it with sides dropped and in the form
of a couch. You will notice that the wing of each side when elevated is sup-
ported by a heavy brace at each end. The frame is of oxidized finish. The
two rows of spiral steel springs under the spring surface, together with the steel
helicals at each end of the wire fabric spring surface, make the couch
extremely comfortable. Length 72 inches; height 17 1/4 inches; width open 47 1/2
inches; width closed 23 inches. Shipping weight, about 65 pounds.

Sanitary Steel Frame Bed Spring

OF COURSE WE CAN TELL YOU

that this is one of the best springs we ever offered for the money—but you may discredit our statement. The best way to prove it is to see the spring itself, examine it carefully and convince yourself of the truth of this claim. We court investigation and the better your ability to judge a real bargain the more quickly will you take advantage of this great offer. This angle iron spring has single and double fabric top. It can be ordered with or without two rows of copper wire supports braced by strand wires attached by helicals at the ends of the spring. Shipping weight, about 43 pounds. State whether springs are wanted for iron or wood beds; also give width of bed.

No. 3K1805. Price With Wire Supports, as shown.....\$3.25

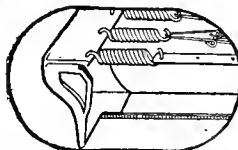

Crown Steel Frame Bed Spring

THE SUBSTANTIAL FRAME is constructed entirely of steel angle and firmly braced at each corner. The fabric is of fine quality tinned mattress wire made up of alternate double and single weave, ribbed at edges, with heavy steel wires running through at sides and securely fastened to the ends of frame. Support consists of 3 rows or 18 coppered steel coils locked in place by six long and three cross wires, which are hooked at one end of spring, and at the other to oil tempered helical springs, making the support strong, yet elastic and preventing the fabric from sagging. Japan finish. Furnished in all sizes as quoted below. Shipping weight, about 45 pounds. State whether wanted for iron or wood beds; also give width of bed.

No. 3K1807. Price.....\$3.98

Bed Springs No. 3K1808 and No. 3K1809 are equipped with this new style, durable and sanitary double arm corner casting which gives added strength to the springs. It insures the greatest amount of rigidity to the springs as well as service and lasting quality.

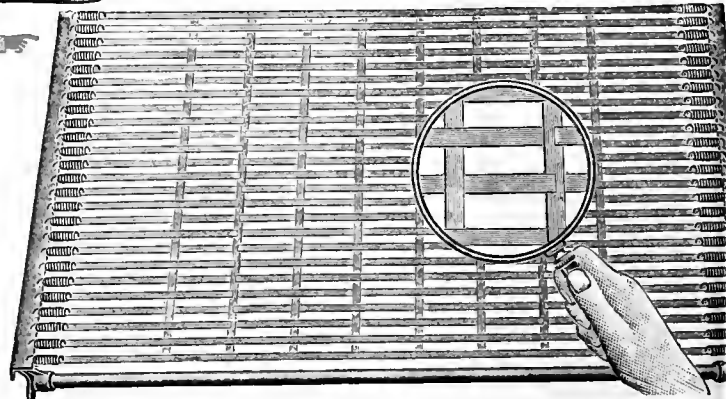

Interweave Slat Fabric Bed Spring

SANITARY SLAT FABRIC BED SPRING.

The illustration to the right tells a story without words. It shows clearly and decisively the superior, durable construction of this exceptionally fine bed spring. It shows how the strong slat fabric is interwoven to produce the desired effect. The spring is firm yet resilient and will give no end of satisfactory service. The sanitary feature is of great importance. Being made of metal it will not harbor dirt, filth or vermin. There are 52 oil tempered helicals which join the horizontal slats to the end rails as shown in the accompanying illustration. Has 5 1/2 inch malleable corner rise, 1/2 inch straps and 1 5/16 inch tubular frame. An enlarged view of the corner casting is shown above. This spring is made by one of the best bed spring factories in the world. Each spring is carefully inspected before it is shipped, and passes the most rigid examination possible. Shipping weight, about 50 lbs. State whether springs wanted are for iron or for wood beds; also give width.

No. 3K1809. Price complete.....\$5.85

Link Fabric Steel Frame Bed Spring

WHAT DOES \$3.35 REALLY AMOUNT TO

when compared to the cost of the other bed spring? It is a link fabric spring with copper wire edges. The links are attached to end angles by heavy oil-tempered helicals. The heavy angle iron frame is well finished in black Japan and is strong and substantial. Compare our price with that of others for a spring of equal merit, and we feel sure that you will send us your order without further hesitation. Shipping weight about 40 pounds. State whether springs are wanted for iron or wood beds; also give width of bed.

No. 3K1806. Price.....\$3.35

Crown Brand Steel Fabric Spring

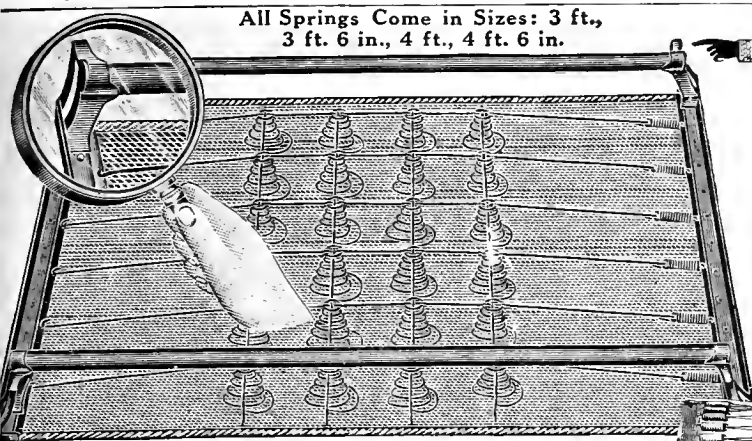

HIGH GRADE STEEL FABRIC BED SPRINGS

made of the best material, with frame of 1 5/16 inch steel tube side rails, with an iron ends and high rise corner castings. These corner castings extend around the angle iron ends, making a smooth and round corner, thereby protecting the mattress and bedding from catching or tearing. The castings (shown in enlarged view immediately below) elevate the springs five inches. Frame is finished in golden bronze, giving appearance of solid brass. Fabric is made of Crown patented double wire, close mesh, tinned, with 54 oil tempered steel helical springs with 1 3/4 inch steel strap edge. Shipping weight, 48 pounds. State whether springs wanted are for iron or for wood beds; also give width.

No. 3K1808. Price complete.....\$5.00

The heavy double arm protected malleable steel corner casting, which we show to the left in an enlarged view, elevates the bed springs above the side rails of the bed in a manner that gives a better spring effect and makes an exceedingly comfortable spring.

All Springs Come in Sizes: 3 ft.,
3 ft. 6 in., 4 ft., 4 ft. 6 in.

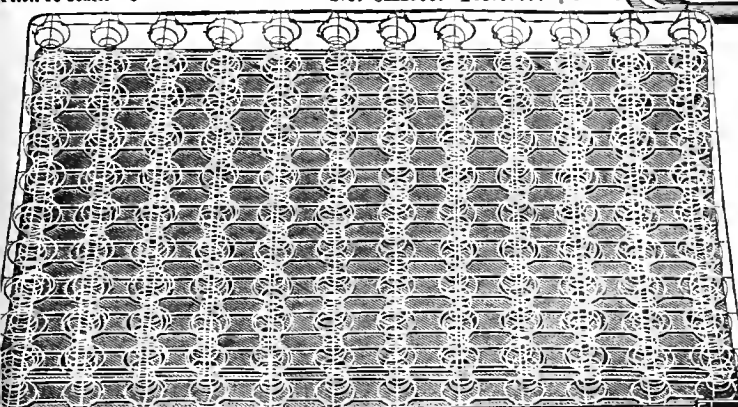

Steel Spring With Double Arm Casting

The Highest Rise Spring Made. Has High Rise of 7 Inches
TUBULAR STEEL SIDES measure $1\frac{1}{2}$ inches in diameter. This exceptionally fine bed spring has heavy steel angle ends, firmly riveted to heavy double arm protected malleable steel corner castings (brought out by use of magnifying glass). Through this construction the fabric is elevated 7 inches above the side rails of the bed, giving a box spring effect, and making an exceedingly comfortable spring. The durable double weave fabric consists of tinned steel mattress wire, well corded through body. Observe the heavy, strong rope edges on each side. To support the fabric, a series of 24 copper coils is used. These are interlaced and locked to six long wires running lengthwise and four running crosswise. The cross wires of the support extend to the rope edge, and are firmly attached which reinforces the spring surface. The oil tempered helicals connecting the support with the end rails are used to relieve the strain upon the fabric, making it resilient and extremely restful. The finish is a bright gold bronze. Shipping weight about 65 pounds. State whether wanted for iron or wood beds; also give width. No. 3K1858. Price, only..... \$6.95

Improved Way Sagless Bed Spring

THIS SPRING is, in reality a new achievement in bed spring construction. The unique patented construction conforms to shape of body, assuring perfect comfort. It cannot sag; is noiseless and sanitary. Does not tear bed clothes. Made for wood or metal beds, in all sizes. Guaranteed for 25 years. Side rail, $1\frac{1}{2}$ in. tubing, end rail of hard steel angle, $1\frac{1}{2} \times 2$ in., risers of malleable iron, raising fabric 5 in. from side rail of bed. Oil tempered helicals. Flexible side band gives resiliency. Gold bronze finish. Special brace keeps frame from "springing". State whether wanted for wood or metal bed, also give width. Shipping wt. 55 lbs. No. 3K1859. Price.... \$8.00

Crown Spiral Wire Steel Spring

THESE CROWN SPRINGS are dependable in every way and springs in value, we quote them at a price that will save you money. These spiral springs are made in the Crown factory and the inspectors are constantly supervising their manufacture. They are made of standard steel spring wire in 120 continuous winding spirals, and are black japanned. They are fitted on both sides with our patent interlocking top. Of course we do not recommend this spring in preference to our more expensive ones—because it is not as desirable; but for the price it is a bed spring that will give full value for every cent of its cost. State whether springs wanted are for iron or for wood beds. For iron beds it is necessary to use slats which we show on another page of this book. Shipping weight, 25 pounds. No. 3K1860. Spiral Bed Spring. Price..... \$2.45
No. 3K1861. With Woven Wire Top. Price..... \$3.15

20 Year Guaranteed Steel Bed Spring

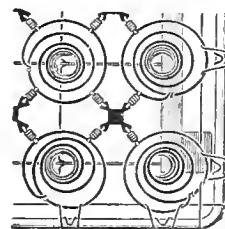

YOUR CHOICE of this excellent steel bed spring in the two styles which we quote below. It is guaranteed for a period of 20 years as indicated. All metal and spring work must be of a very high grade to stand back of a guarantee of this length. The best grade of high carbon steel wire is used, being oil tempered at 800 degrees Fahrenheit; 60 continuous wind, extra heavy spirals are attached to steel slat bottom. Angle steel side rails. Extra heavy $\frac{3}{4}$ -inch border wire is used and double crimp top construction. Is finished in oxidized copper, presenting a very attractive and pleasing appearance. When ordering state whether springs wanted are for metal or wood beds; also give width. Be sure also to give the correct number to insure your receiving the style that you prefer. The shipping weight is approximately 65 pounds. No. 3K1862. Spiral Spring..... \$6.75
No. 3K1863. With Woven Wire Top..... \$7.05

25 Year Guaranteed Steel Springs

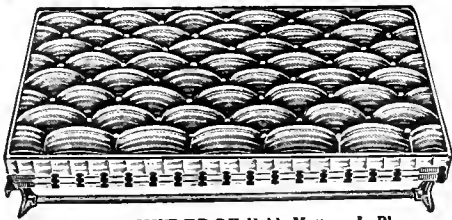

All Coils Are Joined By Helical Springs With Steel Center

THIS BED SPRING is one of the best constructed springs ever devised. It is made of the best grade of highly tempered carbon steel wire. It contains no nine-gauge single cone spirals and heavy $\frac{3}{8}$ -inch border wire. The heavy angle steel sides make it exceedingly strong and substantial. All of the coils are joined to one another at the top by four helical springs with a steel center as shown in the smaller illustration at the right. An edge brace gives this spring additional strength, and acts as a readjusting device that makes it "come back" to its original shape. All metal and spring work guaranteed 25 years. Black japanned finish. Shipping weight, about 75 pounds. State whether springs are wanted for iron or wood beds; also give width. No. 3K1864. Price, only..... \$8.98

GUARANTEED BED SPRINGS

Showing How WIT-EDGE Holds Mattress In Place

We Have The Exclusive Sale Of These Nationally Advertised Products Among The Credit Mail Order Houses Of America

THE WIT-EDGE is a feature found on No. 3K1840 and 3K1842 springs, illustrated and described on this page. This is one of the very desirable factors of the Englander products and is a point of advantage that deserves special mention. The small picture to the left shows a mattress placed upon a spring having the famous WIT-EDGE. Look this over carefully and observe how this edge holds the mattress in place.

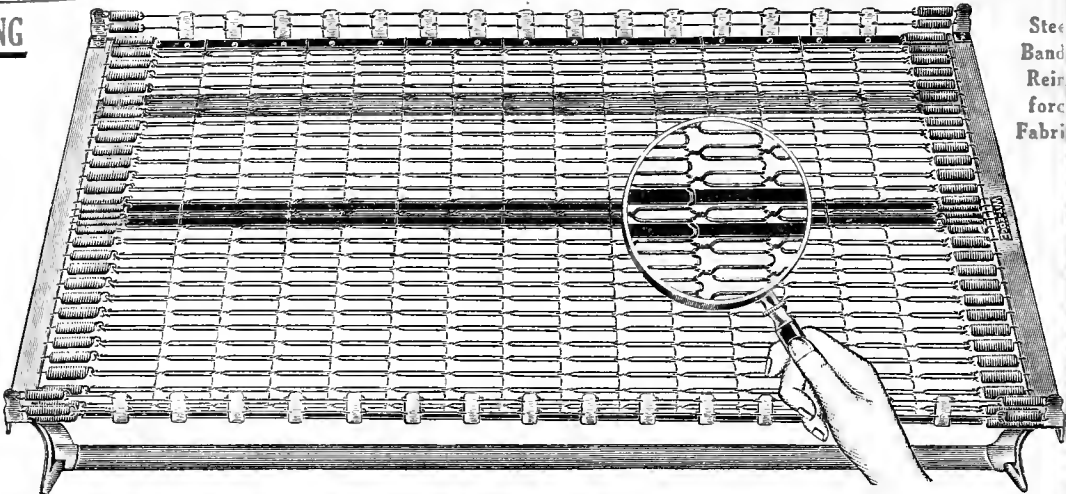

THE SIDE GUARDS through their ability to always hold the mattress in the proper position likewise help to keep the mattress in shape. It is prevented from slipping and shifting—thus eliminating any wear and friction on the ticking, keeping the mattress from packing down, thinning out or spreading. This means double life to the mattress, while the springs possessing this feature will wear indefinitely. Insures a firm, trim mattress.

All Springs Come in Following Sizes: 3 ft., 3 ft. 6 in., 4 ft., 4 ft. 6 in. State Size Wanted and Whether for Metal or Wooden Beds.

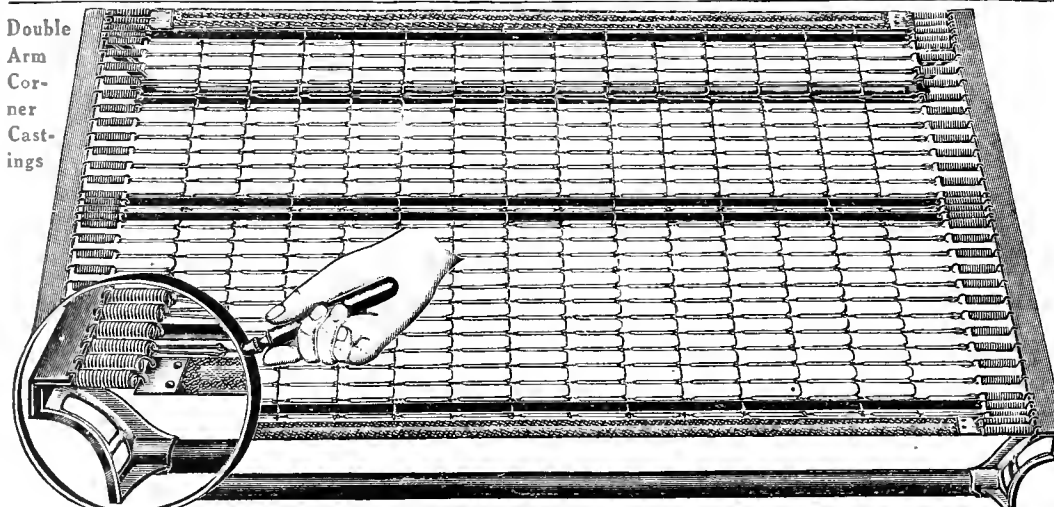

ENGLANDER WIT-EDGE SPRING

THE ADVANTAGES of the WIT-EDGE are explained in the paragraphs at the top of this page. This feature is possessed by the spring illustrated to the right. With these patented upright extensions on either side the mattress not only will not spread or shift from side to side, but furthermore add a reinforcement to the sides of the spring, giving added strength and comfort. It is a bed spring guaranteed by us and backed up in every way by the Englander factories.

YOUR CHOICE of all sizes for metal or wood beds. When ordering state size that you desire. The Englander link fabric is reinforced by four 1 1/4 inch steel bands. 70 tempered helicals attach the fabric to the 2x1 1/2 inch angle iron ends. The iron corner blocks hold the fabric 4 inches above the 1 1/2 inch tubing side rails as illustrated. The fabric is constructed in longitudinal units to absolutely withstand the strain of wear. Ship. wt., about 51 lbs. **\$5.95**

KANE KORE KABLE EDGE

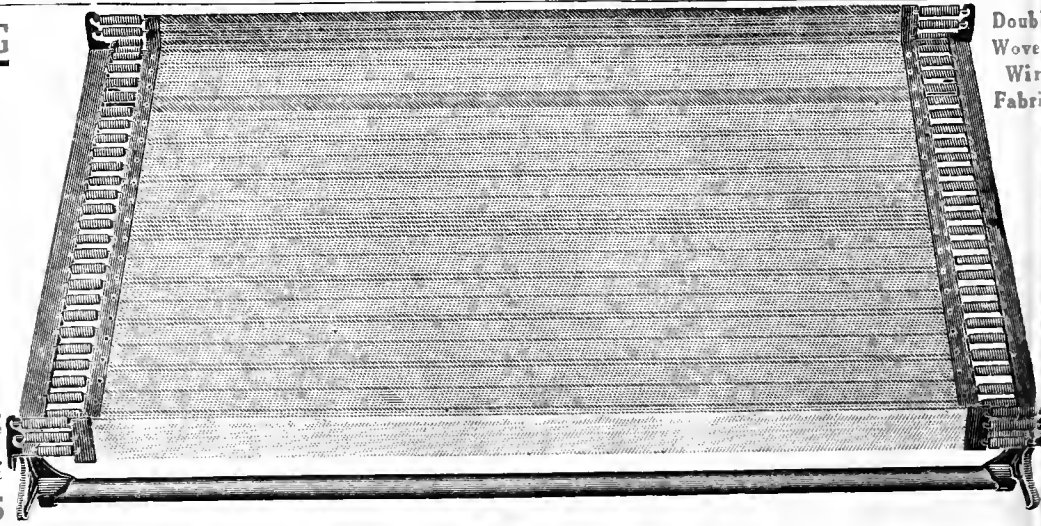

A FEATURE of this spring is the Kane Kore Kable Edge. This is a core of round cane, light, but very strong, which is introduced into the edges of the spring shown to the left. This cane core reinforces the edges where the greatest wear and strain is always applied and prevents the possibility of the fabric from sagging. It will keep the edge straight and firm and is a very desirable point. Other features of importance are covered in the following paragraph.

SIDE RAILS are heavy tubing of 1 5/16-inch diameter. These are fastened to the iron corner blocks which elevate the fabric 5 inches. The link fabric top is connected to the angle ends by 68 helical springs. These angle ends are very substantial, being constructed of 2x1 1/2 inch strips. Two steel bands through the center and one on each side reinforce the link fabric top. These bands each measure 1 1/2 inches wide. This spring comes in all sizes and is made for wood or metal beds. State size wanted. Shipping weight about 48 pounds. **\$7.10**
No. 3K1841. Price.....

ENGLANDER WIT-EDGE SPRING

READ OVER the details of the WIT-EDGE explained at the top of this page for a full and complete understanding of one of the important advantages of this spring. It provides the comfort, resilience and neat appearance of a fine box spring with none of its insanitary features. These patented upright side guards offer complete resistance to strain and wear which the edges of ordinary springs cannot resist. Is fully guaranteed by the Englander factories as well as by ourselves—a double guarantee of satisfaction.

ORDER IT in your choice of all sizes for metal or wood beds. When ordering please state the size that you prefer. The fabric is double woven wire reinforced by 24 cable strands and is attached to 2x1 1/2 inch angle iron ends by 68 tempered steel helicals. 1 1/2 inch tubing side rails are fastened to the iron corner blocks which elevate the fabric 5 inches above the rails. It is a spring that will be sure to please you. order it on easy credit. Shipping weight about 48 pounds. **\$8.85**

STEEL ANGLE FRAME and legs insure rigidity, strength and lasting quality. The ENGLANDER rustless link fabric, suspended from frame by tempered steel helicals is shown in the large picture above. Another feature is in the ball-bearing steel wheel casters, which make it easy for you to move this couch about the room. The attractive oxidized finish used on the frame improves its appearance. Tell us to ship this fine couch to you for approval. No. 3K1829. Price.....

Select The Englander Couch Bed at This Price. One Of The Largest Selling Couch Beds on The Market

Fig. 1

Partly Open, Showing The Link Fabric

THIS COUCH BED can be used twenty-four hours out of every twenty-four. Closed for the day and covered with a couch cover, it appears as a roomy couch (Fig. 2) and will add to the comfort of any room. A single motion is all that is needed to transform the couch into a luxurious bed (Fig. 3). (Couch cover, illustrated, is not included.)

\$15.75

IS CAREFULLY CONSTRUCTED of thoroughly reliable materials and the workmanship is of the highest grade. It is sanitary, noiseless in operation, and is a product of a factory which enjoys a national reputation for the manufacture of beds of the highest standard. The large illustration to the left (Fig. 1) shows how one single motion will readily transform this model from couch to bed or bed to couch. If you have ever had a guest spend the night and were at a loss to know where to accommodate him, without a spare room, you will appreciate the value of The Englander Couch Bed. It not only relieves you of the worry incident to an unexpected guest, but affords a comfortable couch for use throughout the day. Warranted by us and backed by the Englander guarantee.

QUARTER-SAWED OAK

And Selected Seasoned Solid Oak
Home Writing Desk In Either Golden
Or Fumed Finish. Absolutely Complete

See
Page 1
For
Terms

THIS GREAT DESK is made of solid oak throughout with a handsome quartered oak front. The desk lid is a beautifully grained quartered oak, both inside and out, and the desk is finished in a handsome golden color. Over this is placed a fine varnish finish that lends tone and elegance to its appearance. Also comes in fumed finish. State which is desired. It has three roomy drawers below the lid, as illustrated. Upon opening the door of the compartment on the right a secret cash drawer is disclosed as well as two convenient letter files. The upper portion is equipped with a number of pigeon holes for papers and partitions for books. These are of ample size and number to sufficiently answer the needs of the average family. In the paragraph below we give further particulars of this very practical writing desk.

We
Trust
You

IN ADDITION to the pigeon holes there is a small drawer, below which are racks for pens and pencils. The desk lid, three outside drawers and door to compartment are all fitted with good, strong locks, insuring privacy to the entire contents. The top is neatly set off with a back guard of unique design and the desk is finished at the base with attractively patterned feet. All joints are securely put together, which means durability, service and long life. This exceptionally attractive and practical piece of furniture is well proportioned in every line and is a value that you will find hard to duplicate. It stands 46 inches high, has a handy top shelf measuring 32 inches wide, and the body of the desk is 16 inches in depth. Shipping weight, about 120 pounds.

QUARTERED OAK

Used On The Front Of
This Combination Book
Case And Writing Desk
MISSION DESIGN

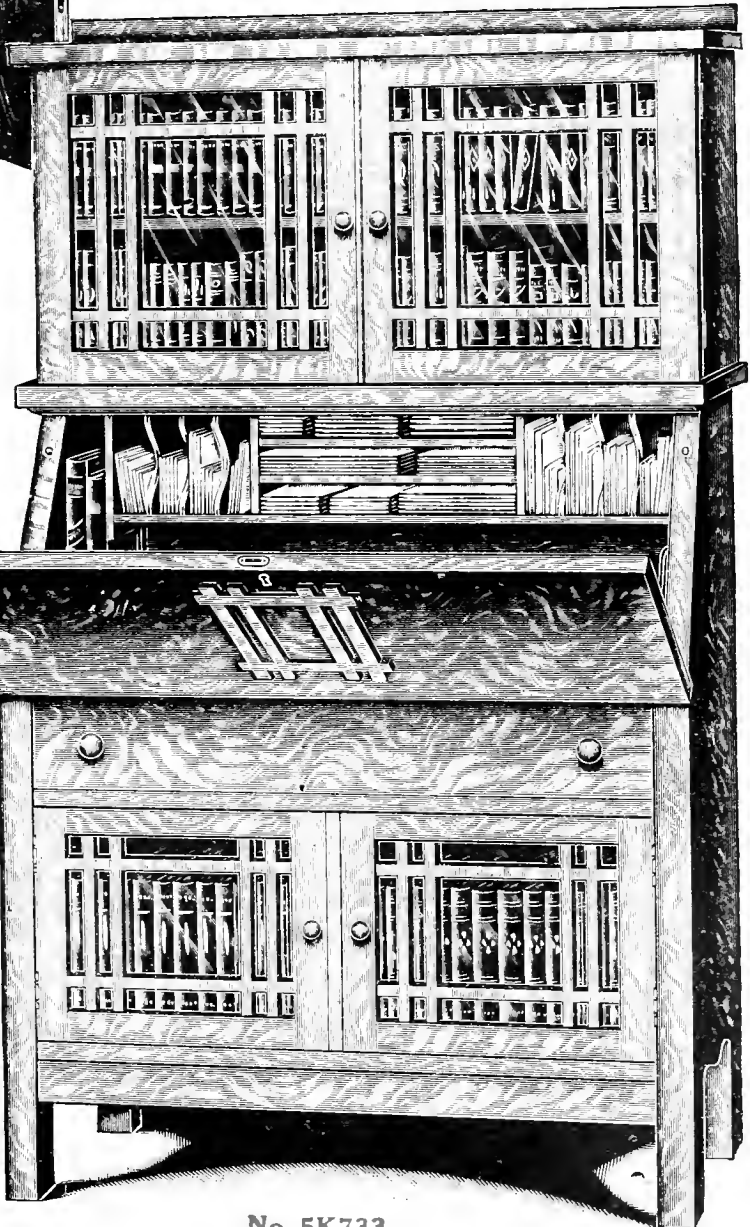

Choice
Of Either
Fumed
Or Golden
Finish

EARLY ALL of us, at some time or other, are overtaken with sickness. Nor does it always come at a time when we are in the best position to pay the doctor's and druggist's bills. Our easy payment, long time credit plan is a Godsend to the family that finds itself facing such a condition. It is like a health insurance policy in that it enables you to use your money for other purposes when the necessity arises. And that is one of the many good reasons why you should buy from us in preference to purchasing your household goods for cash.

SELECT THIS ARTICLE if you wish a combination bookcase and writing desk of superior design, rigid construction, excellent materials and superb workmanship. Genuine quarter-sawed oak is used on the front, the balance being of seasoned and kiln-dried solid oak. You can have your choice of fumed oak or axed or glossed golden finish. In ordering please state which finish you desire us to send. The design is typically Mission, with lattice work over the glass in the doors and tasty decorations on the desk fall correspond. Both the upper and lower sections are provided with bookcase compartments, the upper one having shelf, as illustrated.

THE DESK is complete with pigeon holes, as illustrated. There is space at the sides for books. Below the desk compartment is an easy sliding, full length drawer. Wood knobs on drawer and compartment doors. The latter are equipped with reliable spring catches. The dimensions throughout are designed to be of sufficient size to comfortably care for the requirements of the average home. The height is 62 inches, the width 30 inches and the depth 16 inches. You take no chances in ordering this combination bookcase and writing desk on our approval plan. If it does not please you, we do not ask you to keep it. Shipping weight, about 150 pounds.

Golden
Oak
Finish

THE STYLE of this piece of library furniture is that of a sectional bookcase. It looks like a bookcase of that type, but is not built in sections, being constructed in one unit. Although you can not add to it, as in the case of the sectional type, it is built large enough and roomy enough to amply provide for the demands of the average family. Genuine solid quartered oak is used on the entire front, presenting a rich and pleasing appearance. You can have your choice of golden or fumed finish, as you prefer. When ordering be sure to tell us which finish you desire us to send.

THE GLIDES with which this bookcase is fitted protects the rugs and carpets as well as the hardwood floors. This case stands 58 inches high from the floor, measures 32 1/4 inches wide and 14 1/4 inches deep. Is made with 4 doors and as many shelves, the latter being constructed of 3 ply veneer. The back panel, likewise, is made of 3 ply veneer to reduce the chances of warping and splitting. The doors are fitted with wood knobs. Three top sections are 11 1/4 inches high inside; bottom section measuring 13 1/4 inches in height, inside. All are 29 1/4 inches wide (inside measurement). This is a typical mission pattern at a price that is within the reach of all. Shipping weight about 155 pounds.

Fumed
Oak
Finish

QUARTER-SAWED OAK is used on the front of this attractive looking, practical piece of library furniture shown below. The sides are of seasoned kiln dried solid oak; the upper part is attractively set off with a plank top. You can have your choice of either golden or fumed finish, according to your taste; please state preference when sending us your order. Massive Colonial pilasters are used to embellish both sides of book sections. The door to the top book case is set off with neat panels. Aside from its attractive appearance and substantial construction we recommend this article for its practical and service-giving qualities.

THE MEASUREMENTS. Although the illustration will give you a fair idea as to the proportions and relative dimensions, we list below the measurements, so that you may fully comprehend the size of this combination bookcase and writing desk. The extreme height of this piece is 58 1/4 inches; width 32 1/4 inches; depth 14 1/4 inches. Height of top book section 11 1/4 inches; height of bottom book section 13 1/4 inches. Doors to these sections as well as drawer are fitted with round wooden knobs. Complete desk section possessing the usual interior desk construction. Books shown are not included. The good quality at this price commends this article to the scrutinizing purchaser. Shipping weight about 135 pounds.

Combination Bookcase And Writing Desk Of Quartered And Solid Oak

THIS COMBINATION affords the purchaser the use of two handy bookcase as well as a convenient writing desk. The glass door frame is made of quartered oak, the desk fall face of veneered quartered oak. The top back is constructed of solid oak and the drawers of solid oak veneer. It is a very substantially made piece of furniture and comes in your choice of golden or fumed oak. In ordering please state which finish you desire to have us send. We direct your attention to the massive proportions possessed by this model and the attractive embellishments on the desk lid as well as across the top. The bookcase compartment is fitted with four shelves constructed of three-ply veneer. The back panel is likewise of three-ply veneer lumber.

THE DESK SECTION is made with the usual interior construction, possessing nine pigeon holes and one small drawer, which is a great convenience. Above the desk is a 12x12-inch French bevel plate mirror and below the desk section are three easy sliding drawers fitted with round wooden knobs. Brass plated hardware. Measurements are as follows: Desk fall, 17½x15½ inches; extreme height, 66 inches; extreme width, 38 inches; extreme depth, 11½ inches; inside height, 47 inches; inside depth, 9½ inches; inside width, 15¾ inches. The size of the glass in the door is 44x14 inches. Space above the desk and bookcase sections form handy shelves. Shipping weight carefully packed is approximately 165 pounds.

No. 5K1017. Price.....\$14.35

Quarter-Sawed And Solid Oak Combination Book- case And Writing Desk

SOLID QUARTERED OAK is used in the glass door frame; the desk fall is made of three-ply veneer, showing the handsome quartered oak side when the desk is closed, and rich solid oak to correspond with the inside, when the desk is opened ready for use. The balance of this substantial and useful piece of furniture is made of thoroughly seasoned kiln dried solid oak, golden color. The desk is fitted with 5 pigeon holes and small drawer. There is one roomy drawer beneath this writing desk and a spacious cupboard below the drawer. Notice the elegant design appearing on the desk lid and cupboard, the tasty scrolls above the mirror and bookcase compartment and the neat carving surmounting the top. Drawer is fitted with round wooden drawer pulls. The bookcase compartment contains 4 adjustable shelves. Heavy scroll feet at front enhance its beauty.

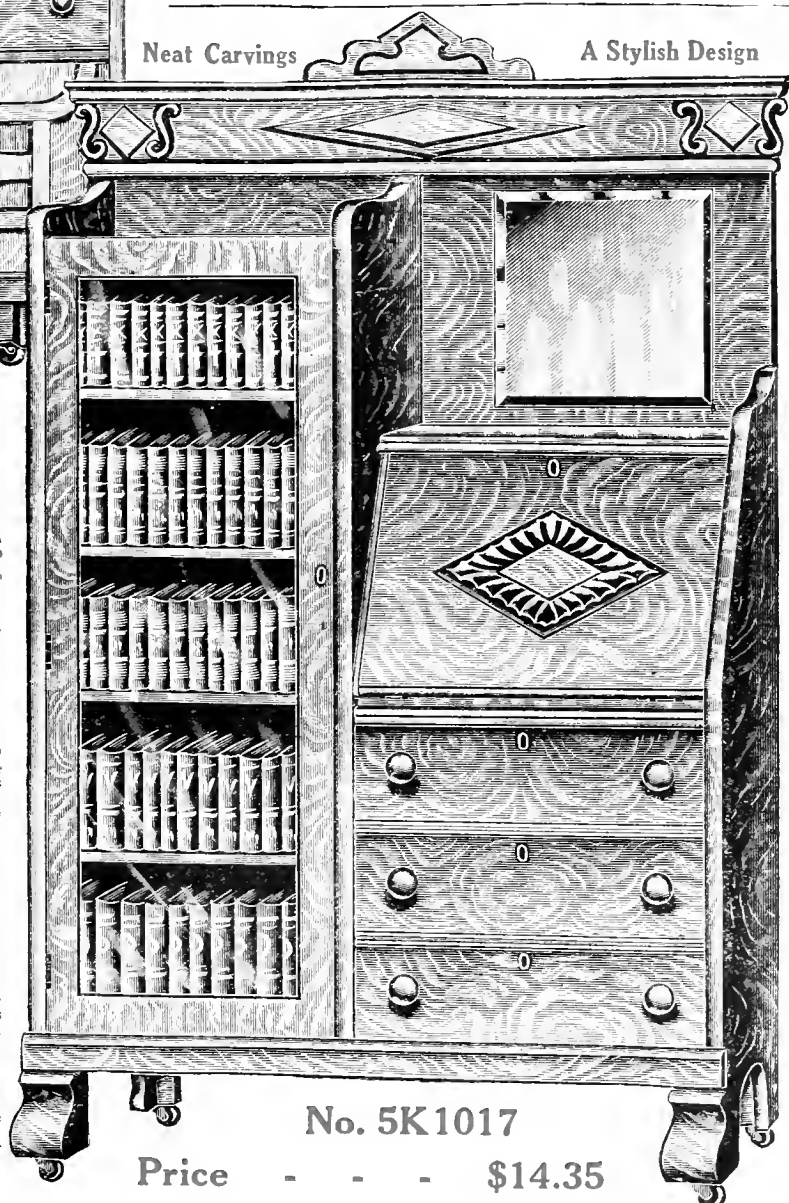

MEASUREMENTS. The height of this combination bookcase and writing desk is 68 inches, the width being 38 inches. The French bevel plate mirror with rounded corners at top, measures 14x10 inches. The working surface of the desk is 24½x17½; the size of the crystal glass in the bookcase compartment is 14x4 inches, inside measure overall of the bookcase compartment being 16½x17 inches. The width of the Colonial legs is full 2 inches. It comes complete with locks, key and casters. Shipping weight, about 160 pounds.

QUARTERED OAK

Is Used On Front Of This
Mission Bookcase and Desk.
Also Comes In Mahogany Finish

THIS COMBINATION is a practical one for every family. Contains commodious bookcase compartments, as you can see by a glance at the illustration of this neat piece of furniture. Is of true mission design with scroll shaped front feet. Genuine quarter-sawed oak is used on the front of this number, the ends being of durable seasoned solid oak. You can have your choice of golden or fumed finish, or if you prefer you can order this combination bookcase and writing desk in mahogany finish. Both the birch and golden oak are made with two heavy coats of gloss finish. When ordering please tell us whether you desire this model in mahogany finish, or in oak. If desired in oak, state whether you prefer the golden or fumed finish, as this will simplify the filling of your order.

THE DESK compartment is complete in its construction. It is equipped with pigeon holes containing several divisions and only one drawer. Observe the neat "sunk-in" desk lid, as shown in the picture. The bookcase section has four adjustable shelves and the drawer is fitted with wooden knobs. A handy cupboard is provided below the drawer for storing stationery, letter files and the like. The height is 62 inches and the width is 39 inches. Clear crystal glass is used in the door, the size being 11x34 inches. Crystal glass is also used in the top of the bookcase door, which measures 11x16 inches, the same being true of the glass used in the cupboard over the desk section, this likewise measuring 11x16 inches. The depth of the ends of this combination bookcase and writing desk is 13 inches.

QUARTER-SAWED OAK

And Solid Oak Combination
Bookcase And Writing Desk
In Rich Colonial Design

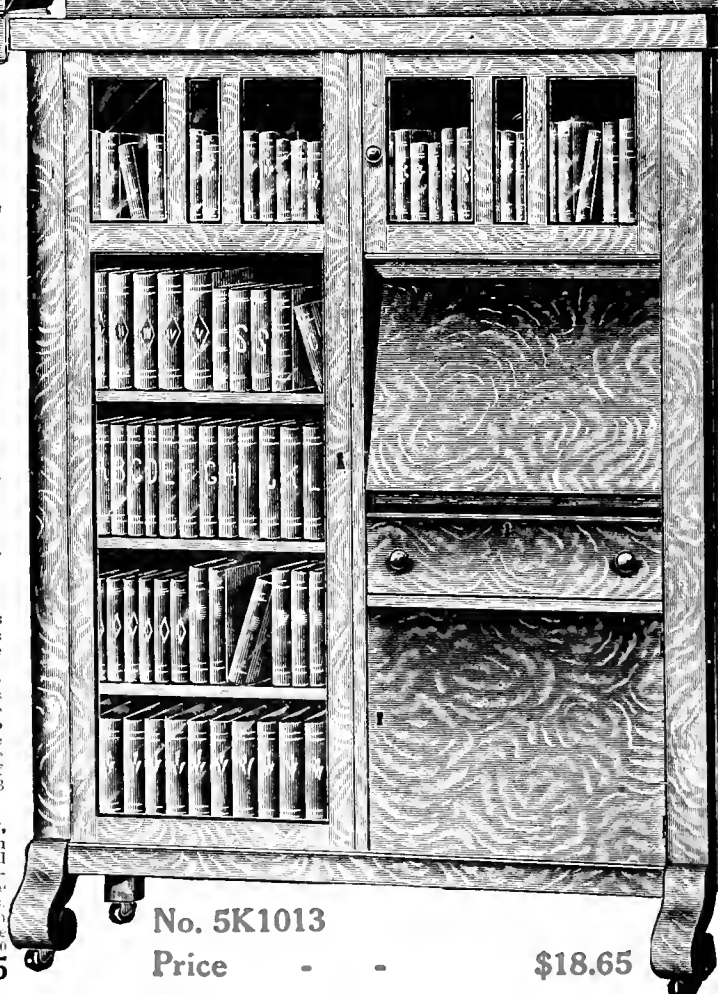

YOU BELIEVE in some people, yet you discredit others; you have confidence in some stores, yet you are skeptical about others; you ignore catalogs, yet others interest you and hold your attention. Why is it? Because you learned the lesson of discrimination. You know right well that the concern that pleases you once, the house that will do all that human power can do to satisfy, store for you. That is why we rarely ever lose a customer, and continue to add new to our ever-increasing number. We guarantee satisfaction, and live up to the very terms of our guarantee, every day throughout the year. In looking over the description and illustration of this superior combination bookcase and writing desk, bear the above in mind, and also remember that if, after receiving it, it does not please you in the smallest detail, you are not obligated in any way to keep it.

THIS COMBINATION bookcase and writing desk is of beautiful Colonial design, with straight door glass in the bookcase compartment and with three straight drawers beneath the writing desk. The lumber used is substantial solid oak, with the exception of the glass door frame, which is genuine quarter sawed oak. Desk fall has quarter sawed oak veneer front. The pilasters at each side and at the sides and top are also of genuine quarter sawed oak, so cut as to give the appearance of the front of genuine quarter sawed oak. The inside of the desk compartment is fitted with pigeon holes and inside desk construction. Particularly observe the handsome mission design on the lid, and above the bookcase compartment, both of which harmonize perfectly. The easy sliding, roomy stationery drawers are fitted with round wood drawer pulls. The set off on each side with heavy end pieces as shown.

DIMENSIONS. The case stands 70 in. high and measures 38 in. in width. The neatly designed good quality French level plate mirror is just a nice size, the dimensions being 11x10 inches. From these sizes you can see that this is a piece of furniture of very desirable proportions. Such an article in the home encourages reading for all members of the family, and at the same time provides a handy writing desk and convenient place to keep papers of importance. It is fitted with casters, locks and key. The books shown are not included at the price we quote. You will be sure to be well pleased if you send us your order. Shipping weight about 165 lbs.

COMBINATION BOOKCASE AND WRITING DESKS

No. 5K933

QUARTER-SAWED OAK

is used on the glass door frame as well as the front of desk lid, the balance of lumber used being thoroughly seasoned, kiln dried solid oak. Finish is the popular golden color, nicely glossed. Fitted with four 3-ply veneer shelves, as illustrated, accommodating five rows of books (books not included). Desk compartment has nine pigeon holes and small drawer. Below the desk section is easy sliding stationery drawer fitted with round wooden knobs. Below this drawer is roomy cupboard, which will be found convenient for letter files, papers, etc.

DIMENSIONS.

Extreme height, 71 inches; extreme width, 38 inches; extreme depth, 11½ inches; inside height, 47 inches; inside depth, 9¾ inches; inside width, 16½ inches; straight door, 14x44 inches; desk lid, 17½x15¼ inches. Space above desk provides handy shelf, 12x12-inch attractively shaped French bevel plate mirror. The handsome carvings are shown in the illustration above, enhancing the tops, desk lid and apron across the bottom.

CARVED CLAW FEET improve the appearance of this fine combination bookcase and writing desk. The trimmings are brass plated. Order it upon approval. Shipping weight, about 155 lbs. No. 5K933. Price, complete as shown with locks, key and casters. **\$13.65**

No. 5K663

THIS MODERN

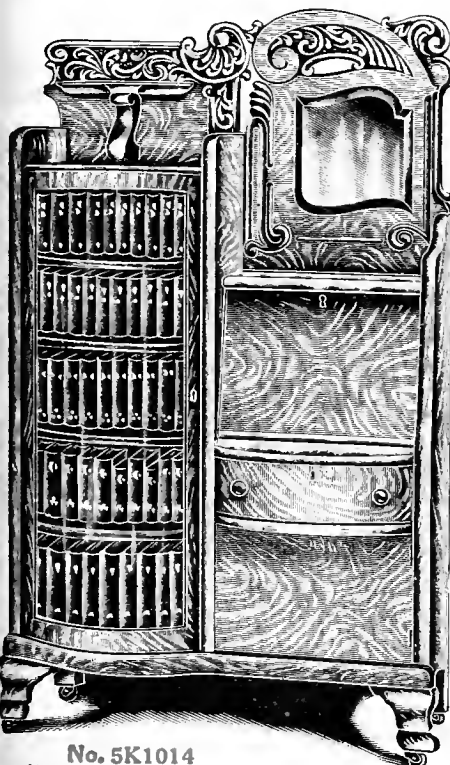

BARGAIN

in a combination bookcase and writing desk is one of our leaders. A handsome and convenient home study outfit like this will be greatly appreciated by any student. There is room for five rows of large books, the titles of which can be read through the clear, thick curved glass forming the door. All parts can be locked to insure privacy. Note the handsomely carved cover to the desk, which is completely equipped with compartments of the regulation sort. Has a large swell front drawer fitted with lock and key. Recommended at this price.

WE GUARANTEE

your satisfaction with this substantial case. It is solidly built of oak, finished dull, fumed or glossed golden. The desk drawer and bookcase door front are made of genuine quartered oak. It is 40 inches wide and stands 74 inches high. The two attractive heavy French bevel plate mirrors measure 12x10 inches and 22x6 inches, as illustrated. THIS PAGE shows another proof of the great values we give; and are in the form of very finely built "Jewel" sectional bookcases. No argument from us is needed to convince you of the merits of the expansion bookcase. You will quickly see that it is the most practical bookcase that could be placed in the modern home. The Jewel is both permanent and expansive—a bookcase that is always complete, and yet permits growth. In the addition, at any time, of sections that match perfectly and which we always carry in stock. This bookcase, consisting of one or more sections with top and base, makes a complete library case, fine enough for any home.

WHEN YOU WISH

to increase it you can easily do so. If you have books of larger or small size, you can order sections that will suit the size of your books and fit perfectly.

DESK SECTION. You can wish, add a desk section and then you have a complete library case and desk combined. This desk is fitted with writing lid, pigeonholes and pen rack. You can build up these "Stacks" in any combination you desire, can have some higher than others, placing upon the lower ones some ornament. Our Jewel sectional bookcase is carefully built, the cabinet work being done by trained workmen. It is made of very fine solid oak, finished Early English, fumed or golden, highly glossed, or in polished mahogany or birch. State which is wanted.

Extra Quality "JEWEL" Sectional Book Case

EVERY FAMILY who desiring a modern home should equip their library or living room with a sectional bookcase. The Jewel is one of the best constructed sectional library cases on the market and at the prices we quote save the purchaser several dollars. The average family begins with a few books and a two, three or four section bookcase, adding to the collection as they find it possible to do so. In this manner you, too, can have a large library and a handsome set of bookcases.

OAK OR MAHOGANY.

Our extra quality Jewel sectional bookcase is constructed in the best possible manner by experts, and of selected material. It is made with solid quarter-sawn oak front and solid oak panels in your choice of Early English, dull fumed, or polished golden or in mahogany or birch brilliantly polished. The glass raising and sliding doors of book sections are lathe-turned and fitted with brass knobs; top is heavily moulded and base has French legs. Sections fit together absolutely perfect. As many sections can be added from time to time as desired, as we keep them constantly in stock.

DESK SECTION. The desk unit shown in the illustration to the right is a conveniently arranged writing desk with load drop lid which forms a roomy writing table. Interior is arranged with pigeonholes, pen racks and two stationary drawers. Desk lid is supported with firm metal braces. It is fitted with lock and key. To any one desiring a high class, richly finished, extraordinarily convenient library case, we recommend this one.

YOU NEED THIS TABLE. If you have no library table in your home, or if you are ready to replace your old one with a bright, new, handsome table of beautiful design, don't let this chance pass unheeded. This library table is made of hardwood, to which is applied a finish in imitation of quarter-sawn oak which looks like the real wood. Top is large, measuring 28x42 ins. Has large, roomy drawer for stationery. Shipping weight, approximately 100 lbs. **Price.....\$8.95** A Good Value At the Price

Colonial Design
American Quartered Oak Table

IT IS a typical Hartman value and is only one of thousands of real bargain offerings found in this great bargain book. Take advantage of our long time helpful credit plan shown on Page 1 and send us your order. This table is sold under our legal binding guarantee of satisfaction or your money back.

HAS INVISIBLE SLIDES. Although the illustration shows casters, this excellently constructed table is fitted with invisible slides. These modern, up-to-date slides prevent the scratching or marring of hardwood floors and at the same time save your rugs and carpets against the wear and tear exerted on them by the old time casters. Surely you will admit the great advantage of this feature.

THREE BIG VALUES IN MISSION LIBRARY TABLES

Elegantly Designed Solid

Oak Library Table

For Less Than the Usual Price

IF YOU WANT an inexpensive library table that will surely please you, this is the table to buy. Never before have we been able to offer such a good, substantial table in strictly mission style at such an extremely low price. You will know immediately upon looking at it that the quality is unusual for a table at so low a price, and you will greatly appreciate your bargain when you get it home. We know what a rare bargain this table really is at this low figure and you will find it so, too.

DETAILS. The top measures 42x28 inches and is securely cleated and mortised to the box frame. There is a long smooth-running drawer fitted with two wood pulls. The long roomy shelf below is a very convenient feature and the panels at each end are most attractive, as may be seen in the illustration. All in all, it would be hard, indeed, to find a more handsome table in this particular style at any price. The correct lines of this table will appeal to all admirers of mission furniture, and at our price it is a most decided bargain. You will be proud to have such an artistic table in your home and the usefulness of it is so great that in a short time you will wonder how you ever got along without it.

Shipping weight, carefully crated, about 85 lbs.

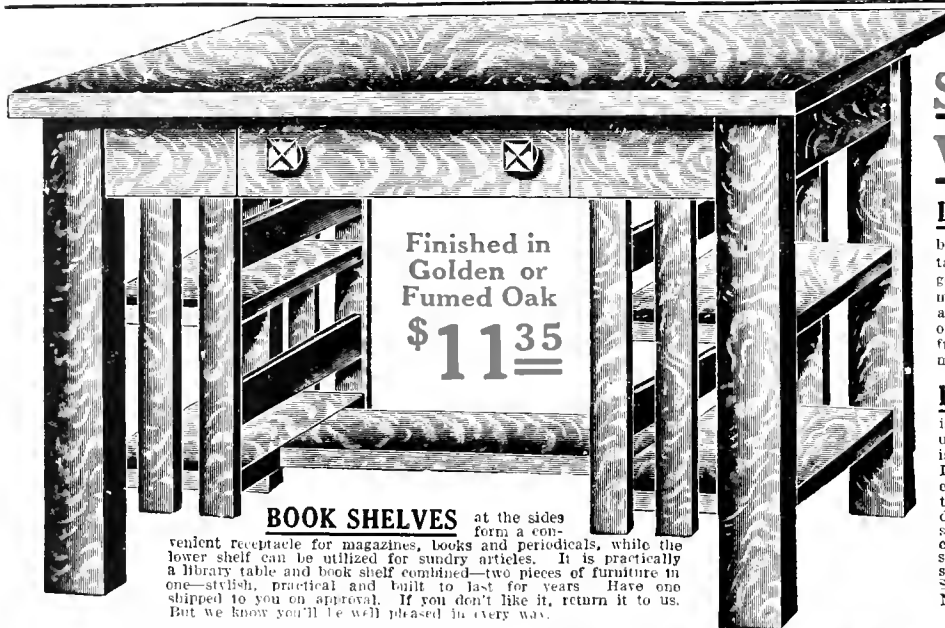

No. 5K468. Price.....\$7.65

Finished in
Fumed Oak.
Has Large
Top Measuring
42x28 Inches

\$7.65

CONSTRUCTED in a fine way, this strictly Mission Library Table is a very good example of this popular style of furniture. The heavy square legs, straight line top and plain undershelf conform absolutely to the true mission style. It is made of thoroughly seasoned, solid oak, carefully finished in Fumed color. A table like this one is necessary to complete the appointments of your library.

Finished in
Golden or
Fumed Oak
\$11.35

BOOK SHELVES

at the sides form a convenient receptacle for magazines, books and periodicals, while the lower shelf can be utilized for sundry articles. It is practically a library table and book shelf combined—two pieces of furniture in one—stylish, practical and built to last for years. Have one shipped to you on approval. If you don't like it, return it to us. But we know you'll be well pleased in every way.

Solid Oak Library Table With Quartered Oak Top

LOOK AT THE DESIGN of this table and see how convenient it will be with book shelves, large top and spacious drawer. This is a well known table offered at the remarkably low price with a year to pay. Together with its size, its massiveness, quality of lumber and workmanship, it is justly a banner bargain. You will notice by glance at the illustration that the mission idea has been perfectly carried out and that it is a table unusually old in design. If you add furniture built along quaint mission lines you cannot select a better model than this very table.

IT IS MADE of solid oak, with quartered oak top, in a style that will be extremely popular and is a model that will be an ornament to any library. The structure is substantial thoroughly seasoned and kiln-dried and finished in either a dull waxed golden oak or Fumed oak finish. It looks very handsome in either finish and it's merely a matter of choice as to the finish that harmonizes with your furnishings in the library. Please mention on order blank which finish you desire. This is important. The quarter-sawn oak top is of a shape with smooth finish and measures 48x28 inches in size. It contains a spacious drawer fitted with square wood pulls. Top sections form a rigid brace joining the lower shelf to the legs. Shipping weight, about 90 pounds.

No. 5K947. Price.....\$11.35

Genuine Quartered Oak Table With Writing Desk

THIS TABLE is an up-to-date design and one of the neatest mission style, combination library tables offered at this very low price. Notice its beautiful lines and rich mission design as shown in the illustration. The large, spacious top is 48x28 inches in size and constructed of quarter-sawn oak, and is exactly fitted to the artistic side panels and corner posts, which are of solid oak. As a writing desk it answers every conceivable purpose.

DESCRIPTION. It can be ordered finished in either Fumed or Golden Oak. It is extra well constructed and finished throughout. The top of the table measures 18 inches long by 28 inches wide. The solid oak book shelf under the table top is of generous size and strongly braces the sides, which have fancy panels. The large drawer has a writing desk top lid which when pulled out makes a perfect writing desk and is fitted with an ink well, protruding through the lid, so placed as to prevent the ink from being spilled. By raising the desk lid you have access to a large spacious drawer. Wooden drawer pulls of square design, harmonizing nicely with the general style of the table, are supplied as illustrated. Shipping weight, about 125 pounds.

HONESTY isn't merely the best policy—it is the only policy to pursue. We will do nothing to do with a factory that does not produce honestly made goods, because we could not recommend their merchandise to our customers. When our merchandising designer created this table we were particular to give it a factory that we could depend upon, absolutely. We therefore have no hesitancy in recommending it to you in unqualified terms. See page 1 of this money-saving catalog for credit terms.

STATIONERY DRAWER is full blocked-in construction, with genuine veneer bottom, such as used only on the better grade of tables. This drawer is large and roomy, being fitted with round wooden drawer pulls, as illustrated. Pillars and feet measure 2 1/2 inches wide. Shelf below is of very artistic shape; measures 33 inches long and 18 inches wide. Is fitted with "domes of silence," which prevent marring of hardwood floors or tearing rugs and carpets. Spread of base, 24 1/2 inches. Rim is 4 ins. wide, top 7/8 in. thick. Ship. wt., 110 lbs.

Oak Dining
Room Table.
42-In. Top**

\$8.45

FOR 6 FT. SIZE

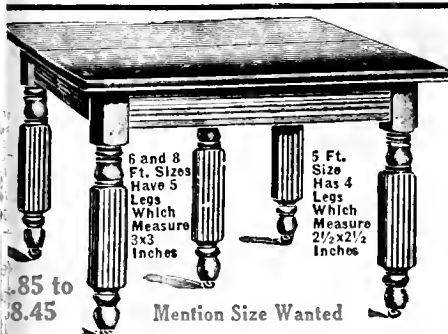

THIS TABLE is made of thoroughly seasoned lumber which is applied to the wood in such a way as to give the appearance of the real quarter-sawn oak, golden color. The size of the top is 42x42 inches, and the box rim measures 4 1/2 inches. All corners are carefully mitered and the workmanship is thoroughly dependable. The slides are made of well seasoned hard maple, assuring long life. They can be taken out and replaced with great ease—a factor of interest to the purchaser.

THE LEGS furnished are five in number and are made of the same substantial lumber as the top. They are nicely turned and measure 3 inches in diameter. You can order this attractive looking extension table in your choice of 6 or 8 foot sizes, as you prefer. When ordering please mention size desired, and be sure to give the correct number. Comes complete with casters as shown. We guarantee the construction of this table to be thoroughly reliable, and recommend it as a good value at these prices. (Order it sent upon approval. Shipping weight about 130 pounds.)

Quartered
Oak Table
With 45
Inch Top**

We Will
Trust You

THIS PICTURE was made from a photograph taken from the article itself. It is an extension table that is not unduly elaborate yet possessing sufficient grace to please the particular housekeeper. It is made of thoroughly seasoned lumber to which is applied a finish in imitation of quartered oak that looks very much like the real wood; golden color. The size of the top is 45x45 inches and the neatly rounded shape box rim measures 4 inches deep.

ALL CORNERS are carefully mitered. The slides used in the top are made of seasoned hard maple, and are warranted as to service. The legs are made of durable wood and are of a good size, measuring 5 inches in diameter. The simple rounded ends are set off at the bottom with a rim as shown in the illustration. When ordering be sure to state whether you want this table to extend to 6, 8 or 10 feet. Shipping weight about 130 pounds.

THE LOW PRICES make this table one of the most remarkable values ever offered by this institution. We placed a contract with the manufacturer for a large quantity of this particular design, and we obtained them at prices that enable us to offer them to you at these tempting figures. Select the size that you require and order it sent upon approval. It will go forward without delay.

HEAVILY BUILT through seasoned hardwood, to which is applied a finish in imitation of the genuine quarter-sawn oak. It is offered, not as a remarkably high grade table, but as a fine value. The pedestal is non-dividing. The wood used in constructing the top and base is joined by a dove-tailing machine, which lessens splitting and warping.

A
Great
Bargain

THE DESIGN of this dining room table is not overly elaborate, but is sure to appeal to the taste of those who prefer the simpler patterns in dining room furniture. The severe, straight lines of the pedestal are enhanced by a neat molding, shown in the illustration, and are set off to advantage by the very attractive colonial scroll design legs. For full particulars concerning this model read the following paragraphs.

THIS TABLE is made of solid oak throughout, in a rich golden oak finish. The top measures 42 inches in diameter, and can be ordered to extend to either 6 or 8-foot lengths, as desired, at the prices which we quote under the illustration. In ordering, be certain to specify which you prefer, so as to insure your receiving the correct size.

FITTED WITH Hartman's patented smooth running extension slides which prevent "sticking" - a common among moderately priced dining tables. It is made with straight rim, which measures 2 1/2 inches in size, and the pedestal is 7 inches square which is just a nice size to support the 42-inch top. The gracefully shaped scroll design legs measure 1 1/2 inches thick and are made from 2-ply birch up stock.

THE LEGS extend about 18 inches from the pedestal. This dining table is fitted with casters as shown. The workmanship of this table is of a grade that you would expect to find in tables selling at higher prices than we ask; we recommend it as a value typical of the Hartman organization. Shipping weight, about 120 lbs.

DINING TABLE is an article of furniture that should be purchased with care. It is used many times a day and, above all, must be a strong, durable article. That point is one which has been taken into consideration in the manufacture of the table which we offer here. It is very rigid and made to withstand hard and constant usage. You need a strong table to order this one.

URGE you to read every word of description concerning this table. Then we want to send for it upon approval. If you are not satisfied in every way, do not keep it. Return it to us and we will refund every penny of the transaction has you. If you want to keep it, make your payments according to our liberal credit terms as shown on page one of this money-saving catalog.

See Page One

See Page One

WE KNOW that once you see it, however, you'll want to keep it. It is made of thoroughly seasoned, solid oak throughout, finished in a handsome golden or fumed color. State which finish you wish, when ordering, as this will insure immediate shipment and save all unnecessary correspondence and consequent delay. Observe the neatly designed pedestal and gracefully curved Colonial legs.

THE TOP measures 42 inches in diameter, but can be extended to 6 or 8 feet, as desired. State which size you prefer. Is fitted with Hartman's smooth running slides. Pedestal measures 8 inches wide, the legs are of 3-ply lumber and are about 2½ inches thick. The rim is 2½ inches deep. The large top is brilliantly glossed, making it that much more desirable. Shipping weight, about 115 pounds.

SOLID OAK. This dining table is made of substantial solid oak, thoroughly seasoned and kiln-dried to a high gloss finish. It is heavy and substantial and is fitted with smooth running extension slides, permitting the table to be extended to 6, 8 or 10 foot lengths as purchased. The illustration was made from an actual photograph of the table itself and shows how attractive it really is.

IE DESIGN is decidedly pleasing and will enhance the surroundings of any dining room in any home. The pedestal is beautifully finished, is large and substantial and is fitted with thick curved legs ending in attractive carved claw feet. The splendid golden color, elegantly glossed, likewise adds to this handsome, serviceable piece of dining room furniture. It is a real bargain for the money.

We Trust You

We Trust You

THE QUALITY is in keeping with the Hartman standard. That in itself is a guarantee that will be appreciated by all who have done their buying here. If this table appeals to you, and surely you will admit it to be a very beautiful article, tell us to send it on our famous money-back-if-you-are-not-satisfied, approval plan. This table is an exceptional value at the prices below.

ROUND TOP measures 42 inches in diameter and admits extra leaf boards for extension according to size you select, which are furnished with the table. When you order please mention whether you wish this table to be extended to 6, 8 or 10 ft. size. This table is thoroughly guaranteed to give perfect satisfaction in every possible way. Shipping weight, carefully packed, about 120 pounds.

THIS TABLE has a 45-inch top and can be secured to extend to six or eight foot lengths, as desired, at the prices quoted. It is made of thoroughly seasoned and kiln-dried solid oak, finished in a highly glossed golden color, which is so generally used for dining room furniture. This is a very attractive model and one which we know you will be glad to own. Order it in the size that you wish.

THE LEGS are massive in appearance, of beautiful scroll design and embellished with neat carving, as shown in the large illustration. These legs are made of 3-ply built-up stock and extend 15 1/2 inches from the pedestal. They measure 10 inches at the widest point. They are about 2 1/2 inches thick. We recommend this dining room table to give satisfactory service in every way and urge you to order it.

\$13⁷⁵ For 6-Foot Length

\$15⁷⁵ For 8-Foot Length

THE DRUM is shapely and massive as well, measuring 8 inches in diameter, rim is of standard size, bottom 2 1/2 inches in width. The table is fitted with Hartman hardwood easy running slides which prevent it from sticking—a fault so common in medium-priced dining tables. In fact, this table is far superior in many ways to the usually found at these prices.

WHEN YOU BUY from us receive the benefit of many years' experience in household merchandising, low prices and liberal credit terms. Secure this threefold advantage and select this superior, serviceable dining room table. Order it subject to approval, and if it does not please you in every way you are under no obligation to keep it. Shipping weight, carefully packed, 150 lbs.

UNIQUE DESIGN IN A SOLID OAK DINING TABLE

Take Your
Choice of 6
or 8 Foot
Lengths and
of Fumed or
Golden.

THE STYLE of this dining room table is very unique, and attractive as well. It is a Mission type, with William and Mary design pillars standing out in relief against the severe square lines of the drum. The illustration shows this style to great advantage and it will give you a clear idea of its very handsome lines. And yet the picture, at best, does not do justice to the table itself. To thoroughly appreciate the value that we offer in this model, you should send for it upon approval, so that you can examine it in your home. Thoroughly seasoned, kiln dried solid oak is used throughout in your choice of golden or fumed finish, as you prefer. When sending us your order, kindly tell us which finish you desire us to ship to you.

48-INCH TOP. The top of this artistic dining table measures 48 inches in diameter and can be ordered to extend to six or eight foot lengths at the prices quoted below the illustration. In order to be sure to state the size that you wish. Is fitted with Hartman's Practical Easy Running Extension Slides, to prevent "sticking." This is a feature that will be appreciated by the woman who has experienced the unpleasantness of using cheaply constructed dining room tables. It is one of the factors that makes our tables a pleasure to own.

THE DRUM measures 48 inches in diameter, the legs are each 3 1/2 inches wide, and the rim is 1 1/2 inches in size. It is in a way a desirable piece of dining room furniture. Is fitted with casters as shown. It is upon the easy credit terms planned on page one of our wonderful money-saving bargains. Read these over fully.

SATISFACTION is a big word. But it is no big that we do not appreciate the full scope of meaning. And then when we say that our dining table will render satisfaction in every way, make this statement being full well the merit of this number. Ship weight about 140 pounds.

WONDERFUL BARGAIN IN A 48 INCH PLANK TOP TABLE

Planked
Is Very Ma
ive. Tal
is Made
Solid Oak
Golden
Fumed Fi

THIS TABLE is a splendid example of the kind of values you receive here. It is made of genuine solid oak throughout, and comes in either golden or fumed finish. Has a heavy planked top, 48 inches in diameter that is 1 1/2 inches thick. This is about twice the thickness of most table tops. It adds to the substantial and durable construction of the table, reducing the possibility of the top warping out of shape. The table rim is 2 1/2 inches deep. The filler boards are also made of solid oak and measure 3/4 inch thick. Can be extended to 6, 8 or 10 feet as quoted below.

THE PEDESTAL is square in shape and imposing in appearance. Each face measures 9 inches across. The feet are very artistic, yet massive, extending 16 inches from the barrel. At the large end, where they are attached to the barrel they measure 8 inches deep and are 3 1/2 inches thick.

IN ORDERING

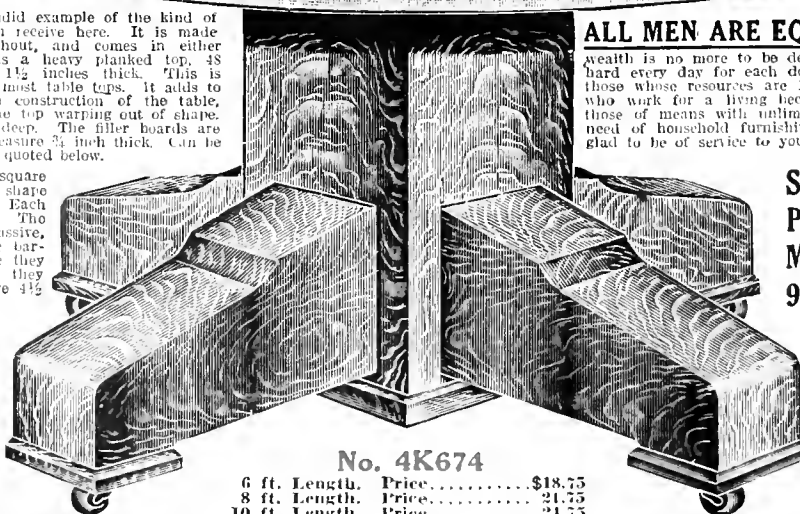

be sure to state which finish you desire. Also mention whether you wish this table to extend to 6, 8 or 10 feet. By so doing you will avoid further correspondence and eliminate delays. Is fitted with strong smooth running extension slides. Is sold under our legal guarantee of satisfaction or your money back. Shipping weight, 6 ft. size, 160 lbs.

ALL MEN ARE EQUAL before the law. Likewise all men are equal before the house of Hartman. A man's wealth is no more to be desired by us as a customer than the one who has hard every day for each dollar that he earns. In fact our object is to those whose resources are limited—we especially cater to the men and women who work for a living because we want to give them the same privilege of those of means with unlimited incomes at their command. When you need of household furnishings, remember we always trust you and are glad to be of service to you.

LAND RUBBED AND POLISHED 48 IN. QUARTERED OAK TABLE

Full 48-Inch
Top. Choice
of Golden or
Fumed Finish.
Observe The
Massive Base.
Extends to
6, 8 or 10 Feet

NEFIT BY THIS OFFER. Here is a dining table that far surpasses all previous efforts in value-giving. It is made of specially seasoned genuine quarter-sawed oak throughout, with the exception of the platform base and pedestal, which are of kiln dried solid oak. The beautiful hand-rubbed and polished top makes this one of the most attractive tables on the market for the money. Size of top 48x48 inches. Fitted with reliable hard wood smoothing extension slides, to prevent "sticking." Order it to extend to 6, 8 or 10 feet as desired, as per the prices listed. Pedestal is gloss finish.

MEASUREMENTS. The oak leaves 13/16 inch in thickness. Rim is about 3 inches x 1/2 inch. Handsome scroll platform is 26x26x1 1/4 in. Width of scrolls is 4 in. and the handsome, square pedestal measures 11 inches in diameter. Fitted with steel casters.

YOU CAN TELL

These measurements how true are the proportions. You should see the table to become absolutely convinced of its vast superiority. It is in a class by itself. The shipping weight fully packed is about 175 lbs.

IN THIS WORLD you will find two distinct classes of people: those who greatly increase the number of thinkers; but is often the result of brain work. On the other hand many persons have fallen into legacies and fortunes, who are rich, but do not fully appreciate the use of money because they do not know how to think. Others are poor in worldly things but rich in thought. These are the people who have the insight into life that really counts. Such persons are they who study and learn, who develop the home, because they appreciate its true value. They are the people who buy from us on credit because they realize that by so doing they are making their money fulfill its greatest purpose, and at the same time are enriching their homes and their surroundings.

FEATURE of this dining room table is found in its massive proportions, as well as its actual size. It is a measuring 54 inches across the top. This top is of a heavy style, and the pillar and platform are made sufficiently large to keep with the size of the top. The design is typically Colonial with beautifully rounded scroll feet and octagon pillar in bell style. Quarter-sawed oak is used throughout in the construction of this number. The top is attractively hand rubbed and polished giving it a beautiful mirror-like finish.

THE BASE is in high gloss finish. You can have your choice of golden or fumed oak finish, as you prefer. In sending us your order kindly state which one of these finishes you desire us to send. You can have your choice of six, eight or ten-foot lengths at the prices shown under the illustration. In ordering, be sure to specify the length table that will answer your requirements, as this will eliminate unnecessary correspondence.

THE GRANDEUR

expressed in the massive lines of this table will appeal to those seeking this class of furniture, and will adorn the best appointed home. The hand sawed, bell shaped pillar measures 15 inches in width. Compare it with the size of the average dining room table.

PLATFORM measures 26 1/4 inches thick. From these measurements you will note that all parts are made to correspond in size, and likewise the relation between the very parts is such as to produce a well proportioned harmonious piece of dining room furniture. Fitted with casters. Shipping weight, 200 lbs.

Order This 54-Inch Buffet

No. 4J700. Price.....\$36.95

A FINE BUFFET is shown to the left. It is a perfect William and Mary Period dining room piece, expertly constructed of genuine quarter-sawed oak, finished in your choice of waxed or hand rubbed and polished golden oak, or fumed. In ordering, please tell us which finish you wish us to send. Possesses a neatly designed French bevel plate mirror measuring 10x28 inches in size. The top is 22x54 inches. Bear in mind that this is not a small piece by any means, as a 54-inch buffet is an extra size, seldom found in the average home. There is a full length top drawer and two smaller drawers below, on either side of which is a cupboard, as shown. One drawer is lined for silverware.

IT HAS correct William and Mary Period designed trimmings, brass hinges and is fitted with maple wheel casters. Height is 50 inches. The legs correspond with the other pieces of this set and are braced with stretchers, as shown. Shipping weight is approximately 185 pounds.
No. 4J700.
Price.....\$36.95

SERVING TABLE.

This serving table is a correct William and Mary Period piece of dining room furniture. Very splendidly constructed of genuine quarter-sawed oak in your choice of waxed or hand rubbed and polished golden, or fumed oak finish. Specify which finish you desire. Has full length drawer fitted with correct period design trimmings. The top measures 18x38 inches, which is just a nice size and is proportionate to the other pieces shown on this page. The front legs are very gracefully shaped and are braced with stretchers, as is the buffet shown to the left and described above. Maple wheel casters. Shipping weight about 100 pounds.

WHEN WE STATE with all the emphasis of our vast organization that this is the greatest sideboard bargain that we have ever offered, we mean exactly what we say. It has all of the important advantages of the high priced ones sold by others, and possesses all the beauty, substantial construction and satisfaction giving qualities that you have a right to demand in the furniture for your home.

HOW IT IS MADE. This handsome sideboard is honestly made at every point in its construction. The wood is thoroughly seasoned, kiln dried, solid white oak. The graceful serpentine drawer fronts, the pillars on the supports and the ornaments on the extreme back top are thoroughly seasoned, quarter sawed oak. It stands 80 inches high, 42 inches wide and 21 inches deep. The attractive French bevel mirror measures 24x14 inches. The end panels are three-ply rotary cut oak, displaying a fine large fancy grain.

You Can't Afford
to Miss This
Great Value

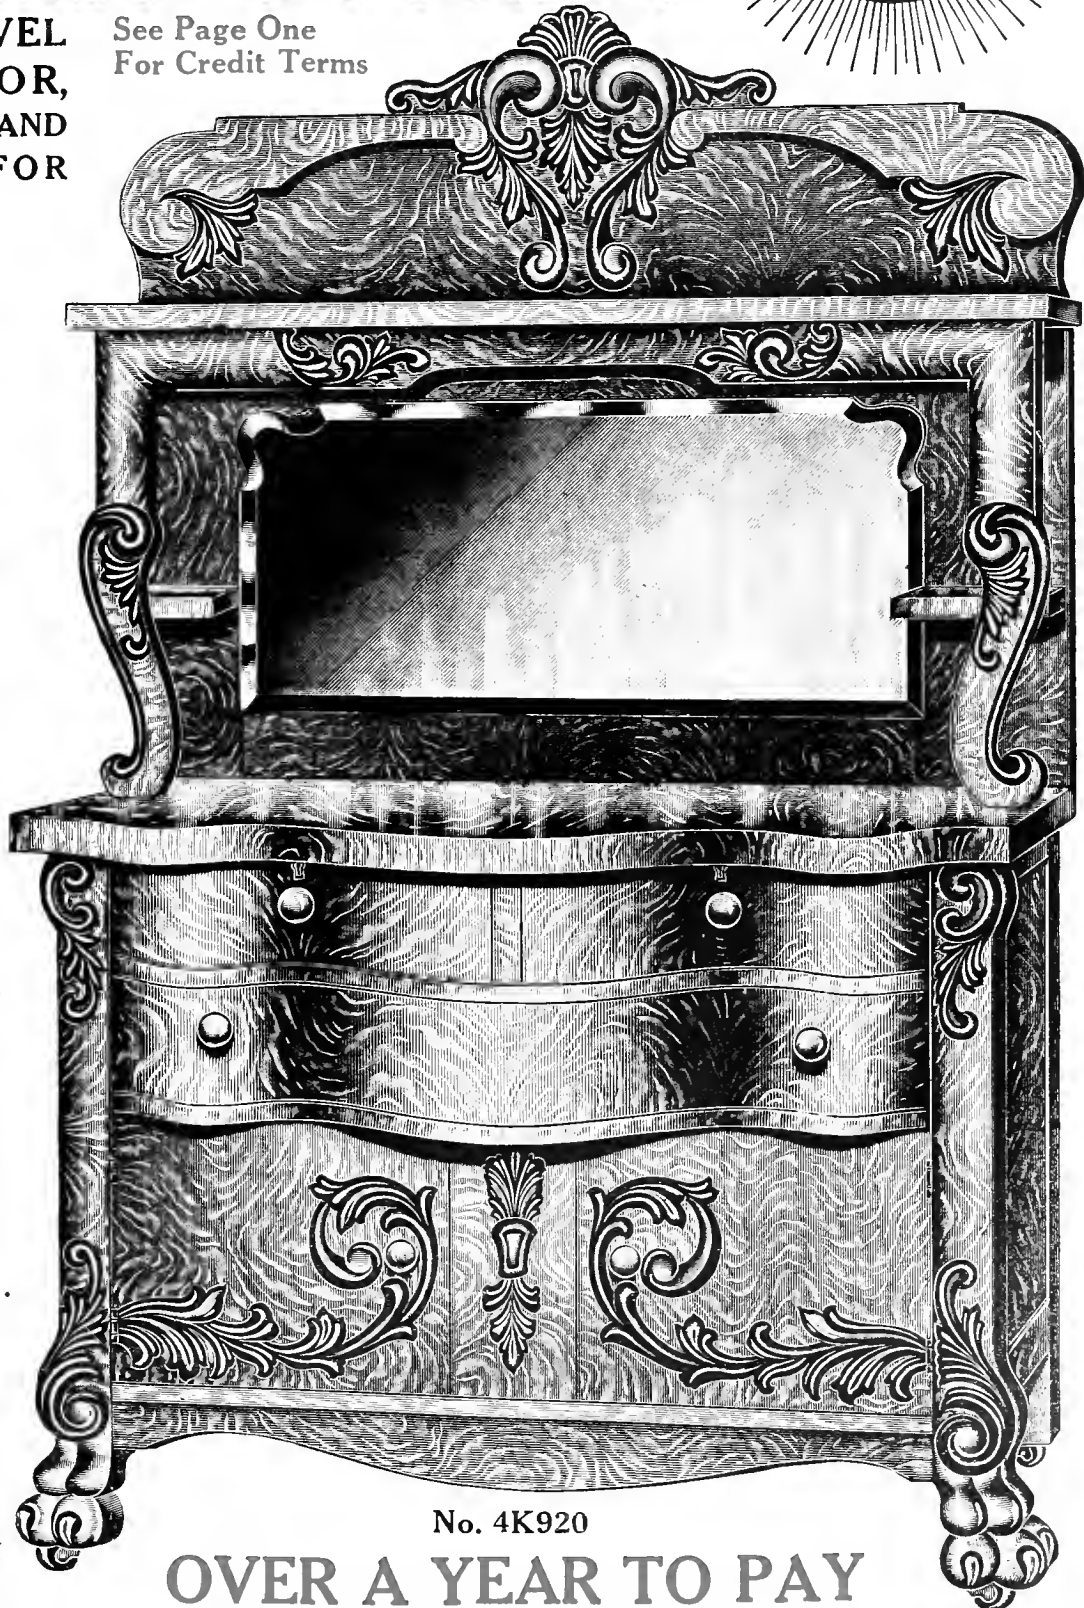

OTHER FEATURES. The upper and drawer is carefully lined for silverware. This is a feature well worth considering. All drawers are large and roomy. The heavy claw feet not only add to its strength, but will enhance the beauty of your dining room equipment. Sideboard finished in a rich golden color, is neatly set off with wood knobs and has strong hardwood casters. Drawers fitted with strong locks and key. There is a handy shelf at top and a smaller shelf at either side supported by the standards. Below the two drawers at the top is a full width linen drawer and a large cupboard with two doors, each ornamented with carved designs.

EXAMINE THE PICTURE.

The illustration shown on this page will give you a better conception of the excellence of this magnificent sideboard than any amount of lengthy description. Examine the picture. Then send us your order. Place the sideboard in your dining room, examine it carefully, use it in approval, and if for any reason it fails to meet with your entire satisfaction, ship it back at our expense, and we will refund every cent that it has cost you. Can you ask for any fairer proposition than that? If you decide to keep it, you can pay for it in small installments as outlined in detail on page one. Shipping weight about 110 pounds.

BUSINESS METHODS

have changed materially in the last sixty years. When we first opened our doors we found our competitors all operating practically upon one line. They all figured that the only way to achieve success was to secure as much for an article as they thought a customer would give. Our policy was different; we estimated that by buying in large quantities we could buy for less and thereby sell for less. We found that this theory was correct, because our sales exceeded our fondest hopes. Realizing that this was the proper policy to pursue we have been operating along these lines ever since. The more we sell the more we can buy, the cheaper our prices—and as our business increases the greatness of our values naturally improves in proportion. You don't have to look far to become convinced of the truth of our assertions. For this fine new design carved oak sideboard is an excellent example of stupendous value.

LOOK AT THE PICTURE.

That is sufficient to convince you of the rare beauty, artistic outline and splendid proportions of this fine piece of dining room furniture. It is made throughout of thoroughly seasoned and kiln dried solid oak in the handsome golden color. The beautiful serpentine top drawers are made of quarter sawed oak, and one is lined for silverware. This sideboard has three-ply single end panels and is trimmed with wood knobs and hard wood casters as shown in the illustration. Particularly note the strong, bold carvings at the top, on the panels of the doors below and on the front posts. There is a large full length linen drawer below the two top drawers. Above the latter is a heavy top measuring 42x21 inches. On this top rest the two attractive standards which support the side brackets on either side of the mirror. The French beveled plate mirror is of attractive outline and measures 24x14 in. Observe that the massive scrolls on the standards correspond with those on front posts.

SEND US YOUR ORDER.

It seems almost impossible perhaps to you that you can have this elegant sideboard on such confidential, liberal credit terms; but that is exactly what you can do, and more than that, it will be sent to you upon approval and you are to be the judge. If it does not come up to your expectations, or you are not pleased with it in every way, ship it back at our expense and we will return every penny it has cost you. If you care to keep it, make your payments according to our liberal terms as shown on Page one of this bargain book. Shipping weight about 160 pounds.

Elegantly Enhanced By Rich Carvings**

AT THE LIE. All honest men and women in America should do all in their power to "Swat the Lie" of the scrupulous dealer, mail order house and merchant in every kind of business. He does not deserve the patronage of those whose hard-earned cash he tries to obtain through false representation. For 60 years we have been building up our business upon honesty and fair dealing. Our methods have earned the support of countless men and women in every section of this country because they have seen that the great house of HARTMAN is built upon a solid foundation of truth and reliability.

VERY STATEMENT that we make concerning this artistic sideboard can be depended upon in every way. It is made throughout of highly seasoned and kiln dried, solid oak. The 2 serpentine top drawers are constructed of thoroughly seasoned quarter-sawed oak. One of these drawers is lined for silverware. The heavy moulded, double top is 42x21 inches. Below the hung top drawers are 2 roomy cupboards and a large linen drawer at the bottom. The end panels are made of 3-ply rotary cut lumber. This sideboard has a heavy, 3-ply back. The attractive French beveled plate mirror is 24x14 inches.

HAND CARVINGS deeply cut, embellish the extreme top and base as well as the design on either side of the mirror. The handy shelf above this mirror is full length. Being finished in a rich golden color, this sideboard is very pleasing to the eye. It is trimmed with wooden knobs and hardwood casters. The front legs are of claw foot pattern, to harmonize with the elaborate carvings. See page 1 for terms. Shipping weight is about 200 pounds.

TWO EXTRAORDINARY BUFFET BARGAINS

**ARTISTIC COLONIAL
BUFFET IN AMERICAN
QUARTERED OAK FIN-
ISH, HAS 21x42 INCH
PLANKED TOP AND
LARGE MIRROR**

\$14⁸⁵

THE HOME is the anchor of a man's life. If you want to stop a ship, you drop the anchor. If a man wants refuge from the temptations of the outside world he naturally seeks his home. It stands to reason, therefore, that the home should be a place of rest and comfort. Enhance the appearance of your household by the right kind of furnishings and your home will be a "haven" for yourself and family. A buffet such as this one will help to equip the home as it should be. Because it not only gives you an article of merit from the standpoint of value, but is a remarkably attractive piece of furniture.

THE MATERIAL is substantial and the construction is excellent. Strong hardwood is used in building this buffet, to which is applied a finish in imitation of handsome quarter-sawed oak. This finish looks like the real quarter sawed oak and will give good service. The design is a true Colonial model as shown in the picture to the left. The curved pilasters supporting the top correspond with the artistic corner posts. There are four top drawers under the heavy planked base top, one lined for silver, two center drawers, cupboard on either side and a full length linen drawer below. Round wooden drawer pulls. Comes complete with casters. Below give the dimensions of this number.

MEASUREMENTS: The top of this attractive buffet is 21x42 inches; being a very desirable size for average family use. The French beveled mirror is 10x28 inches and the height over all is 56 inches. The posts measure 13 1/4 inches wide. Order this excellent piece of dining room furniture on approval. If it does not please you, do not keep it. Shipping weight, about 150 pounds. **No. 4K923. Price, \$14.85.**

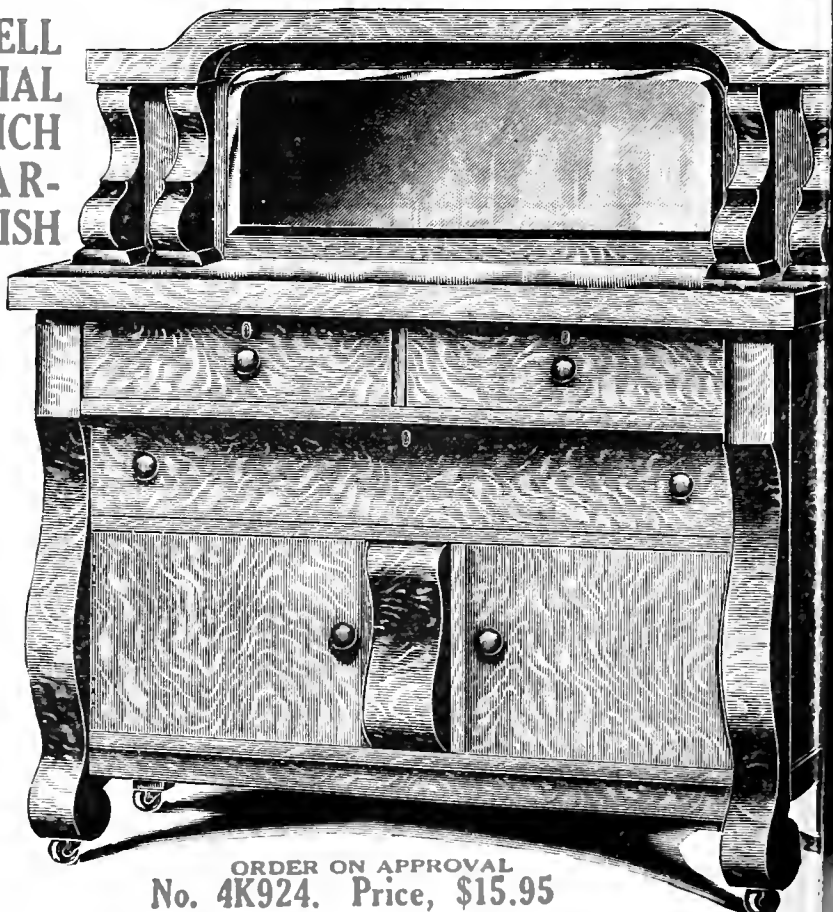

\$15⁹⁵

**AN ELEGANT WELL
MADE COLONIAL
BUFFET WITH RICH
AMERICAN QUAR-
TERED OAK FINISH
HEAVY PLANK TOP**

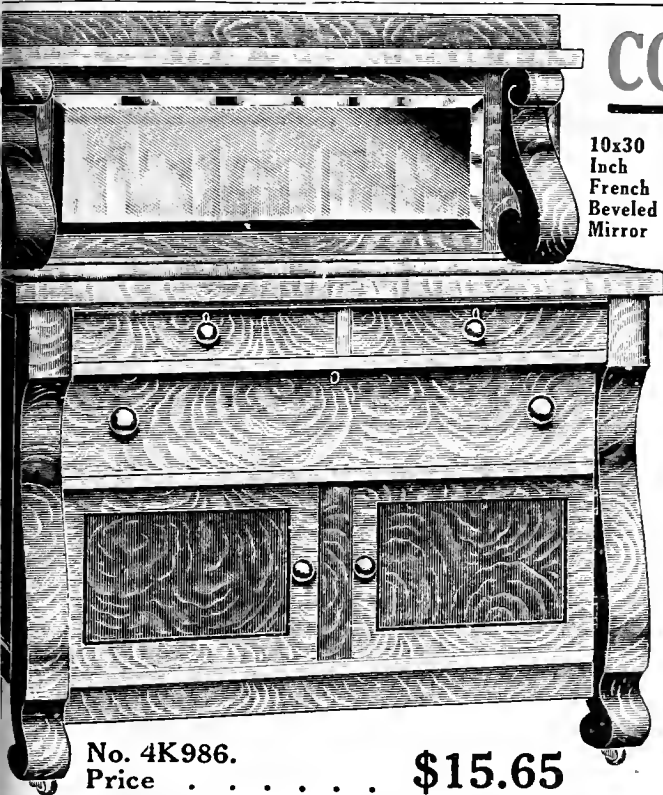

WE BELIEVE that the working people of this country deserve every consideration possible to give them, nor is this mere talk, we "practice what we preach." Our great mass of employees are all well paid and well cared for. Their comforts consist of rest rooms, hospital, dining rooms and every feature that could be desired to add to their convenience. Those working for others we want to serve likewise, but we serve them in a different way. We fulfill their household requirements and give them a year in which to pay their bills. We go further than that, we search the world's markets for the best values that can be procured and give our customers the benefits of our vast purchasing power and easy credit terms.

AS PROOF of our stupendous value-giving, your attention is directed to this massive, heavy, plank top buffet. Its lines are graceful, its workmanship is excellent and will prove a wonderful value at the price. The lumber used is seasoned hardwood, to which is applied an imitation quartered oak finish in a rich golden color. This finish so closely resembles the genuine quarter-sawed oak that it takes the eye of an expert to detect the difference. The large French beveled plate mirror measures 10x28 inches and is gracefully rounded at top, as shown. The attractive top is supported by 4 artistic Colonial design pilasters to match the Colonial pattern posts. Also observe the shapely, scroll ornamentation between the doors on either side.

THE PLANK TOP measures 20x42 inches. It is made of 1 inch chestnut core with two layers cross banded veneer on top and bottom and 1 1/2 inch under strip mortised on around outside. There are 2 straight front, overhung top drawers, one of which is neatly lined for silverware. Below these top drawers is a full length drawer, as shown, for linens, below which are 2 compartments; the latter, as well as the drawers, are all fitted with rounded wooden knobs. Shpg. wt., about 175 lbs. **No. 4K924. Price, \$15.95.**

COLONIAL DESIGN BUFFET

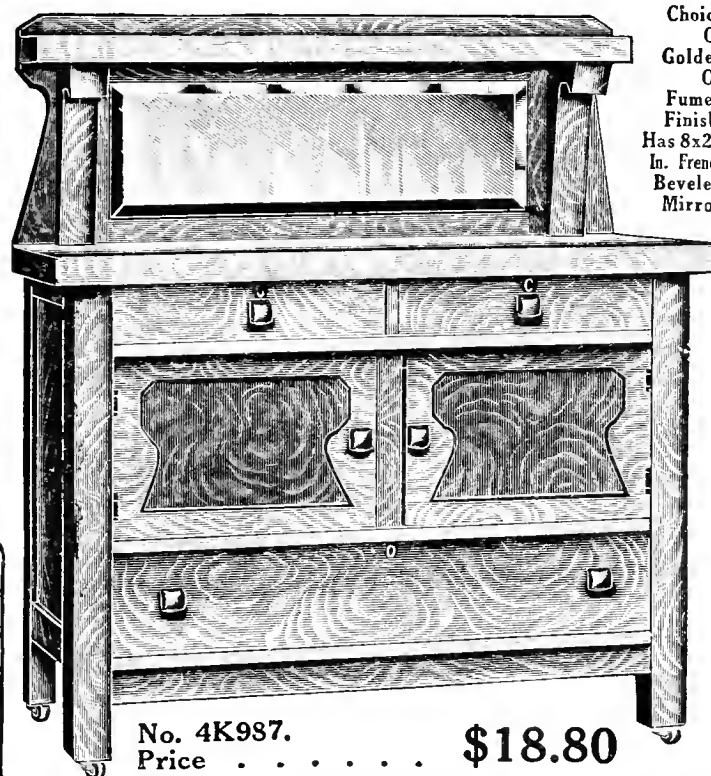

Well Constructed Of American
Quartered Oak, In The Rich
Golden Finish. Has Overhung
Top Drawers And 20x42 In. Base

\$15.65

THE LUMBER used in the manufacture of this reasonably priced buffet is seasoned hardwood, to which is applied a finish in imitation of genuine quarter-sawed oak. This finish looks a great deal like the real wood. The rich gloss golden color is used on this design. The overhung top drawers, large middle drawer and roomy lower cupboard compartment are among its features. It is typically Colonial in style; with heavy, Colonial posts and scroll pilasters which are shown in the illustration. The drawers and cupboard doors are fitted with round wooden knobs and it is completed with casters. It is a piece of dining room furniture you will be glad to own.

THE LINES of this buffet answer the appeal of the buyer who seeks refinement in his home. The construction is dependable, both as to materials and workmanship. In fact, we consider that for the money this is an article of furniture that deserves especial mention. And to back up every claim of good, sound value-giving, we repeat our money-back guarantee if you are not satisfied in every way. The base is of a generous size, measuring 42 inches in width and 20 inches in depth. The good grade French bevel plate mirror measures 10x30 inches. Comes complete with locks, key and casters. Shipping weight, about 135 pounds. No. 4K986. Price.

QUARTER-SAWED OAK

Is Used On The Front, Top And
Toilet. Balance Of Buffet Made
Of Seasoned Solid Oak, Golden
Or Fumed. 20x42 In. Plank Top

\$21.95

THE DESIGN of this attractive buffet is of the Colonial type—graceful and pleasing to the eye. Observe how the massive scroll feet and scroll pilasters give to it an aristocratic and commanding appearance. It is made with seasoned, genuine quarter-sawed oak front, top and toilet, the balance being of substantial solid oak. You can order this splendid buffet in your choice of either fumed or glossed golden oak as you prefer. When ordering please advise us which finish you desire us to send. Is made with two small upper drawers and one middle drawer, with a roomy cupboard compartment below.

A FEATURE that is distinctive of this article and one that is striking as well is the design of the cupboard doors in combination with the heavy scroll and features his product against that of the mediocre craftsman. The base top is of planked lumber, extra heavy and massive. This base measures 42 inches wide and 20 inches deep. The French bevel plate mirror is of a good grade and of ample size, being 32 inches in length and 10 inches in height. Shipping weight, about 150 pounds. No. 4K988. Price.

PREPAREDNESS. Perhaps no one subject has been more generally discussed than that of national preparedness. The disastrous results of the lack of preparedness have been deplored by some of the countries involved in the European conflict. The matter of the country's readiness for war directs our attention to another all important factor in our daily life and that is the preparedness of the home. Every household is a haven of rest. As such it should receive the attention that it deserves. Prepare it by furnishing it in such a manner as to make it a source of comfort at all times.

THIS BUFFET will help you in the fulfillment of your desires for a beautifully furnished domicile. It is made throughout of seasoned and kiln dried solid oak, with substantial large grained genuine quarter-sawn oak door panels. The end panels are 3-ply rotary cut solid oak which shows a large grain and it has three-ply back panel which gives the case added strength. You can have your choice of rich golden or fumed oak. State which you prefer.

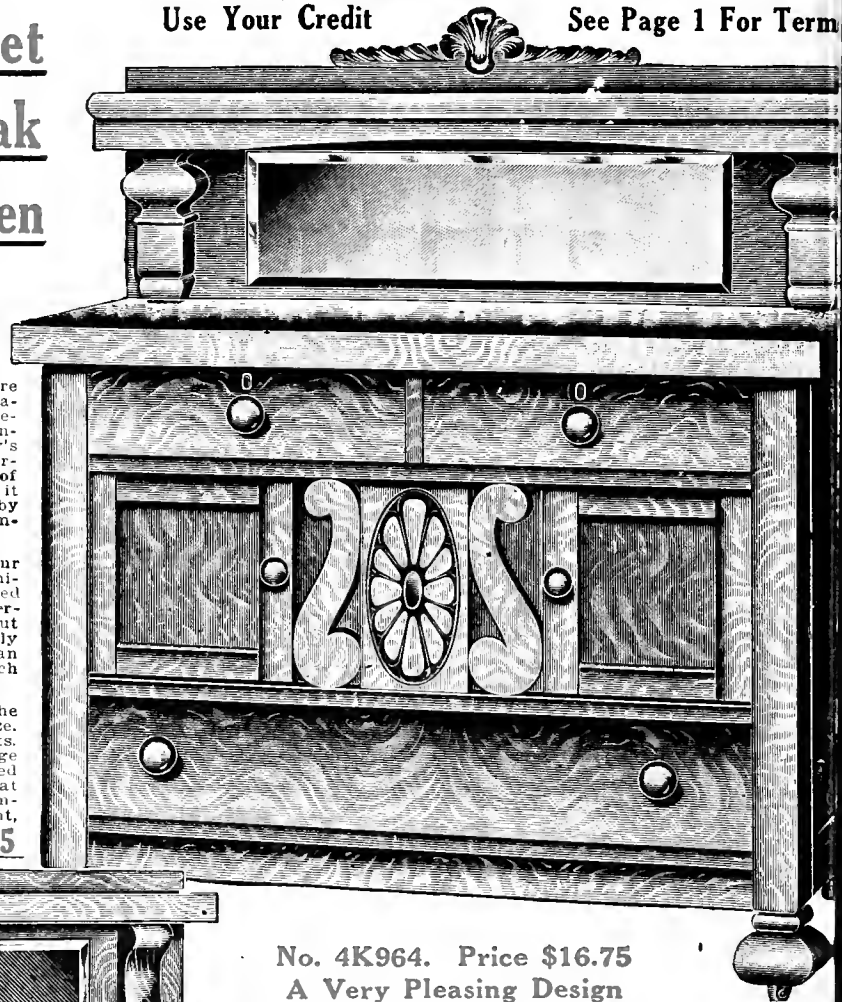

THE TOP is a plank effect measuring 42 x 20 inches. The French beveled mirror is 24 x 10 inches in size. Shelf across top is supported by extra heavy band sawed posts. Possesses two top drawers, one lined for silverware, a large open drawer in the bottom and spacious cupboard. Trimmed with wooden knobs and hardwood casters. Nicely set off at top with carving as illustrated. Observe the elaborate embellishment between the cupboard doors. Shipping weight, about 150 pounds.

WE WORK for the working man. His requirements receive our earnest attention. His ability to earn money, no matter how little it may be, is sufficient element for him to receive credit from the House of Hartman. We have confidence in the sincerity of the working men and women of America. Select any goods you desire which are found in this book and tell us to ship them on approval. We will find them all we claim and are thoroughly satisfied in any way, make your payments according to our liberal credit. If you are not satisfied, you may return them and we will refund every penny the transaction has cost you.

THIS COLONIAL BUFFET is a wonderful value for the low price we quote. If you are thinking of purchasing a buffet for your home, you could not find a better value for the money. Genuine quarter-sawn oak is used throughout, except the sides, which are 3-ply rotary cut oak; comes in golden color, glossed or fumed finish. State finish wanted. Has a heavy planked base top as shown, two top drawers, one full drawer and roomy cupboard below, on each side of which is a colonial pilaster to harmonize with the curved corner posts supporting the ledge above, all measuring 1½" wide.

FITTED WITH round wooden knobs. Base is 19x42 inches, height 53½ inches. French bevel planked mirror measures 24x32 inches. This buffet is complete with wheel casters and locks on two top drawers. The cabinet is finished off with a neat back to complete the ledge. The bottom contains panel across entire front, as illustrated. Buffet, carefully packed for shipping, weighs approximately 160 pounds.

48x21 Inches Wide. Golden or Fumed Finish

DON'T BUY ON IMPULSE. If you happen to see some article of merchandise in your home town that appeals to you, don't buy it on the impulse of the moment. Wait until you get back home and consider your contemplated purchase in a calm manner. If it happens to be an article of household furniture, we want you to take a look through the pages of this book. We are sure that you will find the same kind of merchandise at a lower price. And more than that we will permit you to order it as soon as you care to and pay for it as you use the goods. Should you wish to buy a buffet we urge you to consider the one shown here.

48 INCHES WIDE. This buffet is made of quartered oak with the exception of end panels, which are of substantial solid oak. Base top is five-ply built-up and quartered oak veneered on a plank top, 1½ inches thick. This large top measures 48x22 inches. French bevel plate mirror is 44x12 inches. The entire front of the buffet is made of quarter-sawed oak veneer. Two top drawers, one lined for silverware, two compartments below and full length linen drawer across bottom. Choice of golden or fumed oak finish; drawers case rubbed and polished. Back made of one piece of three-ply stock, drawer bottoms also three-ply stock and finished inside. Round wooden knobs. GENUINE QUARTER SAWED OAK BUFFET

Has a Heavy Plank Top
Measuring 48x22 Inches
Typical Colonial Design

MATCH IT if you can, at our exceedingly low price. But compare it with others of similar pattern and convince yourself of its exceptional value. The heavy plank top is of extra large size, measuring 48 inches. This top, front (excepting pilasters) and top are made of substantial large grained quarter sawed oak. The end panels are made of three-ply rotary cut oak finished in a beautiful golden or fumed color.

THE MIRROR is a fine quality French beveled plate and measures 36x12 inches. The Colonial lines characterize this massive extra large mirror. Standards of Colonial pattern support the heavy shelf, joined in an attractive manner to correspond with the design of the mirror. There is a large top drawer and two smaller ones, one of which is lined for silverware. Particularly of the two-door compartment below, on either side of which is a large looking panel. Below this compartment is a large drawer in the center of which is an attractive moulding, enriches the appearance of the two doors just above it. Corner posts are of Colonial design to match standard.

IT'S A LEADER at our low price. It's one of the values that is not often to be found.

we therefore urge you to send us your order while our line remains unbroken. It is a thoroughly dependable and serviceable buffet such as you will be proud to own. Is trimmed with wood knobs and hardwood casters. It will be sent on approval according to our liberal guarantee of satisfaction and according to the terms outlined in detail on Page 1 of this money-saving catalog. If you want a buffet that will add greatly to the furnishing of your dining room, order this one. It weighs, packed for shipment, about 210 pounds.
No. 4K969. Price **\$26.85**

ELEGANT BUFFET OF QUARTERED OAK

Very Massive Planked Top
Swell Shape Center Drawers
Top Measures 48x22 Inches

THE SUCCESSFUL CONCERN. is the one that realizes that it is as important to "listen eloquently" as it is to "speak eloquently." We have always "listened eloquently" to the suggestions of our customers. We have profited by their ideas, and are always on the alert to improve our facilities to render complete satisfaction.

QUARTER-SAWED OAK is used in building it; and you can have your choice of golden or fumed finish. Please advise which you desire. The top measures 48x22 inches, which makes this a very large and imposing piece of furniture. The design is strictly Colonial, and one that makes this buffet suitable for any dining room. Note the attractive scroll pilasters on either side of the mirror and either side of base.

THE MIRROR is a French bevel plate, measuring 36x10 inches; plank top, below which are two top drawers (fitted with locks), right hand drawer being lined for silverware. Three swell shape center drawers, with cupboards on either side afford ample storage space. Full length linen drawer at bottom. All drawers and doors are fitted with round wooden knobs. Height, 55 inches. It has maple wheel casters. Shipping weight, about 225 lbs.

Send Us Your Order For This Fine Buffet

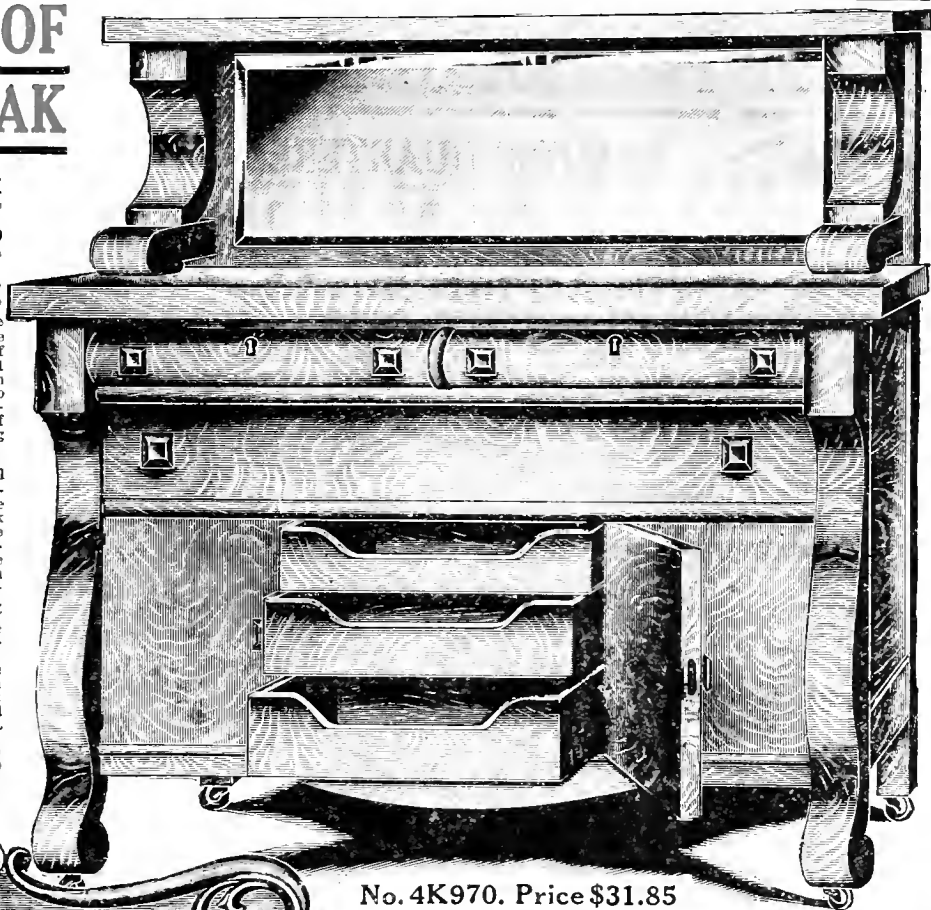

HANDSOME BUFFET OF QUARTER-SAWED OAK

Has a 3-Drawer Cabinet
And Has a Heavy Plank Top
Measuring 48x24 Inches

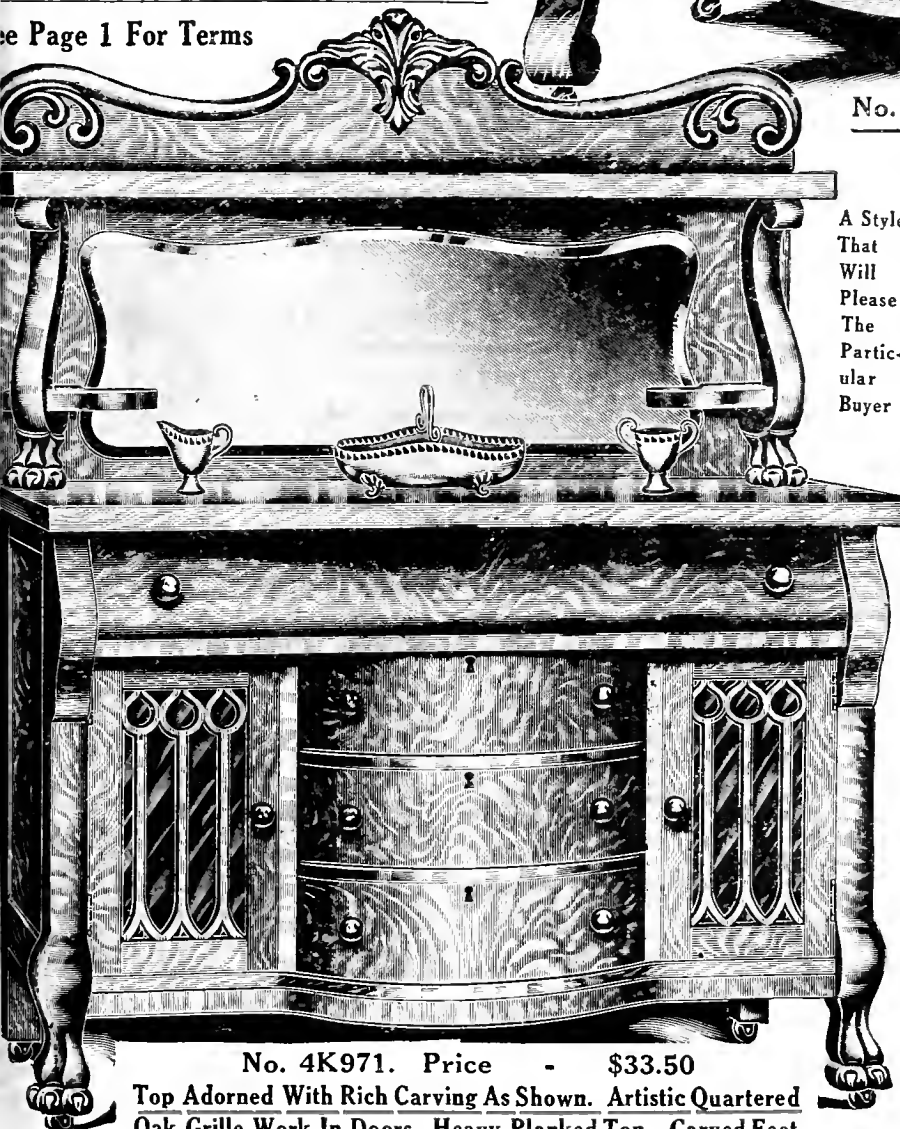

THE DISTINCTION of owning such household furniture as this magnificent buffet cannot be compared with any other feeling on earth. It gives you a sense of pride that is a genuine satisfaction. It means wonders to the real owner of a real home. It is made of genuine quarter-sawed oak in true Colonial design and can be ordered in either golden (piano finished) or fumed color. In ordering kindly state which you desire. It is without any question one of the handsomest pieces of dining room furniture we have ever had the pleasure of offering our customers at this low price.

THE STYLE of this buffet is superb. The large French bevel plate mirror measuring 10x10 inches, sets between two concave shaped standards which rest on a Colonial base and likewise support the top shelf as shown. The heavy plank base top is a noteworthy feature and measures 21x18 inches. Below this top are two top drawers, one of which is lined for silver, below which is a full length drawer for linens. Below the latter are three compartments, the center one concealing three shapely easy pull drawers as illustrated. These drawers and compartments are all finished off with beveled square knobs. The base is attractively finished with curved panel at the bottom, giving a finished look to the entire piece. It stands 51 inches high. The Colonial corner posts enhance its beauty to a marked degree. Maple wheel casters. Shipping wt., about 225 lbs. No. 4K970. Price..... **\$31.85**

THE CONVENIENCE of having plenty of ready money is recognized by everyone, but there are times when you may not feel that you have enough surplus cash on hand to purchase the very article that you would like to secure. On the other hand, there is no reason, even though you have the money, why you should pay cash when Hartman's offer such liberal credit.

THIS BUFFET is really a remarkably handsome piece of furniture at a price that will positively astonish well informed buyers. Beautifully grained quarter-sawed oak is used in its construction; seasoned and kiln dried solid oak being used in the ends. There is a full length shelf across the top, supported by scroll shaped pilasters, terminating in carved claw feet. The small shelves on either side are mortised to fit into these pilasters, giving a very pleasing effect. The top is surmounted by lavish carvings in scroll effect.

THE MIRROR is nicely shaped, is a fine French bevel plate, measuring 11x26 inches. The planked top presents a handsomely grained surface measuring 23x18 inches. Swelled in shape and roomy as well is the full length top drawer. The three drawers in the center are of swelled design, presenting a very stunning front; all drawers fitted with round wooden knobs. The compartments on either side are fitted with 5x10 inch glass doors with attractive three-ply, quarter-sawed, oak grille work. These doors likewise are fitted with round pulls, and swing on carefully fitted hinges. The total height is 68 inches. Shipping weight is about 214 pounds. No. 4K971. Price.... **\$33.50**

THESE FINE BARGAINS ARE RECORD-BREAKERS

GENUINE QUARTERED OAK COMBINATION IN A FINE BUFFET AND CHINA CLOSET

EVERY HOME should possess a buffet, as it is a desirable addition to the dining room; but a combination buffet and china closet answers a double purpose and for that reason is even more to be desired. The one illustrated here is an exceptionally handsome piece of furniture and is highly recommended by us for its decorative appearance and service-giving qualities. It is extremely artistic in its outlines. Observe the attractive carvings on the top, which are skillfully executed. These add to the appearance of this handsome piece of furniture. Another feature is the rich wood scroll used in the door, as shown in the illustration. Observe also the French shaped legs, carved claw front feet and the neat carving on the apron across the front.

QUARTER-SAWED OAK is used throughout in the construction of this excellent combination buffet and china closet. The lumber used is thoroughly seasoned and is so made as to give the kind of service that you have a right to demand when you purchase a piece of furniture at this price. The finish is an attractive golden oak, which is found in so many homes, because it harmonizes so beautifully with most surroundings. We feel sure that you will be more than pleased if you send us your order for this model. It is sold upon approval and you can make your payments as outlined in detail on Page 1 of this catalog. Remember, that our liberal guarantee of satisfaction applies to this desirable piece of dining room furniture.

THE CHINA SECTION. At each end of this buffet is an enclosed compartment for chinaware. The ends are oval in shape and are fitted with double strength polished, bent glass. Between these china sections are two center drawers fitted with round, wooden knobs, locks and key. The latticed door below is likewise fitted with round, wooden knob, as shown. The base top measures 40 inches wide and 16 inches deep. You thus see that this is a good sized article that will command attention and enhance the appearance of your dining room. Resting on the base is a neatly designed frame enclosing an 8x30-inch French bevel plate mirror. This mirror is shaped in a pleasing design that harmonizes with the general style of this article.

WE KNOW that we will make a friend of you if you permit us to place this handsome piece of dining room furniture in your possession. It will always remind you of the great benefits to be derived from this institution and its matchless values and ever-satisfying methods. Should it not entirely please you in every way, we will refund every cent that you have paid out in the course of the transaction. This is a value typical of Hartman's and one that we are proud to offer to our many friends and customers. You make a wise selection when you choose this combination buffet and china closet. Shipping weight, about 155 pounds.

A COMBINATION QUARTER-SAWED OAK CHINA CLOSET AND BUFFET OFFER

YOUR DINING ROOM is a room where greater interest is taken than in any other room in the house, and should contain the very best furnishings. Every housewife who appreciates artistic designs in dining room furniture will immediately see the magnitude of this offer. It is not only the artistic design of this article that makes it so much to be desired, but the way it's made, the quality of material and the low price at which we offer it, as well. It is extremely practical and useful, being a Buffet and China Closet combined. Its construction is excellent, and a glance at the illustration shows how massive it is and how ornamental it will be in your dining room.

AT EACH END is a compartment for china, fitted with an individual bent glass door and handy shelves. These doors are supplied with lock and key, and the glass used is of double strength. The center compartment is of large size and has a door fitted with wood grille work, wood center panel and neat door pull. There are two silverware drawers above this compartment, each having lock, key and strong drawer pulls. At extreme bottom of center division is a large drawer for linen. These drawers and compartments provide ample space for placing all articles used in the average dining room.

QUARTER-SAWED OAK is used in building this elegant combination buffet and china closet and is of splendid stock, substantial and heavy. It is beautifully polished, golden finish or French State which is wanted. Veneered edges. The front panels are of magnificent artistic designs, as shown in picture and are completed at bottom with scroll shape. The top is very artistic in style, being graceful in contour as illustrated. It is supported by handsome Colonial standards.

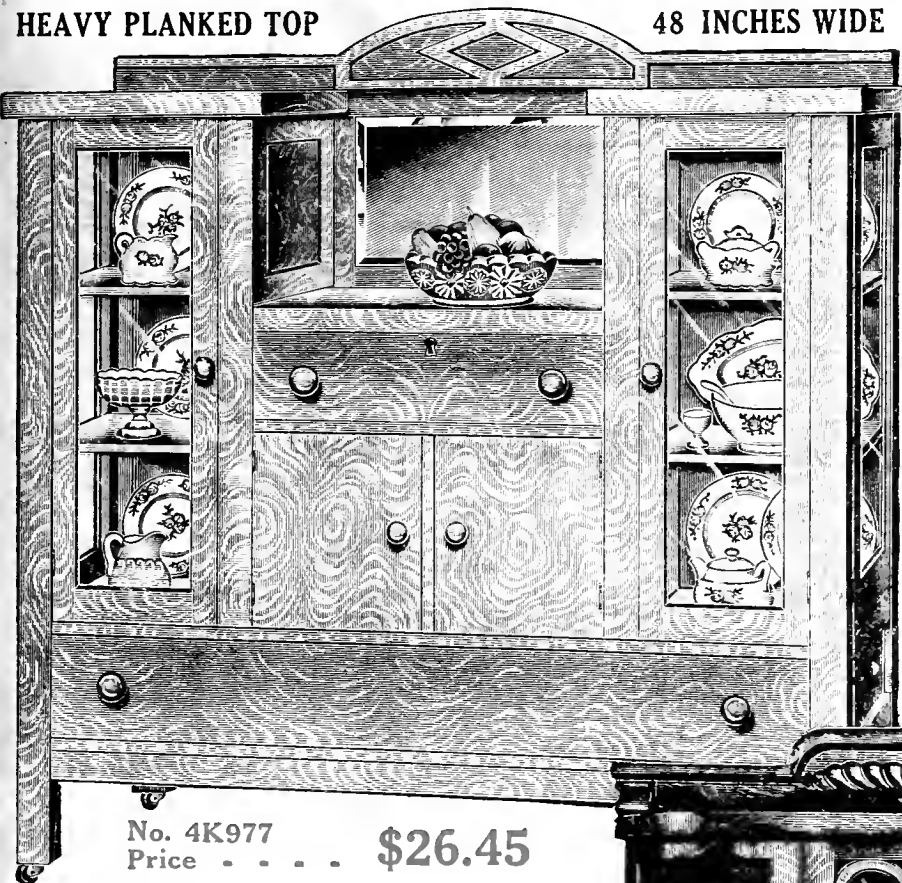

GENEROUS SIZE will be found throughout this article. The plank base top is 17 inches deep and is 45 inches wide. The French plate mirror in the top has deep beveled edge and measures 10x36 inches in size. You could not get a better piece of dining room furniture for the money if you had the country over, as it is only possible for a concern of our gigantic size to have marvelous buying power to make such a wonderful offering. We bought these China Closet-Bufferes in tremendous quantities and cut the factory cost. Better and yours quickly, for it's a very great bargain. Shipping weight, about 175 lbs.

COMBINATION BUFFET AND CHINA CLOSETS

HEAVY PLANKED TOP

48 INCHES WIDE

No. 4K977
Price \$26.45

**QUARTERED
AND SOLID
OAK. FUMED
OR GOLDEN**

THIS COMBINATION buffet and china closet is made of genuine quarter-sawn oak throughout, except sides, which are of seasoned solid oak, glossed or waxed golden, or fumed finish. There is a compartment on either side for china ware; these compartments each contain 2 adjustable shelves and are set off with heavy 1 1/4 in. plank tops, which form two very convenient shelves. Between these compartments is a French bevel plate mirror measuring 10x16 inches. The upper drawer is lined for silverware and sets under the planked top, which forms another handy shelf. Two door cupboard below and full length drawer across bottom. Round wooden knobs throughout. State finish desired.

MEASUREMENTS. This combination buffet and china closet measures 56 inches high, 48 inches wide, 15 inches deep. Is a stunning Mission style, as you can readily see by a glance at the illustration. It is well constructed in every way; every detail having received careful consideration. Comes complete with maple wheel casters. You can make no mistake by ordering it on our approval plan. Refer to Page One of this catalog for further particulars. Has tasty Mission decoration in center of back panel. (Articles shown not included). It weighs, packed for shipment, about 121 lbs.

No. 4K977. Price \$26.45

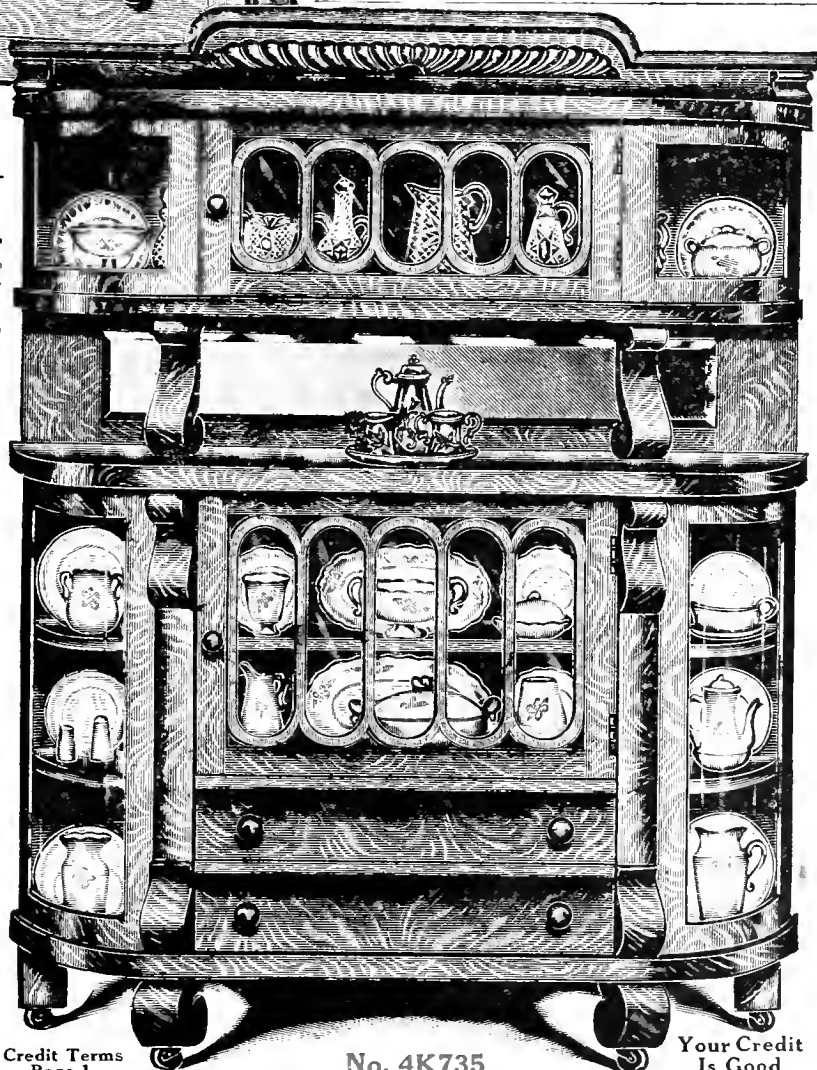

**GENUINE QUARTER-
SAWED OAK IN
CHOICE OF FUMED
OR GOLDEN FINISH**

THE BUSINESS OUTLOOK is great. We are not optimists through theory but through experience. When others about us have said that business was bad and that the people were not buying, we looked at our record of daily shipments with a smile of contentment, and well we might, because our business has been steadily increasing during the months that others complained. Such a condition is not an accident. It is the result of serving the people not as others have served them but in the unique Hartman way that's easy to get and easy to pay. Such values as this explain the reason for our giant strides.

THIS MODEL combines utility with beautiful design and substantial construction. The entire case is made of first class materials. Genuine quartered oak is used in building it, being finished in high grade, glossed golden or fumed, as you prefer. Please state which you desire. It is a double-top construction. The upper section has bent glass ends and center glass door, the latter made with grille work to correspond with the base. This base, in addition to the china cabinet with bent glass ends, is made with two drawers, one being lined for silverware. Equipped with shelves, as illustrated. This case is trimmed with wood knobs and casters.

BASE TOP measures 45x17 1/2 in. Two Colonial pilasters rest upon this spacious top and support the upper section. Behind these pilasters is a fine French bevel plate mirror measuring 6x32 in. The Colonial pilasters on either side of base harmonize with those above, as well as the Colonial scroll front feet. Neat carving across center of back guard. Base back made from built-up stock. Height, 75 in. From the dimensions quoted you can gain a fair idea as to the size of this great big combination buffet and china closet. But to really appreciate its massiveness and beauty, send for it upon approval, and satisfy yourself that it is all we claim. (Only articles mentioned included.) Shipping weight, about 250 lbs.

YOU EAT TO LIVE. There are two classes of people in this world—those who live to eat and those who eat that they may live. One doesn't have to be a glutton to enjoy one's meals, and even though you do not live because of the pleasure you derive from your food, there is no reason on earth why your meals should not be enjoyable. Did you ever consider the effect that pleasant surroundings have upon the appetite? A dingy, poorly appointed dining room is enough to take away the desire for food from even a hungry person. But there is no reason for any family to have an incompletely fitted unpleasant dining room; because they can buy just what they want from us, and can pay for it on our liberal credit plan.

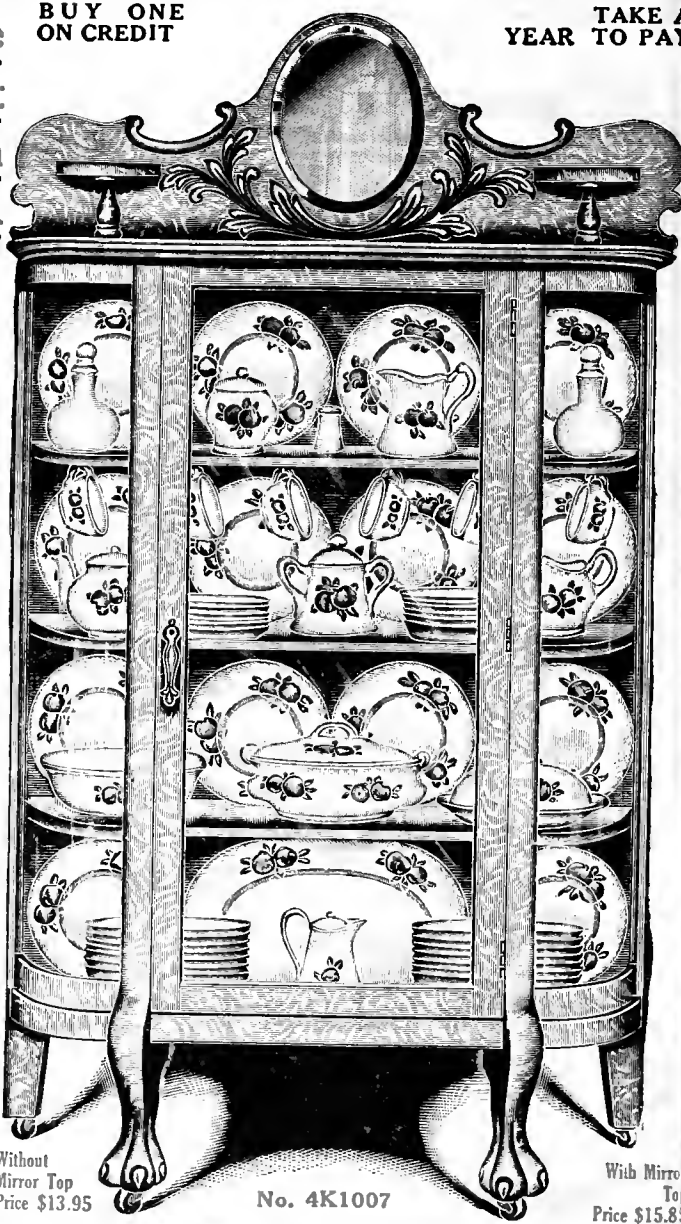

FINE WORKMANSHIP characterizes this neatly designed piece of dining room furniture. The entire front and top shelf are made of genuine quarter-sawn oak, presenting a rich, handsome grain. It is finished in a beautiful shade of golden and is glossed in an attractive manner. It can be had either with or without the mirror top at the prices quoted below. The oval mirror is a good quality French bevel plate. Closet comes complete with interior adjustable shelves, made of three-ply lumber. Has up-to-date spring push button catch on the door, as illustrated.

MEASUREMENTS. This china cabinet stands 74 inches high with the mirror ornament and 64 inches high with the back board. Is 36 inches wide and 13 1/2 inches deep. The mirror is 8x10 inches, and the interior shelves are 32x12 inches. (The crockery shown in the picture is not included at the prices quoted.) If you are perfectly satisfied with this china closet, pay for it in small amounts. The shipping weight is approximately 142 pounds.

This One Is Made Of
Genuine Quarter-Sawn
And Solid Oak. It Has
Neat Colonial Scrolls

\$16.95

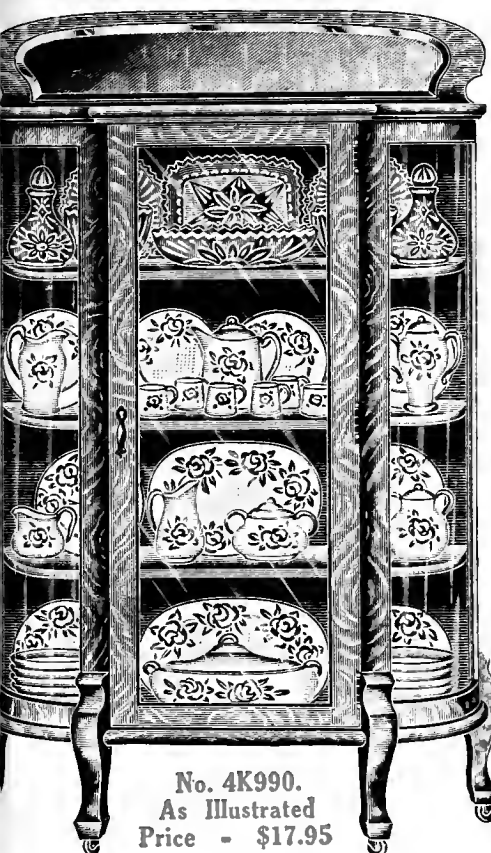

THIS CHINA CLOSET will make a decided improvement in any home. Consistent with our methods of doing business, we offer it to you on easy credit terms as shown on Page 1, giving you a full year in which to make the last payment on your bill. Genuine quarter-sawn oak is used on the door frame, the circle ends and the top, the balance of the case being constructed of very durable, solid oak. You can have your choice of either golden or fumed oak finish as you desire. In ordering, please mention which finish you prefer. There are 3 shelves which are made of 3-ply veneer with a groove in each shelf for hobbling dishes upright. This seems like a small detail, but will be appreciated by those who are familiar with the use of china cabinet construction.

BENT GLASS DOORS add style and class to this piece of furniture. The corner pieces are of continuous construction, embellished with scroll ornaments to match those on either side of the French beveled plate mirror in the top. These pieces terminate in graceful, Colonial shape feet. Order this cabinet with or without mirror top at price quoted. Height, 74 inches; width, 36 inches; depth, 15 inches inside; shelves, 32x13 inches; top, 36x18 inches; French beveled plate mirror, 6x18 inches. Dishes and glassware shown are not included at prices quoted. Shipping weight is approximately 165 pounds.

THE TIME consumed in running back and forth to secure pots, pans, etc., in the preparation

of a meal are eliminated with the use of this elegant, new "Comfort" Kitchen Cabinet. As a time saver it is unparalleled; as a convenience in the kitchen it is supreme. It is a new model this year, embracing many desirable features.

THE CONSTRUCTION is unusually durable. It stands 69 inches high overall, is well made in every detail; each section has been rigidly put together to withstand hard service. The lumber used is hardwood with a rich golden finish, giving a soft brown effect. Has wood knobs and handles. It does not occupy a large amount of space, yet is large enough to be thoroughly practical.

THE TOP affords plenty of room, as illustrated, upon which various articles can be placed. The china cupboard is large and spacious and is fitted with grilled wood doors. The clear crystal glass enables you to see the contents of the cupboard. These close-fitting doors have wood knobs.

JUST BELOW the cupboard are three utility drawers, useful for storing smaller articles, the center one being divided to give the appearance of two small drawers. Beneath the center drawer is a large sliding sugar bin. The space above the working top is very roomy, permitting you to rest bottles and other articles used in the preparation of your meals.

THE BASE top measures 26 x 41 inches, allowing all the room that you will require. Under this top is a 17½x21 inch bread board that can be easily extended at will. There are two good sized drawers for cutlery, table accessories and the like, below which are two large sliding flour bins, each of 45-lb. capacity. The latter have easy grip wood handles.

THE LEGS are very solid, being bolted, and plenty large enough to easily support the weight of the cabinet and its contents. From top to bottom this cabinet has been built not alone for appearance, but to render the kind of service that you would expect of a cabinet selling at this price. (Shipping weight, 150 lbs. Articles sold and not included.) **\$9.95**
No. 4K660. Price, \$9.95

NO VALUE that we could present to you could better convey the character of Hartman's ability to save you money than this superb Kitchen Cabinet. It shows the discerning judgment of our expert buyers, and likewise bears evidence of the stupendous buying power of the vast Hartman organization. Solid Oak Kitchen Cabinet

A Well Made Kitchen Cabinet

With 41x26 In. Top. A Good Value

MOST MEN are not vitally concerned as to the method of running the household. But their seeming indifference takes another turn, should it not be harmonious and pleasant. The question of how the meal is prepared does not interest him nearly so much as how it tastes. The matter of when you start to prepare it does not bother him just so long as it is ready when he returns home, after the day's tasks are done. But you women who have the responsibility of the management of the home must seriously consider these matters. Therefore it is to your interest to possess a kitchen cabinet such as this, because it will save you time, labor and vexation.

SOLID OAK is used in its construction, being thoroughly seasoned and nicely finished in an attractive golden color. The top section is fitted with two full length shelves, affording ample room for dishes, glassware, etc. This compartment has two doors of clear crystal glass, set off with artistic lattice work. The table top measures 41x26 inches. Under this top is a handy bread board. To the left of the base a roomy cupboard is found with shelf at top. The doors to this section, as well as to the cutlery drawer on the right and the cupboard doors in the top, are fitted with wooden knobs. Flour bin fitted with wood drawer pull. The base has paneled sides as illustrated.

MEASUREMENTS are as follows: The height of this kitchen cabinet is 67 inches. Size of table top, as mentioned above, is 41x26 inches. The bread board is 11½x21 inches. The flour bin has a capacity of 46 pounds. Cabinet sets solidly on the floor, and is built so that sweeping under it is an easy matter. (Articles shown not included.) Shipping weight, about 190 pounds.

Solid Oak Kitchen Cabinet

Complete Cabinet With Room For Everything. Has 42x25 In. Top

IN THE ORIENT there are women who prefer slavery to their own native soil. The bride in one of the smaller countries is not permitted to speak aloud until the birth of her first child. In another part of the globe, the wife is second in her husband's affection to his horse, and women are regarded very unfavorably in some of the countries of this universe. Fortunately, in America we respect womankind as queen of the household. Every attention is given to reduce her work and to lessen her worries. Every device that accomplishes this end is looked upon with favor by the American people. The kitchen cabinet is a Godsend to the housewife.

THE KITCHEN CABINET which we illustrate to the left and describe herewith is reasonable in price; at the same time it is a complete article such as every home-loving woman will highly appreciate. Is carefully and substantially made of solid oak, contains tilting metal flour bin of 40-pound capacity and metal flour sifter. Door to this section is of handsome art glass made to correspond with two-door compartment on the right. Latter affords a very convenient place for keeping dishes, glassware, etc. Below this cupboard you will find a very convenient rack upon which can be kept staple articles of food.

LARGE TABLE TOP is made of carefully sanded solid wood and measures 42x25 inches. Easy sliding kneading board is beneath this top, roomy utility drawer and deep drawer below, fitted with nickel-plated drawer pulls. Utensil rack, also wire roller rack on inside of lower cupboard door. Height is 62 inches. Construction at extreme top forms a very convenient shelf. (Only articles mentioned included.) Shipping weight, about 175 pounds.

Two Coat Satin Finish Waterproof Varnish

Removable Wire Shelf

Removable Ventilated Metal

Bread And Cake Box

THIS IDEAL KITCHEN CABINET is as practical and well made as any kitchen cabinet on the market selling at this price. It will save steps, labor and energy for the housewife and it will save money for the man who pays the bills. It is expertly manufactured of seasoned solid oak. The insides of the doors are made of the same gauge metal. It is made to slide in and out with perfect ease and when pulled out has an automatic lock fastening. This top measures 25x42 inches, a good roomy space to work on. The total height of this cabinet is 72 inches and the metal top is 1/2 inches from the floor. Is so built that sweeping under it is made a very easy matter. The entire inside of the deck (or upper section) is enameled white, as illustrated. It is therefore sanitary and easy to keep clean.

THE OTHER SANITARY FEATURES are given below. The racks and removable shelf in base are nickeled wire and therefore won't harbor dirt. Four spice jars, coffee, tea and salt retainers and sliding sugar bin are all of glass and metal. These are included free with cabinet and are round in shape. All drawer fronts and doors are overlapping, which renders cabinet as dust proof as is possible to make it. Frosted glass used in three upper doors. Trimmings are all burnished nickel. Removable, ventilated, sliding top, metal bread and cake box, 19x14x9 inches. Metal flour bin, 11x12x9 inches. Case throughout of laminated construction and backs, bottoms and drawer bottoms are grooved and glued on all four sides. Kneading board, 17x21 inches. Two-coat satin finish, waterproof varnish. Casters are brass with lignum vitae wheels. Shipping weight, 250 lbs.

\$19⁴⁵ FINE CABINET MADE OF SOLID OAK

No Kitchen Is Complete Without A Comfort Kitchen Cabinet. Order One Without Delay

WHEN YOU PURCHASE a kitchen cabinet you should always consider the importance of quality and price. In offering you this excellent article for use in your kitchen, we do so with the full knowledge that both of these features are embodied in this splendid cabinet. We thoroughly guarantee this value to be one of the best cabinets ever offered at this price and one that will give the maximum amount of comfort and satisfaction. If after you receive it you don't find it to be all we claim, you are under no obligation to keep it.

SOLID OAK is used in the construction of this medium priced kitchen cabinet and it comes in the popular golden finish. It has an attractively arranged top which has a commodious china closet white enamel lined, closed with two doors each having a wood panel and a panel art glass. There is a 45-pound capacity tilting flour bin with sifter attached with art glass and wood panel front. There is a sliding sugar bin and divided spice drawer made to appear like three small drawers. Height overall 69 inches.

THE BASE has a white wood table top which is of good size, measuring 42x26 inches. Immediately below the top is a sliding bread board, 18x20 inches, below which is found three utility drawers as shown in the illustration. The lower portion of base is divided into three compartments, each of which has its own individual door. The center compartment is for utility storage space, while the compartment on either side provides ample storage space for pans, pans and kitchen utensils. There is a sliding bin on the right side of cabinet which affords ample room for meal, flour, etc. This cabinet is durably built and comes complete with maple wheel casters. Articles shown are not included at our price. Sling, wt., about 200 lbs.

There Is Plenty Of Room To Store Kitchen Utensils And The Price is Low

EVERY HOME needs a kitchen cabinet. There are hundreds of times when a cabinet will prove to be a wonderful convenience and labor saver. It matters not how large or small your kitchen may be, or whether you live on a farm, in a flat, or own your own home, you will find a handy kitchen cabinet, such as the sanitary solid oak model which we offer here, an absolute necessity. Thousands of housewives, who know from experience, say that a good kitchen cabinet is a great household convenience which they always strongly endorse.

THIS CABINET is built to render a great degree of service. It embodies all the best features that could possibly add to the convenience and labor saving value of an up-to-date kitchen cabinet. It is constructed of seasoned solid oak with an elegant golden flat finish. The hardware trimmings are of copper. Stands 63 inches high overall and is full 42 inches wide. The top contains a 40-pound capacity tilting flour bin with sifter attached; good sized china closet with two doors, each of which has a wood panel with art glass at the top. Below this section is found a 7-pound sliding sugar bin and two spice drawers. Articles shown are not included at our price.

THE BASE has a working top of 42x26 inches, below which is found a sliding bread board, 18x20 inches in size; a cutlery drawer, bread or cake drawer and large cupboard for cooking utensils closed with a door which contains wire rolling pin rack and wooden pan rack. The lower part of base is made in a neat design and every joint is rigidly put together to give the cabinet great strength. Every feature of this cabinet is modern in every way. Shipping weight, about 168 pounds.

ENAMEL LINED

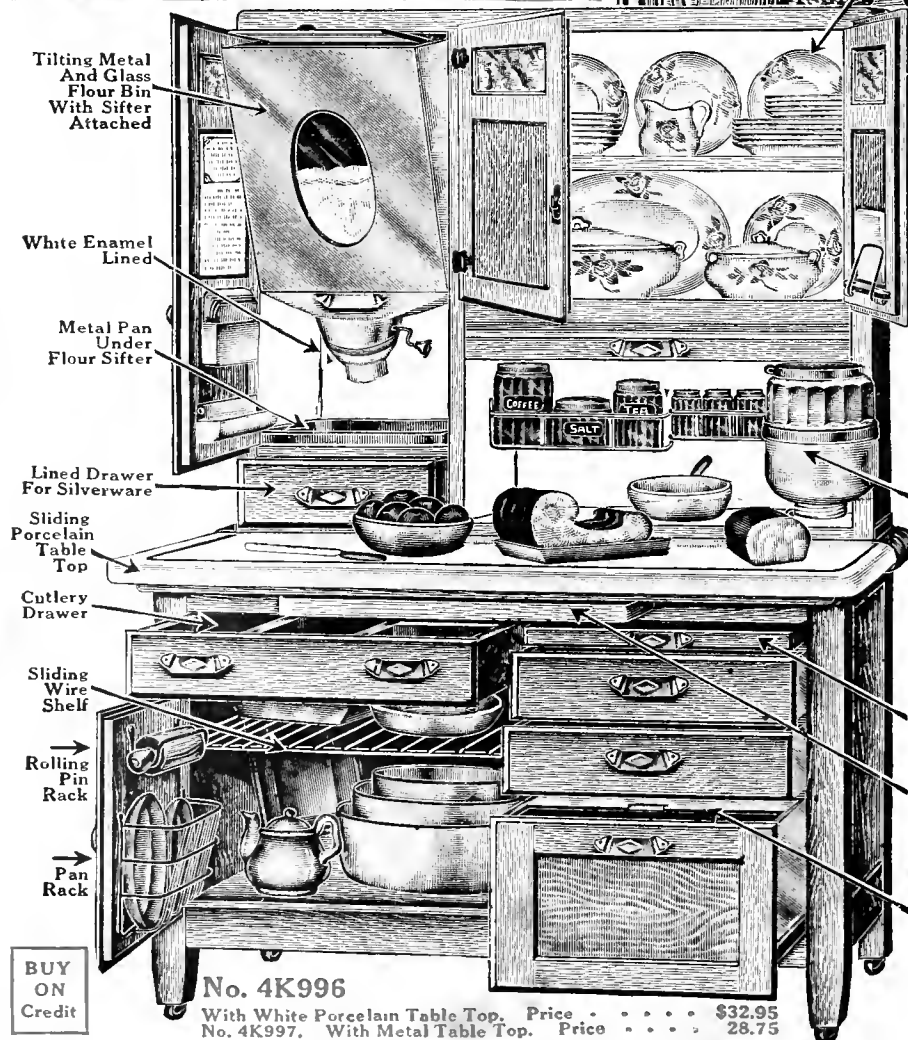

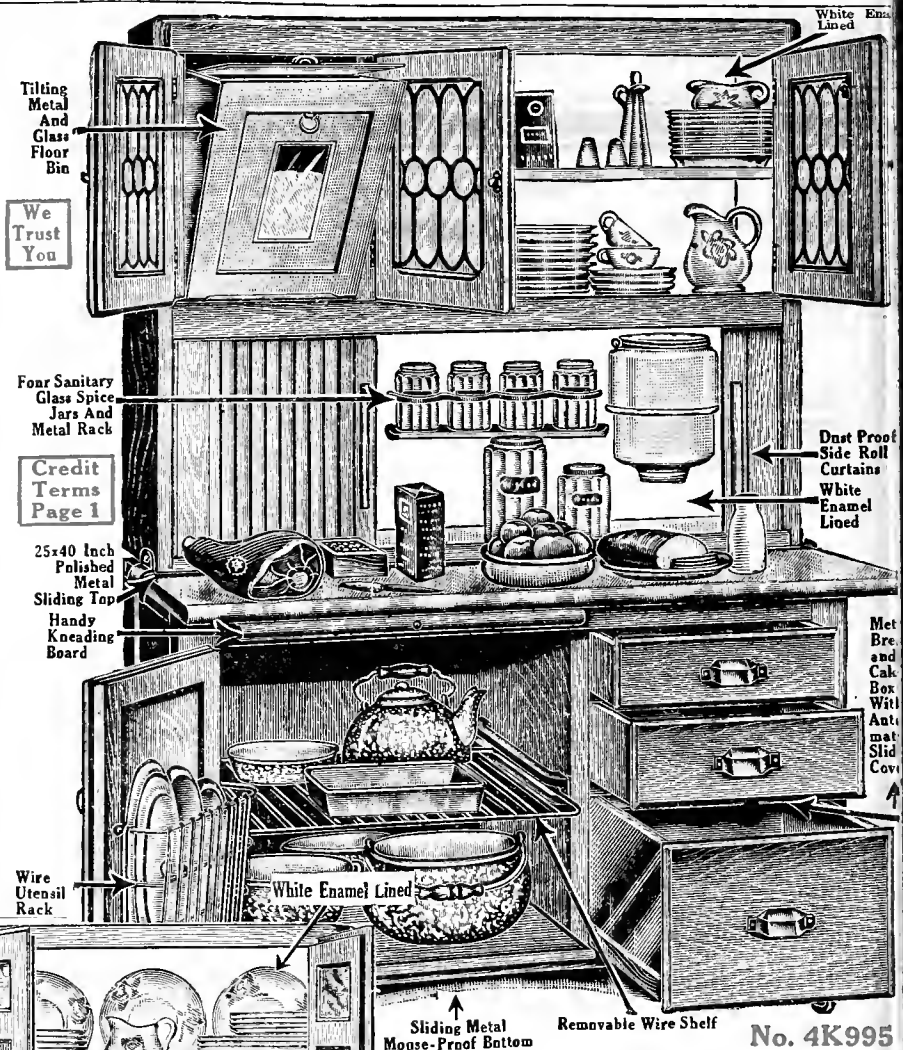

Solid Oak Kitchen Cabinet With Polished Metal Sliding Top. Has Many Other Desirable Features

NO MATTER how hard you try to figure your expenses, and regardless of just how your calculations work out on paper, remember that many extras arise of which you never dream. Keep a little reserve fund on hand to take care of these unexpected demands. When you buy goods from us you pay only a trifle at a time and are not forced to skimp or stint on your living in any way whatsoever. Order this exceptionally fine kitchen cabinet and pay for it according to our confidential easy credit plan.

ITS FEATURES embody the following: Tilting art glass cupboard door, white enamel lined cupboard to right with art glass doors to match (lower top section also white enameled), 4 sanitary glass spice jars and metal rack, glass coffee and tea jars and swinging glass sugar bin and easy sliding side roll curtains. These curtains keep out the dust; also do not hinder working surface, as do ordinary hinged doors. Base has 25x40-inch polished metal sliding working top, handy kneading board, wire utensil rack on inside bottom cupboard door, sliding metal mouse-proof cupboard bottom, removable wire shelf, metal bread and cake drawer with automatic sliding cover, two utility drawers. Trimmings attractively nickeled.

IS SANITARY in every way. This one feature was foremost in the mind of the designer who conceived this superb kitchen cabinet. The wood used is strong solid oak in a beautiful golden color waxed finish. (Only articles mentioned are included.) Complete with casters. Height of cabinet is 68 inches. Shipping weight, carefully packed, is about 200 pounds. No. 4K995. Price..... **\$25.95**

This is the finest Kitchen Cabinet we offer in our line of Comfort Cabinets, and the arrows show you its many features. It is made of selected Solid Oak and is 72 inches high by 48 inches wide. The Table Top, when pulled out, gives a working space of 48 x 35 inches. It is a wonderful value.

Bottom right text:

DISHES, PANS, KITCHENWARE AND CEREALS SHOWN ARE NOT INCLUDED WITH CABINET

THE TOP is white enamel lined and has a large 50-lb. white enameled metal automatic swinging flour bin with removable sifter, and is fitted into a section with a handy shelf at the top. The door to this section has on the inside a daily reminder, a three-compartment milk or ice ticket tray and a spring clip for bills, recipes or your cook book. The china cupboard is fitted with an art glass door, while the pantry metal, enamel lined cake box, which can be lifted out of cabinet, has three removable wire shelves and is fitted with a paneled wood door. The lower part of top which contains sugar jar and spice jars can be concealed by a disappearing, sliding roll front. We furnish with this cabinet an 8 1/2-lb. glass sugar jar, 6 glass spice jars, glass coffee jar, glass tea jar, which have aluminum tops, and glass salt jar.

THE BASE is strong and substantial and has a sliding Nickeloid table top, which when pulled out gives a working space of 48 x 35 inches. Below the table top is found a large, removable bread board, divided into cutlery drawer, large utility drawer and bread drawer with ventilated, sliding, metal lid. On either side is found a large cupboard with removable wire shelf in center and sliding shelf at bottom with protection rail. The doors of these cupboards have pan rack on the inside. A handy rolling pin rack is provided in the cupboard. The entire cabinet is made of selected solid oak, finished in a light golden, dull rubbed to give a velvety appearance. Exceptionally well braced and dustproof throughout. Stands 72 inches high from floor. The hardware has a copper finish. Shipping weight about 275 lbs.

COLUMBIAN "T" SEWING MACHINE

Quartered Oak Cabinet and Ball Bearing Stand

\$24.95

You
Can
Take
a Full
Year to
Pay for It
T O W N

A sewing machine such as the Columbian "T" means a great deal to the thrifty housewife. It not only enables you to enjoy the pleasures of home sewing but to save money as well as time. You can do your own sewing in your house and save the expense of paying retail prices for your clothes. And just think what a saving it is of time over sewing by hand.

THIS
MACHINE IS
OF THE NEW
KEYLESS
TYPE.
WHEN THE
HEAD IS
DROPPED,
THE
DRAWERS
ARE LOCKED
AUTO-
MATICALLY

FEATURES of this machine are the side tension and take-up for handling and controlling the thread to produce a perfect stitch; automatic bobbin winder; double presser foot lifter; positive four-motion feed lock stitch; self-threading cylinder shuttle; long bobbin stitch regulator; device for loosening wheel to wind bobbin without removing material from under needle; and all parts adjustable to take up any lost motion. One of the biggest features of this machine is the keyless type of drawers, which lock automatically when the head is lowered and unlock when machine is opened for use. It is not necessary, however, to open the machine to release lock on drawers when machine is not in use, for a secret spring is attached for this purpose.

This Picture Shows Our
Columbian "T" Closed

The Ball-bearing Action Gives
Smoothness of Operation
and No Noise

THE STAND is of French leg type with graceful lines, easy to keep clean and made of the best iron, properly braced, handsomely japanned and exceptionally durable. It has a full ball-bearing steel Pitman; high balance wheel; the improved ball-bearing action giving our customer a machine that for ease of action, smoothness of operation and lack of noise in running is not excelled by any machine on the market.

OUR TERMS are so liberal that you can have our Columbian "T" as you would like to pay for it. Then by remitting just a little throughout the year the machine becomes yours without your even missing the money. It is then a permanent fixture in your home forevermore. Send us your order now while it is fresh in your mind. You'll never regret your purchase. By referring to page 1 of this catalogue you will find full details about our liberal credit plan.

Order This Fine
Sewing Machine

Has
Drop Head

THE HEAD is artistically ornamented with rich decalcomania in a design pleasing to the eye. These decorations are quite elaborate on both head and bed plate. Our Columbian "T" has nicked face plate, as well as hand wheel, automatic bobbin winder, stitch disc tension, take-up, needle bar cap, presser foot cap, shuttle slides, throat plate, etc. It has a long, high arm, with steel bar, which automatically raises and lowers the drop head, which swings on patent socket hinges.

Has a Beautifully
Polished Cabinet

WE GIVE FREE

A COMPLETE SET OF ATTACH-
MENTS WITH THIS MACHINE.

Extra Needles may be ordered
from us.

No. 7K835. Per dozen, 15c

ATTACHMENTS

They are the neatest in appearance, the easiest understood and a greater variety in style and number than are given by any other house. They come in a velvet lined, highly japanned box with a special receptacle for each attachment, so that they cannot be mislaid or lost. Each and every piece of our attachment set is made of solid steel, polished and nickel plated. The full set consists of the following: Muller, tucker, binder, hemmer foot, braid, one large and one small screw driver, shuttle foot, thread cutter, shirring plate, four hemmers of assorted widths and one package of needles. They are warranted steel throughout. This machine with its free accessories is a far greater value than was ever offered by any other concern. Shipping weight of machine about 125 pounds.

No. 7K1159, \$24.95

FOR FULL LINE OF
SEWING MACHINES
SEE OTHER PAGES
OF CATALOG

GUARANTEED 10 YEARS

THE CABINET of our Columbian "T" is absolutely durable, because of the fact that all wood parts are attached directly to the stand. It is made of selected quarter-sawn oak of the choicest grain and elegantly adorned with rich carvings. It has four drawers, large and roomy, with inverted drawer pulls. The entire cabinet is beautifully polished and will be in keeping with the finest furniture in any home.

IMPROVED "COLUMBIAN" SEWING MACHINES

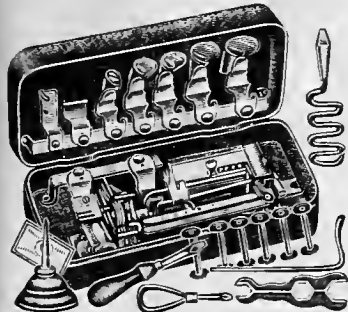

When ordering shuttles or other parts mention No. on bed plate behind arm. When ordering needles give bed plate No. and send old needle.

Sewing Machine Manufacturers Realize That Efficiency Is Of First Consideration And That Durability Follows Closely In Importance

We challenge the world with our new, improved line of "Columbian" Sewing

Machines and before passing your judgment we ask you to compare them and their equipment with any other machine on the market regardless of make, price or name. Such a comparison will prove to you that at medium and low prices, we are offering Sewing Machines full of new improvements and conveniences.

All "Columbia" machines are fitted with strong, short needles which are interchangeable with the Singer No. 27 or Free Sewing Machine Needles.

WE GIVE ATTACHMENTS FREE

With every "Columbian" machine we give absolutely free a full set of attachments in a japanned metal box as illustrated above, and a complete set of accessories. Each set consists of 1 ruffler, 1 tucker, 4 hemmers (3/16, 1/4, 3/8 and 5/8 inch widths), 1 bender, 1 hemmer foot, 1 shirring plate, 1 braider foot, 1 braider plate, 1 large and 1 small screw driver, 1 shuttle foot, 1 thread cutter, 1 quilter, 6 bobbins, oil can, wrench, 1 package of needles and complete instruction book. Attachments are made of very best tool steel, heavily nickel plated.

SELF-THREADING SHUTTLE

The "Columbian" shuttle is of the very latest pattern, self-threading, vibrating type. It is of a large size and cylindrical in shape and is easier to thread, more accurate and perfect in its operation than the shuttle used on most machines. There are no holes, eyelets or springs for the thread to pass through. The tension is even and perfect, easily changed without removing shuttle from machine. It is made of finest tool steel, well hardened and ground to absolute accuracy. The opening is extra large, with ample room for the insertion of a long bobbin. Carrier in which the shuttle rests has a spring lining which prevents rattling.

VIEW SHOWING AUTOMATIC LIFT

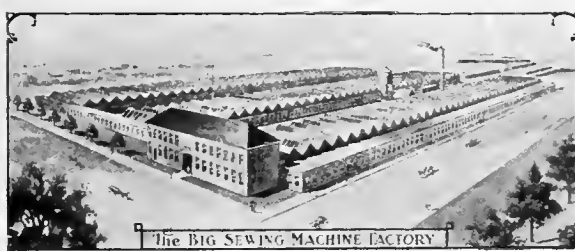

STEEL BAR AUTOMATIC LIFT

"Columbian" machines are equipped with either hand lift or with one of the best automatic lifts ever invented. Instead of the long strap, wire or chain lift with which other machines operate to lift the head, those having the automatic lift have a short steel blade that raises or lowers the head. When you lift the lid back, the head comes up and when you are through sewing, lower the lid and the head drops into place. The above illustration is a sectional view of the table top and lid, showing the position of the automatic steel bar lift.

HOW "COLUMBIAN" STANDS ARE BUILT

One of the notable features of "Columbian" sewing machines is the wide, strong, French leg stand which appears on all but the "Columbian" A, B and C. It has both beauty and lasting quality. The great width of this stand practically eliminates the possibility of the machine breaking. All of our sewing machines are equipped with automatic locking device which locks and unlocks the drawers without the use of keys. By referring to the sectional view to the right you will see the steel drawer runners and the automatic drawer lock which does away entirely with the old style construction of wooden drawer racks and locking the drawers with keys. Our hand lift machines also require no keys, as they have a secret spring which the operator presses to unlock the drawers. Notice the high balance wheel advantage, in that it affords a long and more direct drive for the pitman and makes the machine considerably lighter running.

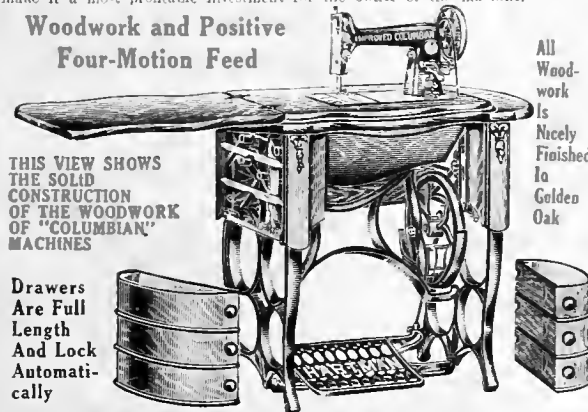

The Big Sewing Machine Factory

A SEWING MACHINE is necessarily a very delicate machine and is supposed to be able to perform certain functions with the skill of the human hand. Building a sewing machine is like building a watch. Each little part must be perfect within itself in order to insure satisfactory operation. The materials must be of such quality as will have the strength, yet without being of cumbersome size. The mechanism in the head of a sewing machine must be not only made of the purest quality of materials, but they must be built and adjusted with the greatest care.

DEPENDABILITY OF QUALITY. While we speak particularly of the excellent work that can be done on our sewing machines, the following pages will tell you of their great efficiency and very low price yet we wish also to mention the fact that these machines are of greatest possible durability. We assure you that only fine grades of materials are used and every little particle is carefully tested and must be found to be perfect before it can enter into even our cheapest machines. We give a ten-year guarantee with each machine we sell, regardless of the price. We can do this, for we know that even our lowest priced "Columbian" is built right, will give the satisfaction that the housewife or seamstress desires and last for so many years as to make it a most profitable investment for the owner of the machine.

Woodwork and Positive Four-Motion Feed

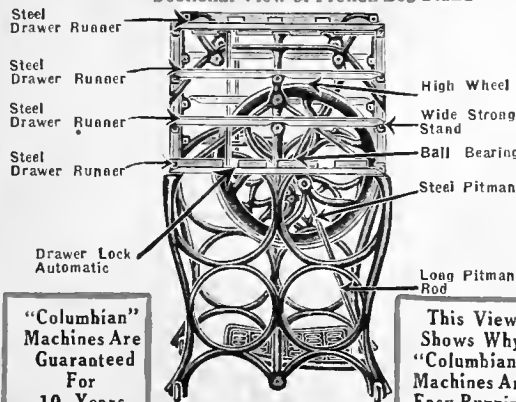

THIS VIEW SHOWS THE SOLID CONSTRUCTION OF THE WOODWORK OF "COLUMBIAN" MACHINES

Drawers Are Full Length And Lock Automatically

All Woodwork Is Nicely Finished In Golden Oak

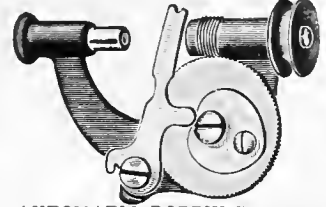

All "Columbian" machines are constructed with the beauty of design found in the present day, high grade furniture. The woodwork is built especially with a view of strength and long life, and all machines are finished in golden oak. By studying the above illustration you will see that no wooden part is fastened to another on any "Columbian" machine; in other words, the drawers, the back, the table, plasters and the panel are all separately attached to the iron stand. By this construction drawers can be built the full length of the table and the back panel the full length of the drawers, making the machine complete in every respect. The old style, wooden drawer racks are now eliminated. The positive, square, four-motion feed of our machines is of the speediest and strongest mechanism. It is double and extends on both sides of the needle, insuring absolute, positive action. This feed has a full, four-motion movement, that is, it rises up, moves forward, drops down, moves backward, and so on around the circuit. The "Columbian" feed will carry through the lightest or the heaviest goods and will cross seams and hard places with equal precision. It works in perfect harmony with the take-up and the needle bar, producing a perfect stitch at all times.

Sectional View of French Leg Stand

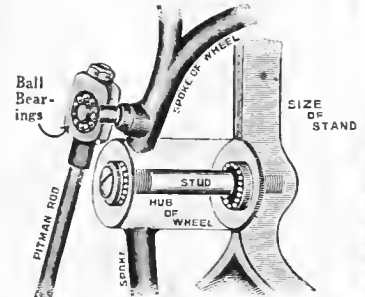

"Columbian" Machines Are Guaranteed For 10 Years

This View Shows Why "Columbian" Machines Are Easy Running

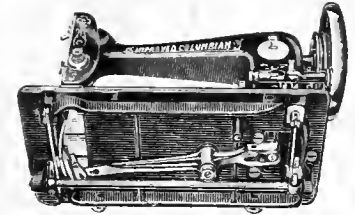

AUTOMATIC BOBBIN WINDER

It is positive in its action and a modern improvement permits winding of bobbin without running machine or interfering with goods being sewed. It is not necessary to unthread the machine or disarrange the work. It controls and distributes the thread upon the bobbin practically as even as thread is wound upon a spool. It has a patent guide attachment which prevents thread from running over ends of bobbin.

BALL BEARING PITMAN

The illustration above shows in detail all the features of the ball bearing arrangement of the "Columbian" stand. The hub of the driving wheel and the steel pitman are full ball bearing. This improvement makes these machines very swift in action and light running. Bearings are set in special retainers to prevent wear, and any lost motion can be taken up by the turn of an adjusting screw. The pitman rod is made of cold rolled steel.

THE HEAD

It has a full high arm, enameled parts are highly polished and hand rubbed; decorations are of best quality and uniform style; has four-motion square feed; take-up that is positive and produces a perfect stitch, and automatic tension release with presser bar that releases the tension when removing work from the machine. All have extra size heads measuring 5 1/2 inches under arm and side or top tensions as described on the respective pages. It has self-setting needle, bed plate stitch regulator, loose wheel pulley for winding bobbins, and everything to make it thoroughly efficient.

BALL BEARING AND LIGHT RUNNING

In our ball bearing parts, each ball bearing is set separately in the ball retainer, thereby making the bearings indestructible. If you were going to buy a bicycle you certainly would not buy one unless it were ball bearing and this same decision should be rendered by you in looking for a sewing machine. All the "Columbian" machines are of ball bearing type and are extremely light running and speedy; they are not surpassed by any machine on the market at the low prices quoted.

ABOUT EXTRA NEEDLES

All Columbia machines are fitted with strong, short needles which are interchangeable with the Singer No. 27 or Free Sewing Machine needles. When ordering needles give No. on bed plate behind arm and send old needle. No. 7K835. Price, package of 12 Assorted Needles, 15c

\$16⁸⁵

Improved Columbian "A"

Sewing Machine

FOR A MODERATELY PRICED, good quality sewing machine; one that is reliable and guaranteed by the manufacturers and ourselves; there is none to surpass this Columbian "A" for the money. When you stop to consider that machines of this style have been sold for many years and are giving satisfaction today, and have for years, you come to the conclusion that they are pretty good machines.

THE CABINET is made of solid oak and is nicely varnished. It has four drawers, the front panel is adorned with rich carvings, while the drawers on either side are fitted with neat ring pulls. The edges are expertly rounded. It is fitted with a high arm which when opened gives ample space for resting a large quantity of material. The table of machine is made to give plenty of working room and is not congested, as is often the trouble with inferior brands of sewing machines.

STRONG STEEL WORKING PARTS. Every working part is hardened in oil and has a good surface, that is scarcely affected by years of hard use. The accurate fitting of these superior parts gives the machine the light running qualities so much sought after and well known to exist in our Columbian models. The fine head is of the improved type and is finished in black enamel and ornamented with decalcomania decorations. The stand is of a heavy design. Cylinder shuttle, automatic bobbin winder, ball bearing steel pitman, steel drawer runners and automatic drawer locks which do away with keys are possessed by this machine.

TEST IT AT HOME by letting us ship it to you on approval. Before you have used it ten days you will find it all we claim for it. Although the Improved Columbian "A" has all of these desirable qualities we do not claim that it is as fine a machine as the more expensive models. In fact, we recommend one of the better designs for the fullest measure of satisfaction. But we will say that for the money it is an excellent value. Shipping weight, 120 lbs.

Columbian "B"

Improved Sewing Machine

\$18⁷⁵

THIS MACHINE is a four-drawer, drop head, hand lift style. The cabinet work is attractive in appearance, with swell front table, carved drawers, raised carved drawer pulls and heavily carved center piece. The woodwork is full solid golden oak with quarter-sawn oak veneered lid.

THE STAND is made of a good quality grey iron and equipped with ball bearing balance wheel and ball bearing steel pitman. Sewing head is strictly high arm, 5½ inches under arm, finished with three coats of black enamel and decorated with transfers in gold and silver. Moving parts above and below head are nickel plated.

IMPROVEMENTS. Square four motion, positive feed, strong take up, shuttle movements, strong, short needle, self threading, speed reinforced shuttle, self setting needle, automatic bobbin winder, automatic stitch regulator, loose pulley winding bobbins, easily adjusted tensions are embraced among the improvements. Steel drawer runners eliminate old style wooden drawer racks. Locking device has secret spring which, when pressed, automatically releases lock on drawers. No keys required.

FURNISHED FREE with machine is a set of accessories and attachment and full comprehensive instruction book. This machine is guaranteed for ten years against defect in material or construction. We do not advise you to select the Columbian "B" in preference to other higher priced machines, but will state that for the money it is a very satisfactory article. Shipping weight, about 125 pounds.

CONSIDER the extremely liberal terms upon which we sell the Columbian "C" Sewing Machine and the legal guarantee which stands back of an attractive household article. We ask you to send it upon approval and if you do not find it thoroughly satisfactory in every way, you do not have to keep it.

WE KNOW however, that you will find this machine to be all we claim and that you will be more than pleased with your purchase. In the event that you wish to keep it, you make your payments as outlined in detail on page of this great money-saving book. It is a typical Hartman value.

CONTAINS 6 drawers, drop head and is a hand lift machine. A handsome piece of furniture when closed, exceptionally convenient when open. Case specially seasoned and golden oak throughout with veneered quarter-sawed oak lid. Table has three distinct, graceful swells, set off by 6 large, roomy side drawers shown in illustration. Drawer fronts ornamented with handsome scroll carvings. Automatic lower lock eliminates keys.

Four Draw Drop H Panel F

Extra Needles May Be

\$21.50

Swell Front Table and French Leg Stand. Steel Pitman. No Keys Required as Drawers

Lock and Unlock Automatically.

THIS SEWING MACHINE has four drawers, drop head, panel front, automatic lift and is of the easy running, ball bearing type. Cabinet is solid, golden oak throughout in gloss finish, with the exception of the lid, which is of genuine quarter-sawed oak veneer. Inlaid tape measure on cabinet helps operator measure goods without rising. Cabinet is prettily designed, having swell front table, brought out in nicely figured oak. Exceptionally strong construction assured, by the fact that each wooden part is fastened independently, or screwed directly to iron stand.

THE STAND. The improved Columbian "D" is French leg stand made of very best gray iron. Lines are sweeping and graceful. This stand is very easily dusted. Is given high luster finish of black Japan. Ball bearing steel Pitman is used on the Improved Columbian "D," not the old style, easily broken, hard running, wood Pitmans found on many higher priced machines than ours. No keys required. When you turn back lid, drawers unlock automatically; when head is lowered, drawers lock securely.

SECRET SPRING unlocks drawers when machine is entirely closed. Steel drawer runners instead of old style, fragile drawer racks. These steel drawer runners are fastened directly to stand. Eliminates drawer sticking. Short steel bar, automatic lift is absolutely reliable. Brings the head frame up flush with table in firm position to do away with vibration. Has high balance wheel reducing exertion needed for operating machine, also makes it lighter running. Equipped with fine sewing head with upper tension on top of arm. Will satisfactorily handle all classes of goods.

No. 7K833. Price..... **\$21.50**

Secret Spring Unlocks Drawers When Machine Is Closed. Steel Drawer Runners; High Balance Wheel.

Fitted with Strong Short Needles which are interchangeable with Singer No. 27 or Free Sewing Machine Needles

THE HEAD measures 5 1/2 inches under arm. Beautiful colored in gold, etc., upon enamel face. Has self-throwing shuttle, self-needle, bed plate, regular, automatic bin winder, loose wheel for winding bins, self-adjusting shuttle carrier, and lower tensions. Set of Grist steel plated attachments, accessories furnished FREE. See Introductory Page of this Catalogue. Shipping weight 125 pounds.

HERE'S THE IMPROVED

Fitted with Strong, Short Needles which are interchangeable with Singer No. 27 or Free Sewing Machine Needles.

Guaranteed 10 Years

Splendid Sewing Head

Automatic Locking Drawers. No Keys Required YOU CAN SAVE

the price of this beautiful, automatic lift, ball bearing, convenient and light running machine in your home the first year through the many things that it will produce for you. Its time, temper and labor saving conveniences that you will so thoroughly enjoy are listed below. They are of great significance to the woman who does her own sewing, as you will appreciate after once trying the Improved Columbian "D." Remember, that in purchasing it, we send this machine to you upon approval subject to our legal guarantee of satisfaction, or your money back.

IMPROVEMENTS constitute the following: The automatic locking drawers eliminate the necessity of using keys on this machine; it has steel drawer runners, on which the drawers slide easily and smoothly without sticking; short steel bar automatic lift raises and lowers the head automatically; the highly figured French leg stand is wide, strong, beautiful in design, and being of an open pattern is very easy to dust and keep clean.

OTHER FEATURES are the steel Pitman ball bearing, which is used in place of the old fashioned wood Pitman, which breaks easily, and is far from satisfactory in results; the ball bearings insure easy running; this easy running feature means a great deal to the woman who does a large amount of sewing, as it transforms drudgery into a pleasant occupation. The high, large balance wheel increases the speed as well as the ease with which this machine operates.

Up-To-Date
Head. 5½ In.
Under Arm

ATTACHMENTS are the Greist outfit, steel nickel plated and include: 1 ruffler, 1 shirring plate, 1 tucker, 1 braider, 4 hemmers (widths 2-16, ¼, ¾ and 1½), 1 binder, 1 shuttle screw driver, 1 large screw driver, 1 shuttle foot, and 1 thread cutter. Also following accessories: 1 quilter, 1 foot hemmer, 5 bobbins, 1 package assorted needles, 1 oil can spout. Also complete instruction book. Guaranteed for 10 years against defects of material or workmanship. Ball bearings are incased in separate steel retainers.

Best solid golden oak cabinet with quarter sawed oak veneered lid. Raised design in panel and pilasters.

All parts fastened separately to stand. Does all kinds of work well. Secret spring unlocks drawers when machine closed.

NO DRAWER RACKS. DRAWERS RUN ON STEEL RUNNERS

Saves Numerous Time And Labor Saving Conveniences

STEEL AUTOMATIC DRAWER LOCKS. NO KEYS REQUIRED

THIS MACHINE is equipped with a splendid mechanism. Has an elegant appearing, high grade cabinet made of fine solid, golden oak with quarter-sawed oak veneered lid; finish golden, high polished. Four large drawers fitted with certified wooden pulls, raised ornamental pilasters and panel. All separate parts of cabinet—drawers, pilasters, panel, table and back—are fastened separately to stand, insuring exceptionally strong construction. Sewing head very up to the head is strictly high arm, being 5½ inches under arm to accommodate heavy and bulky sewing; in fact, will do all your work in the very best manner and with the least amount of time, attention and trouble.

STEEL BAR AUTOMATIC LIFT enables you to open and close machine without touching head. When you want the machine ready for work, simply raise the lid and sewing head comes up automatically. When through sewing, turn the lid back and head drops automatically. All you see of the lift is a short, steel bar about 3 inches long above the table. Is countersunk into the wood so that the table surface is secured. Is practically noiseless. When machine is closed, drawers lock automatically; no keys are required. If you want the drawers unlocked when the machine is closed, use the secret spring. Press the spring and the drawers unlock. This arrangement protects the contents against the meddling fingers of the mischievous children.

THIS MACHINE made of solid, golden oak with quarter-sawed veneered lid, high luster polish throughout, 6 large, roomy drawers, raised ornaments and carvings on drawers, pilasters and center panel; round, wooden knobs. Separate parts of cabinet all fastened separately to the stand, insuring very long life.

TRIPLE COAT black enamel on head, beautiful colored transfers varnished over, under parts of bed and parts above bed plate fully nickel plated and buffed. Patented automatic lift device, far superior to drop straps, chains and iron bands in use on most machines. Raise the lid and sewing head comes up automatically. When through sewing, turn the lid back and head drops in place with very little weight. All that you see is a short, steel bar about 3 inches long above the table. Countersunk into wood, making smooth table surface. You will find that the operation of this automatic feature is practically noiseless.

DRAWERS LOCK when lid is dropped; no keys necessary. Unlocks when head is raised. Secret spring unlocks drawers when machine is closed. Drawers slide on steel runners. Gray iron, black japanned. French leg stand. High balance wheel, long steel pitman, ball bearing. Geist nickel plated steel attachments: 1 ruffler, 1 shirring plate, 1 tucker, 1 braider plate, 1 braider foot, 4 hemmers, 1 binder, 1 shuttle screw driver, 1 large screw driver, 1 thread cutter. "COLUMBIAN" CABINET SEWING MACHINE

\$29.45

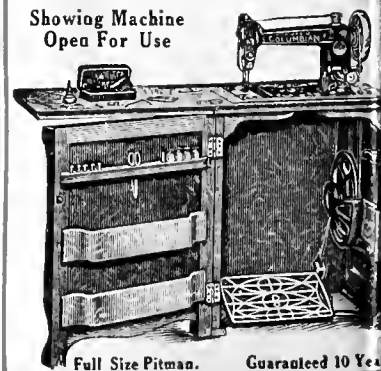

Made Of Hand Rubbed And Polished Quarter-Sawed Oak. Ample Space For Sewing Utensils Provided On Pockets Inside Door. A Rack Is Also Provided For Spools, Scissors, Bobbins, And The Like.

THE GRACEFUL LINES of this cabinet when closed resemble those of a beautiful music cabinet. Attractive Colonial design. When you order the Columbia Cabinet Sewing Machine you secure an exquisite piece of furniture and a high grade sewing machine—two pieces of furniture at the price of one. When closed top can be used as a table. The cabinet is made of full quarter-sawed oak and quarter-sawed oak veneer, fully paneled with a three-coat, hand rubbed varnish finish, golden color. Curved pilasters; raised urn and wreath carvings in the center of door. Higher than other cabinets, being right height for comfort in sewing, allowing ample room for the knees. Sufficient space for sewing utensils, needles provided in large pockets on inside of door. Also rack for spools, scissors, bobbins, etc.

DRIVING WHEEL steel driving rod and pedal (or treadle) are same large size as in regular drop head machines, making it easy running. Three distinct sets of ball bearings set in steel ball retainers. When you lift lid back head comes up automatically. When you turn back the lid, head drops out of sight. Sewing head has silver and gold colors on bed of black enamel, which adds greatly to its appearance. A very efficient sewing head in every way.

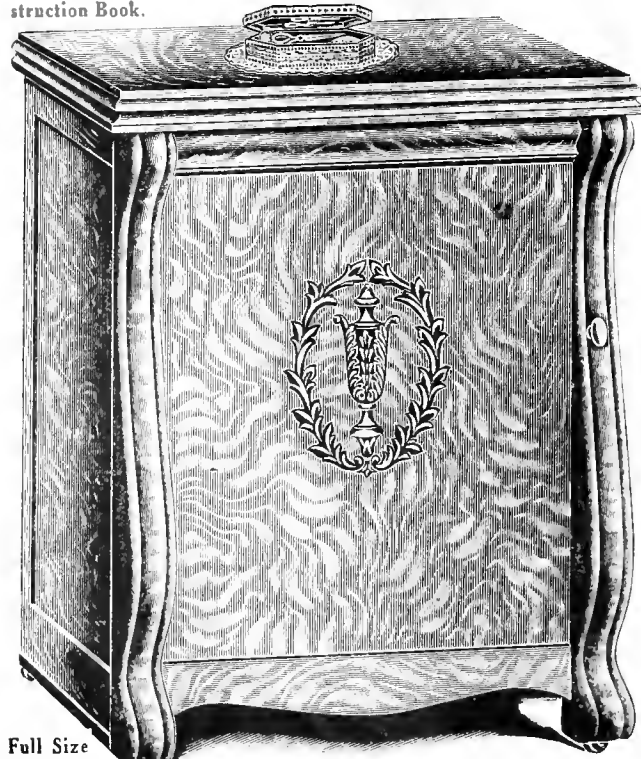

GUARANTEED to do the most perfect sewing on all kinds of material. Warranted for ten years. Comes complete with full set of fine steel attachments, accessories and instruction book. Order it and if you don't find it all we claim, return it at our expense and your money will be refunded in full. You are sure to be well pleased with this high-grade machine. Improved Columbian "K" Sewing Machine

SEND US AN ORDER and we'll place this elegant machine in your home on approval. All we ask is this opportunity of convincing you that it is one of the lightest running sewing machines you ever saw. We feel absolutely positive that it is capable of satisfying your sewing machine wants. If you do not find all of this to be true, ship it back at our expense and we will refund your money.

This Machine Is Built Along Mission Style, Six Drawers, Drop Head, Steel Bar Automatic Lift, Panel Front, Steel Drawer Runners
GUARANTEED FOR TEN YEARS

No Keys Required

THE LINES

of the Improved Columbian "K" Sewing Machine are strictly mission throughout. This is to fulfill the great demand for the beautiful mission style of woodwork which is so popular in other pieces of household furniture. Has six drawers, drop head, steel bar automatic lift, panel front, steel drawer runners, steel automatic drawer locks, French leg stand, high balance wheel and steel Pitman, each having its individual advantages.

WE GIVE

a guarantee of ten years with this machine, which is evidence of our confidence in it. Has latest type of side tension, with tension release head, is ornamental as well as a very efficient machine.

TABLE is very massive, presenting a plank top, as illustrated. It measures 1 1/4 in. thick. All parts of the woodwork throughout are made to correspond with this table in its massive and very stately appearance.

**NO DRAWER RACKS
DRAWERS RUN ON
STEEL RUNNERS**

**Raised Design on Panels
as Illustrated**

**STEEL AUTOMATIC DRAWER
LOCKS. NO KEYS REQUIRED.**

THE DRAWERS are perfectly square, as are the panels and pilasters. The strictly mission design with an attractive and highly artistic raised effect on panel is one of the most beautiful ever put on a sewing machine regardless of make, price or name. Drawers are fitted with heavy, mission style wood drawer pulls, as shown in large illustration. The woodwork is full quarter-sawn oak throughout and the finish is of a very high grade. Therefore you will have a machine that will prove an ornament in your home; and also a piece of mechanism of superiority in every sense.

SEWING HEAD is large and roomy, being 5 1/2 inches under the arm and the width of the head to correspond; in fact, this is one of the largest armed heads on the market. It is strong and substantial in its operation and is guaranteed to do any and all kinds of work in a very satisfactory manner. You are sure to enjoy this machine.

The Fitting Problem Solved

WITH OUR LATEST "MARVEL" 16-SECTION DRESS FORM. IT IS AN ADJUSTABLE DRESS FORM THAT WILL PERFECTLY DUPLICATE THE FEMININE FIGURE.

No Reaching Inside—Just Pull Sections Out To Correspond With Your Figure. Has Arm Extensions For Sleeve Fitting, Long Body For Pinning Skirts. Skirt Length Measure As Well As Skirt Marker Insure Accuracy.

TH THIS FORM CLOTHES CAN MADE THAT FIT RIGHT, HANG RIGHT AND POSSESS STYLE AND APPEARANCE WITHOUT ANY EXCESSIVE UNNECESSARY COST TO YOU,

"MARVEL"

16-Section Dress Form

UNDER THIS FORM

and you can furnish your wardrobe with the latest fashions of fashion at a moderate cost. With the use of the modern fashion books and patterns which are usually in advance of ready-to-wear clothes, you can have the snap and style of ready-wear garments before they are even in the most up-to-date stores. At the same time this form gives you the advantages of made-to-order creations of the distaste at a much lower cost—an advantage that will appeal to the economical and thrifty woman who does her own sewing.

THE PROBLEM of cutting has been solved by the pattern makers, the problem of fitting is solved by the "Marvel" Adjustable Dress Form, illustrated on this page. With this form the sleeves are easily adjusted—the skirt can be draped or pinned, for you can pin the extra long body part which is covered almost to the knees. You can arrange the garment that it will hang to suit your taste. You really cannot make a mistake in the length as you will serve that the adjustable skirt length measure and hem guide insure the length desired.

MAKE YOUR CHOICE

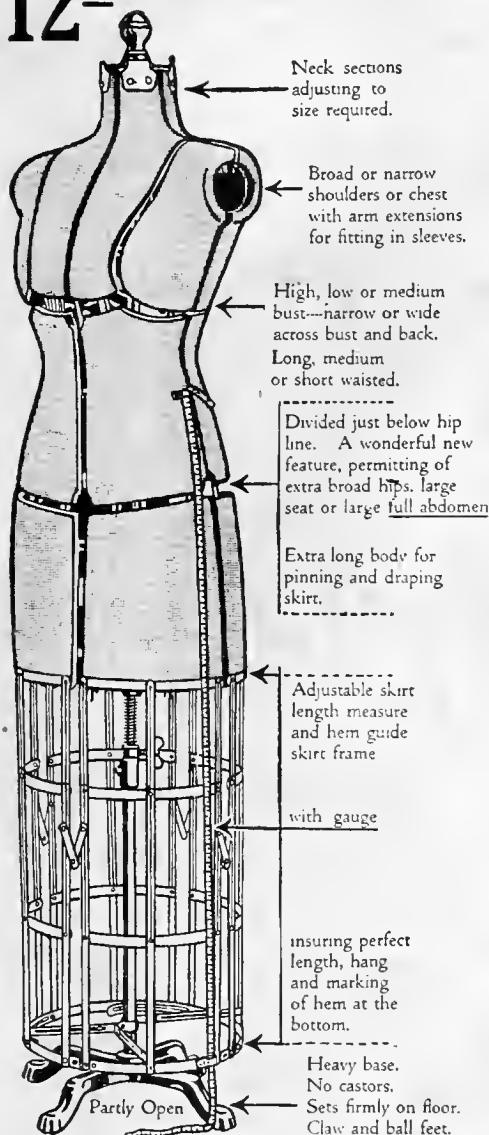

three sizes, "A," "B" or "C," according to your stature. Size "A" adjusts from 32 to 44 bust measure; size "B" adjusts from 35 to 44 bust measure; size "C" adjusts from 39 to 54 bust measure. Three of these sizes are sold at the same price. We caution you, however, to be sure and state which size you desire, so that there may be no error in shipment. By doing you will eliminate delay and unnecessary correspondence. The many advantages that are possessed by the Marvel 16-Section Dress Form apply to all three of the sizes which we offer.

Marvel
\$12⁶⁵

A Form That
"Lives Up To"
It's Name

These Illustrations Convey Some Of The Desirable Features Of The "Marvel"

THIS DRESS FORM MEETS EVERY STYLE CHANGE OF THE FUTURE FOR ALL WOMEN. IT IS REALLY ALMOST AS ESSENTIAL AS A SEWING MACHINE IN THE HOME.

"MARVEL"

16-Section Dress Form

NOTE ESPECIALLY that this form is divided just a trifle below the hip line. There is no other make of form of which we know that gives these adjustments for enlarging and widening the hips, seat or abdomen. Next to the **SKIRT LENGTH MEASURE AND HEM GUIDE** this is the most important improvement that has been made in adjustable dress forms. In addition to this, you can enlarge the bust without affecting the waist, hips and seat. Likewise, you can make one shoulder higher than the other—an adjustment that is required by many persons.

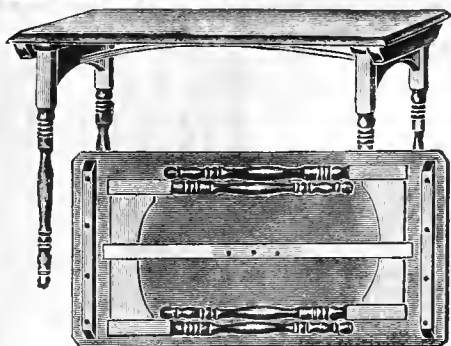

YOU CAN adjust this form to suit the lines of a stoop shouldered or square shouldered figure with equal ease. You can enlarge the waist without affecting the bust, hips or seat, or you can enlarge the hips without altering the waist, bust or seat, and in making all of these adjustments you do not have to reach inside of the form to loosen or tighten the set screws. You simply pull each section out to the measurements required. Thus you see that the manipulation of this form is as simple as it is accurate, a feature with an article of this type.

ANOTHER FEATURE of adjustment is that you can raise the bust without affecting the back, or you can lengthen the back without raising the bust. In short, you can duplicate your figure just as you are with very little difficulty. This form is made according to our own specifications. Extra heavy paper mache which is used in its construction will render years of service to the owner. It is covered with a good quality of Jersey cloth. The full nickel trimmings found on this dress form add to its life as well as to its bright and pleasing appearance.

REVOLVING STAND upon which the "Marvel" Adjustable Dress Form is mounted is made of iron and is very strong and substantial. You can adjust this form to any height that you desire. Fitted with claw and ball feet instead of casters which get out of order and cause considerable annoyance. We desire to impress you with the fact that when you can secure a dress form made in 16 sections that has the many desirable adjustable features of the "Marvel" at this low price, you are obtaining a value that is worthy of its name. Shipping weight, about 45 lbs. Note Our Low Price. **\$12.65** No. 1K1335. Price.

This Cut Shows the
Handy Sliding Tray
and Bag of Cedar Wrappings

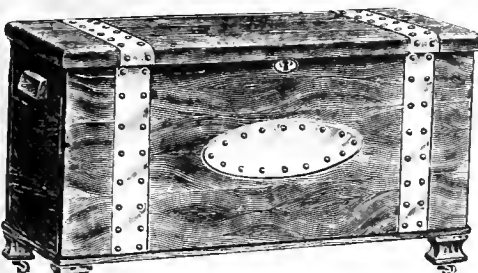

HIGH-GRADE, MOTH-PROOF

RED CEDAR CHEST.

It is made of genuine
fragrant Tennessee red
cedar, finished in its natural color, and is rubbed through-
out to a perfect smoothness, giving it a rich satin-like
polish. These chests are well known for their effectiveness
as a preventive against moths, which prevention is derived
from the "oil of cedar" contained in wood. It is supplied
with secure lock, brass hinges and stay-joint, casters and
cedar handles. This chest is of great service for storing
winter clothing and furs, and comes in three sizes.

A HANDSOME PRACTICAL MAHOGANY FINISH SMOK- ING STAND

Bowls
Made
In One
Piece
Which
Pre-
vents
Warp-
ing
and
Coming
Apart

THIS ARTICLE is one should be in every home. It is very practical and an ornament as well, yet the price is exceptionally reasonable. It is made with a stunning turned standard, of rich looking mahogany birch. The wood bowl is made in one piece, this method of construction preventing warping and coming apart.

THE SIZE is just right. Measures 23 1/4 inches overall; diameter of base 8 3/4 inches; diameter of top 7 3/4 inches. It comes complete with glass inset, scratch brush finish brass match box holder, two cigar

holders and lining. The glass inset is a point of all ease, as this piece is removable, and can be washed easily. This protects the metal lining and reduces shipping weight, about 7 lbs. **Price.....\$1.95**

No. 2 BURNER is a well made, screw-type burner and throws a brilliant light which is easily regulated. No. 3 BURNER is also of the screw-type, like our No. 2 burner, but is larger and throws a more brilliant light. No. 5 BURNER is the famous "Success" 100-candle-power burner, known everywhere for its economical consumption of oil, its easy regulation and its brilliant, white light. This is the best center draft burner made and is absolutely odorless.

ALL OUR LAMPS are guaranteed to give the very best satisfaction and are so packed for shipment that they will reach you in the very best order. Each burner is fitted with a pure, lead glass chimney and perfect fitting globe ring. Our legal guarantee protects you on these articles just as it does on anything you buy from "Hartman."

Equipment for Electricity

THESE LAMPS when fitted for electricity come equipped with six feet of reinforced silk cord and convenient slip plug. Directly under each lamp will be found full details as to height, size of shade and description of electric bulb socket which will tell you whether the lamp has chain socket or key socket and whether for one or two lights. The domes, when fitted for electricity, have ceiling bell and chain to which is fitted the attachments for holding the electric globes and the dome.

Equipment for Gas

THE PORTABLE LAMPS and hanging domes shown on this page, when equipped for burning gas, come with the famous Welsbach burner, mantle and chimney. The burner is of the key type for turning on and off the gas. Six feet of double dip Mohair gas hose with goose neck and socket. These lamps, when fitted for gas, are unusually brilliant, throwing a radiant light. You will be more than pleased with any lamp shown on this page and our liberal guarantee of satisfaction goes to you with each purchase. The portables are of the very best construction and all trimmings harmonize perfectly with the color of the lamp.

THE UNIVERSAL PARLOR MODEL represents one of the most remarkable phonograph bargains known to the world of music. It is indeed the phonograph De Luxe, both from the standpoint of its marvelous sound producing qualities and its rare beauty of workmanship and finish. It stands supreme as the King of talking machines. We consider that its faithfulness of reproduction, superb volume, power and beauty of tone, ease and simplicity of operation surpass any talking machine on the market for the money. **THE UNIVERSAL PARLOR MODEL** appeals to all classes and to all ages. You can enjoy not only the delights of grand opera, but likewise every form of music, mirth and merriment, from the classic symphonies of the great masters to the very latest in "black face" dialogue. You can order **THE UNIVERSAL PARLOR MODEL** either with or without the six 10-inch double disc Columbia records at the prices quoted below. When ordering be sure to give the correct number and to state whether you desire to take advantage of this combination offer. See page 1 for terms.

Columbia Grafonola

THESE MACHINES produced under the American standard are an American achievement, the product of American inventiveness, skill and might. They stand today with a superior, representing the realization of the dreams of two ages—the possibility of making hearers forget the presence of instrument. They combine the means of musical expression to the human race.

WHEN YOU LISTEN to the Grafonola there is no consciousness of the hearing and artist. The beautiful instrument seems to fade and vanish, giving place to a scene of reality with grips and entralls the ear. The question of tone and control and the technical means of sound reproduction is completely solved.

THE GRAFONOLA speaks the languages of many nations. Its beautiful art, inspires patriotism, devotion, adds to the pleasure of dancing and jest and evokes of wholesome enjoyment. The owner of a Columbia Grafonola commands "all the music of the world and most of the fun, too." Hearing is believing, believe the Grafonola and believe.

Double Disc Records

THE ONLY ARTICLE of merchandise in the world that literally "speaks for itself" is a talking machine record. Hear one Columbia record and we have told our story. Columbia double-disc records faithfully reflect and reproduce the picture of the artist's rendition as true as life itself. We cannot impress you too strongly with the faith that we have in these excellent records.

THE TONE of the violin is not a thin ghost of a sound, but a true representation of the instrument itself. The piano as interpreted by Columbia records is not a metallic affair, but an instrument of beauty and power. The human voice with all its harmony and sweetness, whether a solo or ensemble, is faithfully reflected in the famous Columbia records.

25 YEAR GUARANTEED SILVERWARE

The silverware shown on this page is the famous ONEIDA COMMUNITY RELIANCE PLATE. It is guaranteed for 25 years, as it now has the same wearing point overlay as COMMUNITY SILVER. This guarantee backed by the Oneida Community, means not only reliable plated ware, but

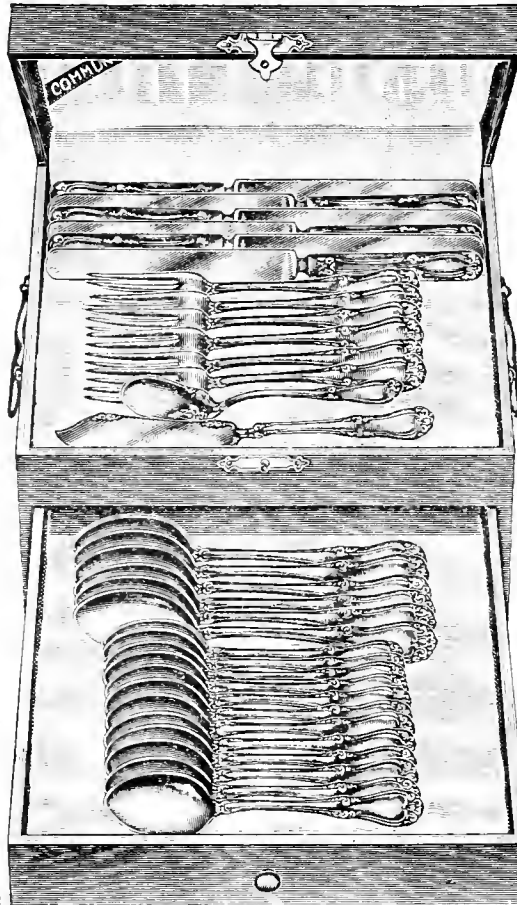

plated ware which will give the best of satisfaction in the fullest measure of the word. Is overlaid with pure silver at the wearing points. It is to the maker's legal binding guarantee at bottom of this page which your absolute and unqualified guarantee of satisfaction.

12-PIECE KNIFE AND FORK SET

This set consists of 6 knives and 6 forks in the beautiful and artistic Kenwood pattern. These pieces are made of 18 per cent nickel silver and have a heavy plate of pure silver. The finish is a bright polish and the design is a handsome scroll effect as illustrated. Makes a desirable addition to any home, and at the same time is very low in price. Order it and you will be well pleased.

No. 6K1811. Price.....\$6.18

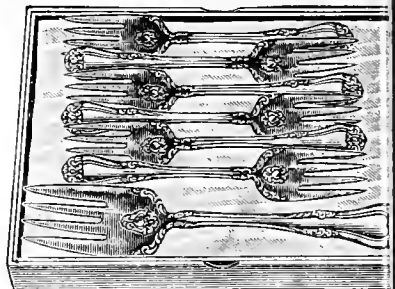

KENWOOD PATTERN 32-PIECE SET.

There is a mighty good reason why we devote the amount of space we do to this 32-piece set of silverware. It represents a positively wonderful value. Just think of buying all these pieces for the little money we ask. There are 6 knives, 6 forks, 6 large spoons, 12 teaspoons, 1 sugar shell and 1 butter knife.

THE CASE is of oak in rich golden color, finely finished, with catch on lid to hold it securely. Observe the two sections including drawer, and side handles for easy carrying. The pieces are in the fine Kenwood pattern, bright polish. Remember that the 25-year guarantee applies to this set of Oneida Community Reliance Plate Silverware. (See guarantee below.)

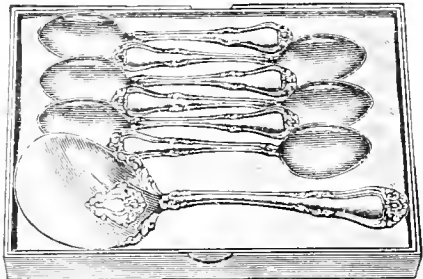

No. 6K1817. Price.....\$13.98

7-PIECE SALAD SET.

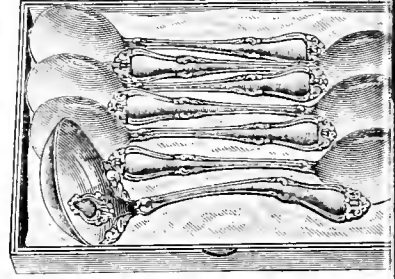

Order this 7-piece salad set if you want a high class service. It consists of six individual salad forks in the rich yet simple Kenwood pattern; 18 per cent nickel silver. This large salad fork also is the purpose of a cold meat fork which is of double value. The wearing quality of set bears the maker's 25-year guarantee, overlaid with pure silver at the wearing points.

No. 6K1814. Price.....\$5

7-PIECE BERRY SET. Such a set will improve your table service, yet the cost is very nominal. It consists of a serving spoon and six individual spoons. The pattern is the fine Kenwood design and the ware is famous Oneida Community Reliance plate, guaranteed for 25 years as shown in the maker's guarantee at bottom of page. The finish is a bright polish. These pieces are overlaid with pure silver at the wearing points and are plated with pure silver on 18 per cent nickel silver base.

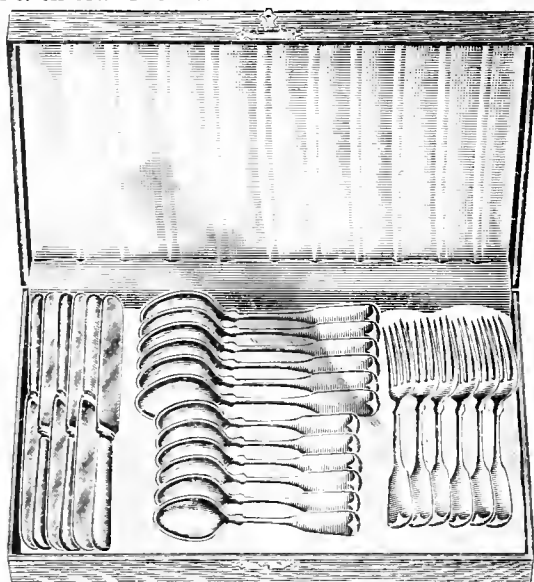

No. 6K1812. Price.....\$3.79

7-PIECE SOUP SET.

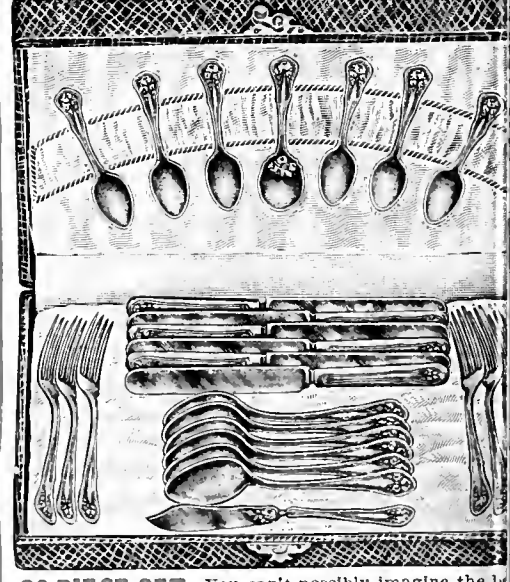

This set is for oyster soup. It comprises a serving ladle and six round bowl soup spoons, all in the fine Kenwood pattern. These pieces have the same wearing point overlay as the Community Reliance plate and are guaranteed by the Oneida Community and ourselves for 25 years. The finish is a bright polish. It matches the other wood pattern sets shown on this page and is plated with pure silver over 18 per cent nickel silver.

No. 6K1815. Price.....\$5

24-PIECE SET. You will look a long way before you find the equal of this 24-piece set shown above. It is known as the Tipped pattern which is a plain but very popular style that has stood the test of time. The set consists of 6 knives, 6 forks, 6 large spoons and 6 teaspoons. These pieces are likewise products of the renowned Community factory and is their famous Oneida Community Reliance plate silverware, guaranteed for 25 years. (See guarantee to right.) Comes in a fine oak case in rich golden color, nicely finished. Great value for the money.

No. 6K1813. Price.....\$10.98

26-PIECE SET. You can't possibly imagine the beauty of this splendid "La Rose" silverware set until you see it. There are 26 pieces all, consisting of 6 knives, 6 forks, 6 large spoons, 6 teaspoons, 1 sugar shell and 1 butter knife. They are very artistically arranged in a fine black leather case. Observe the tasty manner in which the spoons and sugar shell are set into the lid in circular section as shown. Is guaranteed for 25 years (See guarantee to left.) The handles of this set are in the handsome French gray finish. A bride's design.

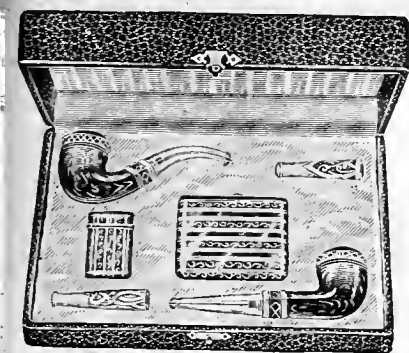

No. 6K1816. Price.....\$12

WE REFER YOU TO THIS BINDING GUARANTEE OF THE MANUFACTURER

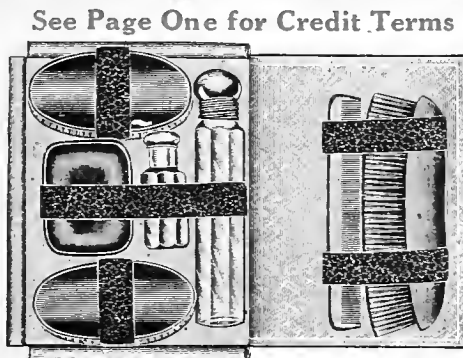

We guarantee to every purchaser that Oneida Community RELIANCE PLATE is made of superior 18 per cent nickel silver and that it has a heavy plate of pure silver. We also guarantee all Oneida Community RELIANCE PLATE (except knives) for 25 years in ordinary family use.

A Full Line of Guaranteed Trunks

IF YOU WANT AN EXCELLENT

STEAMER TRUNK.

You will show true purchasing judgment by selecting this one. For it is honestly made of thoroughly seasoned lumber and is guaranteed in every respect. Has a heavy canvas covering, sheet steel binding and brassed trimmings. The strong slats are made of hardwood and the straps are of extra heavy leather. Has a deep tray, as illustrated, and is equipped with Excelsior lock.

No. 7K1250. 32-in. \$6.98

GREAT KITCHEN CUPBOARD VALUES

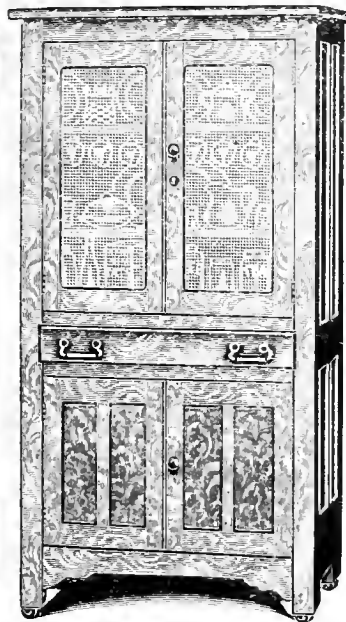

By glancing at the pictures of our line of Kitchen Cupboards you will quickly see that they are all of pleasing design, and that any one of them will prove an ornament to your home. The inner construction of furniture adds greatly to make up its quality, but does not show in an illustration, therefore we refer to the strong reinforcing on the inside, smooth finish, and perfect joining of all parts, all equipped with key and lock—not with knob as illustrated. Drawers have knobs, not handles.

Special Bargain

A REMARKABLE lawn swing in many ways. Is sold with or without canopy, as desired, at the low prices which we quote on this page. By referring to the illustration and the descriptive features brought out with the aid of the arrows, you can gain a good idea of its excellent construction. It is without question one of the best values we have ever offered. The derrick is painted red, the balance of the swing being a natural varnish finish.

THIS DERRICK is made from 1x3 inch rounded stock, has noiseless knife edge hangers, 8 ft. high, and occupies a ground space of 8 ft. 6 in. by 5 ft. The width of seat between arms is 34 inches, depth of seat 12 inches, hanger rods 6 ft. 9 in. Seat and back can be adjusted to three positions and platform can be raised to second dowl for children's use, or level with seat, to form a couch. The advantage of these features must surely appeal to you.

THE CANOPY is made of standard 6 oz. blue and white awning stripe. Has full scalloped braided drop and full braided edge on ends, giving it a nice finished effect. Sets upon strong angle irons, which are firmly bolted to inside of derrick. Swing comes packed to insure lowest freight rate, but can be set up in a very short time. State whether wanted with or without canopy. Shipping weight of swing, about 115 pounds.

The Chains Measure 8½ Feet

Specify No. 1K2169

A Very Strong Swing With 1¾x3 In. Posts. Full Box Frame Seat

Price, \$4.38

Bolted Construction And Equipped With Heavy Galvanized Chains And Ceiling Hooks. Fine Fumed Finish

THIS MASSIVE SWING is made of solid oak in full finish, over which is placed a coat of lacquer, which gives it a wax-like finish and fully protects it against the elements. Is equipped complete with heavy galvanized chains and ceiling hooks. The chains are fastened to the swing with heavy hammock hooks, secured with four screws and heavy metal plate. This excellent swing is bolted construction, the arms being attached with heavy 2-inch screws. Is made with full box frame seat, this seat being shaped as shown in the illustration. The chains are adjustable, measuring 8½ feet. The back ends are paneled. The posts are made from 1¾x3-inch stock, the panels are 4 inches in width and the rounded seat slats are cut from 1½-inch lumber. The sides and back measure 18½ in. above the seat, the extreme width is 54 in., the seat itself measuring 50 in. wide and 22 in. deep. The front posts are 23 in. long.

A FEATURE of this swing is the strong seat construction. This seat is braced by four stretchers, adding considerably to its durability. The top panel measures ¾x3 inches, the bottom panels being ¾x6 inches, the front and back rails are about 3 inches in width. We cannot impress you too strongly with the massive proportions and heavy lumber used in this solid oak couch porch swing. It has every feature that could be desired in an article of this sort. Send for it according to our approval offer and easy credit terms. Ship. wt. of this swing, carefully crated, is about 50 lbs.

No. 1K2169. Price, \$4.38

\$4.38

SOLID OAK PORCH SWING, LACQUERED FUMED FINISH

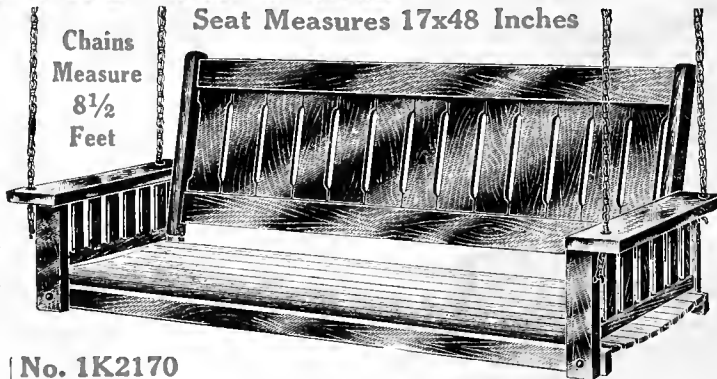

Complete With Substantial Non-Rusting Adjustable Chains And Ceiling Hooks.

THIS SWING is made from durable, thoroughly seasoned solid oak in fumed finish, with an extra coat of lacquer to protect it against unfavorable weather conditions.

BOLTED construction is used in the building of this swing. This insures a very rigid and substantial article. Extreme width 50 inches; the seat measures 17x48 inches; distance between arms about 43 inches.

Chains Measure 8½ Feet

Seat Measures 17x48 Inches

No. 1K2170

SHAPED SEAT. The seat is of shaped style of 1½-inch rounded slats. A remarkably fine porch swing at a true bargain figure. Shipping weight, about 40 pounds.

\$3.19

Extra Wide Arm Rests Formed Seat and Paneled Ends 50 Inches In Width.

IS COMPLETE with substantial, non-rusting chains and ceiling hooks. The chains are adjustable and measure 8½ feet. Has extra wide arm rests. Very desirable porch swing.

THE BACK

measures 22 in. above the seat, the arms are 11 in. above the seat. Both the back and ends are full paneled as shown. The seat is very strong, having four braces.

\$3.19

SOLID OAK AUTOMOTE PORCH SWING, FUMED FINISH

Complete With Foot Rest Attachment, Foot Rest Chains And Ceiling Hooks. Is Self-Propelling. Measures 50 Inches In Width.

MADE OF solid oak, thoroughly seasoned and kiln-dried. Comes in fumed finish with an extra coat of lacquer to protect it against unfavorable climatic conditions. It is furnished complete with footrest attachment and footrest chains and ceiling hooks, as shown in the illustration. Has end panels and wide arm rests. The arm rests, in addition to being of bolted construction, are fastened with 2-inch heavy screws. This swing has a tie bolt running completely through the end. The method of building this Automote is such as to produce a strong, braced construction. This swing is self-propelling and has ample space back of footrest to step in and out of swing. The footrest propels the swing and the slightest pressure of the feet starts it in motion. Has a shaped seat, as illustrated. A feature of this Automote which is a great improvement is the adjustable footrest.

YOU WILL NOTICE that the footrest can be raised and bolted about 3 inches above where it is regularly attached. This is provided so that it will be suitable for children or small people. The arrow in the illustration shows this feature. The extreme width is 50 inches, the seat measuring 17x48 inches, the distance between arms is 43 inches, back measures 22 inches above seat, arms measure 11 inches above seat, length of arms 23 inches, width 3½ inches. The seat construction is strengthened by the use of four braces. It is constructed of 1½-inch rounded slats. Footrest drop is 17 inches, width of footrest 13½ inches. The footrest chains insure easy, smooth motion. Shipping weight, about 45 lbs.

STYLISH FIBRE REED TAPESTRY ROCKERS

**Finished in the Rich
Baronial Brown. The
Tapestry Upholstering
is Floral and Leaf Design
in Harmonious Colors**

WE ALWAYS have the interests of our customers in mind when we search the manufacturing markets for articles to offer in our big line of bargains. Our offerings are high grade and the prices are absolutely the lowest possible. Join our big army of customers who stand by us because they know that by so doing they are taking absolutely no chances whatever. As an instance of price-slashing; as a sample of genuine bargain-giving; as a really great opportunity to purchase merchandise that you can feel proud to own, we call your attention to this beautiful, decorative, comfortable rocker. It goes out with our strongest and sincerest endorsement and recommendation.

IT'S A CERTAINTY that if you purchase it you will be pleased. This rocker is expertly made of fine Fibre Reed, superbly woven as illustrated, and expertly finished in the widely used and very attractive Baronial Brown—a color that "fits in" with practically all surroundings. The upholstery is attractive tapestry with flowers and leaves predominating, all beautifully blended in natural colors to produce a wonderfully attractive effect. The button tufted pad in the seat is removable. It is covered with tapestry to match the back and padded strip forming the seat front. The shades are delicate in hue, comprising greens, old rose, yellow, blue, etc. The back is very well padded to insure comfort.

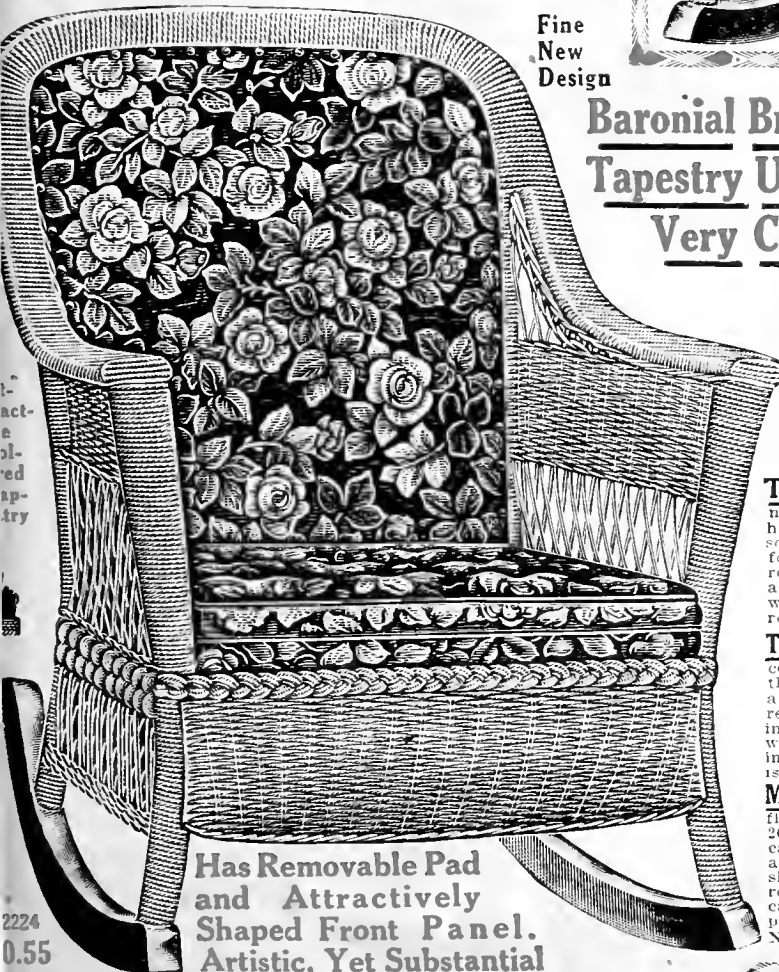

THE SEAT has nine strong springs. It is nice and roomy, measuring 21 inches between the arms. The height of the back from the seat is 24 inches, and the height of the seat from the floor is 15½ inches. We wish that you could sit in it while you are reading its description; then that you could get up and take a look at the rocker itself. In fact, you can, if you desire; for we will send it to you on approval, without any obligation on your part of keeping it. If you care to keep it, as we know you will, pay for it in small installments. Shipping weight, about 25 pounds.

**Baronial Brown Color.
Tapestry Upholstered,
Very Comfortable.**

**Has Nine
Springs in
The Seat**

THE ELEGANCE of this very artistic rocker will be recognized by you the minute you see it in your home, for it has the earmarks of refinement, luxuriousness and high class appearance. It is made of durable Fibre Reed, handsomely finished in rich, baronial brown. This Fibre Reed is known for its wearing qualities as well as its rare beauty. The back is rounded and the apron front under the seat is shaped in a very attractive manner. Observe also the gentle flare to the arms, which gives it both grace and ease, so much to be desired in a rocker.

THE TAPESTRY is of a floral and leaf pattern, magnificently worked out in an harmonious combination of colors, with brown in predominance. The green shades as well as the delicate yellow and purple tints combine to produce a very artistic effect. The tufted, tapestry upholstered pad in the seat is removable and is neatly sewed with tufting buttons. Tapestry strip in front to match. There are 9 hand-tied springs under the seat, which are supported by 3 steel bands. This method of construction insures strength as well as ease and comfort to the occupant. It is fitted with good, strong runners.

MEASUREMENTS. The height of this excellent rocker is 24 inches, the height of the seat from the floor being 15½ inches. The seat itself measures 18 inches deep and 20 inches wide. Extreme width 26½ inches. From these sizes you can gain a clear idea of the relative proportions of this exceptionally fine piece of furniture. Remember, that the illustration as shown to the left is taken from an actual photograph of the rocker itself and therefore conveys its elegance and splendor. You can order it shipped on approval and take a year to pay. Shipping weight, about 30 pounds.

Richly Designed Pres-Cut Glassware

THE "NATIONAL" PATTERN GLASSWARE SET AT THIS BARGAIN PRICE 48 Pieces

The pattern is of a wonderfully attractive design, elaborate to a degree—in fact, as rich in detail as some of the highest priced genuine cut glass pieces sold in the most exclusive specialty stores in the largest cities. Elongated panels tapered at both ends prevail throughout each piece; interspersed between these panels are sunflower designs and symmetrical cutting, angular in character. Examine the illustration and see how beautiful it is. You can't help but admire its great beauty.

A set such as the "National" is not only ornamental, but serviceable too; because there is not a single piece that cannot be put to use every day throughout the year. The pieces are not "flimsy," but will stand up under constant usage. A wonderful set at this low price and actually worth more than this amount. Shipping weight of complete set of 48 pieces packed for shipment is about 40 pounds.

No. 6K343. Price.....

\$4.80

This stunning set of fine pres-cut glassware includes: 1 butter dish and cover (2 pieces), 1 sugar bowl and cover (2 pieces), 1 spoon holder, 1 creamer, 1 8-inch round napkin, 12 1 1/2-inch round napkins, 1 1/2-gallon jug, 12 tumblers, 1 oil bottle and stopper (2 pieces), 1 5-inch footed jelly dish, 1 celery tray, 1 pickle tray, 1 8-inch high footed bowl, 6 custards, 1 salt shaker (glass top), 1 pepper shaker (glass top), 1 nickel top molasses jug, 1 10 1/2-inch cake plate, making 48 pieces in all.

We made special arrangements with the leading potteries of this country to place our enormous orders for their wares during the dull season, which enables them to keep their plants running. These potteries are of large capacity and vast experience, as well as being producers of the Highest Character Porcelain Ware. This has an inconceivable effect upon cost prices and it is wholly due to our immense buying that we are able to sell you such good quality goods at prices frequently charged for inferior grades.

We offer nothing in this department but Thoroughly Dependable that will give our customers the utmost satisfaction. We do not handle desirable goods nor do we sell separate pieces. We can, however, always furnish new pieces in case you break some parts of the set you have. You will find every piece in each set to be pure white in color, highly glazed, beautifully decorated and absolutely perfect in shape. We endeavor to pack each set, so that it will reach you in the finest condition. Every piece in each set is full size and exactly as represented and of the highest standard quality, having passed a careful examination by inspectors before being accepted as suitable to be shipped to our customers. The lists below show the exact pieces contained in our sets and actual colors are shown on Page 321.

This List and Illustration Shows The Exact Pieces

| 6 Fruit or Sauce Dishes | 1 Nappie, 8½ in. |
| 6 Individual Butter Dishes | 1 Covered Dish (2 pieces) |

Special "Leader" Underglazed Porcelain Dinnerware

THE HANDSOME PLAIN WHITE PORCELAIN dinner set, which we consider, is one of the finest of its kind to be found anywhere at the price. It is a good plain white set, the shape of dishes being that shown in illustration above, with a neat embossed design, molded at intervals on the outer edge of each piece. While there is no gold band decoration on any of the pieces of this set, the embossed pattern does away with the severely plain appearance which would be noticeable if the embossing had been omitted. A pure white set is often more preferable than one with decorations and for those desiring a set of this kind, No. 6K341 is one of the best they can buy any place in the country at a price anywhere near as low as ours. When you consider the wonderful bargain at which this set is sold and the convenient plan of over a year to pay, there is no excuse in the world for your doing without this set of dishes. There is really nothing more enjoyable than to eat good food, served on good dishes. It's a pleasure not to be denied anyone. Can be furnished in either 51 piece set, weighing about 60 pounds, or 100 piece set, weighing about 95 pounds.

No. 6K341. Set of 51 Pieces.....Price \$3.95

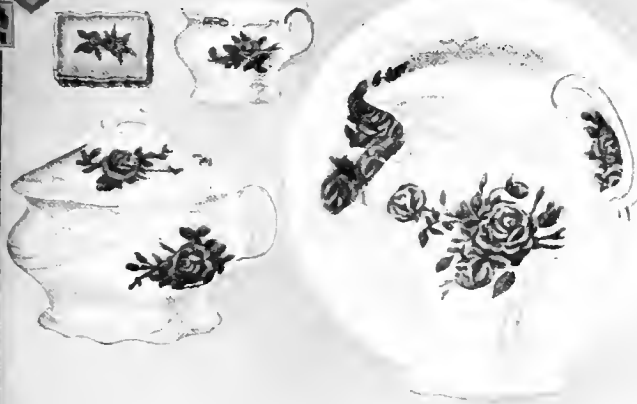

No. 6K342. Set of 100 Pieces.....Price 6.95

THE BEAUTIFUL 3/8-INCH GOLD BAND PATTERN of this set, is a decoration of the style of decoration now being used on the costliest dinner sets, at cost many times what we quote you for this set. As the predominating style of decorating has for the past few years been gold bands on edge of dishes, and for those who desire such a set, we offer our No. 6K1952. Each piece of this set has been decorated with an embossed design on outer edge, appearing immediately below the stylized gold band which itself encircles the extreme edge of dish as shown in illustration. This gold band is put on by a new process at the pottery, just before the dish is given its firing and glazing. By this method, the decorating is put on very evenly and greatly to the appearance of each dish. The clay used in moulding this set is double fire glazed, which makes it very durable and gives it a velvety finish. You can easily figure the big saving you make by ordering this set at the price we quote and we guarantee every way. Can be furnished in either, 51 piece set, weight 60 pounds, or 100 piece weight 95 pounds.

No. 6K1952. Set of 51 Pieces.....Price \$3.95

No. 6K1953. Set of 100 Pieces.....Price 6.95

HARTMAN'S FAMOUS LINE OF "SOVEREIGN" CROCKERY

**ELEGANT SIX PIECE TOILET SET, \$2.95**

This set is made of fine quality White porcelain, each piece being molded in a most pleasing shape. The embossing is artistically placed on each piece of the set in a fancy pattern, while the color decoration is in a floral design of foliage and roses, beautifully brought out in brown, green or blue. The coloring is delicate and soft, being put on each piece before it is finally glazed and fired and by this modern process will not scratch or wash off. The six pieces contained in set are: Wash Bowl, Pitcher, Soap Slab, Tooth-brush Holder, Chamber and Cover. Extreme care is given to the packing of our crockery and dishes. The picture above shows set in green, but you can order it also in brown or blue. State color desired. This six-piece set weighs about 50 lbs.

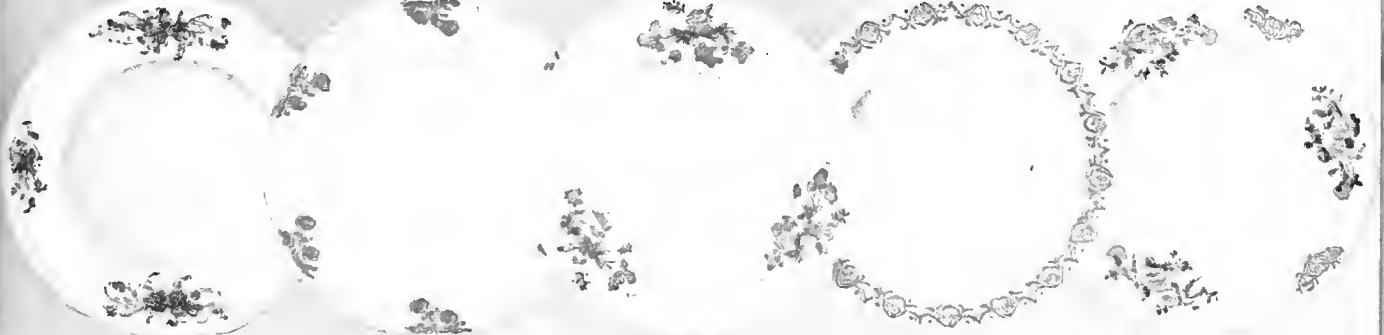

No. 6K1785. Set of Six Pieces. Price..... **\$2.95**

**HIGH GRADE TWELVE PIECE TOILET SET, \$5.95**

Beautiful toilet set, of white embossed porcelain, with tinted colorings as shown above, standing out in a most pleasing contrast, which make it a set exceptionally rich in appearance. Each separate piece has been carefully fired and glazed, and molded in a new and service-giving shape. Is easily handled and not clumsy.

Ten-piece set consists of Wash Bowl, Pitcher, 3-piece Soap Dish, Chamber and Cover, Mug, Small Pitcher and Tooth-brush Holder. It does not contain a slop-jar, for many of our customers desire to purchase a set without these extra two pieces. Weight, about 75 lbs. Twelve-piece set contains all the pieces mentioned in the ten-piece set and also includes a slop jar and cover, which are counted as two pieces. Weight, about 85 lbs. Can be ordered in blue, green or pink. State color.

HIGH-GRADE "EMPRESS" PORCELAIN DINNERWARE

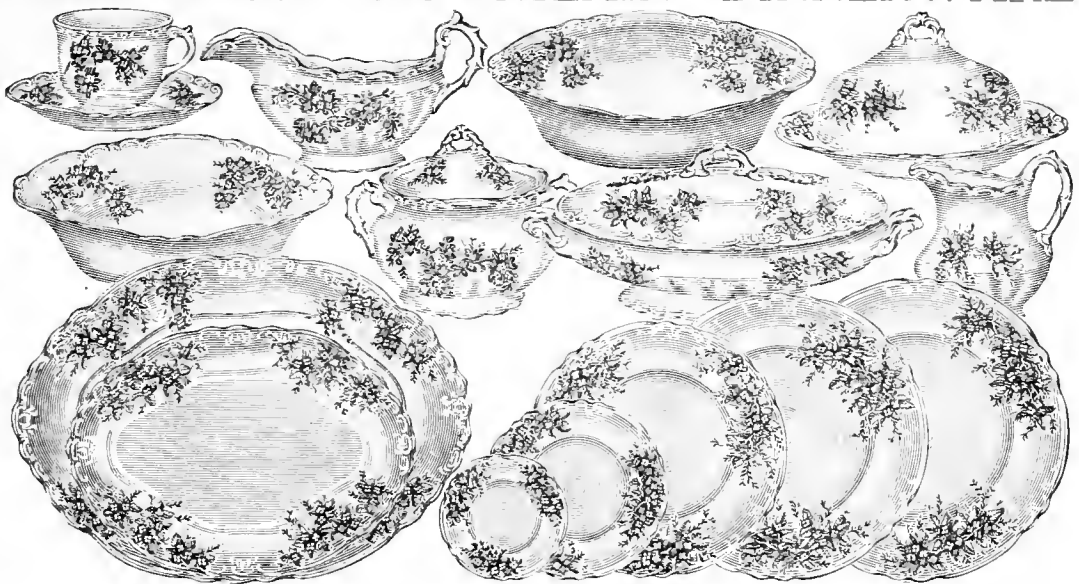

HIGH-GRADE "EMPRESS" PORCELAIN DINNERWARE
HEAT FLORAL DESIGN of blue
 spots and Lillies-of-the-Valley, exquisitely
 wrought out in natural colors, is the orna-
 mentation placed upon each piece of this
 "Empress" Dinner Set. It is extremely
 solid in style and the rich colorings make
 of a most pleasing character. The mold-
 ing of each piece is carefully attended to,
 the pottery and the molds into which
 the clay is prepared before baking are of
 forms that shape the pieces into the pleas-
 ing designs as shown. The decoration is
 one of the finest ever used on a set of dishes
 at this low price.

ANOTHER BIG VALUE is found
 in this set. There really is nothing so pleasing to
 the eye and nothing that gives more delight
 to the person sitting at a table, than to be
 served their meal upon dinner dishes that
 are of an excellent design and pleasing
 shape. You owe it to your family and your-
 self to have the best you can get for the
 money you wish to spend, and in this par-
 ticular set, at the price quoted, you get
 more value than is usually found for the
 money elsewhere. It is also very easy to pay
 for it, while you are using and enjoying it.
 51-piece set weighs about 95 lbs., and 51-
 piece set weighs about 60 lbs. Page 320 gives
 list of pieces.

"BEDFORD" HAVILAND DESIGN PORCELAIN DINNER SET

THE RICH GOLD used on the sprays
 in the decorations
 of this beautiful set daintily set off the snow
 white background, which is richly embossed in
 a most desirable design. These sprays are set
 in a colored flower and leaf pattern, which is
 similar to patterns used on more expensive din-
 ner ware. The pieces of this set are neatly
 shaped, so as to give the user the utmost
 satisfaction both in durability and service.
 You can make no error in ordering this set,
 for it is a very good value at the low prices
 which we ask. You will observe that we offer
 it in both 51 and 100-piece sets for service for
 6 or 12 persons respectively.

DOUBLE FIRED and glazed, this ele-
 gance offered by some for more money. The
 bright gold and color decorations are put upon
 each piece before the final glazing and firing
 are done, and by this method are substantially
 and scientifically placed below the top surface
 and greatly enhance the beauty of each piece
 in the set. The embossing is effected in the
 molding and is of a neat design. This is truly
 one of the neatest sets you could possibly obtain
 anywhere. The 100-piece set weighs about
 95 lbs. and the 51-piece set weighs about
 60 lbs. Page 320 gives list of pieces.

DAINTY "BRITAIN" DINNER SET OF FINE PORCELAIN

THE PRETTIEST DESIGN im-
 aginable
 in the decoration of this stunning Dinner
 Set. It is in a floral cluster effect of pink
 and blue, with sprays of green leaves, sym-
 metrically placed on each piece. These
 designs are applied by the most modern pro-
 cesses and are below the top glazing, which
 makes each piece lustrous in appearance.
 Long service is derived from such a dinner
 set as we offer here and you will never be
 sorry you bought it. We could write enough
 about our chinaware to fill a book, but we
 want you to get the set you select home to
 see its beauty and worth.

HEAVILY GLAZED scientifi-
 cally
 burned and
 glazed; this set will prove to be
 thoroughly satisfactory in every way. The por-
 celain is embossed in a delightful pattern and
 a rich pure white color is a wonderful back-
 ground for the soft, delicate floral decoration.
 The convenient shape of each dish makes it
 easily handled and not so apt to slip from the
 hands and become broken. You are amply
 protected by our iron-bound guarantee and if
 you are not pleased in every way with the
 dinner set when you receive it, ship it back to
 us and get your money back. 51-piece set
 weighs about 60 lbs., and 100-piece set weighs
 about 95 lbs. Page 320 gives list of dishes.

NEW "EMPIRE" BRIGHT GOLD DECORATED DINNER SET

THIS FINE GRADE set of dishes made of a quality underglazed porcelain, nicely polished a product of one of the well known pottery of this country, and considered by judges of chinaware to be one of the best sets turned out at the low prices we are asking. Dinnerware like this is usually sold with good-sized profit, but we, with our small margin of profit method, are satisfied to sell this handsome set even on long time terms at a very low price, because we are sure we'll sell thousands of them, and thereby make many friends and steady customers.

THIS DAINTY SET is a special offering. We decide to have our "Empire" design in a stylish gold spray design, so that it would excel similar sets selling for more than our price, and the superintendent at the pottery received instructions from us to use only good clay, the molding and the same process of glazing and firing that is used in the manufacture of finer dishes. The result is that we are offering you a very fine article. The stylish gold is fired into the China by a new process that adds to its bright finish. The shape is an entirely new design. Shipping weight, secure and expertly packed, 51-piece set, weighs about 62 lbs., 100-piece set, weighs about 95 lbs. See page 320 for list of pieces.

"VIENNA" FLORAL DESIGN PORCELAIN DINNERWARE

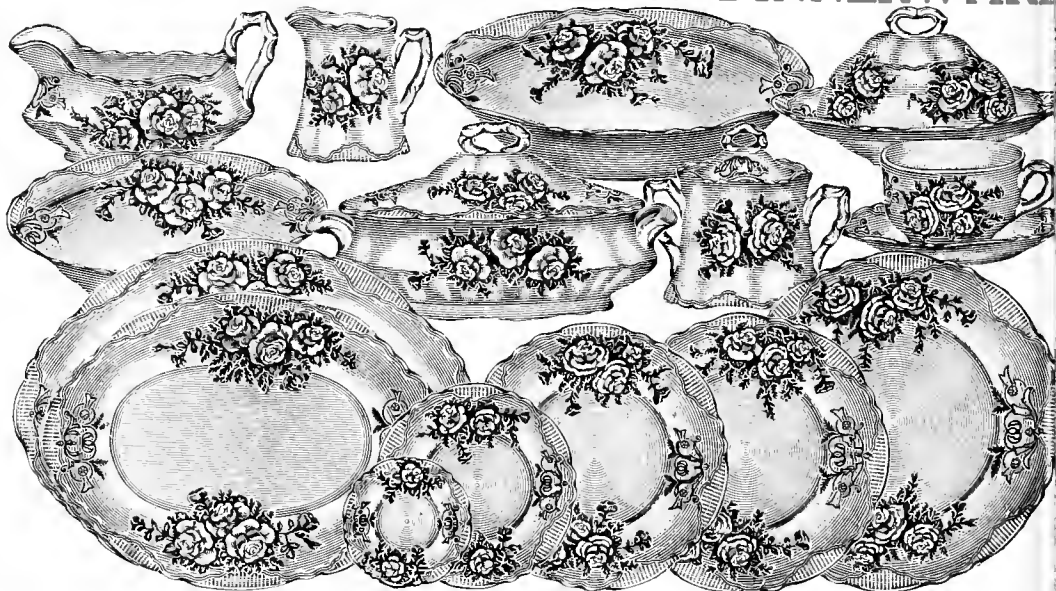

PRETTY ROSES, foliage and leaves, arranged in cluster effect, make a very striking decoration for this lovely porcelain Dinner Set. These floral patterns are elegantly brought out by rich embossing. The only way to really appreciate the daintiness of design and the fine quality of this rich set is to order a set on approval. Then you can see better than we can describe to you what a fine set this really is, and what a bargain at the price asked. Page 320 gives list of pieces.

IT IS A BIG BARGAIN at our price and must be seen to be appreciated. This handsome dinner set is one of our best offerings this season. The clay from which this set is made was carefully treated and twice fired and glazed. This process gives each piece unusual strength and makes the set, as a whole, one from which great service can be secured. Each piece is warranted to withstand ordinary usage and is stylish and ornamental. Great convenience is found in the way of our offering dinner sets in two sizes. For, if your family is exceptionally small, you need but order the 51-piece set and if large, the 100-piece set. 51 pieces weigh about 60 lbs. when packed, and 100 pieces about 95 lbs.

SMART "LIVERPOOL" PORCELAIN SET WITH GOLD DECORATION

A TRIAL ORDER will immediately settle any doubt as to the great value we offer in the Dinner Set. We shall be more than pleased to fill your order with the distinct understanding that you can examine the set closely and if it pleases you in every way pay for it on easy credit terms, while you use it and get the best of service from it. The illustration shows you clearly what a fine dinner set this is and when you actually see the real dish itself, lift it, and decorations and notice the beautiful finish thereon, you will be more than pleased to your bargain. Page 320 gives list of pieces.

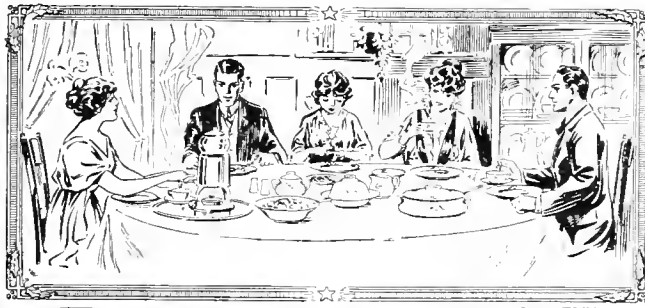

DELICATE BORDER of attractive bright gold which is arranged in an exceptionally pleasing pattern, extends from one floral cluster to another. These clusters are formed of a spray of beautifully shaded roses in natural colors. The marvelous contrast of the colorings and the pure white porcelain must be seen to be appreciated. The substance used in molding these dishes is of very fine clay and is double glazed and fired with the decoration being placed upon each piece before final burning process is effected. By means of this method all colorings are lasting and retain their color. 100-piece set weighs about 95 lbs., and 51-piece set weighs about 60 lbs.

A REMARKABLE BARGAIN IN INITIAL DINNERWARE

GOLD DECORATED DINNERWARE

**With Any Initial That You Desire
Beautiful Hard Fired Vitreous Dishes**

A CHANCE to secure a bargain such as this is characteristic of the great Hartman organization. It proves that we are always on the alert to offer our patrons something new, and shows conclusively that we endeavor to save you money. We want you to consider very carefully just what this opportunity means to you. Compare our offering with that made by others, either in your home town or in the books of other concerns. You will never have reason to regret your purchase. You are at liberty to select any single initial in the alphabet, and have it placed on the various pieces. The style of each initial is shown in the panel at the bottom of this page.

BEAR in mind that these are not flimsy, light dishes that will chip or crack in ordinary use, but are made of strong vitreous ware of medium weight. Each piece is of a pure snowy white with band of gold around the outside edge and in-at gold stripe as illustrated. Initial and scroll embellishment also are in gold to harmonize perfectly. Initialed dinnerware gives "class" and elegance to your household furnishings. If you do not feel that you care to purchase the full set of 100 pieces, at least order the 51-piece set at this great bargain price. Allowance of several extra days must be made for initialing this ware, so we urge that you order early.

"CONCORD" PORCELAIN DINNER SET WITH GOLD BORDER

ATTRACTIVE GOLD artistically designed pattern which encircles the edge of border, forms a novel style of decoration in a most pleasing effect. Natural colorings of pink flowers, green foliage and stems form a full border, while the scalloped edge is trimmed with a narrow neat gold band. Rich embossing in a favorite design completes the ornamental pattern. Taken altogether this design is exceedingly attractive and cannot help but appeal to every man, woman or child. Everyone knows that nothing gives one more real pleasure than to be able to set one's table with china of the finest character.

SPLENDID VALUE at the price we quote, as you will agree after seeing this set in your home. The real reason for these bargains, as previously mentioned, is our wonderful purchasing power and its effect on the potteries during their dull season. It isn't necessary that you be satisfied with our descriptions of these sets because you can order the set you prefer—have it sent on approval and after you have unpacked it, laid it out on your table and seen every piece as it really is, you will be highly pleased by its appearance. The 100-piece set weighs about 95 lbs., while the 51-piece set weighs about 60 lbs. Page 320 gives list of pieces.

OUR "NEWCASTLE" DECORATED DINNERWARE OF PORCELAIN

HELPFUL CREDIT is a necessity. There is so much truth and instruction in this epigram that might well be taught in every schoolroom in our big United States. It is really important enough to be placed in the copy books along with "Honesty is the best policy." You have can realize what established credit means to you. It means that you can enjoy long-wishes for home comforts without lumping your money to pay spot cash. Under OUR credit plan, you get what you desire, use it, have your family and friends enjoy it, and have a full year to pay in convenient small payments.

JUDGE THE DESIGN yourself as to whether you have ever seen its equal at so low price. There is no doubt but what you never have seen a like value before. The design or ornamentation is of an oriental type in an artistic pattern, beautifully formed colorings of blue, green and maroon. These designs are cleverly arranged around forming a neat border. The edging is finished with a delicate crown gold band, which together with the deep embossing, wonderful adds to the style of decoration. 51 piece set weighs about 60 lbs., while 100 piece set weighs 95 lbs. Page 320 gives list of pieces.

"BERLINE" GOLD EDGE AND FLORAL DECORATED DINNER SET

LOOK AT THE PATTERN of this set and see if it is not the most beautiful design you have ever seen on a dinner set priced so low. The dishes are ornamented with festoons of roses, green foliage and stems, which extend around brim, joined together by a hand border, from which, sprouting towards center, are sprays in natural colors. The effective decoration is most charmingly brought out by the neat gold edge and the snowy white background afforded by the highly fired and glazed white porcelain. These colorings are put up by a new process.

YOUR CREDIT is good with us, and we invite you to select the set you desire and send in your order. If, when you receive the shipment, you are pleased in every way and find your Dinner Set the biggest value you ever bought, you will have one full year to pay. Page 1 of this volume shows how simple our open-account plan really is. You will find that the small credit terms on this particular set will never be missed and before you know it, it is all paid for. Our plan is just a long, simple extension of credit on low price merchandise of good quality. 51-piece set weighs 60 lbs.; 100-piece set weighs 95 lbs. Page 320 gives list of pieces.

EXQUISITELY DESIGNED "MARLBORO" PORCELAIN DINNERWARE

HEAVY GOLD EDGING on these pieces have a beautiful effect in connection with the exquisite colorings of floral patterns. Autumn leaves and bunches of grapes magnificently worked in natural colors and arranged in clusters surround the brim and form a dainty border. The scalloped shape of dishes is exceedingly clever in design, being of a style easily handled. Each piece of this dinner set has been doubly fired and glazed and the ornamentations placed beneath final glazing, which makes it absolutely lasting, and the design will please you immensely.

A HIGH GRADE SET such as our "Marlboro" is a genuine bargain at these figures. In addition to its beauty and refinement of design and decoration, it will give splendid service. The set is just as good as it looks and you cannot possibly make a mistake in sending your order for this ware. Every woman owes it to her family to have a neat appearing set of dishes and should be just as particular about the set she uses as she is about her cooking. We will gladly ship a set to you on approval, and if it doesn't satisfy you in every way, send it back. 100-piece set weighs about 95 lbs., 51-piece set about 60 lbs. Page 320 gives list of pieces.

BEAUTIFUL "MINET" DINNER SET WITH GOLD EDGE AND FLOWERS

ELEGANT PATTERN of floral decoration. This Dinner Set, in a most pleasing design, being clusters of flowers and a white checked border beautifully edged below the glazed surface on the ivory white porcelain background with gold edge. The shape of the dishes is in the best grade style and by noticing the illustration, you will readily see this is a splendid reproduction of more costly ware at remarkably low price. Our sales price on this ware is exceptionally low when you consider the quality of merchandise we offer. Page 320 gives list of pieces.

YOU CAN SEE by careful observation of the floral ornamentation that the pieces of this set are indeed in the very choicest pattern. The shape which each dish is moulded is also of a very rich and exclusively produced by a particular pottery. With our open-account credit plan of over one year to repay, and our shipped on approval offer, in addition to our iron-clad legal guarantee, how can you afford to overlook this value? You choose very wisely if you select this dinner set, and should it not meet with your entire approval, we ask you to return it at our expense and get back any money you have paid us. 51 piece set weighs about 60 lbs., and 100 piece set weighs about 95 lbs.

FINE PORCELAIN SET. THE "YORK" WITH STYLISH GOLD EDGES

A FINE PORCELAIN SERVICE

at a price as low as we ask for this set should appeal to those who appreciate a good value in dinner ware, and we urge you to consider this set before making your selection. The shape of the dishes has that well-known foreign air, while each edge is completed with a very delicate gold band. The design of decoration is most conventional and is lavishly worked out in a dainty wreath effect around brim and beautifully brought out in colors of terra cotta, pink and olive green. This is a striking example of our ability to offer you high grade dinner ware at low prices.

WHEN YOU BUY HERE you secure the benefits of many years of sincere merchandising endeavor. We do all in our power to give to our patrons the best values that the market affords. And that is why, when you select such a set as this from us, you can and should feel that you are taking no chances. We do not claim that it is the finest set in the world at the lowest prices; but we do state emphatically that we consider it an excellent value at these figures. Weight: 100-piece set, 95 lbs.; 51-piece set, 60 lbs. Page 320 gives list of pieces.

FINE "EMPRESS" WHITE AND GOLD SETS AT SPECIAL PRICES

Gold Band Set.

YOU cannot purchase at this price a dinner set that will adorn your table with more exquisite taste than the beautiful white and gold pattern illustrated on this page. There is a narrow band of gold around all edges and likewise a fine gold line as shown on the various pieces. A striking feature that adds distinction to this set is the attractive heavy solid gold effect on the handles. These gold handles place this set above the ordinary, giving it distinction and "class," such as you rarely find at these sensationally low prices. White and gold decorations, always popular, have become the favorite because they do not offend the most cultivated taste and harmonize with all color schemes of table decoration.

THE shape is the splendid new "Empress" shape, so much admired by housewives and found in the homes of the wealthiest people the country over. It is pronounced the last word in the plainer shapes now the prevailing fashion for home use. It is the leader of its class, as you will recognize after once having seen the articles themselves. All pieces are pure white, of velvety texture, of abundant size, yet dainty in modelling. The contour of the handled pieces is especially graceful, eliminating the usual "stuck on" appearance found on many inexpensive lines of chinaware. They seem to grow out of the body of the piece, giving them the finishing touch of style. When you consider our low price, you should not hesitate to send us your order for the 100-piece set. Either set, however, is a true bargain offer at these low figures.

51-PIECE SET CONTAINS

6 Dinner Plates, 9 in.; 6 Breakfast Plates, 7 in.; 6 Large Soup Plates; 6 Tea Cups, 6 Tea Saucers; 6 Fruit or Sauce Dishes; 6 Individual Butter Dishes; 1 Meat Platter, 9½ in.; 1 Meat Platter, 11½ in.; 1 Covered Sugar Bowl (2 pieces); 1 Cream Pitcher; 1 Nappie, 7½ in.; 1 Nappie, 8½ in.; 1 Covered Dish (2 pieces).

We give you the opportunity of ordering either the 51 or 100-piece set on our liberal credit terms as shown on Page 1.

DECORATED "HAZELHURST" DINNERWARE WITH NEAT GOLD EDGES

NEW DESIGN is found on this elegant dinner set and it is one that is sure to win immediate favor with all lovers of fine dinnerware. Just look carefully at the picture and you will see in what a beautiful arrangement the border and sprays are really formed. The porcelain used by the pottery in molding these pieces was of very fine quality and every care was exercised to produce a set that for the money could be unequaled elsewhere, and they have really succeeded in turning out such a set, for you would look far before you could duplicate these pieces for our low prices. You don't have to take our word for it, either, if you don't choose—for we will be pleased to send you a set on approval and if you don't like it—don't keep it.

THE BORDER is of a solid arrangement and put on around the edge before the final glazing and firing are done, thereby making it retain its lustrous appearance. The design is of a neat border, broken with medallions of floral and scroll effect, with a chain of roses and fine vines connecting these medallions. The colorings are harmoniously blended and pleasing as well as restful to the eye. Each dish is handily shaped and the entire set is a very nice production. You really will not appreciate the beauty of this dinnerware until you have unpacked it at home. The 100-piece set weighs about 60 lbs., and the 51-piece set weighs about 25 lbs. For list of pieces contained in either set, see page 321.

HIGH GRADE "JOSLIN" FINE GOLD DECORATED DINNER SET

THE NEAT PATTERN of these dishes is one of the features that make them so desirable. A great many people are now using dishes with a plain, conservative border decoration and for those who are looking for such dinnerware we have no hesitation in recommending this set. Then consider the low prices we are quoting on such fine ware as is offered here. We ask you to make a comparison of this value with those of other sets and furthermore we want you to see the set right out on your table to know its real worth and beauty, for it is hard to do it justice with a picture. Send us your order and let us ship you a set on approval, so you can look it over carefully and admire its gorgeous coloring and fine glazing.

THE GOLD used in decorating this set is of a splendid quality and the border is neat and attractive in green color lines and gold, centered with gold etched diamond shaped figures intertwined with fine hair lines of gold. Each dish is shaped perfectly and made by men who know how, and by a pottery where the finest molds and tools are used. The glazing and firing are fine, also, and the design is put on before the final firing is done, thus making it very lasting. Take our advice and order this set, if you desire a conservative pattern and a set of dinnerware that is made right. The 100-piece set weighs about 60 lbs., and the 51-piece set weighs about 25 lbs. For list of pieces included in each set, see page 320.

OUR FINEST DINNER SET, THE "TAVERN" WITH RICH GOLD BORDER

NO MISTAKE can be made in selecting this superb Dinner Set, if you desire a set beautifully ornamented and of the quality porcelain. This is a striking new design, handsomely decorated in gold and colors. There is nothing loud or gaudy about the pattern, for it is very simple, neat and tasty, selected by our buyers because of its rich simplicity. Decorations on dinnerware are often overdone, being badly designed and in this manner cheapening the appearance. But not so with our offerings. The housewife of today requires artistic designs of a simple nature, as are known to be used on the most expensive genuine Highland sets and our set complies with these requirements.

THE ORNAMENTATION of this choice dinner set is comprised of a beautiful conventional border around the edge in a Japanese effect with a soft blending of colors, edged with an elegant rich gold band. The entire decorative idea given a tone of refinement by the rich coloring of the velvety glaze of the pure white porcelain. We offer this set in either 51 pieces, weighing about 25 lbs., or 100 pieces, weighing about 60 lbs., and by referring to lists shown on page 321 you can see exactly what pieces are contained in the set. It is a wonderful value in either size.

are used on this sulky. The arm rests and handle are tubular in shape, adding greatly to its appearance. Has wood grip. The wheels measure 10 inches in diameter and are fitted with 3/8-inch rubber tires. Over these wheels are mud fenders to protect the child's clothing from becoming soiled. The steel curbing wheels used on this model add to the running qualities and at the same time prevent the sulky from tipping backwards. The hood is three-bow type, as shown in the illustration. Can be folded flat when not in use. Shipping weight, about 35 lbs.

The
Price

THE FRAME of this dandy little go-cart is constructed of strong steel, in a way that is bound to render substantial service. The pusher, likewise is made of flat steel, gracefully curved as shown in picture. A wood cross handle is used to join the two sides forming the pusher of this model. A feature of this go-cart is the shock-absorbing springs which extend the entire length of the seat. These relieve the shock or jar and make easy riding for the child. The body measures 14 1/2 inches wide and 36 inches long. Black enamel is used in the finish of this cart. Imitation leather is the material used for the upholstering; this likewise black to match the finish of the frame. This material gives the appearance of real leather and will give service of the sort that you have a right to expect.

THE HOOD is of the 3-bow type. The enameled wheels measure 10 inches in diameter and each has 14 wire spokes. The wheels are fitted with 3/8-inch rubber tires and are nicely set off with nickel plated hub caps. This is a semi-collapsible go-cart that folds up with one motion. The price at which we sell this article is so low that you can afford to ignore it if you are seeking a bargain in an inexpensive go-cart. We feel certain that you will be very well satisfied with your purchase and therefore have no hesitancy in urging you to include it in your order. It does not please you in every way, remember our guarantee of satisfaction protects you. Shipping weight, about 38 pounds.

TWO SENSATIONAL GO-CART BARGAINS

Offered At Very Low Prices With A Year To Pay

This Collapsible Go-Cart Is Very Strongly Constructed

A CART LIKE THIS will be appreciated by every mother, for it is a vehicle that is substantially constructed and built to give the utmost comfort to the child. The time of the large, clumsy baby carriage is past. We are now living in a period when everyone looks for efficiency and economy, and in this model you get both. You not only get a very desirable go-cart at a very low price, but you get one that will give you the very maximum of service at this same low price. Don't miss this great value if you are looking for an inexpensive go-cart for your baby, that is constructed of good material, in a thorough manner and one that will give you good service. Read carefully the full details given below and you will agree with us that this bargain is without comparison at our wonderfully low price.

THE CONSTRUCTION is equal to that often used in go-carts sold at prices higher than what we ask. In appearance it ranks well up with costlier models. The frame is strong and durable, and when flat measures 16x28 inches. Has 4-inch seamless steel tubular pushers, 28 inches long, with ebony finished wood cross handles, 1 1/2 inches wide and 34 inches from the floor. This cart is full collapsible, folding up very compactly when not in use and occupying a space 8 1/2 x 19 x 28 inches when folded. The wheels are enameled and fitted with 1/2-inch rubber tires. The hub caps on wheels are nicked to match other trimming. The handle corners are also nicked, while the foot well frame is oxidized. Balance of metal parts being black enameled. You can carry this cart with you wherever you go, for it can easily be closed up into a convenient package for taking on street cars or other methods of conveyance.

FOLDS WITH ONE MOTION. This go-cart has a three-hood adjustable to different positions and upholstered with black or green leatherette to match the upholstery on the balance of the cart. This hood has a 24-inch spread and is 14 1/2 inches wide. The back is adjustable to two positions and measures 11x14 inches. The seat is 10x12 inches in size, has flat steel springs and is 15 inches wide inside. The back when lowered to a reclining position is 37 inches long. A strong strap is furnished which protects the child from falling out of the cart. When sending us your order for this go-cart, please be sure to specify color of upholstery desired. Shipping weight, 45 lbs.

FOLDS FLAT

Here's A Go-Cart You Seldom Find Offered At So Low A Price It Is A Full Collapsible Model

WHEN BUYING a go-cart every mother makes an endeavor to purchase a vehicle that will give the maximum comfort to the child and in that respect the model we offer here is unsurpassed for the money. Look carefully at the illustration and note how gracefully this go-cart is designed. And when you take into consideration the low price we quote, you must surely admit that it is a remarkable bargain. Then you have the advantage of being able to buy it on our liberal credit terms of a year to pay. Order it sent to you on approval and after you have received it, if you do not find it to be all we claim and do not think that you have received full value for your money, return it at our expense, according to our legal binding guarantee.

HIS GO-CART is a full collapsible model, folding up very compactly to a convenient package for transporting from place to place, to be taken with you wherever you go. It is a fine looking go-cart and is added to our line this season because we feel that it is one of the best values we have ever been able to offer at this price. The flat metal frame measures 16x28 inches. Has seamless steel tubular pushers, 28 inches long, with fancy turned wood cross handle, ebony finish. Body is 13 1/2 inches wide and 32 inches long. Sides and front are black enameled and ornamented with neat gold striping. The seat and back are upholstered with black leatherette to match balance of cart.

FOLDS FLAT and when not in use occupies a space 8 1/2 x 19 x 28 inches. Has a special new spring construction. The back is adjustable to three positions. The sides, back and dash are made of three-ply veneer. The hood has three bows, is adjustable to different positions, covered with leatherette and trimmed with tinued stays. Has roomy foot well with storage space below. The 10-inch black enameled wheels are fitted with 1/2-inch rubber tires and a live foot brake, which prevents cart from rolling away when unattended. The hood has a 24-inch spread and is 14 1/2 inches wide. The seat is 10x12 inches, while the back measures 11 inches wide and 12 inches high. Shipping weight, about 45 pounds.

THE NET RESULT. When you figure what you actually pay for an article, when you estimate the terms upon which you made the purchase, and what degree of satisfaction you derive compared with the expenditure, then and then only can you make a complete review and determine whether or not you made a deal worth while. These factors constitute the sum and substance of any transaction.

IN OFFERING you this fine, full collapsible go-cart we know the net result will be so satisfactory that you will be mighty glad you made the purchase. It operates very easily, closing up into a small bundle with only one motion. Has a three bow hood with a 23-inch spread and measures 14½ inches wide. This hood is of strong black fabrikoid leather or may be had in green if desired.

THE FRAME flat, measures 16 x 28 inches. The pushers are of 5/8-inch seamless steel tubing of great strength and are 28 inches in length. Has ebony finished wood cross handle, 19½ inches wide, 34 inches from the floor. Back measures 11x14 inches and is adjustable to two positions; it is softly upholstered, which means added comfort to the child, a fact easily appreciated by every mother.

THE SEAT is soft and roomy, being 10x13 inches in size. The flat, steel springs are strong and resilient which adds life to the cart and means an easy, restful motion for the little one. Has 10-inch enameled wheels which are fitted with 1½-inch good quality rubber tires. Nickel plated fenders protect the cart as well as the child and also improve the appearance of the cart.

THE FOOT HOOD is of four bow type and is of fabrikoid leather to match the upholstery throughout as shown in illustration above; 10 inches high, 13½ inches wide and has a spread of 19 inches, making it sufficiently roomy for perfect comfort. Inside length of carriage with back in upright position is 25 inches. Folds into a space of 8¼x19x28 inches. Further details are given below.

THE FINISH. Has nickeled arm rests, handle corners and hub caps. The lockers on both hoods are tinned and the foot well frame is handsomely trimmed. Other metal parts are black enameled. A very substantial go-cart which we guarantee in every way. Shipping weight, carefully packed, is approximately 50 pounds.

SETTLE THE QUESTION in your own mind now, once and for all; send us your order and we will ship you this fine new collapsible go-cart. Use it on approval; and if you do not care to keep it, return it at our expense, according to our legal guarantee, and we will refund every penny you have paid out, including transportation charges. This liberal proposition should be sufficient evidence for you that we have unlimited confidence in the many advantages possessed by this thoroughly dependable one-motion collapsible go-cart. Below you will find all information that you desire concerning its operation, construction and dependability.

SIMPLE TO OPERATE. There are no complicated parts to get out of order, and it opens and closes with one motion. It folds very compactly and is therefore easy to carry about. To open, simply take hold of the front rail with one hand and the cross handle of pushers with the other, draw the two together and one motion collapses it to a compact package that is extremely handy to carry about at will.

EXCELLENT MATERIALS THROUGHOUT. The covering used on the hood is of fine imitation leather. This cart comes in black, green or brown. State which you desire. The automobile hood has a 26-inch spread and is equipped with rolling side curtains; ebony finished wood cross handle. Back measures 11x14 inches, wheels are 10 inches in diameter and are enamel finished, has 1/2-inch rubber tires. Pusher is made of steel tubing 3/4-in. wide. The hood locker arms are nickel plated; seat rail, hub caps, fenders and handle corners nickel-plated. Other metal parts are black enameled. The frame measures 16x27 inches.

REMEMBER THESE FACTS. When you stop to consider the many great advantages that this go-cart possesses and the small amount it takes to have it, you can not afford to pass it by in justice to yourself and in justice to the comfort of your child. Shipping weight, about 55 pounds.

THE MATTER OF QUALITY is, without question, a most important one to consider in the purchase of any piece of merchandise. The matter of price is likewise of supreme importance and it is the two combined that determine the true merit of any value. In presenting this go-cart, we want you to carefully consider that the all important factor of quality has been well balanced with that of price, until we can say, with the firmest conviction, that no better go-cart value was ever offered on the market at this exceptional bargain price. It is a full collapsible model and folds with one motion.

THE ATTRACTIVE DESIGN is symmetrical, the lines being graceful throughout. The gearing is of the patent ball and socket direct bracing type, recognized as the strongest and lightest construction used. The frame is tubular in shape and is very strong. Observe the 5-piece handle with nickel plated side grips and center ferrules. The body measures 15 inches wide by 36 inches long, is equipped with the new shock absorbing springs which run the entire length of the seat and mean added comfort to the little one. The comfortable back is adjustable to 4 positions. Has padded seat and back, also auto dash as shown in illustration above.

FOUR-BOW HOOD. This go-cart has a large, 4-bow hood with nickel plated fixtures. The wheels are fitted with 12-inch rubber tires. The wheel brake is firm and can be relied upon to do its work properly. Observe the practical as well as ornamental nickel plated oval mud guards. These are a protection to the body of the cart as well as to the child's clothing. The deep and roomy foot well is adjustable to add to the comfort of the babe; in fact, all details have been taken into consideration that will add to its value.

THE EXCELLENT FINISH is black enameled, attractively set off with nickel plated tubular arm rests and padded dash fixtures. You can have your choice of either black or brown upholstery, the material used being a good grade of leatherette. This is a go-cart that is so far ahead of most carts at this price that we anticipate an enormous business upon this number. We, therefore, urge you to send us your order early. It is sold under the liberal terms shown on page 1 of this bargain book. Shipping weight, carefully crated, is about 50 lbs. **\$11.75**

Showing Go-Cart Fitted With Storm Front

THE CONSTRUCTION of this go-cart is far above that usually found in baby carriages at this price. Nor is this merely a statement devoid of proof. The fact as stated will be admitted by a careful test of this number. It is rigid in construction, easy running and resilient as well. The price is other feature in its favor. It is so very reasonable that I cannot afford to overlook it, if you really are in search of a go-cart bargain. We urge you to read the full details of this model as explained in the following paragraphs. Then let us send it on approval. If it pleases you make your selections as outlined on Page 1.

TUBULAR FRAME. The pushers and frame are made of 5/8-inch steel tubing. The wheels are 12 inches in diameter, being fitted with 5/8-inch rubber tires. The strong brake is another noteworthy feature. Its reliability will be appreciated by keen buyers. The extra large sides are highly polished to a fine piano finish and are neatly decorated with a black stripe. The heavily padded seat and back are rarely ever found in any but the most expensive carts—yet are offered in this excellent model. The hood is large in size, having a spread of 25 inches. It is the automobile type as illustrated. Roll curtains on sides and back protect child in inclement weather.

THE WHEELS as mentioned in the previous paragraph measure 12 inches in diameter, and are fitted with 5/8-inch rubber tires. They are expertly enameled to match the finish of the metal parts. The body is unusually large and comfortable. It is 14 inches wide between the sides and gives a bed 35 inches long when the back is in the reclined position. The back is free from any attachment of the sides of the cart and is attached only to the seat. It moves up and down with the seat as the springs come into play, so that the child's head resting on the back is sure of absolute protection. Plenty of room for pillows and bedding so child can be made comfortable.

THE SPRINGS. There is a long leaf suspension spring under the entire length of the seat. This is a double spring that is self-adjusting to the varying weights of different children. Two smaller and more sensitive leaves of the spring take care of a very young baby. With more weight the long heavy spring goes into action. This assures a perfect adjustment to the weight of a child at any particular age. No carriage has an easier riding spring than this model. The sides are made of three-ply wood veneer held together with a steel channel binding. Two coats of fine grade enamel are used in finishing the sides—the second coat being rubbed which gives it a very high luster.

THE UPHOLSTERING is a fine grade of imitation leather, in black or brown. This covering is used in the seat, foot well and hood, the seat and back being very heavily padded. The back adjusts to three positions. This cart can be folded with ease, and when collapsed measures 12 1/2 x 21 1/2 x 12 1/2 inches. The finish is as follows: Nickel plated hood locker arms, channel bindings on sides and dash, handle and frame corners and hub caps. The balance of the metal parts come in either black or brown enamel. When ordering please state which color you prefer. We cannot impress you too strongly with the elegant appearance of this number.

STORM FRONT. If you desire, you can order the storm front to fit this go-cart at the reasonable price quoted below. This front protects the child in stormy and unpleasant weather—yet is fitted with a window that is on a level with the child's eyes when it is in a sitting position. Every desirable feature imaginable is incorporated in the building of this article. Tell us to send it to you, and we feel certain that you will be well pleased with your purchase. The shipping weight of this go-cart is approximately 55 pounds.

**Has Padded Sides, Seat And Back. Hood And
Body Are Flat Reed. Strong, Tubular Pusher**

AN INNOVATION in finishing is a feature of the excellent sleeper. For years artists have used the air brush to lay colors in painting so evenly that not a brush stroke could be seen. The wonderful invention has been perfected so that it can be used for finishing reed carriages, and is used on this model. It assures an absolutely even finish over the entire carriage and eliminates "runs," because it does away with dipping. Besides there is no collection of varnish or enamel between the strands of reed.

THIS MODEL has flat fibre reed on the body with half round reed rolls. The hood is very easily be adjusted to any position desired by merely releasing and tightening the screw at the side. You can have your choice of ivory, gray or Baronial brown finishes, as desired. Please state which you prefer. The length of the body is upholstered with repp, to match the finish. The hood likewise is upholstered in the same manner to match the body. It is made with nicely padded sides, seat and back. The back is of the reclining type.

ROOMY FOOT WELL is also provided. The gear is enameled to match the finish of the gray carriage, the ivory and brown having black gears. The 5/4-in. pusher is of the long tubular style. Flexible steel springs are another feature of this model. It is made with wire wheels. These measure 12 inches in diameter and are fitted with 1/2-inch rubber tires. It has a positive foot brake. Nickeled hub caps used on the sleeper materially enhance its appearance. Body measures 17 in. wide and 39 in. long with back down, 31 in. long with back up. FINE ENGLISH CARRIAGE

Nothing is too good for your baby; and with the small sum it takes to get this carriage and the trifling amounts it takes to pay for it, you should not deprive the little one of its great comfort. This artistic English carriage is one of the most attractive we have ever offered. The body is made of excellently enameled wood and can be had in any standard color that you may desire. Is finely striped and has a high polish, as shown. Is upholstered in imitation leather throughout, with an imitation leather folding hood, to match the upholstery. Hood joints are all beautifully enameled. Is equipped with 14-inch wheels and 3/4-inch rubber tires, and 12-inch round iron handles and nickel trimmed cross handle. Be sure and note the heavy steel springs. If you do not feel satisfied that you have received a most exceptional value, the carriage may be returned at our expense and remittance cheerfully refunded. See page one for our liberal credit terms. Shipping weight, about 65 pounds. No. 7K1317. **\$13.95**

HANDSOME AND SERVICE-ABLE PULLMAN SLEEPER

Although this Pullman sleeper is marked at a higher price than the others shown on this page, it is worth every penny of the difference in the cost. The body is composed of strong, durable wood, neatly enameled and trimmed with a split reed roll to match the hood. It is enameled in black, green, brown, carnation or gray, finely striped as illustrated. The enamel is rubbed and highly polished. Narrow Wide Corduroy used on this sleeper. Seat and back are fitted with box cushions. Has shields that enclose the space between the body and back when reclined. The upholstery may be had in green, red, drab, blue, brown or gray. The hood is of fine quality reed, trimmed with a beautiful roll front. Is fitted with 14-inch heavy artillery wheels with 3/4-inch rubber tires. Has attractive brass hub caps and 1/2-inch round iron pushers. Brass trimmed cross handle. Enameled gearing. Only fine grade steel is used in springs. When ordering, please state color enamel and upholstery you desire. Shipping weight about 65 lbs. No. 7K1323. Price. **\$24.95**

**The Many Features
of This Collapsible
Pullman Make It a
Great Value at \$14.95**

WHEN YOU BUY a conveyance for the child there are several factors to be considered seriously. In the first place the child's comfort must be regarded. On the other hand, the ease with which the go-cart can be handled is a matter of vital importance to the mother; and we wish to say that in presenting this splendid new model both of these points have been carefully considered from every angle. This is an article which will bring equal comfort to both the child and the mother. In ordering remember that you are protected by our legal guarantee of satisfaction.

THE USE of this cart will prove conclusively all of the claims which we make for it. It is full collapsible, as shown in the small illustration to the right; being easily folded, it can be carried about with great ease. It has patent ball and socket direct bracing type of gearing, and tubular pushers symmetrically curved. It has a 5 piece handle with nickel plated side grips and ferrules. One of the greatest features are the shock absorbing springs which run the entire length of the cart. These insure an easy spring which means quiet slumber and restfulness to the child.

Folds Up
Com-
pletely

THE BODY measures 15 inches wide by 35 inches long. There is a comfortable, padded seat and back, the latter can be adjusted to three positions. The sides, back and seat are made of 3-ply veneer, covered with patent leather, gold striped, set in heavy, steel channel. Borders are nickel plated as well as the fancy panel, as illustrated. The hood is of the new, auto style with nickel plated, tubular fixtures, carrying out the rounded effect of the trimmings throughout. The wheels are tin-plated, being 12 inches in size; have 16 spokes and are fitted with 1/2-inch rubber tires.

MUD GUARDS. Particularly note the oval, nickel plated mud guards, which are not only the means of protecting the sleeper from becoming bespattered with mud, but are an ornament as well. Also has strong wheel brake. The finish is black or brown enamel with upholstering to match. State which you prefer. Has foot well as shown in the picture above. Refer to page 1 for our liberal credit terms on this elegant Pullman sleeper. The approximate weight, carefully crated, is about 65 pounds.

This Is Constructed of Genuine
Ash Lumber In Golden Oak Finish.
Take Your Choice of Galvanized
Steel or Enamel Lining At Prices
Below. Is Sanitary And Economical

\$16⁹⁵

ADJUSTABLE SHELVES are features of this Hartman refrigerator. These shelves are genuine steel wire woven on heavy steel wire frame and heavily tinned. The ice rack is made of galvanized steel bars welded together, the strongest and most common-sense ice rack in the country. After passing over the ice the air falls directly into the provision compartments, displacing the warmer and lighter air, thus the warm air is forced up the flues at either end of the ice compartment, where by contact with the ice, it is purified, cooled and again falls, thus keeping up a constant circulation.

INSIDE CASE is of odorless and tasteless lumber, matched and clamped together, well nailed and glued and fastened to hardwood cleats, making it thoroughly air tight. Outside case is nailed and glued to cleats which bind the inside case, making one of the strongest and most durable refrigerators ever built. Finished in three coats of high quality filler and waterproof varnish, giving a handsome and serviceable gloss finish. Is provided with syphon drip cup. This prevents cold air from escaping through waste pipe. The insulation is the dead air space and non-conducting sheathing. Choice of galvanized or enamel lining at prices quoted.

STUDY THE ILLUSTRATION

Note every feature possessed by this remarkably fine, low-priced article. It is constructed with an insulating casing of odorless lumber, matched and clamped together in a very substantial manner. The outside case is of solid hardwood lumber.

COLD AIR CIRCULATION

In this illustration we show the way in which the cold air is circulated. The arrangement of the shelves and the drip cup in position. The air after passing over the ice, falls directly into the provision chamber from where it is forced up over the ice and is purified, cooled and again falls, thus keeping up a constant circulation. This principle of cold dry-air circulation helps in the economy of ice and insures satisfaction in the preserving of foods. When you consider the fact that you can take a year to pay for your refrigerator, you should not delay sending us your order.

OTHER FEATURES.

All lift lids are supplied with our patent lift stop. Hinges and locks are all of genuine nickel plated brass and are heavy and thoroughly substantial. Wire shelves in provision chamber and galvanized iron ice chamber are of removable type for cleaning purposes. The white enamel lined, baked on. Look over the list of sizes shown below and decide what capacity refrigerator will best suit your requirements.

White Enamel Lined

Galvanized or Enamel Lined IMPROVED NEW DESIGN HARTMAN REFRIGERATORS

HERE'S A REFRIGERATOR that has been designed for economy of space allowing a great deal more room for ice and provision chambers, without taking up any more floor space than many refrigerators of smaller design, yet costing as much as this one. It embodies the most improved scientific principle of cold, dry air circulation which has been proved the most perfect for working great ice economy. The insulation keeps the cold air in the refrigerator and allows the warm air to pass out. We know that you will be well pleased with this fine refrigerator at the low prices we quote below. Considering the sizes and measurements of various compartments higher prices than these figures would ordinarily be considered cheap for so fine an article.

IT IS MADE of paneled construction, a splendid quality of seasoned ash being used with a rich golden oak finish. It can be ordered with either galvanized iron lining or white enamel lining according to price set given below. When sending us your order, be sure to give the correct number, so that we will know the exact size to ship, and also whether you desire galvanized or white enamel lining. Be sure, also, to select a size that will be sufficiently large to fulfill your requirements. Hinges and locks are strong and durable and are made of genuine brass. Waste pipes are removable. Easy rolling casters are supplied.

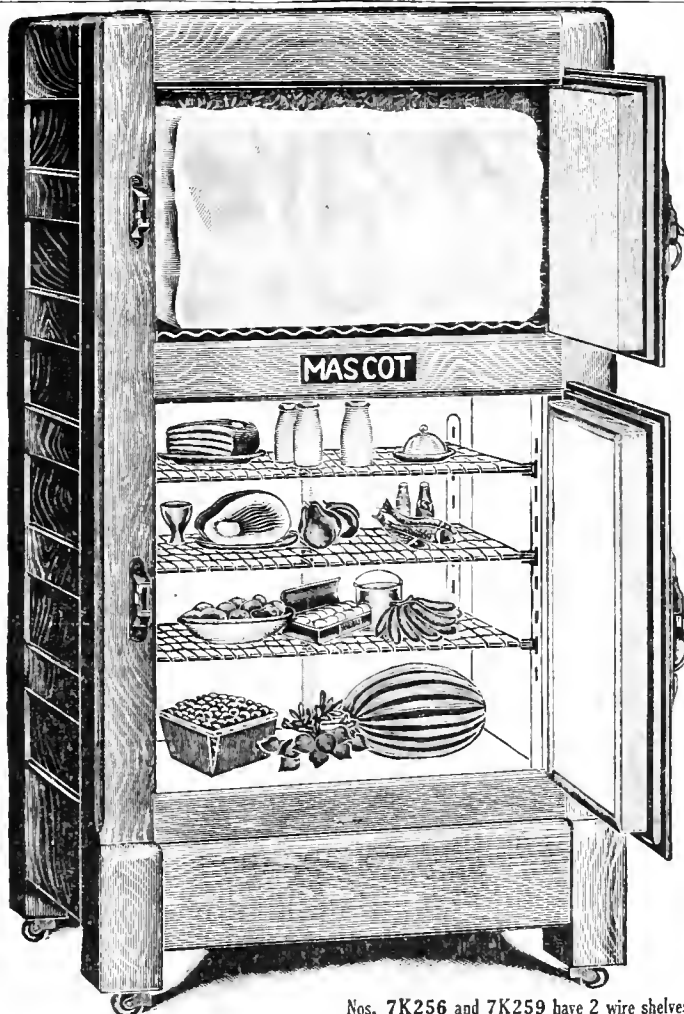

EASY TO CLEAN. The provision chamber is fitted with wire shelves adjustable to different heights, thoroughly sanitary and easily taken out to clean compartment. It is absolutely odorless and guaranteed in every way. Both the ice chamber and the provision chamber have large front door which is the most convenient construction known in the building of refrigerators. This is one of the biggest money-savers ever known in refrigerators, and it preserves the food perfectly, keeping an even temperature and consuming half the quantity of cold air that is usually necessary to produce proper results in large refrigerators of this type. Order one and have an entire year to pay for it.

Nos. 7K1299-7K1300-7K1304-7K1305
have 3 wire shelves each

MADE OF SOLID ASH in all the sizes at the low prices quoted below. They are handsomely finished in a rich shade of golden. Only high grade materials are used in their construction and they are extra large refrigerators, heavily built, so as to stand extreme weights. Any size is remarkably durable. The trimmings, such as locks and hinges, are made of solid brass heavily nickel plated, and easy running casters are supplied. The ice racks are of galvanized steel, rigidly riveted together and of lasting quality. Ice chamber has front door and removable accessories in interior so as to be easily kept clean and sanitary. Construction of entire refrigerator is of paneled type and only well seasoned ash is used.

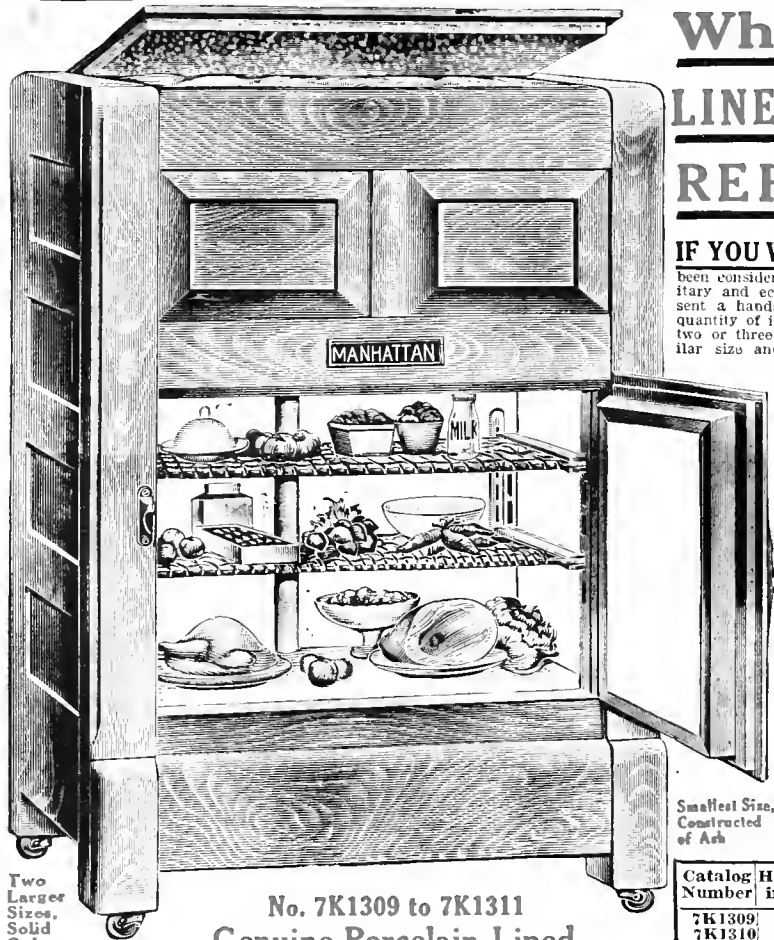

THE SHELVES are made of nicked wire and easy to keep clean; they are adjustable and can be raised or lowered to suit the convenience of user. The provision chambers, both large and small, are so constructed that they at all times carry a perfect circulation of cold air, which fact alone assures you of an odorless box that will consume less ice and cut all high ice bills. Waste pipes are removable for cleaning. The insulation is of most satisfactory type, assuring the coldest air circulation at all times. You can order this splendid refrigerator lined with galvanized iron or elegant white enamel lining.

White Porcelain LINED "MANHATTAN" REFRIGERATORS

\$25⁸⁵
UP

IF YOU WANT SATISFACTION In a refrigerator you should select one from this page. In the building of our refrigerators many things have been considered in order to make them faultless in construction and appearance, and perfectly sanitary and economical consumers of ice. There are many refrigerators on the market which present a handsome appearance, not too expensive in price, yet their construction is such that the quantity of ice required to keep the refrigerator at a desired degree of cold temperature amounts to two or three times the quantity required for our "Manhattan" Porcelain lined refrigerator of similar size and dimensions. Any refrigerator which requires an unnecessary quantity of ice will quickly create enough expense to make it a dear investment for the owner. Our "Manhattan" refrigerators produce a maximum of results at a minimum expense. Every housewife who has used our "Manhattan" refrigerator will admit it is magnificently constructed, beautiful in appearance and is the most economical ice-user ever heard of.

IS WELL CONSTRUCTED. The cabinet is constructed of solid oak (smallest size in ash), finished golden, beautifully paneled in an expert manner, and fitted with nickel plated solid brass locks and hinges. The double walls are insulated with sea grass quilting and straw board sheathing, one of the best insulations known. The ice chamber is lined with galvanized iron, having removable ice tank with rack as illustrated and described on another page of this refrigerator section, has removable drain pipe and patent trap; the wire mesh shelves are removable. An air-tight top lid fits and closes perfectly and is fitted with insulated galvanized inner extension panel.

SOLID OAK GENUINE PORCELAIN LINED. This refrigerator is constructed of solid oak in the two larger sizes and the smallest size is constructed of ash. In addition to the fact that it is one of the best refrigerators made, we sell it at a lower price than is often quoted by other concerns on refrigerators far inferior to our "Manhattan." It is lined throughout with heavy porcelain with the exception of the ice chamber, which has an inner sheathing of galvanized steel. Its scientific construction will save for the housewife a large portion of the ordinary ice bill.

SANITARY AND ODORLESS. This "Manhattan" white porcelain lined refrigerator is strictly sanitary and odorless, easily kept clean, pure and sweet. Its snow white, genuine porcelain lining, sanitary wire shelves, scientific cold air circulation make cleanliness an impossibility where an ordinary amount of care is taken. Do not forget the wonderfully fine points contained in our "Manhattan," and in selecting your refrigerator remember it will assist in maintaining a high standard of health in your family. It is absolutely guaranteed in every particular. Prices and sizes of this famous and most popular refrigerator are quoted below.

Catalog Number	Height, inches	Width, inches	Depth, inches	Ice Chamber, inches	Provision Chamber, inches	Ice Capacity, lbs.	Shipping Weight, lbs.	Price

WHITE PORCELAIN LINED, SOLID OAK REFRIGERATOR

\$30⁵⁰
UP

Our Highest Grade COMPARTMENT REFRIGERATOR

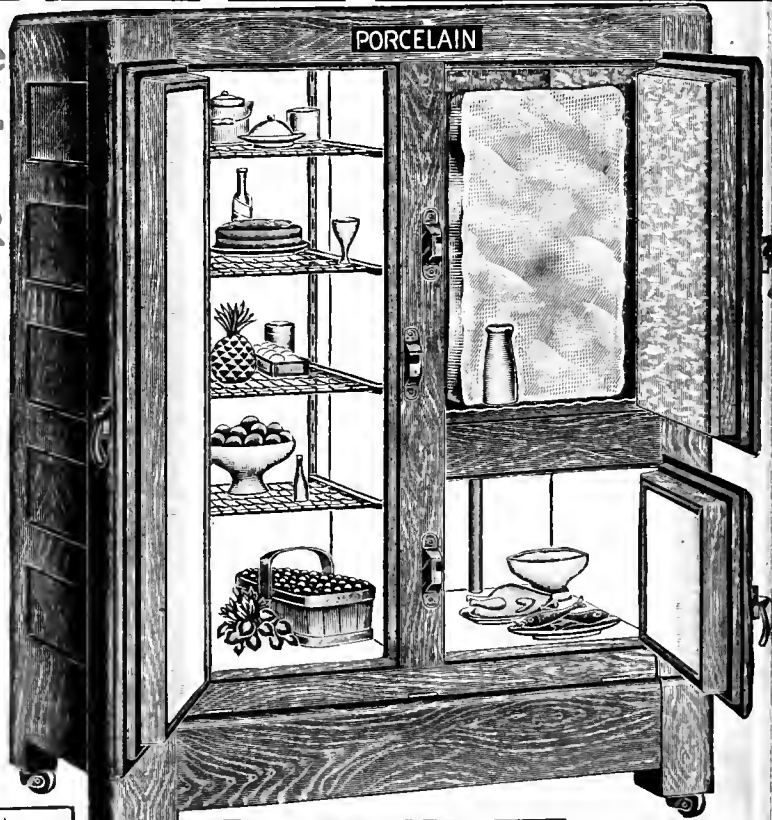

PORCELAIN LINED. In our "Porcelain" Refrigerator we are offering dependable quality in the materials and making of this household necessity. The arrangement of the compartments is ideal. There's plenty of room provided for ice and provisions. Good value at prices quoted below. The provision chambers are lined with genuine porcelain far superior to any other lining, from a sanitary point of view. Large compartment is equipped with nickel wire mesh, removable shelves; four shelves in two larger sizes and three shelves in two smallest sizes.

SCIENTIFICALLY BUILT. It has scientific heavy white porcelain lined walls with air-space and filling of sea grass sheathing and straw board. The interior cold-air-circulation system which keeps the ice from melting rapidly and serves to preserve the provisions, makes this refrigerator much more popular in every way than the ordinary kind. These points are especially satisfactory to the housewife who has learned from experience that a refrigerator which will save ice and which can be readily cleaned is the most desirable. All odors cast off by the victuals are absorbed by the cold air, which circulates through the provision chamber and are carried out through the waste pipe.

THIS SOLID OAK BARGAIN WONDER is very carefully constructed by men who are experienced in refrigerator making. The solid oak lumber is thoroughly seasoned, mortised and joined in a workmanlike manner, smoothly sanded and gloss finished. The walls are extra thick, air and sea grass quilting insulated, the massive double thick doors fit perfectly air tight and have solid brass nickel plated patented automatic catch and lock. Prices, sizes, etc., are quoted below.

WILL CUT YOUR ICE BILLS without the least effort, as the cold air after passing over the ice, falls directly into the provision chamber, displacing the warmer and lighter air and forcing it up the flues at either end into the ice chamber, where by coming in contact with the ice, it is purified, cooled, and again falls, thus keeping up a constant circulation. This principle works a wonderful economy in ice and insures absolute satisfaction in the preserving of foods.

VITAL FACTS ABOUT "REGENT" STOVES

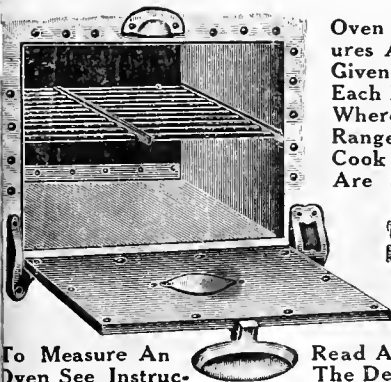

SECTIONAL TOP OF RANGE.

It is our policy to put the very best materials and workmanship into our ranges, even though in so doing we increase the cost to us. Fortunately, for our patrons, we do an enormous stove business. This enables us to buy at exceptionally low prices. Therefore, you secure the better quality without being compelled to pay the higher price. As a concrete example of this principle we call your attention to the sectional top of range shown above. Many of our ranges have this sectional top feature. Its advantages are manifold. Can be easily removed in parts and as easily replaced. This construction also gives room for expansion from heat.

REDUCING LIDS, COVERS, CENTERS.

Some of our ranges are fitted with the convenient reducing lids. These present a very advantageous feature as they permit the use of different size cooking vessels, without exposing them to excess fire. This sectional type of lid will be found on a number of our stoves. The covers and centers, shown above are made heavy and they are very durable. They heat up quickly, this being a time and fuel saver. They are reinforced as shown (some being ribbed) and all are full size, as listed on the respective range pages.

Oven Measures Are Given On Each Page Where Ranges and Cook Stoves Are Shown

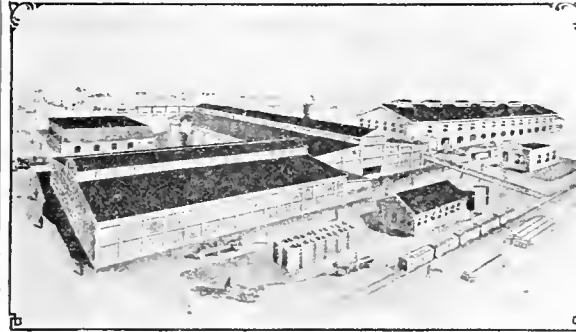

To Measure An Oven See Instructions Below

Read All of The Details About These Ovens

LARGE AND ROOMY OVEN. The importance of the oven is apparent to all who prepare the family meals. A "skippy" oven is a drawback and an inconvenience. "Regent" ranges have good roomy ovens, being full measure according to the dimensions given on each page. They are equipped with sliding, removable racks, as shown in the picture above. Steel range ovens are square, well braced and quick bakers. Doors are strong and possess a concealed spring to balance door. On drop doors they arm a handy shelf, permitting contents to be drawn out, tasted and examined. Many of our ranges have wooden handle, which does not heat up, and can be conveniently gripped with bare hands. To measure oven, take entire space on inside, crossways; then measure from front to back; then measure height. In cook stoves always allow for swell in oven doors.

YOU ARE ADVISED TO ORDER A STOVE THAT IS LARGE ENOUGH FOR YOUR REQUIREMENTS

A Small Stove is More Expensive To Maintain Than a Large Size

"REGENT" STOVE FOUNDRY "A".

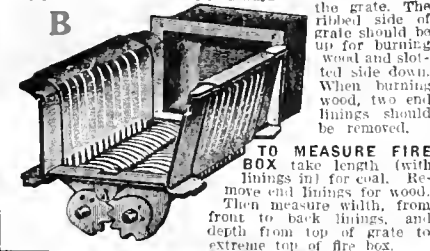

The above picture shows where the renowned "Regent" Ranges are made. The men employed, the equipment and materials used, combined with exceptional facilities and unlimited capital, result in absolute and unequalled range perfection.

"REGENT" DUPLEX GRATES.

The two illustrations, A and B, shown herewith, will give you an idea of how our "Regent" fire box and Duplex grate are constructed. By a simple turn of stove crank Duplex grate can be converted to use wood or coal. Where wood is used end extension cap is fitted to fire box. Illustration B shows end linings removed and Duplex grate turned and set for use of wood as fuel. Illustration A shows end linings placed in position and Duplex grates open, arranged for use of coal.

Our "Regent" Duplex grate is made in two parts so that slight pull of shaker cuts out all dead coal and clinkers, dropping them into ash pan without disturbing the fire.

FOR BURNING COAL with a "Regent" Duplex grate it should always have concave or open side up. FOR BURNING WOOD always be sure to reverse the grate. The ribbed side of grate should be up for burning wood and slotted side down. When burning wood, two end linings should be removed.

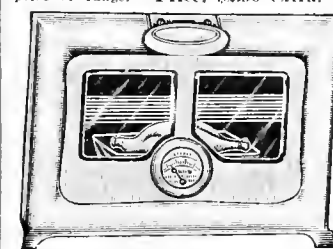

TO MEASURE FIRE BOX take length (with linings in) for coal. Remove end linings for wood. Then measure width, from front to back linings, and depth from top of grate to extreme top of fire box.

This is hollow cast iron box to be fitted in fire box of range to heat water under pressure in stationary, upright boiler, near range. Nothing to do with reservoir. Supplies hot water to kitchen sink and bathroom. Cannot be used unless you have city water pressure or pressure from elevated tank. Not included in price of "Regent" ranges. Price, \$2.75 extra.

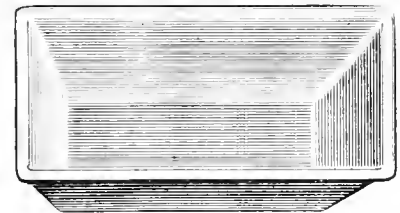

WATER COIL shown directly above should be purchased where construction of range will not take the water front. In some cases either coil or front may be used. Neither one is included at price of range. Price, \$2.50 extra.

Shows thermometer construction explained above.

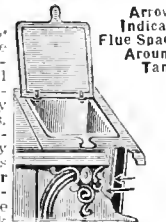

OVEN DOOR

with beveled tempered glass panels furnished on many "Regent" ranges. Glass will not break or crack from heat. You can see progress of roast or baking without opening door.

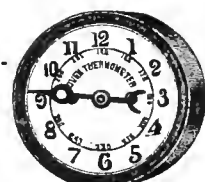

LARGE RESERVOIR

Lift-out reservoirs are found on almost all "Regent" cook stoves and ranges. Being of the lift-out type, they can easily be cleaned at all times. The white porcelain lining makes them sanitary and likewise prevents rusting. Be sure to have water in the tank at all times. Otherwise the heat may burn the enamel and cause it to crack and chip off. Small cut shows large live reservoir—the heat traveling directly under tank, giving better and quicker results.

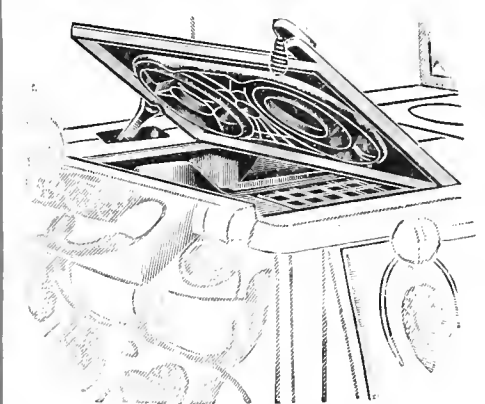

Arrows Indicate Fire Space Around Tank

Here Is A Typical Oven Thermometer Used On Most of the "Regent" Ranges

Enables You To Tell Oven Heat Without Opening Oven Door. No Adjusting

OVEN THERMOMETER. Most "Regent" ranges are equipped with this very convenient feature. It enables the user of the range to determine the oven heat without the necessity of opening the door. This thermometer requires no adjusting, being carefully tested before leaving the factory. It is a marvelous help and is furnished by us without additional cost on ranges where it is shown. It saves time, fuel and labor. It aids you in the control of the fire and drafts and soon becomes an indispensable accessory.

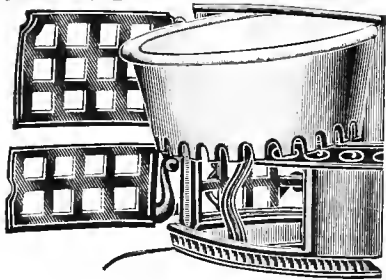

TOASTING OR BROILING. A great number of "Regent" stoves have this remarkably convenient feature. This front section of the top can be raised or lowered with ease. It provides a very practical broiler. At the same time it will be found to be of unlimited value for toasting purposes. And don't overlook the fact, also, that it has another feature worth mentioning. It presents an opportunity of adding large lumps of coal; and also of poking the fire. Before purchasing a range, cook stove or heater, be sure to read over the data found not only on this page, but also on the page following. They give you in detail some of the points which we haven't room to describe on the stove pages themselves. And all are points well worthy of attention. They prove in a practical way that we are on the alert to give our friends and patrons every "quality" advantage that it is possible to secure.

YOU ARE ADVISED TO ORDER A STOVE THAT IS LARGE ENOUGH FOR YOUR REQUIREMENTS

A Small Stove is More Expensive To Maintain Than a Large Size

If You Wish a Stove to Serve the Double Purpose of Heating and Baking Order a Cast Iron Range or Cook Stove.

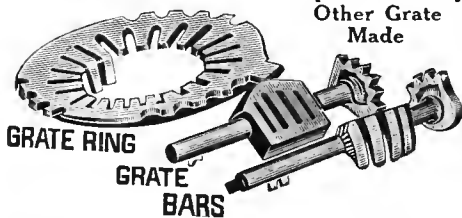

POINTS CONCERNING "REGENT" HEATERS

LARGE REMOVABLE FIRE POT

Our base burner fire pots are large, both at the top and bottom. They are extra heavy and strong and can be very easily removed by unbolting the strip across the front. All that is then necessary is to slide them out. To determine the size of the fire pot, measure full across the top from the outside to outside. These fire pots are of heavy cast iron.

Superior To Any Other Grate Made

PATENT DUPLEX GRATE with shaking ring. Single turn of crank dumps ashes into large ash pan. This grate has shaking ring as illustrated which clears outer part of fire pot from clinkers and ashes, turning them into ash pan below. The result is a live fire, free from both clinkers and ashes.

ent to burn 12 hours. Is heavy, therefore coal won't fire before it falls into the fire pot. Feed opens automatically when swing cover is moved. Prevents escape of gas. Always keep magazine well filled for economy and prevention of nickel from tarnishing from excessive heat.

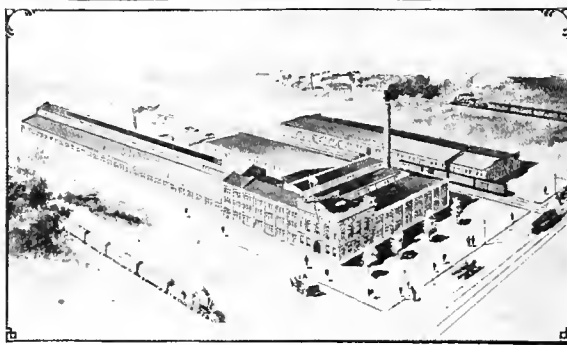

Swedge Body Construction

AIR TIGHT SWEDGE JOINT

This Construction Found on Better Oak Stoves

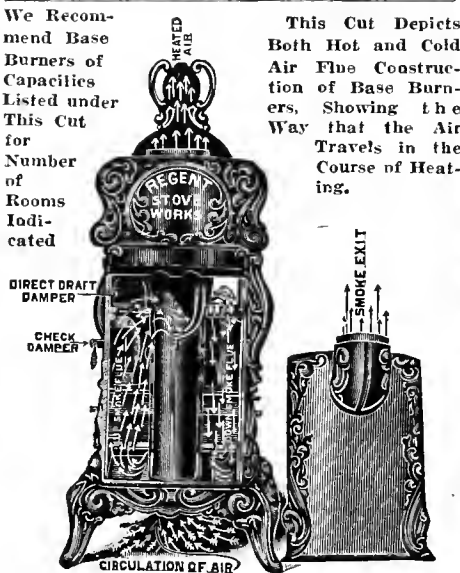

YOU WILL OBSERVE the swedge joint illustrated to the left. Note how the steel drum is turned and clamped down by our famous swedge body construction. This forms an air tight joint. There are no fire pot bolts exposed to the direct fire, and consequently no burning off of rivets.

"REGENT" STOVE FOUNDRY "B."

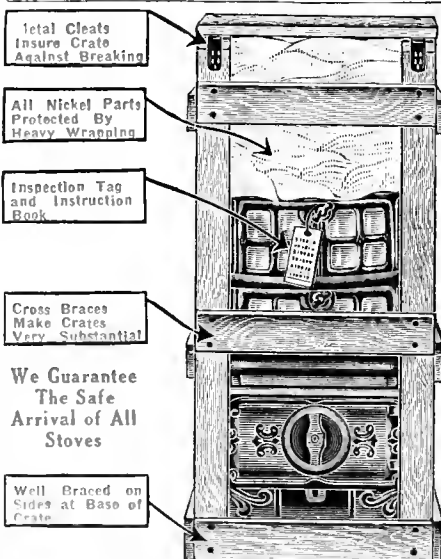

The illustration above shows the plant where the famous "Regent" heaters are produced. Oak stoves, base burners and hot blast heaters are manufactured in this foundry by the most capable men in the stove industry.

We Recommend Base Burners of Capacities Listed under This Cut for Number of Rooms Indicated

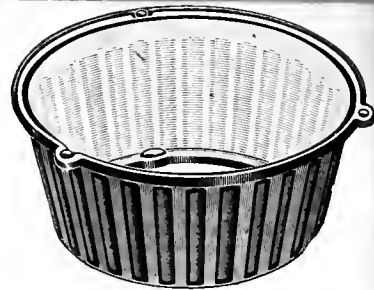

This Cut Depicts Both Hot and Cold Air Flue Construction of Base Burners, Showing the Way that the Air Travels in the Course of Heating.

One to Two Rooms—12 Inch Fire Pot.
Two to Three Rooms—14 Inch Fire Pot.
Over Three Rooms—16 Inch Fire Pot.

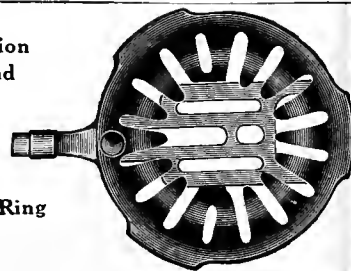

ALL STOVES WELL CRATED. This picture shows why we take no chances when we guarantee safe delivery of all stoves. Complete instruction book accompanies all stoves; also factory inspection card. When ordering repairs, return inspection tag. If same is lost, give catalog page, catalog number, date of purchase, name and number of stove.

HEAVY CORRUGATED BOWLS

This type is used on all styles of "Regent" oaks and hot blasts. It is a well proportioned fire pot. Notice the shape and groove. In ordering, be sure that you purchase a heater with fire pot large enough for your requirements. To obtain the correct measurement always take the measure from the outside to outside of the fire pot.

Combination Wood And Coal Draw Center And Shaking Ring Grate

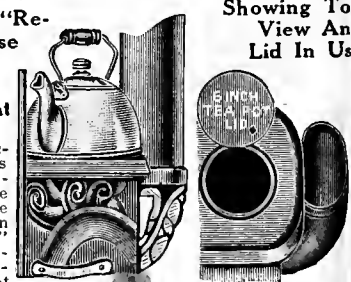

OAK COAL GRATE, CLOSED. The illustration shows a combination wood and coal draw center and shaking ring grate. The center slides partly out, permitting the clinkers to drop into the ash pan. It is strong and substantial and is representative of the type found on "Regent" hot blast and oak heating stoves.

HANDY TEA KETTLE TOP

Found on "Regent" Base Burners A Very Convenient Feature

This picture shows the usefulness of the tea kettle top found on all "Regent" base burners. A collar at back of dome permits of attaching pipe to convey heat to room above. This double heating device offers heat derived entirely independent of fire pot. Some have fine construction; others obtain heat rising from body of stove.

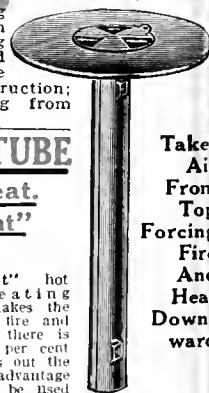

HOT BLAST TUBE

Saves 60% of Heat. Used on "Regent" Hot Blasts

ALL OF OUR "Regent" hot stoves possess this tube. It takes the air from the top, forcing the fire and heat downward. By so doing there is actually a saving of about 60 per cent of the heat that ordinarily goes out the chimney. Another economical advantage is that any kind of fuel can be used without hindering the efficiency of the heater. The heat is intensified and the gases and smoke are entirely consumed.

A Small Stove is More Expensive To Maintain Than a Large Size

\$9⁷⁵_{19⁹⁵} "SUPERB" REGENT

WONDERFUL BARGAINS IN HIGH-GRADE COOK STOVES

A REMARKABLE STOVE FOR THE MONEY. WILL BURN COAL OR WOOD

Our "Superb" Regent Cook Stove, which we are offering at the wonderfully low price quoted, is a modern, up-to-date stove, from which you will get the utmost satisfaction. It is well made in the way "Regent" productions are all known to be turned out; with a very heavy cast bottom, firmly locked joints and well finished edges. The bottom is made for strength and durability, and is mounted on high legs for sanitation, making sweeping under stove very handy and easy. This construction makes it possible for the stove legs to carry many times the weight of the body and still remain very firm and rigid.

GREAT CARE IS GIVEN In the making of our stoves, to the material from which each and every part is made. Exceptional care is always given to castings, and the fitting of same, as well as finish and ornamentation. No customer of ours ever received a stove that has not passed a careful and rigid inspection. Before any shipment leaves our plant, it must be found absolutely perfect in every detail. With this great care and our broad, strong, legal guarantee as protection, you are sure to be well pleased in every way.

WE WANT YOU TO KNOW that we consider this a splendid value. It is strictly a "HARTMAN" Bargain, and your experience in buying stoves at home surely will show you that such a well made, large, handsome Cook Stove with so many features as are employed in the manufacturing of our "Superb" Regent are not usual in cook stoves at these prices. And, don't lose sight of the fact that this stove can be had on approval, and it must give complete satisfaction or you may send it back.

The Small Size is listed for those who insist upon having it. However we strongly advise ordering larger size for fullest measure of satisfaction

Does Not Take Water Frost or Coal

Oven Opens From Both Sides

IMPORTANT

Although we quote the "Superb" under No. 8K1347, we wish you to bear in mind that we offer this size only because others do; it is not a practical size. In fact, no stove having an oven under 16 inches will prove satisfactory. We therefore urge you to order either of the two larger sizes, to derive the fullest measure of satisfaction. No. 8K1349 is the best for average family use.

WE GUARANTEE absolute, unadulterated satisfaction in quality, wear and price. And furthermore, we guarantee the safe delivery of every stove shipped. We assume all the risk. You send us your order with the distinct understanding that you are going to be entirely pleased or you get your money back. Should anything go wrong with the stove on its way to you, we will be found more than ready to do our part, and we go even further; if, while you are using the stove, in later years something happens to it, you will see how readily we will do our part to save you any possible inconvenience.

CASTINGS of our "Superb" Regent

cook stove are handsomely brought out in an ornamental rococo pattern very much preferred by our customers. The design, which is very pleasing, adds grace and beauty to this model and is held in strict accordance with the balance of the stove. It is very neat in appearance, serviceable and easily cleaned, and stoves usually selling at our low prices quoted below seldom have such rich designing. This model shows clearly our ability to offer wondrous values.

BURNS COAL OR WOOD. Flat g rates for coal are furnished with all sizes of our "Superb" Regent. Fuel may be supplied by either the pouch feed or swinging feed door. When ordering your stove be sure to order a size plenty large enough to fill your needs, as a small stove is more expensive to maintain than a large size in proportion to the results obtained.

YOU CAN ORDER A RESERVOIR as shown in illustration, fitted to the largest size only. Reservoir is a great addition to any stove for heating water, and we recommend that you order your "Superb" complete with flue construction reservoir, which, when supplied, is made of heavy cast iron with white porcelain lining. When stove is not equipped with reservoir a large extension end shelf, as shown in lower illustration, is fitted. Bear in mind, when ordering, that the two smaller sizes of our "Superb" cannot be furnished with reservoir.

THE DETAILS

of this stove have received every consideration at the factory. The most valuable points are as follows: The handy pouch feed door as shown on end of stove, well proportioned oval firebox, with very heavy castings; shaking and dumping grate works exceptionally well with either wood or coal. Observe the outside oven shelf, top shelf; kicker, heavy covers and centers; cut long centers and center rest, in fact, you will find every essential necessary to make a first class stove. Pouch feed permits fuel to be supplied to stove without removing cooking utensils on top. Oven door opener is operated by a slight pressure of the foot.

Our "Superb" Regent Without Reservoir.

\$10⁷⁵

UP

A Great Achievement

IS THE "Improved Winner Regent"

\$10⁷⁵

UP

THIS COOK STOVE is without question one of the greatest achievements in all the years of our merchandising experience. To be sure, the prices are extremely reasonable; but the value is found not alone in the low price, but in the excellent quality to be secured at these figures. It is an all cast iron cooking stove with a strong cast iron oven made like the highest priced models. Its fine cooking quality is one of the features of the "Improved Winner Regent." At the same time it is a big fuel saver—a point which will be appreciated by the thrifty housewife. It is much lower in price than you would expect of a cook stove having the excellent qualifications that this one possesses. In presenting it we have made an extra effort to give you a value such as you do not find every day. Order it upon our easy credit terms.

"THE IMPROVED WINNER" is not constructed to take either a water front or water coil, but should you desire to heat water with it, you can secure this cook stove with reservoir in the three larger sizes, a reservoir not being constructed for the smallest size. It has a Duplex grate in all sizes. Possesses single flue construction in the first two sizes and double flue construction in the two larger sizes. Its style is shown in the large illustration below, and being taken from an actual photograph of the stove itself, conveys its attractive lines and pleasing appearance. We particularly urge you to order a size that is sufficiently large to fulfill your requirements, as a small stove is more expensive to maintain in proportion than a larger one. At the bottom of the page we show a schedule of sizes covering all important measurements. Look these over carefully.

Construction

IS MADE to meet the demand for a fine appearing, low-priced stove. It has many improved features that cannot be thoroughly appreciated until this number is put to actual usage. The workmanship throughout is far better than you would expect in a cook stove at these prices. In fact, it is the kind of a stove that in every way you would be proud to have in your kitchen. Although the design is plain, it is strikingly handsome.

Does Not Take Water
Front Or Water Coil

RESERVOIR is of the en-
cased type,
and can be secured with the
three larger sizes at the
prices quoted below. The
reservoir tank is porcelain
lined, can be lifted out easily
and is set into a cast iron
casing, fitted with black
Japanned top lids. Is thor-
oughly rust proof, and has a
flue damper to turn on or off
the heat. With this stove a
reservoir is practically indis-
pensable.

IMPORTANT. Although
we quote
the "Improved Winner, Re-
gent" under No. SK1335, we
wish you to bear in mind that
we offer this size for one
reason only—namely, that
others do. It is not a prac-
tical size, as no stove having
an oven as small as this will
prove satisfactory. We urge
you to order one of the larger
sizes for the greatest measure
of satisfaction.

THE OVEN as explained above, is made of
cast iron, which adds to its du-
rability, rigidity and consequent lasting qualities.
Possesses two doors, one on each side, and is
fitted with oven rack. The fine construction around
the oven is such that it is exposed to even heat
on all sides, making it practicable for baking and
broasting.

THE FIRE BOX is made just right, being
large and heavy. The heavy
lugs and thorough ventilation insure long life
to the parts which are directly exposed to the
fire. The pouch feed enables you to put coal into
this stove without disturbing the utensils which
may be on top. The Duplex grates enable you to
burn either coal or wood, as desired.

HEAVY JOINTED TOP. The "Improved
Winner Regent" has
a very heavy jointed top with good heavy covers
and centers. It is supplied with removable hearth
slide, large ash pan and strong, high, French de-
sign, cast iron legs. When furnished without the
reservoir, it is fitted with a neat end shelf.
Hearth door convenient for poking fire.

CONSTRUCTED throughout of best northern
and southern pig iron, all
castings are smooth and every particle of material
is the best run of gray iron. The result of using
such material is that you get castings without
blow holes, seams or cracks, making this model
compare very favorably with more expensive cook
stoves. Shaker, lifter and scraper supplied free.

NICKELED PARTS. The nickeled parts are
the oven door name plate
and the Alaska handles used on the pouch feed
door, fire door and oven door. These add just
enough brilliancy to enhance the appearance of
this cook stove. Is supplied with a "kicker" for
opening oven door with foot, if you so desire.
In every way it is a typical Hartman value.

OUR APPROVAL OFFER enables you to
send for this
stove, and to try it in your kitchen; if it does
not prove satisfactory in every smallest detail,
we do not want you to keep it. If, on the other
hand, it pleases you, you can make your pay-
ments according to the easy terms which we ex-
plain in detail on Page 1 of this catalog.

You Get Excellent Service

WITH THE "Favorite" Regent Cook Stove

WITH
THE

WITH THE “Favorite” Regent Cook Stove

On this page we offer our celebrated "Favorite" Regent Cook Stove, which, when compared with stoves sold by others at similar prices, will prove our claims of splendid value-giving. This in itself gives you a convincing conception of the splendid buying and selling advantage of this concern.

SOME FEATURES

SOME FEATURES of our "Favorite" Regent are: The heavily cast sanitary base, with all mountings carefully ground and fitted, which assures great strength and durability; useful foot lever for opening oven door, which is a great convenience when one has her hands full of utensils and wishes to open the oven door, the operation consisting of a simple touch of the foot on the lever; and a handy pouch feed for supplying fuel while top of stove is occupied. The "Favorite" has a return flue construction that gives good results.

BURNS WOOD OR COAL

BURNS WOOD OR COAL. Flat grates are installed in our "Favorite" Regent Cook Stoves and will burn either coal or wood. Grates are exceptionally well made, being cast of durable materials. The firebox is of oval shape, thus doing away with all dead corners. Every little detail in the construction of these parts has been carefully watched, with the result that the finished product is a model in value-giving at our low prices.

Does Not Take Water Coil or Front

THIS STOVE

is a wonderful baker, making by test the finest biscuits, etc., having a good sized oven with inside of door aluminum painted. Large roomy top and everything necessary to make it a most worthy value. It is fully guaranteed under our Legal Guarantee.

RESERVOIR can be

RESERVOIR can be supplied only with No. SK1351, at per price given below. This hot water reservoir is made of heavy cast iron, with a white porcelain lining. The tank can be lifted out with ease. The heating of reservoir is arranged with a large flue, and water can be heated in an exceptionally short time.

NICKEL TRIMMINGS

add greatly to the appearance and attractiveness of any stove and it is very unusual to get as many parts on a stove priced at these figures. These nickle-plated parts are all heavily plated with a good quality of nickel silver and are burnished. They should not tarnish from heat. We supply the following nickel trimmings:

Oven door panel, oven shelf, ash guard, towel rod, shaker and lifter.

OUR WONDERFUL PURCHASING POWER

enables us to secure the very cream of the market in all merchandise we sell, and by this power we can give maximum value at the minimum selling price. We have retail stores throughout the United States, and in each and every one the first thought of giving our customers the largest values at the lowest prices is exercised. We take advantage of every opportunity to work economies and reduce prices.

A Triumph in Cook Stoves

IS THE "Triumph" Regent

A FINE
NEW
MODEL

In the "Triumph" Regent, we offer a superior cook stove at true bargain prices. It is, in every way a typical Hartman value; because it gives to our patrons every possible benefit which our mammoth purchasing power could secure. In ordering it, be sure to select a size that will prove large enough for your requirements. It's to your advantage in the long run.

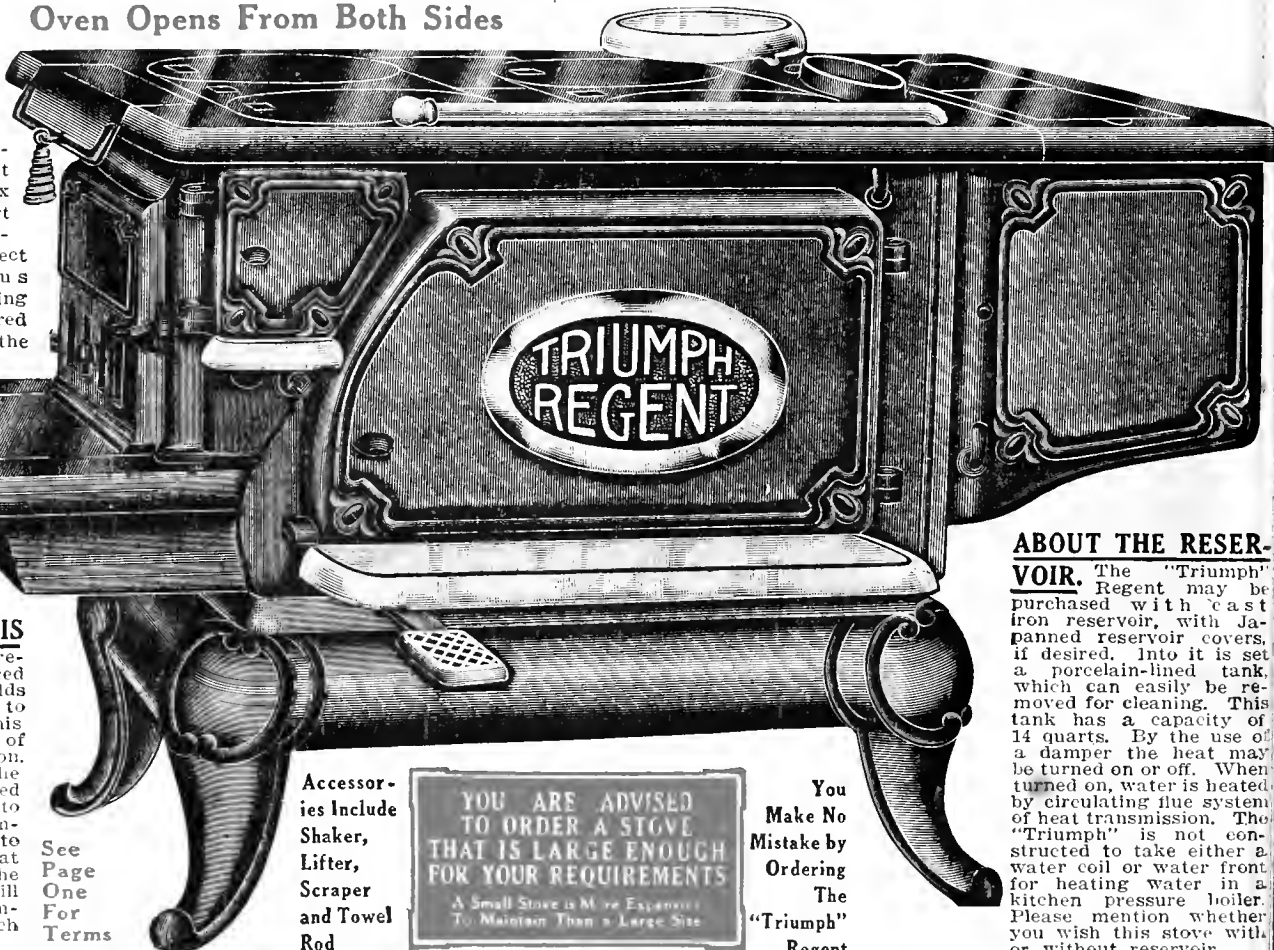

THESE POINTS make the "Triumph" a very desirable, practical cooking stove. It is equipped with improved Duplex grates, for burning either coal or wood. The swing tea shelf is very handy; and, being silver nickel-plated, helps to brighten up the stove, as do the other nickel-plated parts, shown in the illustration. You can order it either with or without the reservoir, as quoted at the bottom of this page. Has strong, double doors on the oven.

OTHER FEATURES are the heavy braced, quick heating oven, the removable hearth slide, the convenient, swing towel rod, nickel-plated, removable, outside oven door shelf, front oven door kicker, the Japanned reservoir covers and pouch feed. The materials used are substantial and durable. There has been no skimping to enable us to reduce the price. Our low figures, on the contrary, are actually lower than many concerns ask for inferior cook stoves.

FLUE PLAN

of heat distribution is of highly efficient type. By the return flue construction the heat from the fire box reaches every part of the oven, giving an even, perfect circulation. Thus satisfactory baking results are assured the purchaser of the "Triumph."

Ordering
The
"Triumph"
Regent

ABOUT THE RESERVOIR.

The "Triumph" Regent may be purchased with cast iron reservoir, with Japanned reservoir covers, if desired. Into it is set a porcelain-lined tank, which can easily be removed for cleaning. This tank has a capacity of 14 quarts. By the use of a damper the heat may be turned on or off. When turned on, water is heated by circulating flue system of heat transmission. The "Triumph" is not constructed to take either a water coil or water front for heating water in a kitchen pressure boiler. Please mention whether you wish this stove with or without reservoir.

THE NICKELED PARTS embrace the oven door shelf, foot lever or "Kicker" for opening oven door, oven door panel, ash catch, tea pot stand, feed door handle and towel bar. These are all heavily plated with bright silver nickel. They set off this stove without being overly lavish and "gaudy" in appearance. In fact, the nickel trimmings are so well distributed that the "Triumph" will prove to be an ornament in any kitchen as well as an article of practical usefulness.

THE IMPORTANCE of a stove can not be overestimated in the home. That is why it is to your interest to consider this vital matter very carefully. If you order the "Triumph" you will obtain one of the very best cook stoves on the market for the money. We make this strong statement because we feel confident of its great merit.

THE HIGH BASE is exceptionally strong; so substantial, in fact, that it could more than sustain the weight of the body of the "Triumph." The left end of this stove is constructed with a pouch feed, for furnishing fuel to the fire box without disturbing utensils which may be on the top. The large and roomy hearth below, is of practical utility, because it can be used as a shelf when supplying this to oven or removing pans after baking is completed.

THE DUPLEX GRATE with which the fire box is equipped, burns either coal or wood. For burning coal the grate should have the open side up. For burning wood be sure to reverse the grate. When wood is used the two end linings should be removed. We refer you to the introductory pages of the stove section for full information regarding the duplex grate, as well as other features mentioned on this page. Read them over carefully for a concise explanation of various features worthy of consideration.

OUR GUARANTEE is not only your protection but proof of our good faith. If, after receiving this stove, it does not come up to our representations, or if you are not satisfied you do not have to keep it. If, on the other hand, it pleases you, make your payments in convenient sums, according to the terms on Page One.

BURNS COAL, WOOD, COKE, COBS OR ANYTHING being equipped with our heavy substantial duplex grate. Another noticeable feature is the handy pouch feed. By using this pouch feed to supply fuel, it does not become necessary to remove articles that are on the top of the stove. This is a great help and saves many fingers and hands, which otherwise may become burnt in moving hot pots to supply fuel by top feed.

STEEL BASE. A strong steel base, supported by well-designed high legs, is supplied. It is well constructed of serviceable material, and is very easy to clean under. The front legs are beautifully nickeled and fit perfectly tight and rigid, thereby making the base capable of carrying twice the weight of the body. The base of a stove is one of the many important parts to be watched when constructing high grade models, and any of our stoves with a base will be found to be very secure and firm.

THE BODY is of blue polished steel, made with large cooking holes, heavy top covers and long and short centers. The 4-piece sectional top is substantial in construction and is well jointed. The hot air flues are of good size, from which satisfactory results can be obtained. All parts exposed to fire are lined with asbestos board, and this fact alone insures long life to the stove. The fire box is large, well made and arranged to give the greatest possible heat with minimum consumption of fuel. The front slide draft, opposite grate bars, is of great value in starting fires, as it gives the required draft to fire box. Cast iron feed pouch, end draft door and frame. Possesses efficient return flue construction.

Sectional 4-Piece Top

THE RESERVOIR

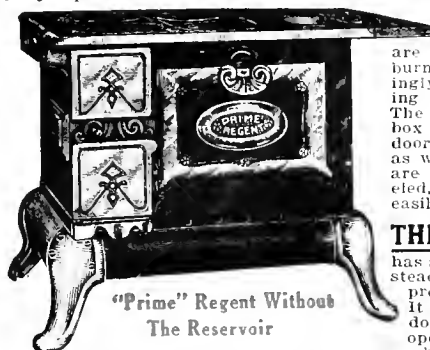

is one of the latest improved contact types. Either size can be supplied with reservoir when desired. In ordering state whether wanted with or without reservoir. On our "Prime" steel cooker the reservoir front is of cast iron with neat etched design. The top fits flush to main top of stove, thereby adding greatly to space for pans, etc. The water tank is heavily galvanized and thoroughly sanitary. A lid cover is used on the reservoir which allows it to easily be cleaned and to give the utmost satisfaction.

THE TRIMMINGS

are of nickel plate, being highly burnished, making a very strikingly handsome stove. The following parts are furnished nickeled: The front band, ash door, drop fire box door, oven door frame, oven door panel and oven door handle, as well as front legs. These parts are very carefully and well nickeled, so as not to tarnish, and are easily cleaned.

THE "QUICK BAKE" OVEN

has an asbestos protection, insuring steady temperature, and acts as a preventive against burning out. It is equipped with a balance drop door with gravity handle and operated by a spring. The door, when lowered, can be used conveniently for a rest or shelf to set articles on, when taking them out, or placing them in oven. A rack is also furnished which makes it possible to raise or lower articles in oven, to get more or less heat. A good strong catch is provided to hold door fast. Oven is of re-inforced steel.

That You Will Do Well to
Consider Before Buying

NICKEL TRIMMED.

Stove is neatly nickel trimmed; the nickel parts are: Kicker, oven door panel, front door plate, towel rod, lifter, shaker, oven shelf, reservoir plate, tea pot shelf. This metal is heavily plated with good quality furnished nickel silver, which should not tarnish from the heat.

DETAILS. Our "Duke" Regent has the latest improved Duplex grate for burning coal or wood. It is made of the heavy Southern gray pig iron, carefully cast, bolted and joined. It is mounted on a heavy cast base, carefully ground and fitted, making it possible to carry great weight. A large pouch feed is supplied, as is a full sliding hearth. Oven door is equipped with handy foot lever opener, a feature welcomed by women because of its convenience in opening oven door quickly and easily, by the slight pressure of the foot. The cast iron oven is large and furnished with a rack. The very convenient ash door has a sliding draft register. A large ash pit and wood end feed door, for use when burning wood, are also constructed in this model. The top is supplied with long and short centers and equipped with towel rod and tea pot stand.

WHAT YOU PAY FOR when you buy a Regent stove. You pay a low price for good materials and skilled workmanship and a moderate sum above this which we add as our reasonable profit. You don't pay one penny for traveling men's expenses and salaries and jobbers' and dealers' profits, as you do when you buy a stove of your local dealer; you don't pay the additional profit that many retail catalog houses add to the profit of the stove makers from whom they buy. You save all this, and you have the additional advantage of a convenient credit account.

YOU SHOULD NOT OVERLOOK the convenience of credit plan of ours. We refer you to the liberal terms quoted on Page 1 upon which our "Duke" Regent can be purchased. Then, bear in mind, that no matter how low the price, each and every article sold by "Hartman" is covered by our legal guarantee. We have satisfied a vast army of customers, and they know that if it is from "Hartman" it is right. Their continued patronage is the direct proof.

WE WANT YOU TO ORDER a "Duke" Regent cook stove and have it delivered to you on our approval plan. You'll find it a mighty fine stove, and by opening an account with us you will have a long time to pay for it, in small easy payments. We will be glad to assume all risk of pleasing you. We will save you big money when buying and we will trust you for anything you need to comfortably and completely furnish your home.

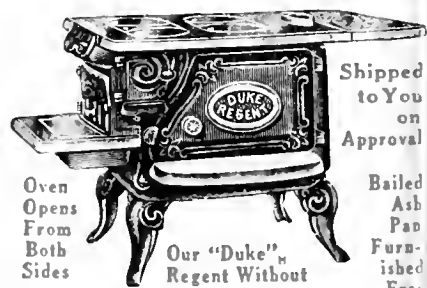

HAS POUCH FEED AND DUPLEX GRATES

The firebox is fitted with our "never-break" Duplex grates, which when reversed from one position to another form a surface for burning wood or coal. The firebox is wide and shallow and requires little fuel. It is fitted with pouch feed with Alaska nickeled lid handle. This rich appearing cook stove is highly recommended by us, will give many years of satisfaction and comes to you fully covered by our Legal Guarantee. Sheet flue construction.

A Beautiful
Cook Stove
High Grade

In Every Respect
and Sold to You
Under Our Ironclad
Legal Guarantee

THE RESERVOIR is supplied with all three sizes or can be left off, as shown in the small picture. It is made of heavy cast iron—cast in a pleasing design and is white porcelain lined, which enamel with proper care should not crack or scratch off. Is removable. The heating of reservoir is operated by an extra large flue with damper, and water may be very quickly heated to about 170 degrees. The table, shown below, gives you full information as to sizes, weights, prices, etc., of "Duke" cook stoves.

"FAME" REGENT

Celebrated Steel Cook Stove
A MARVEL for the MONEY

Large Square Oven Has Spring Balanced
Drop Door With Glass Panel

RESERVOIR

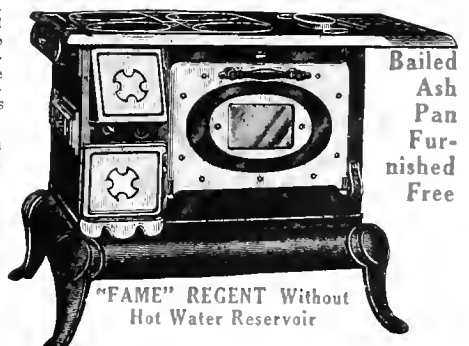

can be supplied for either size and is of galvanized iron, contact type. A contact reservoir is very desirable, for it is a fact that this style heats water with desirable results. The front panel is of cast iron and has neatly patterned design of casting. Top fits flush to main top of stove and has serviceable cover, which gives easy access to inside of reservoir for keeping it clean and sanitary. When a reservoir is ordered it gives additional space to top of stove for placing pots, pans, etc. When no reservoir is desired, stove comes equipped with end shelf as shown in small illustration below. The "Fame" is not constructed to take either water front or water coil for heating water in a kitchen pressure boiler.

FIREBOX IS LARGE and is properly constructed with correct ventilation, which gives it the power to stand great heat without burning out or warping the linings. It is equipped with heavy duplex grate, which can be so turned as to burn either wood or coal, the change operation being easily accomplished from the outside. When grate is turned up and end linings removed, the firebox is prepared for a wood fire. It has handy pouch feed with slide draft damper. By using this pouch feed you can supply fuel without removing any articles on the top of the stove. There also is another slide draft damper directly opposite the grate, which is a great help when starting a fire because of the direct draft it creates, and it also is helpful when poking the fire.

NICKELED PARTS are all highly burnished and are effective ornamentalations. The silver lustre of these fine nicking holes will be found to add to its appearance. The illustration shows how elegant our "Fame" looks when it is put up and trimmed with these nicked trimmings, which consist of front band, front fire door, front ash door, ash door shelf, oven or frame and panel, reservoir ornament.

A STRONG BASE. Built of steel and supported by high, neatly designed, cast legs. Easy to keep floor under and around stove clean. Legs fit tight and make base firm. Great importance is attached to base of a stove, for if base is built too lightly, entire stove's quality is lessened. Any of our stoves resting on bases are very rigid.

SQUARE OVEN is equipped with a spring balanced drop door, in which is fitted a center panel containing a glass section. Very convenient to see inside of oven. Latter has an asbestos lining, which prevents burning out and which insures even temperature. Is made of heavy gauge steel, reinforced with cast iron brace. Rack in oven is adjustable and can be raised or lowered to place articles so that they get more, or less, heat. Oven door has wood handle and strong catch.

"FAME" REGENT Without
Hot Water Reservoir

THE POLISHED STEEL BODY is strongly riveted and made of heavy grade sheet steel. It has a three-piece jointed top, with large nicking holes and heavy top covers. It also has long and short trimmers. All hot air flues in our "Fame" are of exceptional size, which assures satisfactory results. In order to avoid warping, the top is made very heavy. The parts that are exposed to fire, are lined with asbestos board and this feature, alone, gives great length of duration to the life of the stove. Everything is so built to insure its giving the greatest possible heat on a minimum consumption of fuel.

EFFICIENCY was the keynote in the construction of this range. This standard rigidly applied to the material used, the method of building, the nature of the Colonial design and quality of workmanship employed; and we are proud to say that the very acme of efficiency was secured in its production. Knowing that our patrons would appreciate a low price, we figured the "Economy Regent" on a large quantity basis. Therefore the stupendous bargain found in this model.

FEATURES. The duplex grate used is of the improved type and will burn either coal or wood. Fire box is of a sufficient size to produce a good fire, but for the best results we urge to select one of the larger sizes. Has sheet flue construction. Reservoir can be supplied if desired. It is a porcelain lined lift-out tank of 14-quart capacity. Flue-damper turns heat on or off. To heat water, kitchen pressure boiler instead of reservoir order with coil, price, \$2.50.

NO BOTHER removing utensils from the stove in order to place fuel in the "Economy Regent." The pouch feed does away with this annoyance. The top on each size has six 8-inch holes. This top is constructed in sections, firmly bolted together, thus reducing the possibility of breakage through expansion of heat and consequent contraction. We furnish shaker, lifter and bailed ash pan free with the purchase of this range. Order this stove for complete satisfaction in every way.

NICKEL TRIMMINGS are brilliant silver nickel, of lasting quality. They are liberally distributed throughout, giving this model an attractive appearance. They embrace the following: Warming closet bands, ends and name plate, brackets, tea pot shelves, towel rod, oven door name plate, oven shelf, hearth band and door handles as shown. Large slide draft damper makes starting of fire easy and also is handy for poking the fire. Draft register in pipe enables you to check heat around the oven.

YOU ARE ADVISED
TO ORDER A STOVE
THAT IS LARGE ENOUGH
FOR YOUR REQUIREMENTS

THE OVEN is a solid piece of top, braced steel type. The base is constructed of heavy cast iron set in high cast legs, as illustrated. This sanitary feature should appeal to you, as you can see under it with ease. The legs are heavy and will carry more than the weight of this range.

The "Daisy" Regent Cast Range

Burns Coal Or Wood

Choice Of
Four Styles

YOU GET A
BARGAIN

It pays to buy the best in getting a range; you have then a thing of satisfaction for a long time; carefully made range, in which interior materials are used, is an extra-advance. We can sell this "Daisy" Regent at a lower price than some would ask you for a range not so good, because "Regent" improved facilities enables the boundary to cut down the cost without sacrificing quality—and because we sell to you at prices that represent but a reasonable profit over and above the actual cost of production.

THIS RANGE
HAS A LARGE
COOKING
SURFACE

An unusually large cooking surface makes this big range very valuable to the family requiring this feature. Top covers and centers are of a design, reducing warping or sagging. It is built with a scientific allowance in mounting, for contraction and expansion of heat and cold.

A Bargain For The Money

QUICK COOKER AND BAKER

THE BODY is made throughout of heavy, smooth southern cast iron, securely bolted together and braced in such a manner as to make the range almost **INDISTRICTIBLE**. It is mounted on a massive cast iron high sanitary leg base and has sliding hearth.

THE FIRE BOX of this range has been long experience. The length, width and depth have all been made exactly right for the most rapid baking consistent with economical use of fuel. Particular note should be made of the Improved linings, which are made extra heavy and will last many years. Fitted with pouch feed.

THE GRATES. Our "Daisy" Regent is fitted with celebrated duplex grates, known the world over as a very substantial, perfect working grate. It is made of heavy, dependable materials. With Duplex grates coal or wood may be used.

NICKEL TRIMMINGS. This "Daisy" Regent range is very handsomely silver nickel trimmed, has nickel parts consisting of ash pit band, shield, shaker, crank, kick-er, oven door plate, oven shelf, knobs, front door plate, towel bar, pipe register, tea shelves and hings, closet brackets, closet edge band, closet corners and handle.

RESER- VOIR

is supplied for Nos. 8K971 and 8K972 as desired, and is of generous capacity. It is of enclosed type with a fine system of heating water that makes quick results possible. With this reservoir on your range, you can always have hot water when you want it. The casing is of cast gray iron, while the tank is porcelain lined and also made of cast iron. Is the lift-out type. The top fits even with top of stove and when lid is down can be used as an additional shelf. You can, of course, order your range without a reservoir, in which case an end shelf is fitted.

QUICK BAKING OVEN.

Guaranteed to give the utmost satisfaction for speedy and accurate baking and roasting. The large oven is the most important of the fine features of our "Daisy" Regent range. It has large back flue and the flue plan of heat distribution insures perfect baking results, regardless of what fuel you use. The oven door swings outward, has convenient nicked shelf and kicker so that door may be opened with foot. It is equipped with oven rack.

THE THERMOMETER. We furnish our "Daisy" Regent with a thoroughly reliable oven thermometer. It is an accurate heat indicator, a great convenience and a recognized fuel saver. The temperature of the oven and the consequent rate of speed at which the roast or loaf respectively is cooking or baking is shown accurately without opening oven door.

THE IMPROVED "GEM" REGENT

\$22⁸⁵ TO 39⁰⁰

ON A BASE of steel, securely and well fitted to high cast legs, this range is raised to the proper height to harmonize with its well proportioned lines. There is a sanitary feature to this construction also, as the high legs enable you to clean under stove with ease. The base is extremely durable, being constructed to hold a far greater weight than that of the body. The essentials of a good appearing, smooth finished range have been carried out in the base as well as the body of this stove.

6-HOLE TOP of this Improved "Gem" Regent is made in sections firmly bolted together. By this system of construction, breakage caused by expansion of heat, is reduced to a minimum. A large pouch feed for putting in fuel without removing utensils (which may be in use on the cooking holes), is found on the end of this range and is always welcome for the easy manner it affords to supply fuel. You can order this range with or without high closet and with or without reservoir at bargain prices quoted.

A Cast Iron Range With Steel High Closet

Can Be Ordered With Or Without High Closet Or Reservoir

A WATER COIL may be furnished at \$2.50 extra if you desire to heat water in a kitchen pressure boiler. See page of stove sizes, etc. Plenty hot water, however, is always ready if ordered with cast incased reservoir. Outer casing is of durable cast iron, while removable inner tank is porcelain. Damper turns heat on or off.

NICKEL TRIMMINGS include the following: Fire door and handle, screw draft, ash door handle, top band, oven door handle corners, high closet brackets, tea shelves, warming closet door panel and handle, warming closet hands and ends. These trimmings are of well burnished silver nickel and add greatly to the beauty of the Improved "Gem" Regent.

STEEL OVEN made of heavy gauge sheet steel. The drop spring balance oven door is very useful when lowered, serving as a large shelf. An accurate thermometer is fitted in oven door. Oven is fully protected from direct heat of fire, eliminating the possibility of its burning out. Bottom is of one-piece braced construction.

DUPLEX GRATE with which the fire box is fitted, burns either coal or wood. Fire box is large and oblong in shape and given necessary drafts through the sliding side draft which is directly opposite grate bars. Sheet flue construction. Accessories include shaker, lifter, ash pan and thermometer.

THIS STOVE comes complete with high closet reservoir at the prices mentioned in table below. The warming closet is a great convenience for keeping prepared dishes warm when occasion so requires. The full length shelf is another feature of this high closet that you will do well to consider if you are contemplating the purchase of a range.

Note
the
Handy
Shelf

DUPLEX GRATE is used in the "Capital" Regent Range. It is a simple turn of stove crank Duplex grate can be converted to use wood or coal. Refer to introductory stove pages for details of its construction and operation. A large pouch feed is provided for putting in coal. The slide draft gives free access to the grate. Fitted with strong linings; possesses practical sheet flue construction.

End Shelf Is Supplied
When Ordered With-
out Reservoir

YOU ARE ADVISED
TO ORDER A STOVE
THAT IS LARGE ENOUGH
FOR YOUR REQUIREMENTS

A Small Stove is More Expensive
To Maintain Than a Large Size

THE OVEN is built so that it should not warp or buckle and is well braced. Wire oven rack is furnished. Oven door is a spring balanced, drop type forming a shelf when lowered. Soot clean-out door below oven. Cast iron fire door, ash pit door and frame below; also cast iron reservoir check. Body constructed of polished blue steel.

RESERVOIR is of 12-quart capacity and is of the enclosed type with lift out porcelain tank. The flue damper enables you to turn heat on or off. This reservoir can be supplied for sizes quoted, at the prices mentioned. When ordered without reservoir, range is fitted with end shelf. The nickel trimmings are enumerated to the left.

THE NICKELED PARTS are well plated and enhance the attractive appearance of this fine steel range. They embrace the following: High closet strips, corners and handle, closet brackets, full width shelf front strip, front band, oven door frame and name plate. Aside from the efficient baking and cooking results which you will obtain from the "Capital" Regent Range, in ordering it you secure a stove whose appearance is such as to be a constant source of pleasure to the home-loving woman.

THE "SPECIAL" REGENT

\$23⁹⁵ UP

Polished Steel Range With High Closet

Has Duplex Grate. Sheet Flue Construction. Reinforced Steel Oven.

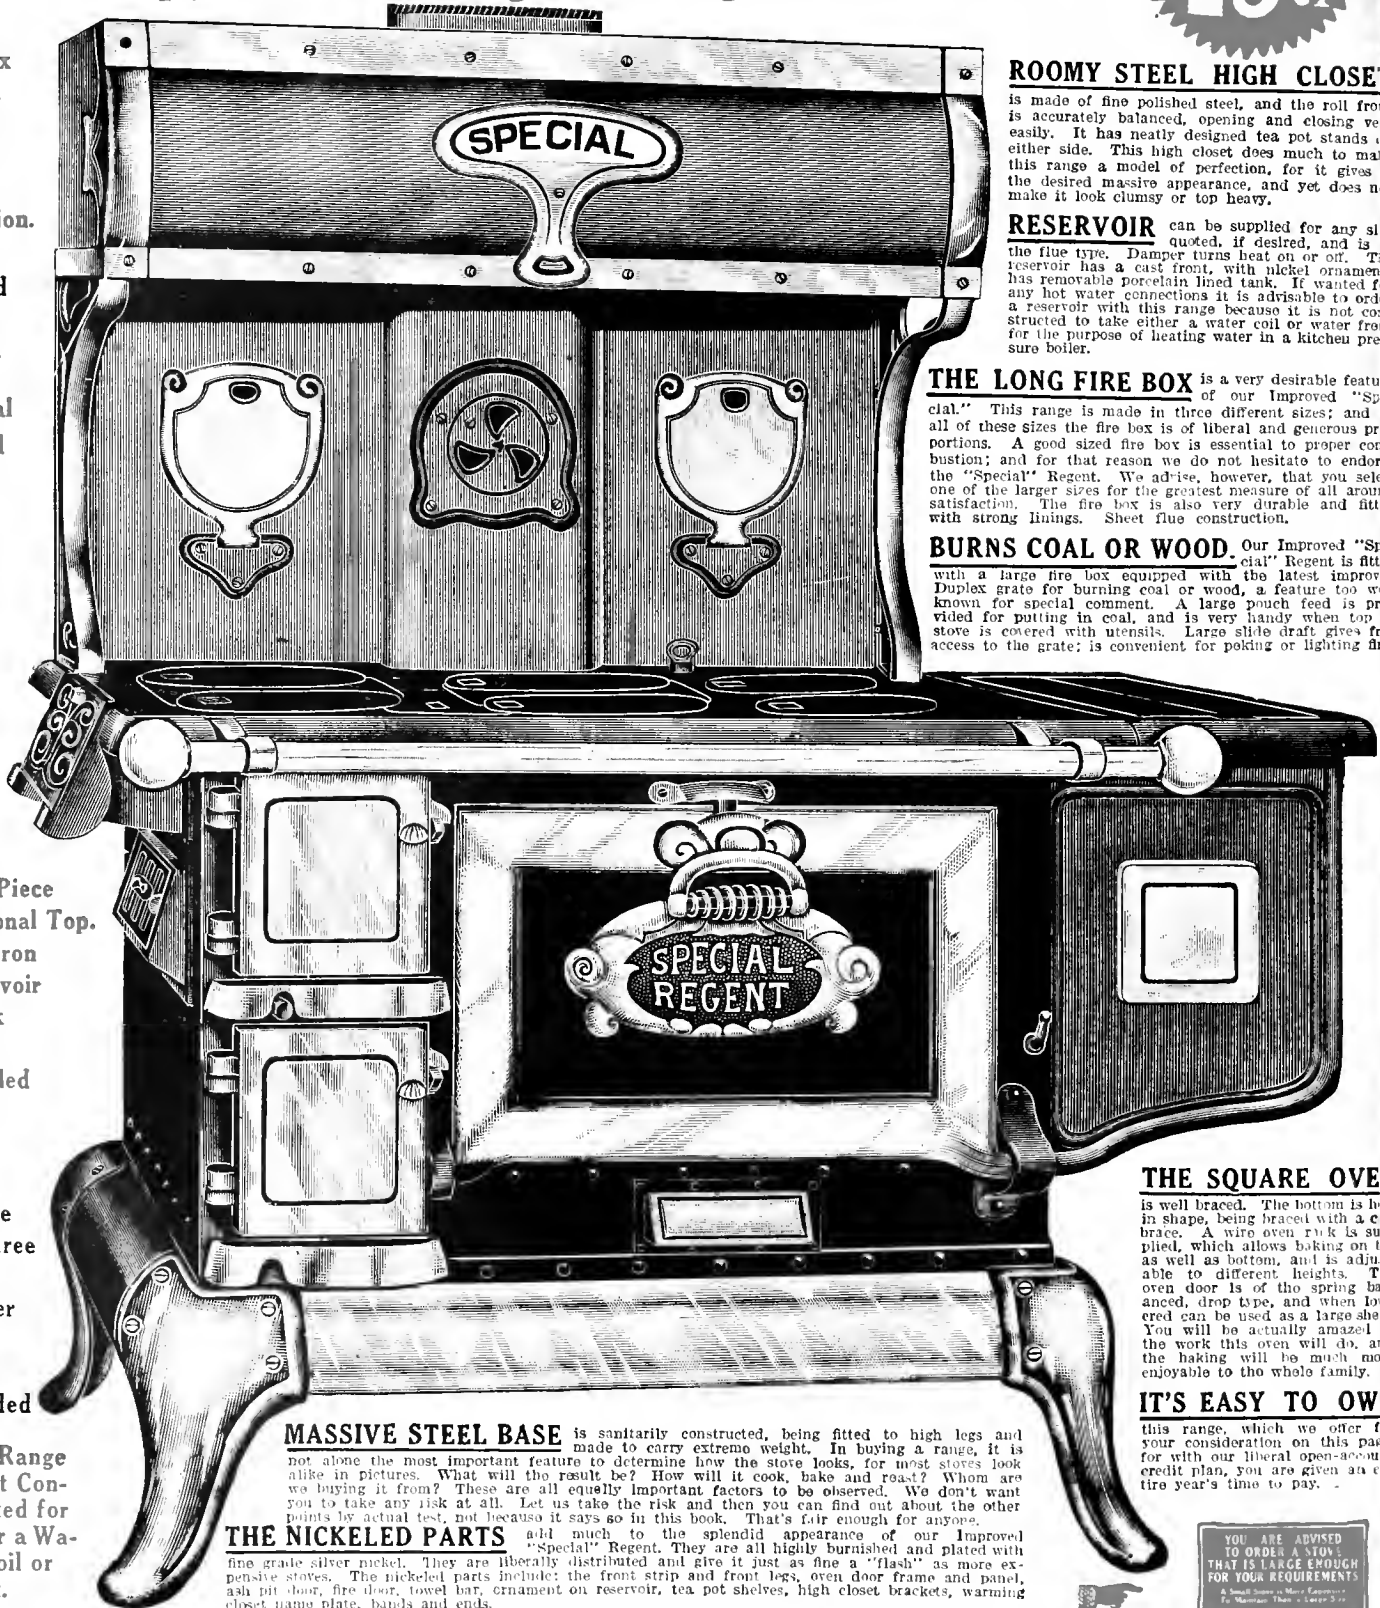

Liberal Nickel Trim-mings

Bailed Ash Pan Furnished Free

Four Piece Sectional Top. Cast Iron Reservoir Cheek With Nickeled Panel

Your Choice of Three Sizes. Shaker and Lifter Included

This Range Is Not Constructed for Either a Water Coil or Front.

ROOMY STEEL HIGH CLOSET

is made of fine polished steel, and the roll front is accurately balanced, opening and closing very easily. It has neatly designed tea pot stands on either side. This high closet does much to make this range a model of perfection, for it gives the desired massive appearance, and yet does not make it look clumsy or top heavy.

RESERVOIR can be supplied for any size of the flue type. Damper turns heat on or off. The reservoir has a cast front, with nickel ornamentation and a removable porcelain lined tank. If wanted for any hot water connections it is advisable to order a reservoir with this range because it is not constructed to take either a water coil or water from the purpose of heating water in a kitchen pressure boiler.

THE LONG FIRE BOX is a very desirable feature of our Improved "Special." This range is made in three different sizes; and all of these sizes the fire box is of liberal and generous proportions. A good sized fire box is essential to proper combustion; and for that reason we do not hesitate to endorse the "Special" Regent. We advise, however, that you select one of the larger sizes for the greatest measure of all around satisfaction. The fire box is also very durable and fitted with strong linings. Sheet flue construction.

BURNS COAL OR WOOD. Our Improved "Special" Regent is fitted with a large fire box equipped with the latest improved Duplex grate for burning coal or wood, a feature too well known for special comment. A large pouch feed is provided for putting in coal, and is very handy when top of stove is covered with utensils. Large slide draft gives free access to the grate; is convenient for poking or lighting fire.

THE SQUARE OVEN

is well braced. The bottom is built in shape, being braced with a cross brace. A wire oven rack is supplied, which allows baking on top as well as bottom, and is adjustable to different heights. The oven door is of the spring balanced, drop type, and when lowered can be used as a large shelf. You will be actually amazed at the work this oven will do, and the baking will be much more enjoyable to the whole family.

IT'S EASY TO OWN

this range, which we offer for your consideration on this plan, for with our liberal open-account credit plan, you are given an entire year's time to pay.

YOU ARE ADVISED TO ORDER A STOVE THAT IS LARGE ENOUGH FOR YOUR REQUIREMENTS. A Small Stove is More Expensive to Ship Than a Larger One.

MASSIVE STEEL BASE is sanitarily constructed, being fitted to high legs and made to carry extreme weight. In buying a range, it is not alone the most important feature to determine how the stove looks, for most stoves look alike in pictures. What will the result be? How will it cook, bake and roast? Whom are we buying it from? These are all equally important factors to be observed. We don't want you to take any risk at all. Let us take the risk and then you can find out about the other points by actual test, not because it says so in this book. That's fair enough for anyone.

THE NICKELED PARTS add much to the splendid appearance of our Improved "Special" Regent. They are liberally distributed and give it just as fine a "flash" as more expensive stoves. The nickeled parts include: the front strip and front legs, oven door frame and panel, ash pit door, fire door, towel bar, ornament on reservoir, tea pot shelves, high closet brackets, warming closet name plate, bands and ends.

DUPLEX

GRATE

used in this
model is of the
most modern type
and may be used
for either coal
or wood. The
change from one
fuel to the other
is easily effected
by the turning of
a shaft which
extends to front
of range, being
protected imme-
diately under
feed door in a
most convenient
manner. This
grate, when turned up, is pre-
pared to burn wood and with
end linings taken out—larger
pieces can be supplied. When
turned down and end linings
in place, it is ready to burn
coal.

HIGH CLOSET

is the modern improved type, being large and roomy. When the front door is rolled back, there is a shelf capable of holding a good number of dishes of food. It keeps everything placed therein nice and warm—ready to be placed on the table. High closet is made of steel, beautifully ornamented with nickeled trimmings. The front drop door is weighted, so that it works freely up or down. A draft register, also supplied in pipe of warming closet, is very handy for regulating the heating powers of range. Any size quoted equipped with high closet.

FIRE BOX of our "Magic" Regent has extra heavy linings, well ventilated, which gives better satisfaction in the results of the range. A draft slide—danger in hearth, opposite grate bars, makes possible an easily started, hot fire. Has smoken hearth fitted with ash pan. If you want your stove to heat water in a kitchen pressure boiler, ORDER A WATER FRONT. Price \$2.75. See page of sizes, attachments, etc.

THIS RESERVOIR

is of the latest type and can be supplied for any size as desired. The range can also be had without either high closet or reservoir. The reservoir is full copper lined and is portable; can be removed for cleaning and is the latest type made. Is 14-quart capacity; and being made of copper is extremely durable as well as non-rusting and light in weight; flue damper turns heat on or off. Please be sure to mention on your order whether or not you wish high closet, reservoir, or both.

No. 8K912 burns 18-
inch wood; No. 8K913
burns 21-inch wood;
No. 8K914 burns 22-
inch wood.

THE "QUICK BAKE OVEN"

is very spacious and roomy, being made almost square. This special construction, on a square basis, adds greatly to the possibilities of even distribution of heat to every corner of this steel oven. The sheet flue system also does its part, making the oven quickly heated, retaining an even, steady temperature. By the use of the foot-lever door can be opened very readily—requiring but a slight toe pressure on "Kicker" to operate arrangement. The large oven shelf is indispensable for roasting utensils upon. Is of reinforced steel, with cast expansion plates.

A THERMOMETER is provided in oven door, which tells at a glance the exact temperature of the inside of oven. After a few operations of stove you become acquainted with all temperatures required for different kinds of baking and can always tell in advance when your oven is in proper condition to make excellent baking results.

IMPROVED "NEW MERIT" REGENT

UP-TO-DATE STEEL RANGE. FINE VALUE The Range That Smashes Coal Bills

Complete With High Closet

If you want your stove to heat water in a Kitchen Pressure Boiler, ORDER A WATER COIL at \$2.50 OR A WATER FRONT at \$2.75. Extra.

WE TRUST YOU

Our Liberal Credit Terms On This Steel Range are without an equal

Shipped to you under our Liberal Guarantee.

BURNS COAL OR WOOD

THE OVEN has a drop door and when lowered forms a large shelf. Oven is large in size, door is handsomely adorned with nickeled rim, name plate and door handle. The circulation of hot air in the oven is governed by a thoroughly reliable flue system.

THE HIGH CLOSET is made of heavy drawn steel. It opens and closes easily. It is nicely ornamented with nickel, and there are two large nickeled teapot stands under the high closet. A high closet will be found indispensable when one has to await the late arrival of some member of the family. For, with it, prepared victuals can be kept nice and warm, ready for service in a minute's notice. The heat is readily adjusted by the draft register found in pipe. You can heat closet in an instant with this novel arrangement.

THE BODY is made of heavy blue steel. This blue sheet steel is of heavy gauge. It is riveted together in a most substantial manner and reinforced where it is thought advisable to give additional strength.

ASBESTOS LINING. All parts which are exposed to the fire are protected by a heavy asbestos board. This not only insures longer life to the range but insures a more even temperature and more satisfactory operation.

THE FIRE BOX is extra large, with an improved Duplex grate. The linings are extra heavy and well ventilated. Range has successful sheet flue construction.

OTHER FEATURES. This range is supplied with a pouch feed, which is of great convenience because it enables the user to supply fuel to the range without disturbing anything that may be placed on the top of the stove. It also has a sliding draft in door below pouch feed, large end and cleanout door under oven. Has heavy cast iron flue box on back of range. This is absolutely of exceptional construction.

Bailed Ash Pan Free

THE NICKELED PARTS.

The nickeled ornamentations consist of the following: Ash catch, ash door, fire door, knob, shaker, crank, towel bar, soot door, oven door frame, oven door panel, oven door handle, oven door catch and latch, pipe register, teapot shelves and hinges, closet handle, closet panel, closet edge bands, closet brackets and extension back corners. These nickeled trimmings are heavily plated and will not easily tarnish.

RESERVOIR is of the cast enclosed type with lift-out porcelain tank of ample capacity. It has the latest full flue system for heating water.

YOU ARE ADVISED TO ORDER A STOVE THAT IS LARGE ENOUGH FOR YOUR REQUIREMENTS

THE NEW "SAXON" REGENT RANGE

Sold On Easy Terms

Complete With High Closet
At Low Prices

\$25⁹⁵ UP

THE "SAXON" is an up-to-date steel range set upon a cast leg base. It is a range well proportioned; a thoroughly dependable cooker and baker and one lavishly ornamented with nickel trimmings, as shown in the illustration. Among its features are the pouch feed, sliding draft in door below pouch feed, and clean-out door under the oven. Has heavy cast iron flue box on back of range, which is a thoroughly dependable construction in every way. Oven has drop door and when lowered forms a large shelf. Has an efficient sheet flue system.

HIGH CLOSET is made of heavy gauge, cold drawn steel. Warming closet opens and closes with ease. There are two nickeled tea pot stands under the warming closet, as shown in the illustration. The body likewise is made of heavy blue steel. It is well joined and reinforced where necessary. All parts which are exposed to the fire are protected by a substantial asbestos board. The advantage of this construction insures longer life to the range and likewise means a more even temperature. These are a few of the advantages possessed by the "Saxon" Regent Range.

THE FIRE BOX is of good size and is fitted with an improved Duplex grate for burning coal or wood. The linings are of extra strength and are well ventilated. As stated above, this range comes complete with high closet, but may be ordered with or without reservoir at the prices mentioned at the bottom of this page. This reservoir is of the cast encased type with lift out porcelain tank of 15-quart capacity. The flue system for heating water is regulated by flue damper which turns the heat on or off, at will.

NICKELED TRIMMINGS are all well plated and embellish the "Saxon" Regent in such a way as to greatly enhance its attractive appearance. These include the following: Back guard corners, high closet strips, corners, panel and handle, tea pot shelves and hinges, pipe register, high closet brackets, towel bar, fire door, ash door, ash catch, oven door frame, name plate panel, handle and hinges, seat door and reservoir panel. We direct your attention to the artistic design that is used on the fire and ash doors and the ornamental appearance of the pattern that is used on the cast leg base. When ordering state whether wanted with or without reservoir and be sure to give correct number.

"ELITE" REGENT

\$26³⁵_{UP}

With Lavish Nickel Trimmings

And Handy High Closet Shelf

THE STYLE of the "Elite" Regent Range is conveyed in the large illustration shown on this page. It will give you an understanding as to its massive proportions and beauty of design, but its dependability and efficiency can be determined only through actual usage. We recommend this stove very highly and guarantee it in every particular. Among its features is the Duplex grate which is of the improved type for burning either coal or wood. See introductory stove pages for construction and operation of this grate.

FIRE BOX is of a good size, made to produce the kind of fire required to perform the best results. The sheet flue construction which is used in the "Elite" Regent is the kind that you would specify were you to order this stove built for your especial requirements. You may have your choice of three sizes and four styles, as follows: Without high closet or reservoir, without high closet with reservoir, with high closet without reservoir or with high closet and reservoir at the prices mentioned below.

THE RESERVOIR has a porcelain lined tank of 14-quart capacity. This may easily be lifted out for cleaning purposes when desired. The flue damper shown in illustration is provided for turning heat on or off. Should you desire to heat water in a kitchen pressure boiler instead of reservoir order a water coil at \$2.50 extra. Pouch feed enables you to supply fuel without removing utensils from the top. The top is constructed in sections firmly bolted together, reducing the possibility of breakage through expansion.

Has Rust Resisting Steel Body With Reinforced Steel Oven

THE HANDSOME BASE

is sanitarily constructed, being fitted to high cast iron legs and made to carry extreme weight. In buying a range, the most important feature is not how the stove looks, for most stoves look alike in pictures. What will the result be? How will it cook, bake and roast? Who are we buying it from? These are all equally important factors to be observed. We don't want you to take any risk at all. Let us take the risk and then you can find out about the other points by actual test, not because it says so in the book. That's fair enough for anyone, isn't it? Send us your order and let us ship your range to you on approval. That'll tell the whole story.

THE SQUARE OVEN is of reinforced steel, well braced to avoid against warping or buckling. The bottom is strengthened by heavy cast flue strip. A wire oven rack is supplied, which allows baking on top as well as bottom, and is removable. The oven door is of the spring balanced, drop type and is supplied with divided glass panel. The tempered moulded glass oven door is not affected by heat and steam. The wooden handle on door is a safeguard against burnt fingers and hands.

LARGE STEEL HIGH CLOSET is made of fine blue polished steel, and the roll front opens and closes very easily. There is a handy check damper in the pipe and convenient, neatly designed tea pot stands on either side. This high closet does much to make this range a model of perfection, for it gives it the desired attractive appearance, and yet does not make it look clumsy or top heavy.

LONG FIREBOX is an improvement featured in our improved "Quality." By referring to the table below you can see the dimensions of the fire box in the various sizes in which the Improved "Quality" Regent is made. The importance of a liberal sized fire box is appreciated by competent stove judges; but we merely wish to impress you with this fact so that you will not overlook this feature in the range described herewith. The fire box is also very well made and fitted with linings of extreme strength. Sheet flue construction is the type used in building the Improved "Quality" Regent and is recommended for genuine satisfaction.

WILL BURN COAL OR WOOD being fitted with a Duplex grate. The change can be made from coal to wood by simply turning half-way with the shaker. Ticking out the front and lining gives you more space to place in larger pieces of wood. A large pouch feel is provided for putting in coal, and is very handy when top of stove is covered with utensils. Large slide draft gives free access to the grate and is convenient for poking and lighting fire. A large slide door is also supplied. Anchor plate top.

THE RESERVOIR can be supplied for any size, if desired, and is of the latest improved type. The flue arrangement can be checked or opened by the use of a damper and when opened, quickly heats a good quantity of water. The reservoir is cast of high quality gray iron and is fitted with a removable porcelain lined inner tank. If you desire your range to heat water in a kitchen pressure boiler, ORDER A WATER FRONT. Price \$2.75. See full information on page of sizes, attachments, etc.

NICKELED PARTS are all highly polished and burnished and plated with our fine grade silver nickel. They are liberally distributed, adding greatly to the attractiveness of our Improved "Quality" Regent, and give it just as fine an appearance as any high priced range. The cast oven door frame, front fire door, front ash door and turn screw damper, clean out door, towel rod, high closet name plate and handle, are the nickel parts furnished. Bands on high closet nickel; corners nickel; also tea pot shelves and brackets supporting high closet. Shaker and lifter included.

Extremely Low Prices

CONSTRUCTION. Every little detail in the construction of this range has been given close attention with the result that an excellent range has been produced. Body made of heavy gauge blue steel, which does not require blacking. All flues are of ample size so as to heat all parts of the range quickly. They are so constructed as to give an even heat all around the oven, and by a flue reservoir, water may be heated in a very short time. Range is mounted on a durable cast iron base.

ASBESTOS LINING. This steel range contains many desirable features which insure long life to the range and complete satisfaction in operation. It has a practical asbestos lining, which protects the oven and insures an even temperature therein. This asbestos lining is a very important feature and should be given due consideration.

THE OVEN of this range is made of reinforced steel. It is well braced to prevent buckling. It is square in shape so that every inch may be utilized. The oven door drops forward and forms a large oven shelf. This door is operated by a long spiral spring encased in a cast iron covering at the lower right hand corner of the oven door.

FIRE BOX is of ample size and has a heavy back wall. This back wall is well ventilated, which insures long wear. This range has sheet flue construction.

Bailed Ash Pan

Furnished Free

OTHER FEATURES.

Other prominent features which go to make up the superiority of this range consist of the following: A pouch feed, which enables the user to supply fuel to the fire without removing anything placed on the top. The grate used in this splendid range is of the duplex pattern for burning either coal or wood. The sectional top with heavy covers and center are of extra strength and made with allowance for expansion and contraction. There is a poker door and draft in the end immediately under the pouch feed.

NICKEL TRIMMINGS. The nickeled parts on this steel range consist of the following: fire door, ash-pit door, oven door frame, oven door panel, oven door handle and towel bar. High closet has nickel brackets, tea pot shelves, panel on high closet door, as well as bands and ends.

HIGH CLOSET & RESERVOIR. This high closet is made of heavy cold rolled steel and is large and roomy. The reservoir is of heavy cast iron with extra durable removable tank with white enameled lining, which is sanitary. Flue damper enables you to turn heat on or off.

Stove is made with anchor plate construction on top. Top cut in three pieces which are interchangeable. Large fire box. Body lined with asbestos.

Handsome "Purity" Regent

Extreme Height 54½ Inches. Has Copper-Bearing, Anti-Rust Steel Body.

White Enamel Splasher Back
And Nickel Trimmed
White Enamel
Oven Door

THE FEATURES of the "Purity" Regent embrace a white enamel splasher on the high closet, a white enamel oven door with nickel panel, into which is set a dependable oven thermometer. The elaborate nickel trimmings likewise command the attention of the prospective purchaser. A substantial cast base raises this stove to the proper height and makes cleaning under it an easy matter. The body is made of anti-rust, copper bearing steel, which is better and more lasting than that usually employed.

THE OVEN is large in size and square in shape and by the modern sheet flue system used in its construction, it is entirely heated to every corner, thereby insuring even baking results. The thermometer in the oven door will be found to be of great aid in economizing in the use of fuel and, furthermore, is a help to gauge your fire and consequent baking results. The spring balanced drop oven door, when lowered, serves as a convenient shelf.

FIRE BOX is oval in shape, long in size and well ventilated, assuring economy of fuel. It is fitted with three-piece fire back, pouch feed, improved Duplex grates, for burning coal, wood or anything combustible. We refer you to introductory stove pages for details concerning the construction and operation of the Duplex grates. This range comes in two sizes and in your choice of four styles. When ordered without high closet is fitted with tea shelf. When ordered without reservoir is fitted with neat end shelf.

HARTMAN
CHICAGO

RESERVOIR has capacity of 15 quarts, possesses a flue damper to turn heat on or off, is cast of durable iron and is white porcelain lined, full enclosed lift out type. If you want your range to heat water in a kitchen pressure boiler instead of a reservoir, order a water front or water coil. Price of water front, \$2.75; price of water coil, \$2.50. See page of stove attachments, etc., for further information. Four-piece top fitted with corrugated covers and centers and is supported by center brace.

TRADE MARK

NICKEL TRIMMINGS embrace the following: Back guard corners, warming closet bands, ends, panel and handle, high closet brackets, pipe register, towel rod, fire door and handle, ash door and handle, ash catch, oven door frame, panel, handle and hinges, clean-out door and panel on reservoir cheek. Particularly observe the pleasing design upon the fire, ash and oven doors, all of which harmonize perfectly. We suggest your selecting the larger size as a larger stove is less expensive to maintain in proportion than a small one. Whichever one you select, however, we assure you that you will receive an excellent value for your money.

"EMPIRE" REGENT RANGE

**\$28⁷⁵
UP**

Height To Top Of High Closet 59 In.

Comes Complete With
High Closet And Also
Double Oven

**A SPLENDID
STEEL RANGE**

THE ADVANTAGES of this steel range are many. It is not only an efficient, high grade stove, but is very attractive in appearance as well. A distinctive feature of the high closet will be noted in the full length shelf, shown in the illustration. Has a double oven, the lower one being used for warming purposes only; and in addition a high warming closet, which is a great convenience for keeping prepared dishes nice and warm, when occasion so requires. The detailed description of the range is given in the following paragraphs:

BAKING OVEN is well braced and guaranteed against warping or buckling. Wire oven rack is supplied which permits you to bake on the top as well as on the bottom. Oven door is of the spring balanced, drop type and when lowered is convenient as a shelf. Just below the oven is a soot clean-out door. Below this you will find a handy warming oven which can be used for drying pots, pans and for storing sad irons, etc. The body is constructed of polished blue steel.

FIRE BOX is of a good size, as shown in the table of measurements below. This is a feature of the "Empire" Regent, as a good sized fire box means greater efficiency in combustion and therefore greater satisfaction. Saves fuel because it keeps fire alive and distributes heat evenly. Fitted with strong lifting chest flue construction. Has the latest improved duplex grate for burning coal or wood. Large pouch feed provided for putting in coal; also a great convenience when top is covered with utensils. Large slide draft gives free access to grate and enables you to poke or light the fire.

RESERVOIR is of the latest type and can be supplied for either size at price quoted below. When ordered with out reservoir, range is fitted with end shelf. The reservoir is of 12 quart capacity, and of the enameled type with lift-out porcelain tank. Fine system for heating water quickly.

NICKELED PARTS embrace the following: Back guard corners, high closet strips, corners and handles, closet brackets, shelf front strip, front band, fire door, oven door frame and name plate, warming closet frame and panel and front cast iron base. These nickeled parts are heavily plated and give the stove a "flashy," bright appearance.

PLENTY OF HOT WATER can be secured from a large porcelain lined lift-out reservoir. The reservoir has a 14½ quart capacity and is of improved flue type, which provides a means for quick heating. The damper turns heat on or off. This Range is furnished with or without reservoir.

THE STEEL CONSTRUCTED OVEN

is full size and square, and is an unexcelled baker. It is constructed of heavy reinforced sheet steel, and is fitted with special expansion and contraction strips, the danger of oven plates cracking being practically eliminated. The oven is fitted with tempered moulded glass panels and thermometer in a nickel plated door. We are fitting oven door with nickel plated handle as shown in this illustration.

THE FIRE BOX is extra large and is adapted to any kind of fuel. It is supplied with an improved duplex grate, which can be used for either coal or wood. When the grate is turned up and end linings are removed, the fire box is perfectly adapted for burning wood. Sheet flue construction.

NICKEL TRIMMING. The bright parts of range are nickeled fire door, ash pit door, flue door, oven door, oven door panel, large towel bar, front legs and front base strip. High closet has nickel teapot shelves, nickel brackets, bands and corners and panel on high closet door, as well as parts shown in illustration.

Bailed Ash Pan
Furnished Free

Burns
22-inch
Wood

Compare this fine high - grade Range with those offered by others at similar prices and you will be immediately convinced that this is positively one of the most exceptional values in a high - grade Range that has ever been

placed on the market for the money.

KEY-PLATE LIFT is another feature. This automatic lift raises the entire front section of the top, giving easy entrance to the fire. Toasting or broiling, when the section is lifted, is made very convenient. Requires only a slight hand pressure on the lift.

THE BLUE POLISHED STEEL WARMING CLOSET

extends full length of the range body and has large capacity. This equipment has become an almost indispensable attachment to a range. It has a roll front door which rolls back out of the way, permitting the interior of closet to be exposed.

THE CASTINGS of the base of our "Wonder" Regent Range are made of extra heavy pure pig iron, most carefully ground and fitted together. Extraordinary care is given to this work, being put together with the new lock edge and when once strongly bolted will not weaken or loosen. The body is built of polished steel, being perfectly plain and easily cleaned, and on account of its heavy construction is a great retainer of heat.

Save Big Money On The

“Climax” Regent

If You Want This Range to Heat Water in a Kitchen Pressure Boiler, Order a Cast Iron Water Froot, Price \$2.75 Extra. Accessories Include Shaker and Lifter

The “Climax” Range Is Fitted with Roomy High Closet And Useful, Accurate Oven Thermometer, Very Desirable Features

Has Anchor Construction With Key Lift For Toasting or Broiling

You Should Have it in Your Kitchen

\$31⁷⁵_{UP}

Absolute Satisfaction Guaranteed

The Range You've Been Looking For

YOU ARE ADVISED TO ORDER A STOVE THAT IS LARGE ENOUGH FOR YOUR REQUIREMENTS

You Can Match For The Price

A BEAUTIFUL STEEL RANGE this, our Climax Steel Range is without doubt the finest and most popular Kitchen Range ever manufactured for the money. Many, many hundreds are in daily use placed in homes by us, all over the land under our binding leg guarantee and highly recommended by housewives.

THE RESERVOIR is supplied for any of the size given, or can be left off as desired. It is made of heavy cast iron, with japanned top lid, of the lift-out enclosed type, porcelain lined. Flue damper turns heat on or off.

THE FIRE BOX is large, has heavy linings, is reinforced, well ventilated, and durable Combination Duplex Grates. It will burn a fuel. Has cast iron pouch feed, and fuel can be fed through the key lift lid or pouch feed door.

Bailed Ash Pan Furnished Free

NICKEL TRIMMING.

Is artistically set off with extra amount of nickel trimming. The patented process of triple plating over copper is used and wears very well. The include fire door, ash pit door, oven door frame, oven door panel, flue door, teapot shelves, brackets, plate on high closet door. Has thermometer and nickel towel bar.

LEADING FEATURES. The important features are: The anchor plate sectional top, with convenient key plate lift, for broiling and toasting; large high warming closet, tea shelves, towel bar; massive cast iron base with protective corners and rich nickel trimmings, lending their part to make up the most convenient range one could wish for.

LARGE OVEN. The oven is square and has a wire rack and is constructed in a most scientific manner, the steel top plate is protected by asbestos and is reinforced with six brasses, oven door is fitted with our patented “Regent” thermometer and well-mounted door handle.

Great Value "Crystal" Regent

NICKEL TRIMMED CAST IRON BASE

Sold Under The Famous Hartman Guarantee

This Is A Very Efficient Range

We Know That It Will Give Satisfaction

OVEN RACK is adjustable. Another feature is the drop spring balanced door which, when lowered, forms a convenient large shelf. Oven clean-out door also gives easy access to bottom of oven. Braced top oven plate, also bottom oven plate. Note the thermometer which shows degree of heat in oven at all times.

HIGH WARMING CLOSET is elaborate in size and you have not the slightest conception of the many good uses it can be put to. It has just enough nickel trimming to set off and balance well. The roll front door when raised, discloses a dandy big shelf in which dishes of victuals can be kept hot.

FLUE BACK. The flue system used is of the latest design arranged to give even circulation of heat. The flue back is constructed with a cast iron shoe to take care of creosote condensations, which usually eat at flue bottom, while the upper part of flue back is of steel construction. For a range, desirable in every detail, you cannot ever buy one to surpass this model for the money. Has sheet flue construction.

Accessories Include Shaker and Lifter

If you want your Range to heat water in a Kitchen Pressure Boiler, ORDER a Cast Iron Water Front. Price \$2.75. See Introductory Pages of the Stove Section of this Catalog.

THE LARGE RESERVOIR

Tank is cast white enamel-lined, is removable and of good size, holding 14½ quarts of water; is flue type. It is constructed of cast iron and heats water very rapidly. Reservoir can be left off of stove when ordering, in which case we fit a neat end shelf. If you do not require water reservoir, but wish to heat water in a Kitchen Pressure Boiler, ORDER A WATER FRONT. Price \$2.75. See page of stove sizes, attachments, etc., for further information.

THE NICKELED PARTS are all plated with our "Highpol" silver nickel and richly burnished. They add materially to the effectiveness of this model, brilliantly shine and sparkle. The parts nickeled are: Towel bar, reservoir front, fire door, ash pit door, oven door, oven door panel, oven door handle, flue door, front legs and base strip. On high closet there are two nickel teapot shelves, brackets, ends and bands, paneled on high closet door and back guard nickel corners.

Credit Terms Page 1

Order a Stove Large Enough for Your Requirements.

DURABLE FIREBOX

is built large and fitted with a Duplex grate. This grate is made to burn anything. By a simple turn of the shaft, which projects below feed door, grate can be changed from coal to wood or the reverse, without removing any parts whatever. A large pouch feed is fitted to end of stove and is serviceable for supplying coal, while top is entirely occupied. The good size slide-draft damper, opposite grate bars, makes the starting of fires very easy and also is handy for poking fire.

MAIN TOP

is made in anchor plate sections. The key plate section over fire pot can be raised for broiling or toasting over the fire. Lids are extra heavy.

RICHLY NICKEL TRIMMED.

In design, the "Palace" Regent Range we have not left out a single feature which would prevent it being absolutely perfect, and in order to give it the richest appearance any High Grade Range on the market we have produced the "Palace" elaborately nickel trimmed. The nickel parts are: The ashpit door, grate door, fire door, towel rack, entire oven door, hinge, latch and handle, low closet door, reservoir, cheek, name plate and the trimming of the high closet and all door handles. All this nickel trimming unquestionably makes the "Palace" the most handsome steel range obtainable any place at the price.

THE LARGE FIRE BOX is oval and fitted with cast iron grates. It is evenly ventilated. Has large cast iron pouch fire and is supplied with our "Improved" combination Duplex Grates. All parts exposed to the heat are covered with heavy asbestos mill board held in place by extra heavy steel plate.

RESERVOIR is of the latest improved type. It is cast of high quality gray pig iron. Contains lift-out baked enamel lined tank. True damper to heat on or off. Has 14½ qt. capacity. Range is furnished with or without this reservoir.

WARMING CLOSET

is made of heavy gauge blue steel. Has top back guard, a roll front cast brackets, pipe draft and tea-pot stay.

THE MAIN TOP is made in three pieces with interchangeable anchor plate sections all interchangeable. Key plate section of fire pot can be raised for broiling or toast over the fire. Entire top is cast from quality gray pig iron with no seams, cracks or rough spots to depreciate its value. It is extra heavy. Top is supported on a heavy cast iron brace running full length of oven.

QUICK BAKING OVEN. The oven is perfectly heated and ventilated, allowing an even temperature from all sides. Dependable and durable, the "Palace" Steel Range is in a class by itself. Sheet flue construction.

THERMOMETER is an accurate heat indicator and fuel saver.

temperature of the oven is shown accurately without opening the oven door and makes the maintenance of even temperature a very simple matter. The accessories include a shaker and lid lifter.

Base is heavy cast iron.

Complete with High Closet. Burns 22 in. Wood

INTERESTING FEATURES.

Additional features are, that the oven has an attractive full nickel plated door. The reservoir casing at the front is completely nickel plated and lightly furnished, adding exceptional richness to the appearance of the range. Top is made in three pieces with interchangeable anchor plates. Below main oven is a convenient warming closet with nickel door.

If You Wish To Heat Water In A Kitchen Pressure Boiler Order A Water Front Price \$2.75 Extra. Burns Hard or Soft Coal, Coke or Wood. Has Duplex Grates

"GRAND" REGENT STEEL RANGE

HAS ALL STEEL CONTINUOUS BODY FITTED TO CAST IRON BASE

Comes Complete With High Closet and With or Without Reservoir

HAS DUPLEX GRATE
FOR COAL OR WOOD

STEEL RANGE PERFECTION

was achieved when our expert Range designers and builders completed our beautiful "Grand" Regent and since we have offered it for sale on our liberal open charge account plan, we have been practically flooded with orders for it. It is making a reputation for itself as the fastest selling High Grade Steel Range ever placed before the public, and rather than publish a big account about it we are showing a very large colored illustration so that you can obtain a good idea of its magnificent proportions and appearance.

VISIBLE GLASS OVEN DOOR

WITH THERMOMETER

It is made in our Regent Foundry, has large elevated warming closet, immense fire box fitted with duplex grates, improved drop feed and draft, and deep ash pan with funnel feeder. Following parts are nickel: Fire door, ash pit door, front and side base strips, oven door, oven door handle, protection rail, flue door, tea pot shelves, high closet door panel, bands, brackets and back guard ornaments.

THE RESERVOIR has a capacity of 14½ quarts. It contains a white porcelain-lined tank, which can be easily removed for cleaning. By means of a damper handle, heat is admitted to the flue around the water tank or can be turned off when so desired. Always keep plenty of water in reservoir to prevent enamel from burning off.

THE BODY is made of continuous blue sheet steel while the base is cast iron with front and side strips attractively nickeled. Duplex grates for coal or wood, sheet flue construction, anchor plate top, reinforced steel oven with moulded tempered plate glass oven doors. Accessories include shaker and lid lifter.

If you want to heat water in a kitchen pressure boiler, order a water front.

The Swedge Joint Securely Holds Sheet Steel Body to Fire Pot

HOT BLAST FEATURE is a heating device that deserves your consideration. It not only saves fuel but in addition produces intense heat. The air is admitted through the tube, passing in and entirely around body of the stove. It becomes superheated, mixing with the gases arising, becomes ignited and makes perfect combustion. In this operation the smoke is burned, thereby utilizing all of the heat which passes up out of the chimney in ordinary oak heating stoves.

THE SWEDGE JOINT is another noteworthy feature. Body possesses cup-shape flange which is fitted into a recessed cup on top of fire pot and is held in position by a deflector ring, thus securely fastening sheet steel body to fire pot without exposing bolts to fire, which are likely to burn off. When such burning occurs, body will "buckle," lose its shape and admit air around top of fire pot. With the swedge joint such buckling will not occur.

SCREW DRAFT register gives perfect control of fire. In addition, there are two draft dampers in ash pit door, as shown in the large illustration to the left. Combination of these enables you to regulate the heat in an excellent and satisfactory manner. The "Hartman" Regent Hot Blast will hold its fire and keep even temperature for a long period of time.

THE CASTINGS used are the very finest for the purpose, are put together with smoothest joints and carefully fitted, so as to make this heater practically air tight. Taking all points into consideration you will find this one of the best values ever offered in a hot blast heating stove. Below we give the nickel parts which embellish the "Hartman Regent Hot Blast."

NICKEL TRIMMINGS are the very best quality silver nickel and are elegantly burnished. They consist of the following parts: swing top, large reflector name plate above the front door. Colonial columns, screw draft register, foot rails, front base strip and front legs, as well as draft dampers in the ash pit door; nickel or bronze urn. Large foot rail has neat Grecian border design.

THE FIRE POT is very strong. Is heavily ribbed cast iron specially treated, and guaranteed to withstand greatest degree of heat without injury. Is very spacious and increases the efficiency of the stove. Heavy cast door front with mica windows and polished blue steel body are other features of this Hot Blast. Is mounted on heavy cast iron base, as illustrated. Draw center shaker grate for coal or wood.

SHAKER DOOR enables you to shake the grate without opening the ash pit door, thereby preventing dust and ashes from circulating around room. Legs hold it correct distance from floor to allow proper and desired radiation of heat. The proportions throughout are such as to harmonize with the scientific construction, to produce the greatest volume of steady heat from the use of the smallest amount of fuel.

THE "LOYAL" REGENT HEATER

A Low-Priced Oak Stove Burns Soft Coal or Wood

THE QUESTION of price is one that makes it appeal to the majority of people. But price without quality is as undesirable as bread without butter. And that is why, when we offer you a stove at prices as low as those quoted on the "Loyal" Regent that you have a right to ask whether it is of a type that will render service and satisfaction. We do not claim that the "Loyal" Regent heater will render the same service that our higher priced stoves will give but for the money we recommend it very highly. It is worth every penny that we ask.

THE CONSTRUCTION is of dependable quality. The joints are well fitted in a workmanlike manner. The bolts add permanency to castings. Through this method of building, castings are made to set in position without working loose, as is the case with many cheaply made heaters. The workmanship throughout is of good grade, as you will appreciate by the fact that our guarantee of satisfaction goes with this stove. If it pleases you, make your payments as outlined on Page 1. If not satisfied, return it at our expense and we will refund all money the transaction has cost you.

SCREW DRAFT DAMPERS make it possible for you to regulate the heat. The two smaller sizes have but one screw draft damper in the ash pit door, the larger sizes being constructed with two. There is also a check screw draft damper in the feed door, as illustrated. The shaker door with which the "Loyal" Regent heater is furnished enables you to shake the grate without opening the ash pit door, thereby preventing dust and ashes from circulating around the room. The ash pit is of good size, is made in one piece with heavy cast iron bottom and large bailed ash pan.

THE NICKELED PARTS add to the appearance of this heater, are all nicely polished and consist of the following parts: The top ring, name plate, feed door screw damper, feed door handle, foot rails and ash pit screw draft dampers. Fitted with nickel or bronze urn. The nickeled parts are shown in the illustration to the left. The body of the stove is made of heavy gauge, cold rolled, blue polished, sheet steel, firmly and securely fitted into the cast parts. The fire pot is corrugated, increasing the heat radiation of the "Loyal" Regent. Possesses a good sized fire door to add to the ease with which fuel can be supplied to this heater.

THE GRATE is of flat style with removable non-clinker draw center grate. This type is known as a good grade of pig iron is employed in the construction of the "Loyal" Regent, the castings are smoothly made, as you will agree after an examination of this heater in your home. The illustration was made from a photograph of this pattern and will give you a good idea of its neat appearance. Its service giving qualities, however, can be determined only by actual test and that is why we ask you to send for the "Loyal" Regent upon approval. Our reputation of over 60 years stands back of the Hartman guarantee.

"National" Regent Splendid Heating Stove

Is Attractively Nickel Trimmed

MAY BE ORDERED IN YOUR CHOICE
OF FIVE SIZES AT THE PRICES QUOTED
SELECT A LARGE SIZE FOR BEST RESULTS

THE MONEY QUESTION. Money isn't everything in this world, but it is the generally accepted medium of exchange and we must possess it in order to get along. This being the case, the wise man uses it judiciously—he spends as little as a time as he consistently can and therefore buys his requirements on credit. We are in a position to lend our assistance to that man by offering him our liberal credit plan. If you are in search of a moderately priced heater and you do not care to pay for it all at one time, we strongly urge you to consider the merits of the "National" Regent illustrated and described herewith.

THE IMPORTANCE of the swedge joint used in the construction of this heater is especially noteworthy. The body possesses a cup-shaped flange which is fitted into a recessed cup on top of the fire pot and is held in position by the deflector ring thereby securely fastening the sheet steel body to the fire pot. In this way, the bolts are not exposed to the fire, thereby protecting them against burning. When such burning occurs, the body will buckle and lose its shape and admit air around the top of the fire pot. Such buckling cannot occur with a swedge joint. This is a vital point that is especially desirable.

THE NICKELED PARTS with which the "National" Regent is embellished add to its brilliancy and enhance its neat appearance. These nickeled parts consist of the following: Swing cover, top ring, name plate, decorative side wings, screw draft check damper, foot rails and draft dampers in the ash pit door. Observe the etched design on the side wings and foot rails, which harmonize perfectly. Nickel or bronze urn. The shaker door enables you to shake the grate without opening the ash pit door, thus preventing the dust and ashes from circulating around the room. This is a sanitary feature that will be appreciated by the housewife who has had experience with cheaply constructed stoves not possessing this advantage.

LENGTH OF SERVICE is assured to the purchaser of the "National" Regent. The fire pot is corrugated to give a large amount of radiation and is made extra heavy. This in itself is a factor that adds to its service giving qualities. The ash pit door is also of extra size and is made in one piece with heavy cast iron bottom and large bailed ash pan. The castings are smoothly made, are well fitted and consist of good grade of pig iron. Another point that insures to the purchaser a stove that will render the kind of service that you may expect from a heater sold at these prices.

TRADE

MARK

Attractive
Side
Wings

NICKELED SCREW DAMPER is used in the nickel plated screw draft damper in the feed door and these you can regulate the heat. The two smaller sizes have but one screw draft damper in the ash pit door, while the large sizes have two, as shown in the illustration. The grate is of flat style with removable center and is correctly called a non-clinker draft center grate. The "National" Regent will satisfactorily burn soft coal or wood and is not sold as a hard coal burning heater.

YOU CAN SELECT this stove in your choice of five sizes, although as stated below, we particularly advise you to select one of the larger sizes for the fullest measure of satisfaction. The smaller stoves are more expensive in proportion to operate and do not give as satisfactory results as the larger ones. Our liberal credit terms enable you to own this model with such small expenditures that you will never miss the money. Refer to page 1 of this catalog for details concerning our credit terms.

"Acme" Oak Regent An Excellent Heater

Made to Burn Soft Coal or Wood

**AN ATTRACTIVE NEW DESIGN
IS REASONABLE IN PRICE
AND EFFICIENT IN RESULTS**

IT'S FALSE ECONOMY to buy a poor heater. Don't think that an old second hand stove will serve your purpose. Because in ninety-nine cases out of a hundred they will prove a mighty poor investment. Doctors' and druggists' bills are far more expensive than the slight difference that you will pay for this low priced article and the price that some unreliable dealer or second hand merchant will charge. In fact, there are a great many heaters on the market selling at higher prices that will not prove as satisfactory as this one; so do not be misled by the reasonableness in price of this splendid "Acme" Oak Regent. You can have it in any size quoted, on credit, taking a whole year to pay your bill.

WORKMANSHIP AND FINISH. There is nothing cheap about this heater except the price. All of the joints are fitted carefully in order to render them practically air tight. A generous number of bolts is used where necessary to insure permanency to the castings. Not a single stove is allowed to pass except under the most rigid and scrutinizing inspection. There is no special attention given to any one feature, but all points receive the same careful, minute investigation. It is made in the latest Colonial design, a most artistic and beautiful looking stove. It is thoroughly practical and sanitary as well, for it possesses no dirt catching designs, so that it can be kept clean with the least possible effort.

Screw
Drafts
Enable
You
To
Regu-
late
The
Heat

NICKELED PARTS. The parts mentioned below are all highly polished. They help to tone up the appearance of the heater and at the same time add considerably to its lasting quality. They are the foot rails, the beautifully designed swing cover, and the name plate over the door, as well as the screw drafts, as shown in the accompanying illustration. Nickel or bronze urn. The body is made of heavy gauge cold rolled blue polished sheet steel, securely fitted into the cast parts, rendering all points air tight.

FIRE POT. The fire pot is to a stove what the heart is to the body. It is the life of a heater—and upon its efficiency depends the desirability of the stove itself. The fire pot of the "Acme" Oak Regent is corrugated, to give the largest amount of radiation, and is made extra heavy for good hard service. This is a most important feature—and one that must be considered by every careful and scrutinizing buyer.

Gives
Great
Radiation
Of Heat

FEED DOOR. The size of the feed door deserves your consideration, because upon this feature largely devolves the ease with which the heater is supplied with fuel. The one possessed by the "Acme" is large, and is furnished with solid cast check screw damper. The ash pit is also of extra size, and is made in one piece with heavy cast iron bottom and large bailed ash pan.

OTHER FEATURES. Nickel screw draft is used in the feed door, and nickel screw drafts in ash door. These enable you to regulate the heat. The two smaller sizes have one screw draft in ash pit door, while the larger sizes have two. The grate is of flat style with removable center, and aptly termed a non-clinker draw center grate. The castings are smoothly made, well fitted and nothing but first-class pig iron is used. You will find no inferior material in the castings of the "Acme" Oak. It sets upon solid, substantial cast legs and cast base strips.

"Royal" Oak Regent Fine Heating Stove

A Bargain At Our Very Low Prices

**A STOVE THAT POSSESSES THE FEAT-
URES REQUIRED TO PRODUCE FUEL
ECONOMY AND MAXIMUM HEAT**

HEATING STOVES sold by some at even higher prices will not give you any better heat or general satisfaction than this low priced "Royal" Regent. It is practically air-tight and can be regulated by the screw draft registers so that an extremely hot, medium, or slow fire can be maintained. This heater will be found superior to an unreliable, high priced hard coal base burner, and will give you the satisfaction that you have a right to expect.

OUR LOW PRICE. Our immense mail-order establishment located here in Chicago is convenient to the big Regent foundries and the greatest stove market in the world, and having been interested in the manufacture of stoves and ranges to supply our extensive trade for so many years, we have become enormous shippers, direct to the homes of the people, in America. This gives us a preferred position among these great manufacturers, and makes it possible for us to select the best on the market and negotiate on the most favorable terms. We sell Regent stoves because we are determined to have the very finest product for the money. The cost of making these stoves has been reduced to the very lowest possible figure. The materials have been bought in large lots and every expense incident to the making and marketing of these stoves has been reduced to a minimum.

THE GREAT POPULARITY of this "Royal" heater has been earned by its own merit, and with its new improvements, we feel safe in asserting that it is much better than any other of its kind at the price.

HEAVY CAST PARTS including the handsomely carved front door and base, are made of fine grade grey iron castings, contributing to the make-up of a heater that comes up to a high standard in every detail of construction.

FIRE POT is especially designed and gives to this heater an exceptional capacity. It radiates the heat much more quickly than the old style fire pot used by many other manufacturers, and is guaranteed to hold a good bed of fire and to prevent waste of heat. This very dependable construction makes the "Royal" Regent an extremely strong oak heater. Shaker door enables you to shake grate without opening ash pit door, and thereby keeping dust and ashes from circulating about the room.

THE LEGS hold it at the correct distance from the floor to allow just the proper radiation of heat, and the proportions throughout are regulated in harmony with the scientific construction so as to produce the greatest volume of steady heat from the use of the smallest amount of fuel.

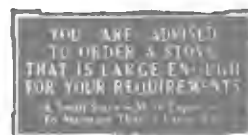

DETAILED DESCRIPTION. The Body is made of cold-rolled steel and has swedged joints. It is securely fastened to top and base in accordance with the latest and best methods, and is practically air-tight. The Top is surmounted by a beautiful urn, as the picture shows. The "Royal" is equipped with a draw center grate with shaking ring. Best results can be obtained by using soft coal.

THE "ROYAL" REGENT is a better heater, and is made of better materials than the ordinary oak stove. It possesses exclusive new improvements, which insure a more economical use of fuel. We feel certain that it will equal any oak stove offered by any other dealer or manufacturer at similar prices and know that it surpasses some.

NICKELED PARTS are: Top ring, swing cover, name plate, side wings, foot rails and screw draft registers. The nickel is extra heavy silver-nickel plate, which will wear longer than ordinary grades, a point that is universally appreciated.

Improved "Air-Tight" Regent Hot Blast Heater

A Fuel-Saving, Coal-Heating Stove

**WITH A NEW STYLE FOOT RAIL.
POSSESSES CAST IRON LINING ABOVE THE
FIRE POT. AN ATTRACTIVE PATTERN.**

OUR COLONIAL DESIGN "Air-Tight" Regent Hot Blast is one of the most successful air tight hot blast heaters we have ever offered. It burns chestnut coal, soft coal, coal screenings, coke, wood, cobs and other cheap fuels. It has a twofold hot blast principle which enables the owner to get the greatest possible amount of heat from almost any fuel. This stove is a perfect and rich appearing parlor heater. It is fitted with latest down draft hot blast tube suspended from the main top shown in sectional view below.

A BARGAIN. It is one of the best constructed and most thoroughly satisfactory heaters these prices could buy as you will agree if you make a comparison of this value and those offered by others. Considering materials, general finish, heating qualities and the price, it stands as a typical Hartman value.

THE BODY is made of smooth sheet steel, with cast iron bottom, which sets on the base, while the base is made of fine Southern gray cast iron with bottom cast in one piece without joints.

IMPORTANT DETAILS. The grate is of draw center type, strong and durable. The front cast iron ash pit door is fitted with nickelized screw draft register, enabling the user to regulate the heat and process of combustion. Feeding fuel can be done from the top, being fitted with large feed lid. The sheet steel body is protected above the fire pot by a cast iron lining which extends almost to the top of the stove. A fire can be built at night before retiring and will burn over night, making it only necessary to turn on the air the next morning to increase the heat.

THE NICKEL MOUNTINGS are extremely handsome. The cast base is fitted to high legs and is cast in a fancy design. The silver nickelized parts are heavily plated and consist of the following: Rails, draft register, door handles, name plate, top ring, swing top, nickel or bronze urn—just enough to ornament this stove without undue embellishment.

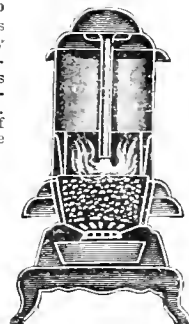

PRINCIPLE OF OPERATION and the general construction of our "Air-tight" Regent hot blast is very effective. The hot blast draws air through the top of the stove, passing down the hot blast tube, and is discharged just above the fire in the very center of the products of combustion. Being in a highly heated state, all the gases and carbons in the smoke are consumed by reason of the increase of oxygen at a high temperature. The screw draft and air-tight construction serve to make the stove as air tight as possible. This feature, and the great efficiency of this heater have made it one of the most popular of our heating stoves sold at moderate figures. It has been tried and tested. Having stood the test of time, we highly recommend it to you.

IT'S VERY EASY for you to possess one of these elegant hot blast heaters. We would like you to carefully read page 1 of this catalogue that you may fully understand our liberal, confidential credit terms. Ours is the most liberal and confidential credit system in the world. Select one of the larger sizes of this stove and take advantage of these beneficial terms.

A HANDSOME NEW DESIGN

“HOME OAK” REGENT

HEATER—NICKEL TRIMMED

THE SWEDGE JOINT

Securely Holds Sheet Steel Body
to Fire Pot

THIS SWEDGE JOINT is a feature that you will do well to consider carefully. The body possesses a cup-shaped flange which is fitted into a recessed cup on top of the fire pot and is held in position by the deflector ring, thus securely fastening the sheet steel body to the fire pot without exposing bolts to the fire, which are likely to burn off. When such burning takes place the body will “buckle” and lose its shape and admit air around the top of the fire pot. With the swedge joint such buckling cannot occur.

FIRE POT is of special construction. It is heavily ribbed cast iron made of especially treated iron, guaranteed to withstand the greatest degree of heat without injury. Is plenty large and roomy and increases the efficiency of the stove. Note the heavy cast door front with mica windows and the heavy polished blue steel body. The construction of the “Home Oak” Regent throughout is exceptional indeed, and is a stove which you need not hesitate to purchase. It is mounted on a heavy cast iron base which is not only substantial but very handsome in appearance. Draw center shaker grate for coal or wood.

IS CONSTRUCTED with feed door screw draft register, giving perfect control of the fire. In addition there are two draft dampers in the ash pit door of the larger sizes, while the two smaller sizes have only one screw draft in the ash pit door. The combination of these enables one to regulate the heat in an excellent and satisfactory manner. The “Home Oak” will hold its fire and keep an even temperature for a long period of time. It furthermore is economical in the consumption of fuel as well as being a heater that is low in its initial cost. These are vital points in the purchase of a stove; because the purchase price in “cheap stoves” sometimes means an expense in operation.

THE CASTINGS used in building the “Home Oak” Regent are of just the right sort for this purpose. They are put together with smooth joints and are carefully fitted, so as to make it practically air-tight. Take a careful survey of this illustration, read the details as mentioned in our description and you can't help wanting this stove at our exceedingly low figures. It combines quality, efficiency, durability, appearance and price, all procurable on our easy payment liberal credit plan.

NICKELED TRIMMINGS on the “Home Oak” Regent are of a very good quality, silver nickel, and are elegantly burnished. They consist of the following parts: Swing top, large reflector name plate above the front door, decorative flaring side wings, screw draft register, foot rails, base strips, and base legs as well as draft dampers in the ash pit door. Nickel or bronze urn. These trimmings are indeed lavish in their abundance and make this a beautiful heater. Large foot rail has neat Grecian border design.

THE LEGS hold it at the correct distance from the floor to allow the proper and desired radiation of heat, and the proportions throughout are regulated in harmony with the scientific construction in order to produce the greatest volume of steady heat from the use of the smallest amount of fuel. The “Home Oak” Regent will burn any kind of fuel. The shaker door enables you to shake the grate without opening ash pit door; thereby preventing dust and ashes from circulating around the room.

SPLENDID HEATING STOVE "VULCAN" REGENT

AN EFFICIENT, MODERN HOT BLAST HEATER

The Swedge Joint Securely Holds Sheet
Steel Body to Fire Pot

THE HOT BLAST is one of the important features possessed by the "Vulcan" Regent. This hot blast saves fuel and in addition to doing so, it produces intense heat. The air is admitted through the hot blast tube and passes in and entirely around the body of the stove. It becomes superheated, mixes with the gases as they rise and become ignited, thereby making perfect combustion. In this operation the smoke is burned so that all of the heat is utilized which ordinarily passes up out of the chimney in the common type of oak heating stoves. The "Vulcan" costs a little more than our oak heaters, but you will never regret the added expense.

AN IMPORTANT FEATURE of the "Vulcan" Regent Hot Blast is the swedge joint. This construction eliminates the possibility of "buckling" in the following manner: The body possesses a cup-shaped flange, fitted into a recessed cup on top of fire pot and held in position by a deflector ring. This securely fastens the sheet steel body to the fire pot without exposing bolts to fire, which are likely to burn off. When such burning occurs, the body will "buckle" and consequently lose its shape and admit air around the fire pot. The advantage of the swedge joint, as stated above, is that it prevents the possibility of such "buckling."

SCREW DRAFT DAMPERS enable you to govern the heat, the one in the feed door acting as a check, those in the ash pit door serving to increase the heat if desired. The castings used are of good quality and are put together with smooth joints. Fire pot is noteworthy because of its strength. Is made of heavy ribbed cast iron which will withstand great heat without injury. Heavy cast door front with mica windows. Through these mica doors you can see the welcome glow of the burning embers. The "Vulcan" Regent is made with polished blue steel body. It is mounted on heavy cast iron base, as shown in the illustration.

Attractive
Mica
Door

TRADE

MARK

OTHER FEATURES include the draw center shaker grate, which is constructed for burning either coal or wood. The shaker door makes it possible for you to shake the grate without opening the ash pit door and thereby prevents the dust and ashes from circulating about the room. This is a new, up-to-the-minute heating stove at prices that are easily within the reach of all.

NICKELED PARTS consist of the following: Swing top, name plate, feed door handle, screw draft damper in feed door, foot rails, screw draft dampers in ash pit door, front base strip and front legs. Nickel or bronze urn. Observe the plain but neat design of the foot rails and attractive Colonial columns on either side of this efficient hot blast heater. Order this stove sent to you upon approval.

REGENT HOT-BLAST

AFTER RECEIVING this or any other stove you have ordered it must "make good" in actual wear. It is sold to you subject to our "Legal Guarantee"—the only honest test—the proper way for you to find out whether you are getting the kind of value you are expecting. You take no risk whatever in intrusting us with your orders.

YOU PERHAPS THOUGHT at some time or other you had bought bargain; but if you will compare this bargain "Magic" Hot Blast heater with those offered by your hardware or stove store at home, you'll simply say you never saw real bargains before you saw our "Magic"—so don't forget to compare after you have received it for trial. We want you to do this, for we think you'll become an enthusiastic customer of ours and recommend us to your friends.

OUR "MAGIC" REGENT is a magnificently designed heater of a high type Hot Blast. It is thoroughly well constructed of splendid materials. Every joint is perfectly fitted, insuring excellent results as an intense heater. It is right now giving the best of service in thousands of American homes, and if you buy one it will surely satisfy you.

READ THE DETAILS: Bear every one of the good points in mind in deciding to order this stove. You have our promise and guarantee that it will come fully up to the description and please you more than you expect. Consider the price—then consider the long time credit terms we give you—weigh the whole transaction well in your mind, and—take our word—you'll say our Hot Blast Heater offer is a "magic" one indeed.

DESCRIPTION. Every part of the heater herewith offered is made for good service. The top is of heavy casting and the body is made of heavy gauge sheet steel, joined to the massive base top in a most workmanlike manner. It has a draw center and shaking grate. The base is mounted on massive legs. The front feed door of a good size and fitted with mica panels in order to show plainly the extent of the fire within and at the same time throw a cheerful glow in the room. The fire pot is of the improved type corrugated, extra heavy and generous in size. The ash pit door is supplied with an air screw draft to complete the Hot Blast idea. It is fitted with nickel-plated Reflector over the feed door, beautiful side ornamental columns, convenient foot rail, and artistically designed and silver nickel-plated stove base.

THE HOT BLAST ARRANGEMENT

is the redeeming feature of this grand heating stove. It is the improved style by which the heat is intensified and the gases and smoke are entirely consumed. A hollow tube extends from the top of the fire chamber to just above the fire bed, meeting a current of air admitted through the screw damper in the ash pit door, causing advantageous combustion that will be found only in Hot Blast Heaters. The small illustration below will give a fair idea of how a fire operates in our "Magic" Regent.

THE NICKELED

PARTS are made of splendid quality silver nickel on prepared cast metal, and are as follows: Base, screw draft in ash pit door, foot rails, side wings, reflector, swing top, top ring and lever handles. Also has brass or nickel ornamental urn on top. The brilliancy of these nickel-plated parts give the "Magic" Regent a bright, flashy appearance.

The Bargain of All Bargains

NEW "VICTOR"

VENTILATOR

REGENT

VICTOR-VENTILATOR-REGENT

A WONDERFUL VALUE. We announce here one of the most remarkable offers of ventilator heating stoves in our history. A big purchase from the Great Regent Foundry makes it possible for us to sell this beautiful Improved "Victor" Ventilator Regent heating stove at sensationally low prices and with the absolute assurance of satisfaction. Just think of it, you can now have this fine heater on long time easy-to-pay credit terms, and buy it on approval from the Big Hartman Concern. Don't fail to secure your "Victor-Ventilator."

NO RISK, FULLY GUARANTEED. We repeat again throughout this book that you take no risk whatever in ordering from us, we do this to impress deeply in the minds of our customers the fact that we will not consider any order a positive sale until they are thoroughly convinced that they have saved money and received better quality and design than they could obtain elsewhere. We give our legally executed, binding guarantee that we will satisfy you in every way or refund your money.

YOUR MONEY BACK. No matter what you select, the goods will be sent you fully covered by our legal guarantee. You take them into your home, and if you do not find them exactly as represented, you may return them to us and we will refund any money that the transaction has cost you.

THE MATERIAL USED. While we quote an exceptionally low price on our "Victor" Ventilator Regent, we have not sacrificed quality to do so. Splendid quality gray pig iron castings, thoroughly fitted and cemented, have been used. Expert stove makers have produced a perfect heater in this article and one we unhesitatingly guarantee.

INTERIOR CONSTRUCTION. This Colonial designed square heater has a round steel interior body enclosed in an open-work outside cast iron casing. It has a heavy corrugated cast fire pot with draw center shaker grate. The circulation created in this construction gives this heater immense heating capacity.

NICKEL TRIMMINGS. Artistically arranged nickel trimmings adorn the entire stove, giving it a decidedly rich appearance and making it an ornament to any room. Our best polished silver nickel plate over copper is used. The nickel parts are as follows: Swing cover, top rim, name plate, reflector top, perpendicular column on either side of the mica door, foot rails, screw draft, base strips, legs and fancy urn.

VERY IMPORTANT is the air tight feature, the arrangement being such that the entire stove is practically air tight. The front feed door and ash pit door are fitted into grooves. The doors clamp securely with strong turn lever handles. The ashpit door is supplied with our perfected air tight damper.

GRAND FEATURES. It has a large full feed door, on the front of the stove, giving it a beautiful illuminating effect, and is also in keeping with the appearance of a base burner. Has large ashpit with ash pan and heavy corrugated firepot with draw center grate with shaking ring. The elaborate cast iron fretwork sides and back improve its appearance, durability and heating qualities. Makes it a square stove and gives it the appearance of a base burner.

FINE NICKEL TRIMMINGS.

Magnificent silver nickel trimmings adorn the stove, giving it a beautiful bright appearance. The nickel-plated parts are plainly shown in the lighter portions of the illustration and are as follows: Large top dome, swing cover, side wings, name plate, foot rails, ash door screw draft, front base legs and three base strips. The silver nickel plating is of a good grade, being clean and bright and possessing long wearing qualities.

This Season's Big Stove Offer "RUBY" REGENT BASE BURNING HEATER

OUR STOVES ARE LOW IN PRICE

considering the quality. This is not due to cheap materials, for our foundries are using a good grade of pig iron castings, fine nickel trimmings and are employing labor of a high and efficient character. Our prices are reasonable largely because of certain favorable conditions in the iron and steel industry and our foundries were able to take advantage of them and buy heavily while the market was at its lowest. In the price of this "Ruby" Regent Heating Stove we are giving you the full benefit of our saving in cost, because it is our policy to do this for customers on everything we sell. It is this very same policy that has induced so many families to continue trading with us year after year.

THE BEAUTIFUL DESIGN we have created in the production of our "Ruby" Regent is one of the most handsome you have ever seen in a base burning, self-feeding heating stove. Its general outlines are graceful, its appearance magnificent, and it will brighten up the room to a most wonderful degree with its rich polished nickel ornamentation and the bright glow of the fire shown through the mica doors.

FOR HARD COAL ONLY. Use chestnut hard coal only in this stove as it is constructed especially for this kind of fuel. It has Duplex grates and two flue construction for a continuous, self-fed, chestnut coal fire and far better results will be obtained if you follow this instruction.

SELF FEEDING MAGAZINE. Under the large swing cover is a smoke-tight gas cover which automatically opens to one side when supplying fuel to the stove. This lid covers the top of the coal magazine which, when filled with coal, and attended to daily, will continue to feed the coal bed with fuel so as to keep a fire going in the stove during the entire winter.

GRATE AND FIRE POT. Our "Ruby" Regent Base Burner has a large, well proportioned, very durable, cast iron fire-pot made of material that will withstand great heat. The Duplex grate is of a design with shaking ring, which permits the quick removal of ashes, clinkers and dead coal. The fire pot is so constructed that it may be removed through the front door.

MICA ILLUMINATED. The front and side panels of the main body of the "Ruby" are fitted with mica, which is transparent, permitting the bright fire to be plainly seen and throwing a brilliant glow throughout the room. The doors are set in grooves and lock with nickel-plated turnbuckles.

ASH PIT AND PAN. The ash pit is large and allows full space for the ash pan, which is made full width so that all ashes must fall into it. Do not allow the ashes to accumulate so that they reach up to the grate as there will be danger of burning out the grate.

Keep Magazine Filled With
Coal And It Will Burn All Winter
Ash Pan Furnished Free

OUR BUYERS in selecting this season's line of heating stoves searched the markets with great scrutiny, going into the merits of the products of the best and largest manufacturers of the country. This careful investigation places us in position to defy all competition. But we do not want you to take our word for it alone. Investigate yourself, compare the values we offer with others and judge for yourself. You don't have to look any farther than this page to prove the truth of our claims.

THIS FINE HEATER is one of the best base burners ever produced to sell at these sensationally low figures. The principle upon which it operates is different from the ordinary heater in that the stove has a two-flue construction which allows heat to pass down and around base before it reaches chimney, giving greatest amount of radiation possible. For that very reason it is a very economical stove to use, because there is no waste of fuel. All the heat goes into the room where it is wanted. The ash pit is deep and has a heavy air tight door containing an air tight screw draft. Has front flue clean-out and side shaker, back stove pipe flue with lid for tea kettle and all of the desirable improvements that combine to make an efficient, powerful, convenient, economical, base burning, heat radiating, hard coal stove.

DUPLEX GRATE. The Improved Ransom used in this superior heater. It differs from the flat type in that it opens and closes in a manner to produce the very best results. This heater is self-feeding arranged with a heavy, specially constructed, large cast iron magazine fitted into the top and extending down to near the fire bed level. An automatic cover is furnished which closes and opens as the nickel-eled feed cap is moved. If you keep this magazine filled with fuel it will retain a fire throughout the winter. Nor is it necessary to be wasteful with the coal to produce the most satisfactory results. Self-feeding stoves require but very little attention and are much more preferable than any others for the parlor or living room. You simply can't go wrong if you order the "Ideal" Heater.

THE MICA DOORS improve the appearance of this beautiful and massive stove. Through the transparent openings the warm glow of the cheerful fire bids welcome on a cold winter's night. These doors are well ground so as to fit into the grooves in a perfect manner. They are held in place by strong hinges and clamp turn knobs. To get the very best results we recommend that you use the Chestnut Hard Coal. The superior quality of this excellent heater demands your earnest attention. Of course you can buy stoves for less money, but like most things that cost less, they are not as desirable, and when you but stop to think that you can buy this base burner on such reasonable terms, there is no reason why you should not have it.

NICKEL TRIMMED. The strong, massive, handsome appearance of this heater has been enhanced by the appropriate and tasty silver nickel trimmings. These embrace the artistic swing top, top dome, large, bold side ornaments, name plate, heavy foot rails, base, screw draft and knobs. Has a beautiful ornamental brass urn. The effectiveness of these trimmings can be seen from the appearance of the illustration shown on this page, but to really judge of the artistic elegance of the stove itself you should see it right in your home.

Mica
Doors

REGENT HEATER

THE FEATURES of the "Crown" Regent embrace efficiency in operation, beauty of design and dollar-for-dollar value. This stove has a two-flue construction which permits the heat to pass down and around the base before it reaches the chimney. The construction results in thorough and practical radiation and furthermore works an economy in that there is no waste of fuel. The heat goes into the room where it is required. This principle is different from the ordinary oak heater. The "Crown" costs more than some of the heaters shown in our catalog but like most things that are more costly, it is worth every additional cent that we ask. Our credit terms make paying easy.

ASH PIT is deep and possesses a heavy tight screw draft. Is constructed with side shaker, front flue clean-out and base stove pipe flue with lid for tea kettle. The "Crown" Regent is fitted with the Improved Ransom Duplex grate. This grate is made to burn hard coal satisfactorily. Refer to introductory stove pages for description and operation of this grate. This stove is self-feeding, possessing a heavy, large cast iron magazine fitted into the top and extending down close to the level of the fire bed. Automatic cover closes and opens as nicked swing top is moved. Keep this magazine filled with fuel and it will retain the fire throughout the winter.

NICKEL PARTS embellish this heater and add to its stateliness and grace. These trimmings are silver nickel and include: swing top, top dome, handsome side ornaments, name plate, foot rails, base and screw draft damper as well as handles. Attractive brass or nickel urn. These nickel parts as shown in the large illustration. But the beauty and "flash" can be appreciated only after you have seen the original from which this picture was made. We offer this heater in your choice of three sizes, but urge you to select one of the larger ones for fullest measure of satisfaction as a small stove is more expensive in proportion to maintain than a large one. When ordering be sure to give correct number.

THE APPEARANCE of this handsome heater is improved by the stunning mica doors. The welcome glow of the crackling fire may be seen through the doors and adds to the cozy aspect of the room, which the "Crown" Regent may be placed. The doors are held in place by strong hinges and knobs and made to fit into the grooves in the proper manner and are so made that they should not warp. These are matters that deserve the attention of the prospective buyer.

Number of Stove That You
Desire When Ordering

Send Us Your Order For This Powerful Base Burner THE "REFLEX"

Order
It Sent
To You

REGENT HEATER

OUR "REFLEX" REGENT possesses a typical double-heating device. It is no make-shift that is called a double heater to mislead the prospective purchaser, but is so constructed that it not only heats the room and those abutting it, but can be actually made to carry heat to a room above in an efficient, satisfactory manner. This transmission is carried on in the following manner: The "Reflex" Regent has a flue in the back of the stove which draws the cold air from the floor. This cold air, coming in contact with the superheated air from the hot air flues, becomes light in weight and consequently rises. There is a collar at the top of the dome to which a hot-air pipe can be attached. Connect this pipe to the room above by means of a register and the upper room will receive all the heat necessary to comfortably warm it. You thus avail yourself of all the heat possible to secure, with the least amount of fuel. There is no heat wasted through the chimney, as is the case in poorly constructed oak heating stoves.

THE LARGE MAGAZINE is well ventilated and top magazine. It is made in two sections and is of safe-feeding type, supplying a steady flow of coal to the fire and maintaining even temperature with little attention. For fullest measure of satisfaction use chestnut coal. It has front fire stop which gives easy access to the flues for cleaning. It has a large ash pit, which is of strongest construction. Ash pit door has a perfect fitting screw-draft register which gives absolute control of the fire. The ash pit is deep and has cleanout door conveniently located.

GENERAL CONSTRUCTION. Every detail of construction in this splendid heater has been given the greatest care, so as to produce a most substantial, as well as a most powerful, heating stove. All castings are of heavy weight, smoothly ground and carefully fitted. The fitting flanges are extra wide—giving them no chance to open up. Nothing is slumped about this heater—everything is of generous size, heavy in weight and strongly secured.

FIREPOT AND GRATE. Our "Reflex" Regent is made with a large heavy fire pot and improved duplex grate with annular shaking ring. The firepot can easily be removed and being straight allows a large fire surface on grate. It has long fingers which admit draft freely and offers ample opportunity for poking. With one turn of the crank, the grate cuts out all clinkers and dead ashes without disturbing bed of fire, while the shaking ring clears ashes from outer edge of fire pot. Both fire pot and grate are of greatest possible durability.

THE NICKELED PARTS are graceful ornamentations on our "Reflex," and are all of the highest quality of silver nickel. They are well ventilated and plated by a special process that keeps them bright indefinitely. The cast base, screw draft register, two foot rails, name plate, side wings, head, and swing top are the nickelled trimmings furnished. A beautiful 12-inch urn surmounts the top.

TEST IT AT HOME. Our low prices are due to economical production and selling by mail. The quality we guarantee, and to convince you that our claims are true, we ship the heater to you at our risk. If you don't find it to do all we claim for it and are not pleased in every way, return it and we'll refund every penny that the transaction has cost you. See Page One for credit terms.

Nickeled Base Burning Stove

THE "CLASSIC"

Sold to
You
On Easy
Credit

REGENT HEATER

OUR "CLASSIC" REGENT is an attractive new model Regent Heater, patterned expressly for us by an expert designer of parlor stoves. The massive base, the body and the nickel trimmings, are of a pattern in keeping with the most artistic surroundings. Every outline will add beauty to the room in which it is placed. Once you have it in your home, you wouldn't part with it at any price.

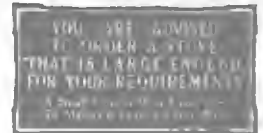

THE MATERIAL used in its construction is of thoroughly high grade. Real heavy gray cast iron is used and is a specially blended mixture that is strong and durable. Every bolt and nut is of the dependable sort. The nickel plating is the silver-on-copper process famous for its lasting quality and highly recommended by the manufacturers and ourselves. All doors and drafts are ground tight, making the stove economical as consumption of fuel, because with the large check draft it is always under control.

GORGEOUSLY NICKELED. When we come to nickel trimming, we think there is plenty of it on our "Classic." The quality is of the best, being real silver nickel, highly burnished. The nickel parts are base, rear, front side wings, foot rails, ash pit door, screw draft, head, swing top and name plate. Handsome nickeled or bronze 12-inch urn.

DOUBLE PLAN OF HEATING is a great convenience as well as a big fuel saver. Cold air drawn from the floor becomes superheated by contact with the hot air flues causing it to rise. A collar at the top of the dome is provided to which you can attach hot air pipe to the room above. By the use of a register this heat can be utilized or shut off in the upper room as desired. Thus you secure the maximum of heat with a minimum of fuel, taking advantage of the heat that goes out the chimney in the ordinary Oak Stove.

MANY NEW IMPROVEMENTS

are embodied in the construction of our "Classic" and consist of the following: Heavy cast iron fire-pot, easily removed through front door; heavy grates with shaking ring and duplex center; T. Kettle attachment at back supplied with a 6-inch removable cover; patent damper and fire regulator; air tight ash pit with screw draft damper; carefully fitted air-tight doors throughout; swing cover to top of spacious coal magazine; easy accessible clean-out below ash pit and large ash pan.

Lavishly Nickel Trimmed. Large Magazine. Duplex Grate. Spacious Ash Pit and Pan.

If You Are Seeking An Efficient Heater At A Price That Is Out-Of-The-Ordinary SELECT ONE OF THESE FINE MODELS

\$1.19 to
\$1.98

THE "NATIONAL" Regent air-tight heater will burn chips, cobs or anything combustible, except coal. Body is of durable, smooth sheet steel.

Catalog Number	Size of Body, Inches	Pipe Collar, Inches	Shipping Wt., Pounds	Price
8K1378	17x14	5	14	\$1.19
8K1379	20x18	5	19	1.68
8K1380	24x23	6	25	1.98

THIS MODEL is a typical Cannon store, specially built to burn coal. It has all of the very latest improvements as you will recognize after having used it. Possesses a large coal feed door with register for checking the draft. The grate can be replaced without dismantling the stove. Observe also the draft register extending all around the bottom of the fire pot, as shown in the illustration to the right.

Catalog Number	Size of Fire Pot	Size of Grate	Size of Pipe Collar	Height Inches	Shipping Wt., Lbs.	Price
8K1381	12 In.	7 Inches	7 Inches	40	110	\$ 6.95
8K1382	12½ In.	8 Inches	7 Inches	42	138	8.65
8K1383	14 In.	9 Inches	7 Inches	45	160	10.85
8K1384	16 In.	12 Inches	7 Inches	46	200	12.95
8K1385	18 In.	14 Inches	7 Inches	48	260	16.45

NEAT URN surmounts fancy standard steel top. Rigidly bolted legs. Draft admitted through the lower screw register. Absolutely air-tight. (Shown to left.)

THIS REGISTER admits cold air equally to all parts at the same time and in so doing, prevents the grate and the fire pot from burning out. The "Hermitage" Cannon is a very heavy stove with the weight properly distributed, giving sufficient strength where it is most needed. Nothing but good quality gray iron is used, with smooth molded castings. Lid in top for cooking. Large double hinged door and large ashpit.

We Do Not List The Very Small Sizes Because of Unsatisfactory Results

Big Value

The "Volcano" Regent Box Heater

WE ASK YOU to find a stove of this kind offered anywhere near our prices that will excel our "Volcano" Regent, both as to quality and as to service. This heater is made to burn wood, chips and cobs, but is not sold as a coal heater, as its construction is such that it will not burn coal satisfactorily. The design is very attractive, as you will see by an examination of the illustration.

IT IS SET upon heavy, ornamental, cast iron legs, which enables you to sweep under it. This is a feature that will appeal to every practical-minded housewife. Can be purchased in the five sizes listed. In ordering be sure to give the correct number. This stove has a swing top made with holes and covers in the sizes as mentioned in the schedule below.

Choice of 5 Sizes

Will Burn Wood, Chips, Cobs, or Anything Combustible, Except Coal

The "Volcano" Regent Box Heater

IT HAS a large end door and draft register in the swinging hearth cover, as shown in the picture to the left. All parts are curved to prevent cracking. The various parts are well fitted, containing smooth castings. All bolts placed on the outside. It heats quickly, and for that reason is an economizer of fuel—a point that you will do well to bear in mind. We recommend and guarantee this stove and if you are not pleased with it, after seeing it in your own home, we will cheerfully refund your money.

REMEMBER that every essential feature to make up a practical wood heater enters into the construction of our "Volcano" Regent. For parlors, living rooms, dining rooms, etc., you will find this box heater a valuable addition. We advise your purchasing one of the larger sizes for fullest measure of satisfaction. Our prices are remarkably low and our terms exceptionally liberal. For full details of our easy-to-pay, liberal credit terms we refer you to Page 1 of this, the greatest of all money-saving catalogs. Look these over carefully before sending us your order.

\$7.75 to \$10.95

**NATURAL OR
ARTIFICIAL GAS**

A Very Fine Range
For Either Natural or
For Artificial Gas.
Right or Left Oven

\$24.95

THIS GAS RANGE is thoroughly efficient, embracing all the good points necessary to produce a stove that will give great satisfaction. It has a blue polished steel body made of cold rolled steel. Has a good cast front and square baking oven, as well as an extra deep broiling oven which is equipped with a tinned rack and broiling pan. Has heavy "Kleen Kast" front doors and cooking top, which are of gun metal finish. There are three single, one double, one simmering and one 2-line loop oven burners.

THE OVEN is equipped with a reliable oven burner and lighter. The burners and linings are removable. Has adjustable cocks with porcelain lever handles. Has convenient high shelf. The baking oven and broiling oven have spring balanced doors which operate easily and which, when lowered, serve as an additional shelf for resting pans upon. Note the handles on the oven and broiler doors, which are of the always-cool type, being made of wood. The burners are made in one piece, have milled heads and are hand drilled with adjustable mixers. It has a welded wire baking oven rack.

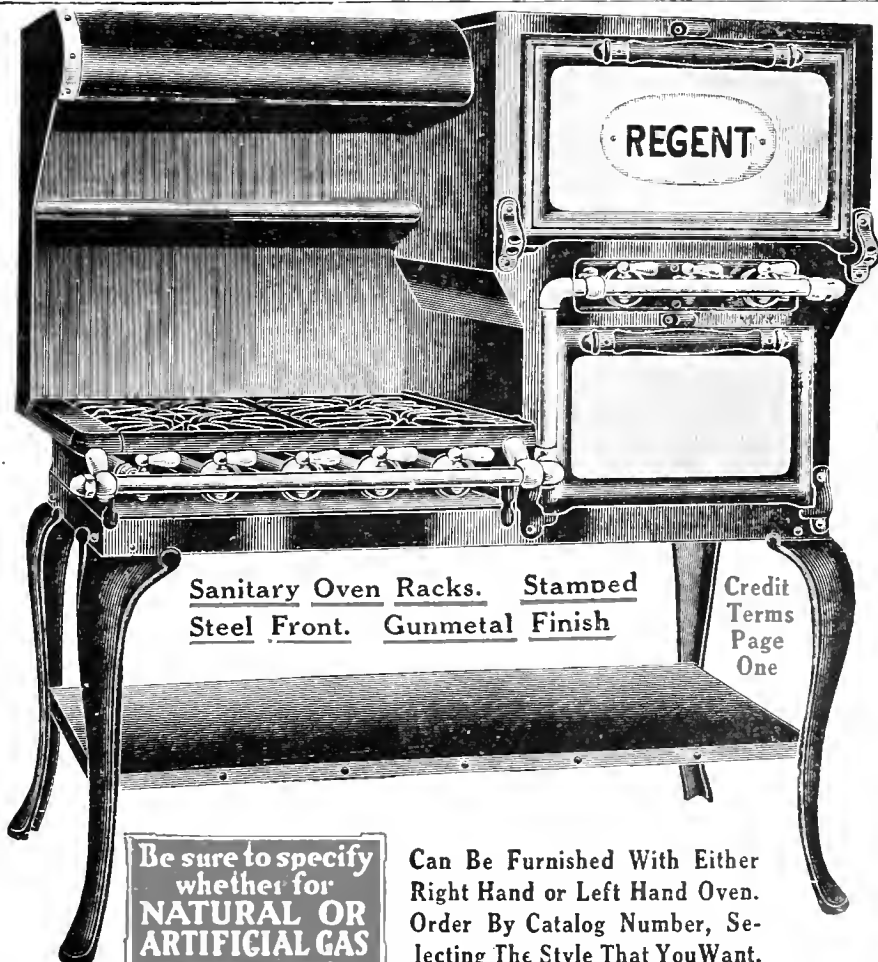

IS CONSTRUCTED with two-piece non-cracking top plates for artificial gas. For natural gas the range has closed top with four ring covers and two open grates. Has double sealed oven bottom with asbestos lining. Has a top burner drip pan. When ordering be sure to state whether you desire your range with right or left hand oven and whether you require artificial or natural gas construction. This information, together with the correct number, is essential to insure proper shipment.

MEASUREMENTS. Oven measures 16x18x12 inches; broiler is 16x18x9 inches; occupies a floor space of 22x12 1/2 inches. Height to top of stove, 32 1/2 inches; height overall, 41 inches. Size of top, 21x22 inches; size of pipe collar, 4 inches. This range rests upon graceful, solid cast legs, strong enough to support greater weight than the range itself. Shipping weight, about 195 pounds.

**NATURAL OR
ARTIFICIAL GAS**

Can Be Furnished With Either
Right Hand or Left Hand Oven.
Order By Catalog Number, Selecting The Style That You Want.

THIS TYPE of gas range is very popular and there is a mighty good reason why it should be. It possesses all of the advantages of the range illustrated and described above, and several additional features mentioned in this description. Has the oven and broiler so placed that you can do your baking and broiling without stooping down to see the progress that the biscuits, cake, steak or chops may be making. It is fitted with a large roomy shelf below, the convenience of which will appeal to every practical housewife. It sets high up, away from the floor, which makes cleaning under it a real pleasure.

THE ADVANTAGES of this superior range are enumerated herewith. Read them over very carefully, and after learning of its many desirable qualities we know that you will be filled with a desire for it. It occupies but a small floor space, yet is sufficiently large to answer the requirements of any average home. Has one double, three single and one simmer burner, all removable. 3/4-inch extra heavy piping. Adjustable gas cocks. Large oven and broiler, sanitary oven racks; cast iron, spring balanced oven door. Heavy stamped steel front, finished in a beautiful gunmetal.

MEASUREMENTS. The baking oven is 18x12x18 inches which will be found just a handy, convenient size. The broiler oven is 18x11x14 inches in size, while the cooking surface is square, measuring 24x24 inches. The height to the cooking top is 31 inches. A substantial back rises above the cooking surface to which is set a very handy shelf with canopy above it as illustrated. This forms a very handy warming shelf. The manifold is 2 1/2-inch. The handles on the oven doors are of the easy grip type. The entire range sets upon gracefully shaped, solid legs as shown in the large picture herewith. Can be furnished with either right or left hand oven as desired.

THIS PICTURE was taken from an actual photograph of the range itself and portrays in detail all of the trimmings of this fine range. The oven door lining is white enamel as is the broiler door lining as shown. It weighs, packed for shipment, about 235 lbs.

HIGH GRADE WRINGERS

WARRANTED FOR SERVICE

Thoroughly Dependable Materials Are Used In Their Construction Fully Guaranteed

The life of a wringer is wholly dependent upon the quality of rubber in the rolls and we have taken great care in selecting our line of wringers to be sure that this most vital part is constructed of the best quality that can be offered for the money. We offer only such goods as we consider thoroughly reliable and made of dependable materials by the most skilled workmen. Our wringers are well finished and guaranteed in every way. Our cheaper grade of wringers have high-grade rubber rolls, vulcanized to the roller, and will give satisfactory service while our better grades have soft rubber rolls which resist wear and have the required elasticity to do the best work and are recommended for service. Each wringer has a warranty tag attached, which should be preserved in case a roll proves defective within the life of the guarantee. Should this ever occur, send us the tag and defective part, stating full particulars and give date of purchase. We will replace any rolls proving defective under our guarantee. Please remember that washing compounds, kerosene, etc., destroys the rubber and any roll injured from this source will not be replaced. Loosen adjusting screws when wringing heavy, thick articles and have them loosened when using wringer.

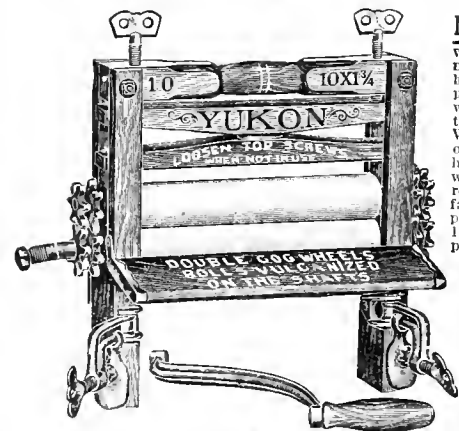

Here's Our Famous Model "Wabash" Wringer At Real Bargain Prices

No. 8K1370. The name on the frame protects you, for the "Wabash" is thoroughly guaranteed. When you see the name you know that you are getting what you pay for, and after you have used the "Wabash Wringer" you will appreciate what a wonderful value it is. It will give satisfactory service according to warranty furnished with each wringer. You can have this Standard, High Grade Wringer sent on approval. It is warranted for one year for family use, has exposed cog wheels, hardwood frame and is an excellent value. Weight, about 16 pounds. Comes in 10, 11 and 12-inch length rolls and prices are quoted below.

HANDY COMBINATION BENCH AND WRINGER

No. 8K1374. This is one of the most convenient laundry arrangements on the market; it is a combination wash bench and wringer. A very special Hartman bargain. The wringer is of an exceptional quality, warranted for three years' wear and fitted with the best 1 3/4-inch rubber rolls, all metal parts are malleable iron heavily galvanized to prevent rusting. The bench will hold two tubs and has a reverse drain board which conducts the water to either side of the wringer. If you want to make clothes-washing easy as well as convenient, if you wish to save time running back and forth and a lot of unnecessary stooping, this is the combination wash bench and wringer you should buy. Shipping weight, about 28 pounds. Wringer is made with 10, 11 and 12-inch length rolls. Prices given below.

BALANCE WHEEL of this washer is most conveniently placed at the outside of the tub, where it revolves very rapidly and easily without friction or wear. This construction enables you at all times to quickly and easily get at the working parts of your outfit.

TUB AND OTHER WOODEN PARTS are of genuine kiln-dried Louisiana Red Cypress. The tub is made in a most convenient size, strongly bound with three metal hoop bands having a diameter of about 24 inches with a large capacity which enables you to work on about eight shirts at one time.

CORRUGATED BOTTOM AND SIDES enable you to get excellent results, while the dasher block rotates at high speed and circulates the clothes round and round in the tub, at the same time rubbing the garments against the corrugation, and thoroughly cleaning every piece of your washing.

STRONG WRINGER ATTACHMENT is another of the many great conveniences of this outfit and is fitted to the top of the tub, enabling you to easily and firmly attach a large sized wringer.

EVERY CIRCUMSTANCE which could make for the convenience of our customers has been carefully considered in the design as well as in the manufacture of Hartman's High Speed Rotary Washer. You can sit down comfortably and rest without losing any time and you achieve splendid results with great ease of operation when used as a hand power machine. This combination of efficiency and simplicity does away with all back-breaking, nerve-racking work which has previously been the lot of so many hard-working housewives. This outfit is practically a self-worker, and is another example of the height of perfection reached by our factories, and **MUST NOT IN ANY WAY BE COMPARED WITH THE MANY CHEAPLY FINISHED, MADE-TO-SELL BUT NOT-TO-WEAR WASHERS ON THE MARKET.** Every part of this washer is made of absolutely reliable materials.

DASHER POST is a high grade equipment so built to the machine that you can wash the finest fabrics without being in any way afraid that they will become tangled or torn. This is a feature that is of importance to every washing machine user.

BALANCE WHEEL AND ALL METALLIC PARTS of this washer are carefully tested and inspected so as to guarantee freedom from flaws and insure lasting durability. This washer can also be run by belt power.

TUB, which is strongly bound by three metal hoop bands, stands firmly level upon its four solid braced legs. The height of this washer has been carefully figured out so as to make it most convenient for you whether you are standing or sitting. This will please those who choose to use this washer as a hand-power washing machine.

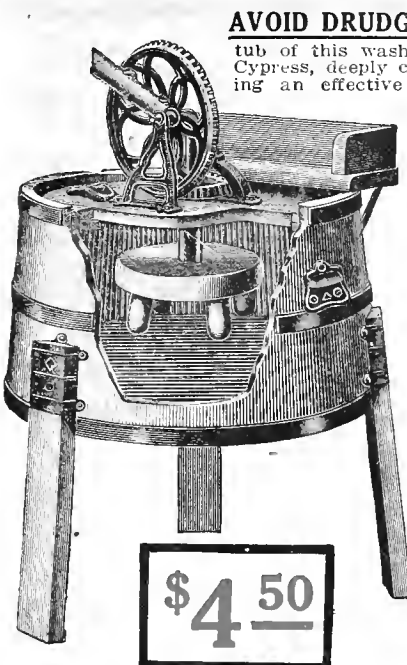

IRON PARTS are carefully finished with enamel paints. The advantage of the enamel paint is two-fold; it improves the appearance of this washer, and at the same time protects the metal from the rust-producing elements.

IF YOU DO NOT already possess a Hartman High Speed Rotary Washer, then you are not yet familiar with the real conveniences which have been achieved by the most modern improvements in this line of manufacture. When you receive this washing machine and have actually used it, you will be absolutely astonished at the marvelous rapidity and thoroughness with which you can do your work. The only regret you will have will be that you did not purchase one of these outfits earlier, and thus save yourself many hours of drudgery. You will find our statements to be true in every detail, and you will wonder how, at this price, we could possibly afford to supply such a complete combination of convenience, efficiency and all-around reliability. Like all our other machines, this washer is supplied under HARTMAN'S IRON-CLAD, UNIQUE, LEGAL, BINDING GUARANTEE, so that you need have no hesitation but can send us your order without a moment's delay. Shipping weight, about 99 pounds.

No. 7K1356. Price only - - - - - \$9.75

WASHERS FOR THE HOME LAUNDRY

Genuine Stratford Washing Machine

\$4.50

AVOID DRUDGERY with this fine washing machine. The tub of this washer is made of Louisiana Red Cypress, deeply corrugated on the inside, making an effective rubbing surface, finished in the natural wood with lasting quality of varnish, and bound by three steel hoops. The four-pronged dasher block is 10 inches in diameter, made of cypress, not likely to split or crack and is corrugated on under side.

THE GEARING is durable, has but few working parts and has roller bearings, which make it run smooth and easy. The high speed of dasher causes increased agitation in the tub, insuring the removal of all dirt from the clothes quickly and thoroughly, having 75-inch revolution. Has improved wringer attachment, securely fastened to the tub, admitting the use of a 12-inch roll wringer.

ALL IRON PARTS are attractively finished, with enamel paints and where necessary are heavily galvanized to protect against rust. Has legs bolted into iron sockets. Drop metal handles and hinged cover. Capacity, eight shirts.

YOU CAN HAVE it to test it in your laundry on approval.
Shipping weight, about 60 pounds.

Champion Winner Oscillating Washer

A PLEASANT MONDAY

will be the result if you use this machine on washday. It is a single-action washer on the rubbing principle, having one oscillating rubber and a stationary rub-board in the bottom of the machine. You will make no mistake by ordering it and it goes out with our unqualified guarantee and endorsement.

\$6.95

IT IS OPERATED

by drawing the triple handled lever backward and forward, thus imparting an oscillating motion to the upper cylinder, the clothes being between it and the stationary rub-board, receive a thorough cleansing by the rubbing principle. It is a thoroughly efficient washing machine.

THE SINGLE HANDLE

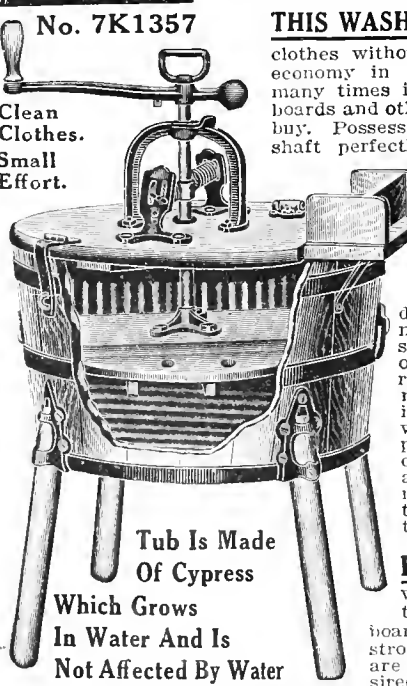

on operating lever over center is devised to produce increased pressure of upper cylinder on clothes; especially adapted for large pieces. Upper cylinder adjusts itself to quantity of clothes washed. Stationary rub-board can be easily removed for cleaning.

HAS WRINGER ATTACHMENT

allowing released water from clothes to flow back into machine. Made of Louisiana Red Cypress, finished in natural state. Shipping weight, 85 pounds.

\$8.25 An Automatic Washer At A Real Bargain Price

Clean
Clothes.
Small
Effort.

Tub Is Made Of Cypress
Which Grows In Water And Is Not Affected By Water

THIS WASHING MACHINE produces clean clothes without hard labor and works an economy in that it should pay its cost many times in tubs, stands, boilers, wash boards and other wash day articles that you buy. Possesses solid piece handle that fits shaft perfectly. Hand hold is of wood smoothly turned, non-slip-ering. In operating, handle is turned only one-fourth around. This automatic washer is easy to run.

EQUALIZING SPRINGS

do the washing and keep the machine in motion. These springs take up one way motion of washer and use it to make reverse motion. You start the machine and it almost runs itself. The lid clamp keeps water boiling hot and reduces possibility of water slopping on the floor. Legs are placed at proper angle to avoid movement of machine; legs are detachable as you can tell from the illustration.

HAND REST for resting one hand while operating machine with the other. Possesses wringer board, large lid, fastened with strong malleable iron hinges which are easily slipped off tub when desired. Agitator presses clothes

down, lower face has heavy corrugations. When operated sends suds surging through clothes making them spotlessly clean. Tub constructed of Cypress wood which grows in water and is impervious to water. Varnish finish. Will render excellent service. The mechanism of this splendid washer is simple in construction and with proper care will not get out of order.

CAPACITY This "Automatic" washer has a capacity of about eight shirts. Is very reasonably priced and endorsed by users all over the country. Shipping weight, approximately 60 pounds.
No. 7K1357. Price, only **\$8.25**

Strong Rotary Washer The New Style Banner

THIS FINE MACHINE

has many points of advantage whose merits are best determined after actual usage. The tub is made of Louisiana Red Cypress, deeply corrugated on the inside, making an effective rubbing surface, finished in natural wood with a lasting quality of varnish.

THE DASHER BLOCK

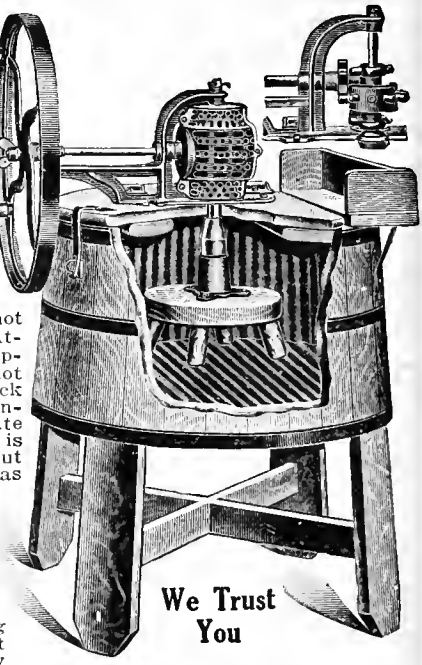

10 inches in diameter, made of Cypress, should not split or crack and is corrugated on under side. Has telescopic dasher post, which does not project through dasher block and consequently does not tangle or tear the most delicate garments. The gearing is durably constructed, has but few working parts and has roller bearings, which make it work smooth and easy.

HIGH SPEED OF

DASHER

causes increased agitation in the tub, insuring the removal of all dirt from the clothes quickly and thoroughly. Gearing is covered with a shield to guard against accidental injury through anyone coming in contact with the mechanism. Lid has detachable hinges and with all gearing attached is enclosed in tub when shipping, thus affording complete protection to these parts. Has improved wringer attachment, securely fastened to tub, admitting of 12-inch roll wringer.

ALL IRON PARTS are attractively finished with enamel and where necessary are heavily galvanized to protect against rust. Capacity, eight shirts. Shipping weight, about 80 pounds.

IN THIS MACHINE

are found the best features of the vacuum principle combined with the advantages of the well known rotary principle, thus assuring the most essential factors to wash quickly and clean perfectly. In no other vacuum washers has this combination of action been produced so effectively. The distinctive construction of the vacuum cup and the automatic action of the air valve produce a veritable tornado of cleansing force, which reaches the clothes at the bottom of the tub as well as at the extreme outer edges, so that no garment escapes the effective cleansing process. On most other vacuum washers, the clothes at the bottom and around the sides of the tub escape the cleansing action almost entirely. For that reason such machines have been found more, or less unsatisfactory. There are many important advantages to this vacuum washer which you will appreciate after putting it to the real test of usage. Some of these are mentioned in the following paragraph. Read them over carefully.

HOT WATER

is very essential to do perfect washing. The vacuum air valve on this washer does not draw cold air into the tub and rapidly cool the water, as is the case with some vacuum washers. Full power of operating lever is applied to vacuum cup driving shaft by means of slotted fulcrum, which at the same time imparts vertical as well as spiral rotary movement to vacuum cup. This construction secures the greatest possible leverage and with aid of high speed fly-wheel makes washer operate with surprising ease. All gears and working parts are protected and therefore accident-proof. Operating handle is adjustable. Is made with extra large tub, having capacity of eight shirts. Constructed of cypress with double reinforced cover in natural finish. All hardware and metal parts galvanized where necessary. Shipping weight, about 90 lbs. **\$11.85** No. 7K1106. Price

"Boss" Water Power Washer

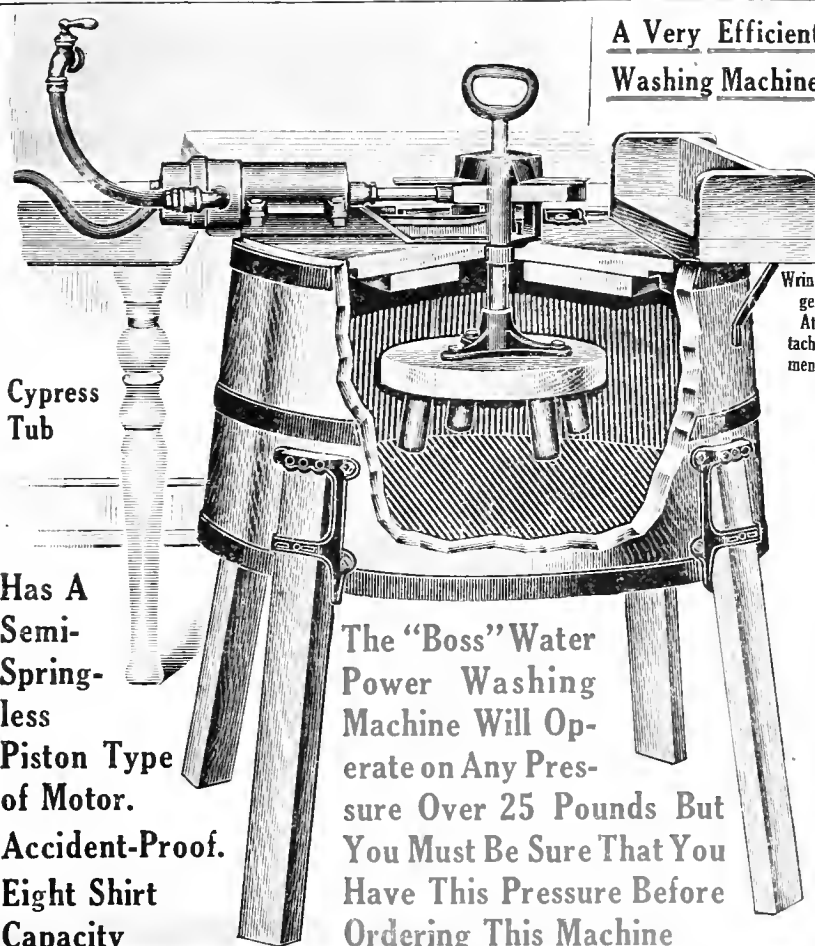

\$15⁶⁵

Merely Connect The
Hose To Your Water
Faucet And The
Washing Machine Does All The
Work. Is Especially Constructed
For High Efficiency on Low Pressure

IT WILL OPERATE

with equal efficiency whether it is used on high or low pressures. That is a point of advantage that is well to bear in mind. The important fact, however, for you to determine before selecting the "Boss" Water Power Washing Machine is that you must be sure that you have at least 25 pounds of pressure. If you have, all that is necessary for you to do is to order this machine, and when you are ready to do your washing, just connect the hose to the water faucet and go about your housework with your mind at ease. You will be care-free on the one day of the week that many women look forward to with dread in their hearts. We have had such success with this water power washer that we feel justified in recommending it to you in the very highest terms. You take no chances, because if it does not please you, we don't ask you to keep it.

THE MOTOR is the semi-springless piston type. Instead of being hammered to their seats at each reversal of the piston, the valves are gently seated by single spring, so placed and made that with ordinary care it will not break. Constructed of brass and phosphor bronze throughout. Has heavy cast brass cylinder rigidly set on heavy bracket having double bearing for dasher post and roller guide for piston—perforated metal screen before inlet port to keep dirt out of motor. Handle on dasher post releases dasher from clothes before opening and closing lid. Dasher adjusts through top of motor. Is accident-proof. Eight shirt capacity. Scientifically built throughout. Motor complete as described with high-grade intake and exhaust hose. Large cypress tub, natural finish, with reinforced top—corrugations on inside—cypress dasher, detachable lid, bolted wringer attachment, detachable hardwood legs as shown, galvanized hardware and castings. All parts are thoroughly reliable and efficient. Shipping weight, about 65 pounds. **\$15.65** No. 7K829. Price

Dependable Paint and Roofing

WHY HARTMAN'S CAN SELL HIGH GRADE PAINT AND ROOFING AT BARGAIN PRICES

It is a very easy matter for a manufacturer to say that his particular paint or roofing is the best in the world. But it is a very different matter for him to prove to his customers that they are the best.

The final test for paint and roofing is in the length of time they wear. For instance, a certain paint may look very fine when it is first put on a house or barn. It may have a beautiful color and shiny luster and to all outward appearance be as fine a paint as anyone could want. But wait. A few terrifically hot days come along. Then it clouds up and rains for a day or so. Again the sun comes out blazing hot and you notice something looks wrong with your nice, fresh coat of paint. You examine it and find that it has begun to blister and peel off. Also, it has begun to fade. You touch it with your finger and find that you can rub it off—that it is more or less powdery. It wasn't such a very good paint, after all, was it? No. And why? Well, in the first

place a poor grade of color pigments was used and also a cheap grade of linseed oil. The pigments were improperly ground, hastily mixed with the oil and the whole mass run off into barrels and kegs and cans, labeled and put on the market as "Fine Ready-Mixed Paint!" No wonder it blisters, cracks, peels off and fades. That kind of paint always does. It may have the color, the luster—the appearance—of good paint, but it does not possess the wearing and preservative qualities.

Practically the same thing may be said about ready roofing. There are no end of different makes and brands of roofings on the market. They all look a great deal alike. But again the final test is in the length of service they give. Nine out of ten warp, crack, get dry and brittle in a few months after they are laid. They can't stand the test of time and weather. A leaky roof is bound to result and they are a constant source of trouble and expense.

AS TO OUR RESPONSIBILITY

Now, when we tell you that REX-KOTE Ready Mixed Paints, Varnishes, Stains, Lacquers and Enamels, and HERCULES GUARANTEED ROOFING are of a high quality, we mean that they will give you years of satisfactory service and will prove a good investment for you.

In making this statement we wish you to take into consideration a few very important facts. Consider first our responsibility. Any statement of a business firm carries weight only in proportion to the responsibility of the firm making the statement.

You can very easily and readily satisfy yourself as to the responsibility of Hartman's. Any bank in Chicago or anywhere, any newspaper, farm paper or magazine will testify to our high financial standing and our business integrity. Hartman's is the largest concern of the kind in the world. Our tremendous capital of more than ten million dollars enables us to offer merchandise of the very highest quality at bargain prices. Hence, we

can give our customers the benefit of prices so low, and terms so reasonable, that if they are in the market for these goods they can not, in justice to themselves, ignore our bargain offerings.

We have been in business for 61 years—AND WE ARE IN BUSINESS TO STAY. Yet even vast millions of capital and more than half a century could not have built up this enormous business had we not always dealt fairly and honestly with our customers—had we not given a legal, binding "your-money-back-if-you-are-not-satisfied" guarantee with every article sold, and stood squarely behind that guarantee with our entire financial strength. That is exactly what we have done; and, as a result, we have today more than one million five hundred thousand satisfied customers and they are to be found in every state in the Union. Any one of them will tell you that Hartman's goods are of thoroughly dependable quality, that Hartman's prices are very low, that Hartman's credit terms are extremely liberal compared with those of others.

WHY WE UNRESERVEDLY AND LEGALLY GUARANTEE OUR PAINT AND ROOFING

Before putting REX-KOTE PAINT and HERCULES GUARANTEED ROOFING on the market we knew that we would sell them on our long time, easy credit terms. Therefore, we knew that they would have to measure up to the high standard of Hartman quality before we would dare go behind them with the Hartman guarantee. In other words, this paint and roofing must be so good that they would prove their quality before the customer finished paying for them. It would not do for us merely to say, "Here is a high grade paint and Hartman high quality roofing." With us it meant that we must not only say that, but that we must also be prepared to prove every word of it and back up the statement with our guarantee or else lose both customers and money. And we don't propose to lose either.

How did we make so sure that REX-KOTE PAINT and HERCULES GUARANTEED ROOFING would make good under the strong claims we put forth for them? Simply because we subjected them to the severest tests that either a paint or a roofing can be put to. Mind you, our more than a million and a half customers are scattered throughout the entire United States. REX-KOTE PAINT and HERCULES GUARANTEED ROOFING cover houses and barns in Maine and in the far Northwest, where they are exposed to the icy blasts of winter for months at a stretch. Likewise they are exposed to the warm, moist climate of the Southern states as well as to the dry, blistering heat of Texas and Arizona. These paints and roofings are extensively used throughout the Middle West, where there are often such sudden changes in temperature that the thermometer will fall as much as 60 degrees inside of 24 hours—a warm, sunshiny day followed by snow, hail and sleet. They are also used on the Atlantic and Pacific coasts, where the salt sea air is exception-

ally severe on paint and roofing. And under all of these varied climatic conditions REX-KOTE PAINT and HERCULES GUARANTEED ROOFING have proved their quality by the test of time. Weather, no matter how sudden or severe its changes may be—no matter how long it may remain hot or cold, or dry or wet, has very little effect on REX-KOTE PAINT or HERCULES GUARANTEED ROOFING. They are made for service—AND THEY GIVE IT! We are only too glad to back them up with the Hartman Guarantee, which is the strongest guarantee ever given by a responsible business concern.

It makes no difference who you are or where you live, all you have to do is to write us if you are not satisfied and we will take care of any and all adjustments—and all adjustments are entirely at your option. We ask no questions; there will be no unpleasantness, no delay, no red tape, no arguments. If we can't save you money and sell you the right kind of paints, varnishes, stains, finishes, enamels or roofing at the right price, and please you thoroughly, we won't argue the matter with you at all. We will return every penny you sent us and any transportation charges you have paid out.

This is our guarantee and back of it is 61 years of honest mercantile reputation, our \$12,000,000 capital, and the solemn pledge of the greatest home-furnishing organization in the world. You risk nothing when you deal with Hartman's. We do not want a dissatisfied customer at any price.

The high quality, low price of our merchandise and easy terms shown on page one, which make every article listed in this catalog a genuine bargain, hold good with our dependable "Rex-Kote" Paint and "Hercules" Guaranteed Roofing just as they do on the other 8,000 Bargains for the home.

REX-KOTE Paints, Varnishes, Enamels, Stains, Etc.

Ready Mixed - Guaranteed

MAKES A NEW HOME OUT OF OLD BUILDINGS

There is nothing that will add more to the attractiveness of your home than the application of a few dollars' worth of high-grade paint, varnish, enamel, stains, etc.

Elegant furniture, dainty hangings, pretty rugs all have their place in a home, yet with unvarnished floors, dirty walls and shabby exterior your furnishings lose half their attractiveness.

Appearances do not furnish the only reason for painting, however. Neglecting to paint has cost many a man many times what he would have had to pay for paint.

The present high cost of lumber makes it absolutely necessary to carefully preserve every stick of lumber that goes into your building by the application of the best paint your money can buy.

Your buildings when kept in repair and properly painted not only present an air of prosperity, but actually have a greatly increased selling value.

PAINTING PAYS BIG DIVIDENDS

An investment in good paint pays large dividends by safeguarding the money you have invested in buildings.

We always advise the use of the better grades of paints on your buildings rather than the inferior extremely low priced kinds. By so doing you effect a greater saving because of their greater wearing qualities.

In the paint sold through ordinary channels there are usually three and sometimes four profits, divided among the manufacturer, the jobber, the salesman and the local dealer. Because of these several handlings, each representing an individual profit, and in order to keep the prices down, the quality of the ingredients must be cheapened. Such paints are not worth the labor of putting on, because they last but a short time and are so thin and worthless that they do not properly protect the wood they cover.

SOLD ON LIBERAL CREDIT TERMS

OFFERED TO YOU AT LOW PRICES

Guaranteed Rex-Kote Paints and Varnishes are sold on the liberal Hartman terms of long time credit. Study the table of terms in the front of this book, they are the terms under which you can buy guaranteed Rex-Kote Paints and Varnishes. Just stop and figure how small an amount of ready cash you require to give your house, your fence, your barn, your roof, that long-needed coat of paint. Why wait until you have saved \$50.00 or even more and then buy paint from your local dealer? Make that improvement now, prolong the life of your buildings by buying a guaranteed paint on the liberal Hartman terms.

There are no strings tied to our offer, there is no trick about this. We trust you for the paints or varnishes you need to protect and beautify your home, just as we trust you for other goods we sell. All we care to know about you is that you are honest and we take your word for it, we don't go to your friends, neighbors and relatives to make extensive inquiries. We have no red tape, your word that you will live up to our terms is all the assurance we require.

There is no more liberal and wide open proposition than ours. We trust you, we ship you a guaranteed paint, you use it, and your judgment whether or not the paint we have shipped you is as represented, is final.

If you say that the paint blisters, peels or chalks, we don't argue, we send you new paint free of charge any time within four years from the date of the original order.

Is there anything fairer than this offer?

We do not govern the quality by the price, but set the price by the quality.

READ OUR IRON CLAD GUARANTEE

We unreservedly guarantee that Rex-Kote No. A1 Ready Mixed House Paints will not crack, peel, blister or chalk if applied in accordance with our directions, and that we will, any time within four years from date of your order, replace free of charge to our customers any Rex-Kote No. A1 paint that does not come up to our claims.

That's why we produce better paints and varnishes, enamels, stains, etc., than many others.

REX-KOTE

Ready Mixed Paints-Durable Varnish

SCIENTIFICALLY MADE IN A

REX-KOTE PAINTS AND VARNISHES

represent a marvelous improvement in paint and varnish making. Years of scientific research and practical experimentation by able chemists have achieved in the manufacture of Rex-Kote Paints and Varnishes products of proven quality, whose merits are shown by actual use. The advanced method of manufacture and the tremendous output of Rex-Kote Paint make it possible for us to give you these superb paints at a price far lower than you pay when you buy ordinary paints. And in addition to the saving you make, you receive the full protection of our strong guarantee.

ALL PAINTS AND VARNISHES

are sold by us under our guaranteed Rex-Kote Brand are of a high standard of quality. They are made in one of the largest, most modern and most scientifically equipped Paint and Varnish factories. Nothing is left undone to make our Guaranteed Rex-Kote products the very acme of perfection, and we know that in offering our customers guaranteed Rex-Kote ready mixed House and Barn Paints, Enamels, Stains and Varnishes, we are placing on the market thoroughly high grade paints and varnishes, and we back these products with our reputation of 61 years of honest and successful merchandising.

THE FACTORY

has been equipped with every labor-saving machine known to the Paint Makers; this

insures efficiency and low cost of production. The factory layout is such that there is no unnecessary handling of materials; this means more efficiency and still lower cost of production.

**PAINT NOW
AND
PAY LATER**

and still lower cost of production.

How they are made

FINE, MODERN PAINT PLANT

THE FORMULAS

after which our paints are mixed are old and tried through many years of paint making. This insures a uniform paint all the time. We stopped experimenting years ago and that means more saving. These formulas are worked out carefully by chemists whose specialty has been paint making for years, and each kind of paint has a formula of its own. Then, when a paint is mixed according to its formula, the chemist tries some of it, it gets exposed to the weather, it is subjected to sun, rain, heat and cold, and if it appears that any changes in the formula are necessary to better the wearing quality of the paint, they are made, and another trial is given, and so on until the chemist is satisfied that with the proper ingredients he has a paint that is just right, and such are our Guaranteed Rex-Kote Paints and Varnishes, not an experiment but tried and proven products.

THE INGREDIENTS

used in the manufacture of Rex-Kote Paint and Varnish products are the best money can buy, and when we say Best we mean just that—best in every sense of the word, best linseed oil, best turpentine, best Japan dryer, best white lead, best zinc oxide, best dry colors, best gums. Every item of raw material needed to make our paints and varnishes is scientifically tested in the laboratories of the factory by the most expert Paint Chemists of the country, and must come up to our high standard of quality before one item of it is allowed to go into the factory. This means

that the finished product when sold to our customers is made as carefully, as scientifically, and as good as is possible, and we cheerfully guarantee it by our strong, binding guarantee.

**YOUR
CREDIT
IS GOOD**

**They are
Guaranteed**

FIRST OPERATION

MIXING THE OILS AND PIGMENTS. Enough oil is added and mixed into the pigments to prepare them for the grinding machines. After a thorough mixing the pigments travel through a tube or pipe directly into the grinding machines on the floor below.

SECOND OPERATION

THE GRINDING MACHINES. The particles are crushed by powerful millstones until fine enough to form an impervious film. Each machine weighs 2,500 pounds. Still another operation is necessary, and so the pigments pass to the floor below through the large pipes shown in the illustration.

THIRD OPERATION

THE AGITATORS. Sufficient oil is added to the ground pigments to secure the proper consistency and the mixture is stirred, by large paddles, until a perfect paint is formed.

WHY REX-KOTE READY MIXED PAINTS ARE SUPERIOR TO ANY HAND MIXED PAINTS

It has taken many years to educate painters and property owners to appreciate the high quality of ready mixed paint, and actual service has had more to do toward proving this superiority than all the advertising in the world. Paint mixed by hand cannot be as well mixed as paint ground and re-ground by machinery. By mixing our paints in enormous quantities we are able to secure a uniform color that is practically impossible in paints mixed by hand. When the pigments are thoroughly

ground with the oil, the spreading qualities of the paint are noticeably improved and, because of this fact, are the most economical. It has been repeatedly proven that where two neighboring houses have been painted at the same time, one with the ready mixed paint and the other with the hand mixed paint, the hand mixed paint showed the effects of the weather in about half the time and was far inferior to the ready mixed paint.

BIGGEST PAINT BARGAINS WE HAVE EVER OFFERED

From any viewpoint our fully guaranteed Rex-Kote House Paint No. A-1 is unquestionably one of the biggest paint bargains we've ever offered. First, it is guaranteed by the great Hartman Concern, with every last cent of its enormous resources; secondly, it is sold to you on credit, so that while you are paying for it you have a chance to watch how well it wears; lastly, the price at which we sell it, even on our liberal credit terms, is no higher than the prices asked by many for grades inferior to Rex-Kote House Paint No. A-1.

You should bear in mind, however, that in paints, like in other goods, there are various qualities. It is much better in your own interest to always

select the best; it may cost a trifle more in the beginning, yet in the end it will be much cheaper. The best grades of paint will cover more surface, will look better, will retain their color longer, will keep their elasticity for a greater number of years. The oil film, which is the real protector of the wood surface, will not dry out and crack on the A-1 quality for years and years, and we recommend to you in all sincerity that when considering the purchase of paints, you select for the greater economy and better satisfaction, A-1 Rex-Kote Paints.

We furnish it in 30 different colors, which are illustrated on page 405. Don't forget to give name and number of the color you want. It will avoid errors.

OUR SECOND QUALITY

This is our second quality in Rex-Kote House Paint. It is designated as No. 2. It would be against our long established policy of honest dealing to tell you that this grade is as good, as serviceable, as economical as our Rex-Kote No. A1. When buying paint it is well to remember that the best is the really economical and most satisfactory in the long run.

However, if you desire, we can furnish you with Rex-Kote Ready Mixed House Paint, No. 2, and give you a fairly good article, which is made in our factory from ingredients carefully selected and tested. We will stand back of this paint with a limited guarantee, but we say to you in all frankness that you will be money ahead if you select our Rex-Kote No. A1—it will give you much better satisfaction.

Rex-Kote Ready Mixed House Paint No. 2 comes in 22 different colors, which are shown on page 405. In your selection refer to these colors and be sure that you mention the name as well as the number of the color you want.

We guarantee that this Rex-Kote No. 2 Ready Mixed House Paint will not crack, peel, blister or chalk if applied in accordance with our directions and that we will any time within 3 years from date of your order, replace, free of charge to our customers any Rex-Kote No. 2 Paint that does not come up to our claims.

Ordinary house paint will not do for porch floors, because it is not made for that purpose and will never give satisfaction. Our Rex-Kote Porch Floor Paint is especially made to stand the wear of outdoors. It will resist the destructive influence of rain, snow and ice, and the wear of walking over it. We have combined oils, gums and pigments in such a manner that we produce a tough, hard drying, yet elastic floor paint that is especially well fitted to stand extreme usage. For colors see page 406, and mention the catalog number.

REX-KOTE MINERAL BARN PAINT No. 1

Ready Mixed - Guaranteed

Your farm buildings kept in repair and well painted are not only more pleas-

ing to the eye, but add a selling value to your property many times the small cost and labor involved in keeping them in first-class condition.

Rex-Kote Mineral Barn Paint No. 1 is compounded by one of the most expert paint chemists in the country and possesses peculiar properties not common in ordinary barn paint. It is unexcelled as a preservative, which we recommend specially for structural iron work, barns, grain elevators and the like. It is absolutely weatherproof, under most trying conditions. It is acknowledged by all who have used it to be a most durable preservative of wood. It is ground to unusual fineness by modern up to date machinery, both minerals and oils being thoroughly ground and re-

ground together. You may use it with the confidence that we stand back of it with our guarantee should it not prove to be just as we claim.

Whether you have had experience in painting or not, you can easily do a first class job with this paint if you just follow our simple directions.

One gallon of this Guaranteed Rex-Kote Mineral Barn Paint No. 1 will cover about 250 square feet of surface, two heavy coats, and sometimes much more, depending on the conditions of the structure.

Remember, this No. 1 Mineral Barn Paint is covered by our strong guarantee, and if it does not come up to our claims we will, any time within 4 years, replace it free of charge to you.

We make this Rex-Kote Barn Paint in 2 colors, bright red and brown. See the color illustrations on page 496. Don't forget to mention the color you want.

The Kind of Brushes to Use with Barn Paint.

For painting the walls of barns, sheds, etc., use a No. 10K270 wall brush, 4 or 4½ inches in width. For fences use the same brush, but narrower, 3 or 3½ inches in width.

REX-KOTE Mineral BARN PAINT No. 2

Ready Mixed - Guaranteed

If a second quality paint will answer your purpose, or if you simply want to improve the appearance of your buildings where length of wear is a secondary consideration, then order this Barn Paint No. 2, which we can guarantee to give satisfaction. However, it does not compare with our No. 1 Barn Paint in covering quality, neither will it wear as well. For the slight difference in cost you will be better satisfied with the higher grade No. 1 Paint, and you will be more money ahead by using it. It is, however, made good enough to be covered by our guarantee of satisfaction, and we will replace it free to you any time within three years if it does not give satisfactory wear. It is made in red and brown as shown on page 496. Colors are not so perfect as Barn Paint No. 1.

REX-KOTE SHINGLE STAIN

Ready Mixed Guaranteed

Too much stress cannot be laid on the necessity of preserving your shingle roof and protecting it against the weather.

Rex-Kote Shingle Stain is a paint as well as a wood preservative—a combination of pure, strong colors, ground very fine and thinned with refined creosote and oils that double the life of shingles. It is better than paint for shingles, as it does not clog the surfaces; it leaves a clear, non-porous roof, and it will not affect the rain water which runs off the roof into your cistern.

Two and one-half gallons of Rex-Kote Shingle Stain will saturate 1,000 shingles, dipping them, or a gallon will cover from 100 to 125 square feet of roof surface when applied with a brush. We furnish Rex-Kote Shingle Stain in 6 colors as shown on page 496. Specify color you want.

REX-KOTE Linseed Oil ROOF PAINT

Ready Mixed-Guaranteed

Rex-Kote Roof Paint is one of the best substances known for repairing roofs and keeping them in good condition. It preserves shingles, tin, iron or felt from the action of the weather and will make an ordinary roof last many years longer. Can also be used for structural iron work, iron tanks, iron shutters, steel bridges, stand-pipes and fire-escapes. It is an excellent damp-proof coating on brick and concrete cellar walls, when heavily applied on the outside of the wall.

Apply very heavily when painting the roof; a good thick coat of Rex-Kote Roof Paint is equivalent to an extra layer of felt.

Thus you will get the full benefit of the weather-enduring qualities of natural asphalt and linseed oil.

Linseed Oil Rex-Kote Roof Paint is guaranteed free from rosin. It is made from natural asphalt, linseed oil and other suitable ingredients which form a combination that is waterproof, acid-resisting and impervious to atmospheric and climatic conditions. When dried, it forms a waxy coat (not sticky and not brittle), therefore does not run when exposed to the rays of the hot sun, neither does it crack when covered by snow or ice.

Comes in black, maroon and green. Will cover about 250 square feet per gallon, one coat.

Rex-Kote Black Carbon Paint

An excellent low-priced black paint for smoke-stacks, iron fences, bridges, fire-escapes, felt and composition roofs. It does not compare in elasticity or wearing qualities with our LINSEED OIL REX-KOTE ROOF PAINT, but at the price we sell it is a very satisfactory product. Has been giving excellent service to thousands of users. For sheds or structures that in the course of a few years will be removed or torn away, it is an ideal preservative at a low cost. Will save its cost many times over by the protection it affords.

Rex-Kote Black Asphalt Paint

We take the asphalt as it comes in hard form, and thin it out with California Liquid Asphalt, then temper it with Trinidad Semi-Hard Asphalt, and blend it in a boiling process with semi-volatile oils so as to keep the product in liquid form ready for use. An unequalled preservative for all kinds of iron work, felt, metal and composition roofing. A splendid damp-proof coating for cement and brick basement walls if applied on the outside of wall.

Rex-Kote Auto, Carriage and Buggy Paint

Is a very durable and beautiful color, ground and mixed in copal varnish. It is ready for use and if applied in accordance with our simple directions will refinish your auto, carriage or buggy entirely satisfactorily. You can do the work yourself. For an automobile or carriage use about 1/2 gallon, for a buggy one quart can is usually sufficient. The paint dries with a high lustre, which it will retain for a long time, even though it is subjected to destructive influence of mud, dust, soap and water. Order by catalog number and name of color.

Rex-Kote Wagon and Implement Paint

Primarily intended for repainting of farm wagons and farm implements to keep them looking new and bright. It has been conclusively proven by farm experts that ordinarily wagons and implements last about 6 years if not placed under roof and kept in paint, but that where care has been taken to give each wagon and each piece of implement one or two coats of Rex-Kote Wagon and Implement Paint in a year, they would last almost indefinitely. You will find it a lot cheaper to buy Rex-Kote Paints for your implements than to buy new implements.

REX-KOTE High Gloss Durable VARNISHES

Fully Guaranteed

Rex-Kote Varnishes approach perfection. Made at the Rex-Kote plant, every ingredient that goes into them is carefully analyzed for purity and quality. The manufacturing process is as scientific and practical as experience, skill and modern apparatus can make it. The product goes to you backed by the Hartman legal, binding guarantee of satisfaction.

REX-KOTE HIGH GLOSS EXTRA DURABLE FLOOR VARNISH

A varnished floor takes away 75 per cent of the drudgery of keeping the home clean, because it can be cleaned in a few moments with a damp cloth. Rex-Kote Varnish is indispensable for finishing off all kinds of floors. Has just the right body to make it stand up under the most severe wear; dries in 6 hours to walk on it. Natural amber color. Does not darken with age. Water and soap will not injure the brilliant lustre of it, heel marks have no effect on the elastic surface, furniture can be moved over it without marring or scratching. A nicely decorated residence should have smooth, lustrous floors, and these you can secure if you purchase Rex-Kote high-gloss, extra-durable floor varnish. Satisfactory results will justify your selection.

\$2.22 PER GALLON IN 5 GALLON CAN **\$2.39** PER 1 GALLON CAN **\$1.30** PER 1/2 GALLON CAN **71c** PER 1 QUART CAN

REX-KOTE DURABLE FLOOR VARNISH

Not the equal of our High Gloss, Extra Durable Floor Varnish. Of amber color, very elastic, easy flowing and quick drying, which is good enough to live up to our iron-clad guarantee. Will make old floors and interior woodwork look like new, with a brilliant finish. If applied with care and in accordance with our directions, will not crack, check or show scratches. Will dry, dust free, over night.

No. 10K428. REX-KOTE DURABLE FLOOR VARNISH **\$1.76** PER GALLON IN 5 GALLON CANS **\$1.86** PER 1 GAL. LON CAN **\$1.04** PER 1/2 GAL. LON CAN **59c** PER 1 QUART CAN

REX-KOTE EXTRA FINE FURNITURE VARNISH

Used by furniture manufacturers all over for the very finest furniture. We guarantee this varnish to give the very finest gloss finish, dry quickly and produce a hard, yet elastic surface which will not mar or show scratches; neither will water affect it in any way. Can be rubbed to high polish.

No. 10K429. EXTRA FINE FURNITURE VARNISH **\$1.56** Per Gallon in 5 Gallon Can **91c** Per 1/2 Gallon Can **\$1.64** Per 1 Gallon Can **52c** Per 1 Quart Can

REX-KOTE FURNITURE VARNISH

For making old furniture look like new, this varnish is especially desirable. It dries hard with a gloss finish in six hours. Is easily applied, will flow evenly and bring out the natural grain of all woods. Can be used also in touching up doors, window frames and other woodwork.

No. 10K430. FURNITURE VARNISH **\$1.05** Per Gallon in 5 Gallon Can **66c** Per 1/2 Gallon Can **\$1.15** Per 1 Gallon Can **40c** Per 1 Quart Can

REX-KOTE CHURCH & SCHOOL SEAT VARNISH

Exceptionally hard drying furniture varnish, especially made to finish chairs for school and church use. Will not soften or get sticky from heat of the body. It dries with a bright luster, dust free, in 10 hours, and will thoroughly harden in 40 hours.

No. 10K431. CHURCH AND SCHOOL SEAT VARNISH **\$2.08** Per Gallon in 5 Gallon Can **\$1.19** Per 1/2 Gallon Can **\$2.18** Per 1 Gallon Can **65c** Per 1 Quart Can

REX-KOTE FINE INTERIOR VARNISH

Made of good grade of gums, this varnish is especially adapted for interior woodwork and furniture, except chairs. Will dry with a rich luster and can be rubbed if a high polish is desired.

No. 10K432. FINE INTERIOR VARNISH **\$1.35** Per Gallon in 5 Gallon Can **82c** Per 1/2 Gallon Can **\$1.52** Per 1 Gallon Can **47c** Per 1 Quart Can

REX-KOTE EXTRA LIGHT HARD OIL FINISH

An unparalleled light colored finish for all interior woodwork, except floors; will bring out the natural grain of the wood beautifully. Dries, dust free, in from 5 to 6 hours and sets hard in 24 hours. Particularly adapted for new work on loose-grained or porous wood. Apply with flat 4-inch brush.

No. 10K433. EXTRA LIGHT HARD OIL FINISH **\$1.50** Per Gallon in 5 Gallon Can **89c** Per 1/2 Gallon Can **\$1.60** Per 1 Gallon Can **53c** Per 1 Quart Can

REX-KOTE HARD OIL FINISH

Adapted for finishing interior work of all kinds. As a sizing for plaster walls, when thinned out with equal parts of turpentine, it cannot be surpassed for the money. It is of light amber color, is free flowing and will dry quickly with a rich gloss. It is very suitable for new work, especially on soft, porous wood.

No. 10K434. HARD OIL FINISH **\$1.26** Per Gallon in 5 Gallon Can **78c** Per 1/2 Gallon Can **\$1.37** Per 1 Gallon Can **44c** Per 1 Quart Can

REX-KOTE INSIDE SPAR VARNISH

We are willing to match this inside spar varnish against any other varnish for clearness, body, lustrous finish and elasticity. No matter what you pay for varnish you can get nothing that will give better satisfaction. For interior work of all kinds it has no equal. Flows easily under the brush; sets, dust free, in 8 hours; dries hard in 43 hours, and can be rubbed to a high polish.

No. 10K435. INSIDE SPAR VARNISH **\$2.08** Per Gallon in 5 Gallon Can **\$1.20** Per 1/2 Gallon Can **\$2.18** Per 1 Gallon Can **64c** Per 1 Quart Can

REX-KOTE OUTSIDE SPAR VARNISH

For outside use this spar varnish is recommended as very desirable. Can be used for all outdoor purposes for which varnish is in demand. Is made from high-grade gums and oils and the ingredients are so compounded that the product will successfully withstand the inclemencies of all weather conditions. Heat or cold will not affect it and water will not injure it. Apply over thoroughly clean surfaces with soft varnish brush 2 1/2 to 3 1/2 inches wide, according to the work you are to do. Will dry with glossy surface in about 40 hours.

No. 10K436. OUTSIDE SPAR VARNISH **\$2.39** Per Gallon in 5 Gallon Can **\$1.34** Per 1/2 Gallon Can **\$2.50** Per 1 Gallon Can **74c** Per 1 Quart Can

REX-KOTE VERY FINE CARRIAGE VARNISH

For finishing fine automobile, carriage and buggy bodies. Gives a smooth, brilliant surface, is very easy to apply, will not darken or discolor any light shade. A coat of varnish every now and then will preserve the paint of your pleasure vehicle considerably. Any money spent on varnishing will be more than saved in the better condition of your machine, carriage or buggy.

No. 10K437. CARRIAGE VARNISH **\$3.34** Per 1 Gallon Can **89c** Per 1 Quart Can **\$1.69** Per 1/2 Gallon Can **52c** Per 1 Pint Can

REX-KOTE ONE COAT COACH VARNISH

One coat of this coach varnish over slightly dull looking auto or carriage bodies will put on a new luster and preserve the paint for a long time. Will make the vehicle look new at a very moderate cost. Will harden in 3 to 4 days, according to temperature and weather conditions.

No. 10K438. COACH VARNISH **\$3.33** Per 1 Gallon Can **89c** Per 1 Quart Can **\$1.72** Per 1/2 Gallon Can **50c** Per 1 Pint Can

REX-KOTE WAGON AND IMPLEMENT VARNISH

Made expressly for the hard use it will be put to when applied to wagons and farm implements. Is a fine varnish for general outdoor purposes; has good body and will dry quickly with a rich luster. Used on wagons, drays and farm implements after a fresh coat of paint has been applied, it will preserve the paint and lengthen the life of it considerably. Applied over paint that has become dulled from exposure, it will bring new life into it and save the expense of a new coat of paint.

No. 10K439. IMPLEMENT VARNISH **\$1.92** Per 1 Gallon Can **60c** Per 1 Quart Can **\$1.08** Per 1/2 Gallon Can **33c** Per 1 Pint Can

REX-KOTE (Gloss Lacquer) VARNISH STAINS

Ready Mixed Guaranteed

REX-KOTE VARNISH STAINS (GLOSS LACQUER)

This is about the most useful product of the paint industry and is without doubt one of the most wonderful wood finishes ever produced because of its brilliancy of colors and lasting qualities. Is far superior to the ordinary wood finishes. It is so easily applied that the most inexperienced can use it and it is offered at a price so low that it makes it possible for you to make old and scratched pieces of furniture look as good as new at an expense of a few cents, and the finished work will be almost as satisfactory, and about as rich and beautiful as if it had been done by an expert painter or cabinet finisher. Indeed, the greatest merit of Rex-Kote Varnish Stains lies in this one quality—that it does not require expert handling to produce satisfactory results. It is put up by us ready for use; nothing is to be added by the purchaser; just open the can, pour a little of the liquid into a saucer or cup and brush it on the piece of furniture or the woodwork you wish to decorate, following the very simple directions we send with the can, and in twenty-four hours' time the newly decorated piece of furniture or woodwork will be ready for use. Apply with a flat 2½-inch varnish brush. It will make an oak finish out of walnut finish, and later on, if wanted, will change the oak finish to mahogany. It is wonderful the amount of artistic brightening up you can do with Rex-Kote Varnish Stain. We have been in the Furniture Business for 61 years and thoroughly understand the requirements of an efficient Varnish Stain—we proclaim Rex-Kote absolutely perfect.

The full line of colors in which Rex-Kote Varnish Stain is made is illustrated on page 406. There are 9 different natural wood finishes and one ground color. When making your selection don't fail to tell us what finish or color you want, and don't fail to order ground color when you want to change the finish of a piece of furniture from one color to another.

\$2.00 PER 1 GALLON CAN \$1.09 PER 1-2 GALLON CAN 61c PER 1 QUART CAN 37c PER 1 PINT CAN

REX-KOTE WHITE SHELLAC

Like orange shellac, the white shellac is a necessity as a first or prime coat in finishing pianos, furniture or fine interior woodwork. It should be used on such articles as are to have no color or a very light natural finish. White shellac dries in from 2 to 4 hours, comes put up in tightly sealed cans ready for use. Can also be used to cover up knots in gummy spots on sappy woods before painting. Order by catalogue number and be sure to state that you want white shellac.

No. 10K441. REX-KOTE WHITE SHELLAC

**\$2.24 PER 1 GALLON CAN | 69c PER 1 QUART CAN
\$1.26 PER ½ GALLON CAN | 38c PER 1 PINT CAN**

REX-KOTE ORANGE SHELLAC

Shellac is used by finishers as a first or priming coat on pianos and fine furniture. It dries quickly in from 2 to 4 hours, is transparent and fills the pores of the wood, at the same time accentuating the natural grain of the wood. We do not recommend the use of liquid filler on pianos, fine furniture or store fixtures as a prime or filler coat. Shellac is the proper substance and is very much more satisfactory. Use orange shellac only on furniture, pianos or store fixtures when they are to be refinished in dark oak, mahogany or some other dark finish.

No. 10K443. REX-KOTE ORANGE SHELLAC

**\$2.24 PER 1 GALLON CAN | 66c PER 1 QUART CAN
\$1.21 PER ½ GALLON CAN | 37c PER 1 PINT CAN**

REX-KOTE OIL STAIN

A very fine stain for new interior wood work. Will imitate any natural wood finish. It cannot be used over painted or varnished surfaces. If directions are followed the most pleasing results will be had. Use liquid wood filler as a prime coat on open grained woods.

Apply the stain, after 24 hours finish off with 2 coats of Rex-Kote varnish and the result will be very gratifying. Comes in the following colors:

**CHERRY—LIGHT OAK—ANTIQUE OAK—DARK OAK
ROSEWOOD WALNUT MAHOGANY**
Don't fail to state color wanted and give catalog number.

No. 10K445. REX-KOTE OIL STAIN

**\$1.77 PER 1 GALLON CAN | 54c PER 1 QUART CAN
99c PER ½ GALLON CAN | 30c PER 1 PINT CAN**

REX-KOTE LIQUID WOOD FILLER

Rex-Kote liquid wood filler is what its name implies, a filler, or first coat. When varnishing a new floor use wood filler as a first coat. It dries quickly in about 10 hours, fills the pores of the wood and will save that much varnish as it has taken wood filler to put on the first coat. For sizing plaster about to be painted it is without an equal; in fact, for any purpose as a first coat to prepare the surface for painting or varnishing liquid wood filler is the best.

No. 10K447. REX-KOTE LIQUID WOOD FILLER

**\$1.17 PER GALLON IN 5 GAL. TON CANS | 73c PER ½ GALLON CAN
\$1.26 PER 1 GALLON CAN | 42c PER 1 QUART CAN**

REX-KOTE GOLD BRONZE

A rich, deep gold bronze, suitable for the many uses about the home where a gold finish is desired. Liquid and bronze powder are put in a friction top can in separate compartments; you make the mixture just before using. If you are careful not to mix more than the required amount, you will make a small can last a long time, for the friction top of both compartments of the can close air tight and the liquid does not evaporate. There is no banana oil used in the preparation of the liquid, hence there is no obnoxious odor from the gold bronze. Used on radiators, picture frames, etc., it will not tarnish.

No. 10K442. REX-KOTE GOLD BRONZE

55c PER ½ PINT CAN 29c PER ¼ PINT CAN

REX-KOTE ALUMINUM ENAMEL

Gives a rich silver aluminum finish to a radiator, registers, stove fittings from which the nickel plating has worn off, etc.

Comes in 2 compartment friction top can, which keeps powder and liquid separate until you mix it, when ready to use it. It is put up in 3 different sizes as listed below. Apply with a soft flat brush 1 to 1½ inches wide.

No. 10K444. REX-KOTE ALUMINUM ENAMEL

**65c PER PINT CAN } 36c PER ½ PINT CAN
20c PER ¼ PINT CAN**

REX-KOTE SCREEN ENAMEL

Fly screens, screen doors and screened porches should for economical reasons as well as for appearance's sake, be painted once a year. You will find that it pays well; if you follow this rule your screens will never rust and will last indefinitely. We make this screen enamel in 2 colors, black and green, and put it up in 4 different size cans.

Rex-Kote screen enamel is made just right, dries quickly, but does not clog the mesh, is extremely durable and one coat well applied will make old rusty screens look like new.

No. 10K446. REX-KOTE SCREEN ENAMEL

**\$1.69 PER 1 GALLON CAN | 24c PER 1 PINT CAN
44c PER 1 QUART CAN | 16c PER ½ PINT CAN**

REX-KOTE BLACK GLOSS STOVE PIPE ENAMEL

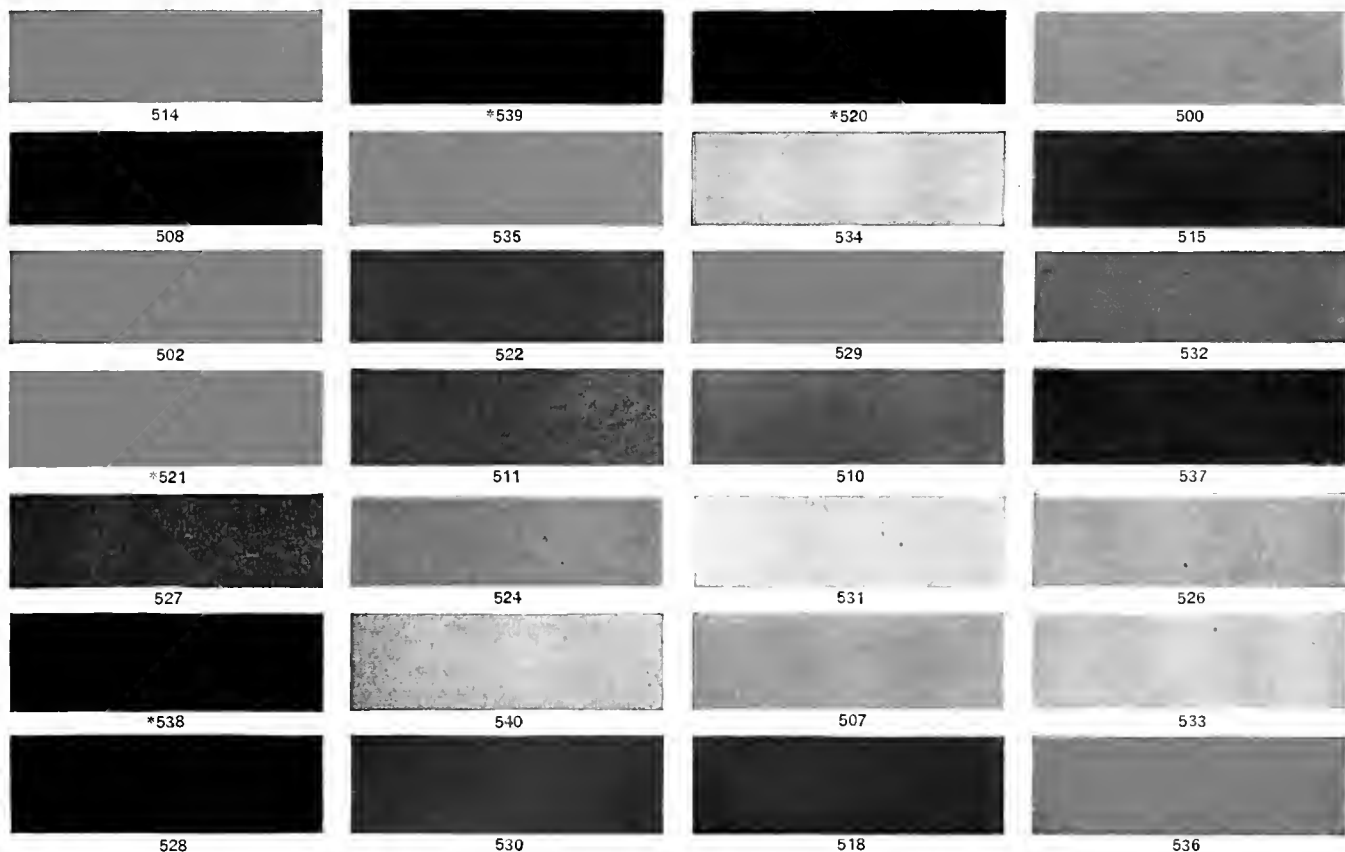

A glossy, quick and hard drying enamel suitable for covering stovepipes, steel ranges, gas-stoves, boiler fronts, steam pipes, furnaces and furnace pipes, iron porches or lawn rails. Will not peel or burn and dries with a rich, deep black finish. Comes put up in friction top cans ready for immediate use. Apply with a soft, flat brush 1½ to 2 inches wide.

No. 10K448. REX-KOTE STOVE PIPE ENAMEL

41c PER QUART CAN | 23c PER PINT CAN

SANITARY FLAT-WALL FINISH

Ready Mixed
Guaranteed

The new Sanitary Flat Wall Finish is another triumph of the Rex-Kote Paint Works, made to supply the need of a delicate and attractive germ-proof wall covering. After years of experimenting we have succeeded in bringing out a hard, flat drying oil paint that forever does away with the old-time, unhealthful and unsanitary kalsomine and wall paper for bedrooms, library, pantry or kitchen decoration. Rex-Kote Sanitary Flat Wall Finish is washable; it is economical; its first cost is less than that of wall paper and it will last ten times as long as kalsomine and always look better.

Rex-Kote has all the properties of paint except the high luster, which is not desired in some interior work. Rex-Kote Flat Wall Finish can also be used as a base for enameling, and is superior to all other first coatings. One gallon will cover about 200 square feet. You buy it with our guarantee that it will give complete satisfaction.

HERCULES GUARANTEED ROOFING

GUARANTEED ROOF PROTECTION

The roof is more continuously exposed to the weather than any other part of a building. Therefore, in the construction of any roofing material, its weather-proof and wear-resisting features must receive first consideration. Hence, when we decided to enter the roofing field, we determined that we would bend all our energies toward the production of roofing which could be absolutely depended upon to be of the high quality that a combination of years of experience, skill, modern machinery and unlimited capital could produce.

HIGH GRADE ROOFING AT MONEY SAVING PRICES

We occupy a position entirely different from the ordinary roofing manufacturer because we depend upon the continual patronage of our customers, not only for roofing but for their home furnishing requirements as well—not only for the present but for years to come. Therefore, we must see to it that you get your money's worth in ever purchase.

Roofing good enough to be sold to you on small easy credit payments must indeed be of a very high quality—it must be a roofing without a flaw and without the slightest objection.

Our Hercules guaranteed roofing has reached a very high point of perfection in roof covering and compares very favorably with roofing sold by others on a strictly cash basis.

Reason for yourself why we successfully compete with all others and give our customers astounding values. We are the Largest Credit Company in the world with a capitalization of Twelve Millions of Dollars, with customers in every state in the country, numbering more than one million five hundred thousand. Because our output on roofing is enormous, every inch guaranteed with the broadest guarantee ever given—manufacturing costs are reduced down to the lowest fraction permitting of perfect quality at real genuine bargain prices. Because we are satisfied with one reasonable profit our prices are rock-bottom.

ABSOLUTELY UNIFORM IN QUALITY

Every inch of Hercules roofing is just exactly the same as every other inch, its quality is the most uniform ever achieved in Ready-Made Roofing. It is not only composed of truly remarkable wear-resisting, element-resisting materials, but is so nearly uniform in its construction and manufacture that we give it our hearty endorsement. Our experts go on the theory that if roofing is made uniform, the same throughout, that it must give out all at one time or keep in perfect shape all the time. A chain is no stronger than its weakest link, a roofing is no stronger than its weakest inch and if there are no weak inches, then how can the roofing ever show wear? Hercules Roofing should give longer wear than we guarantee it to give—it's made that way.

RUST-PROOF—WATER-PROOF—WEATHER-PROOF

Our Hercules Guaranteed Roofings are proof against rain or snow, heat or cold. Climatic conditions and sudden changes in temperature have no perceptible effect upon them. They can be used in any part of the world—in tropical or polar regions with equally satisfactory results. For that reason you need feel no hesitancy in ordering this roofing from us. We have all grades for all purposes. Every grade is fully guaranteed.

ROOF YOUR HOUSE AT OUR RISK

Roof your house or barn at our risk, no matter where you live. We don't ask you to take our word for a single statement. We will let Hercules guaranteed roofing prove its superior qualities to you in actual test. You lay the roofing in accordance with our directions at our risk. Let it be exposed to all the wearing and tearing strain that storm, rain, and snow can give it. Let the sun beat down on it, let the cold freeze it. While you are paying for it, Hercules Roofing will be silently proving to you its fine quality by actual service. If it does not come out unharmed we will make good to you.

HOW TO FIND THE QUANTITY NEEDED

To find the quantity of roofing required for your house, measure the length of the rafters and multiply this dimension by the length of the building; this will give you the number of square feet needed for one side of the roof; double this amount and divide by 100; the answer is the number of rolls of roofing you will need.

Don't waste money on tin roofs that rust into holes, and wood shingle roofs that rot away.

HERCULES GUARANTEED ROOFING

HERCULES GUARANTEED REVERSIBLE ROOFING

- 1-PLY, WEIGHT 35 LBS. PER ROLL GUARANTEED TO WEAR 2 YEARS
 2-PLY, WEIGHT 45 LBS. PER ROLL GUARANTEED TO WEAR 3 YEARS
 3-PLY, WEIGHT 55 LBS. PER ROLL GUARANTEED TO WEAR 5 YEARS

A strong and serviceable roofing which can be laid with the flint surface or the rubber finish to the weather, according to your preference. This roofing is ideally adapted to cover temporary shelters that will be removed in a year or two. Will also make an

inexpensive covering for side walls of summer houses, poultry shacks, etc.

It comes in rolls 32 inches wide, containing 108 square feet of roofing, and each roll will cover 100 square feet of roof surface. Sufficient nails and cement are packed inside the rolls for laying.

USE HEAVY WEIGHT ROOFING—IT'S GOOD ECONOMY

- No. 10K387—1-PLY REVERSIBLE ROOFING, PER ROLL 108 SQ. FEET, PRICE \$1.21
 No. 10K388—2-PLY REVERSIBLE ROOFING, PER ROLL 108 SQ. FEET, PRICE 1.60
 No. 10K389—3-PLY REVERSIBLE ROOFING, PER ROLL 108 SQ. FEET, PRICE 2.02

OUR GUARANTEE PROTECTS YOU

You take no risk. You have the opportunity of testing the roofing in actual use while paying for it on our easy credit terms. We guarantee that you get your money's worth in Hercules guaranteed roofing; that your roof expense is greatly reduced, that your buildings are covered with a roofing that will last many years.

If laid properly and in accordance with our directions it will wear and give satisfaction for a longer term of years than guaranteed. Hercules guaranteed roofing will make good, or if it doesn't, we will make good to you.

SOLD ON LIBERAL CREDIT TERMS

The price you pay for Hercules guaranteed roofing is based on what it costs to manufacture. The price we ask is the lowest that we can make and maintain our high standard of quality. We could cheapen our roofing by using coal tar and other low priced ingredients, thus being enabled to produce roofing at a lower price, but it would not be as satisfactory and long lasting as our roofing, which is made from roofing felt saturated with an asphalt solution. We sell you all the Hercules Roofing you need on our liberal credit terms (See Page 1 for Table of Terms). Our credit is of the truly liberal kind.

READY TO LAY

Anyone can lay Hercules guaranteed roofing. It requires no previous experience, no skill—you can't lay it wrong if you try. You don't need a kit of tools or any kind of equipment; every roll of our roofing contains more than enough suitable nails, all the binding cement required and also full directions how to lay it. You need to furnish only a hammer and a pair of shears. Once laid, Hercules guaranteed roofing is down to stay. No further trouble. No looking after it. The first cost is the only cost.

SEND FOR FREE SAMPLES

We will gladly send you free a set of samples showing our complete line of roofing, if you prefer to see the roofing before buying; you can, however, select your roofing right from these pages. They show and describe our complete line. The descriptions are accurate and truthful, the weight given on each roll of Hercules guaranteed roofing is correct, and any selection you may make is filled and shipped subject to our legal, binding guarantee.

THE ECONOMY OF THREE-PLY ROOFING

Knowing Hercules guaranteed roofing as we do, knowing the comparative strength of 1, 2 and 3-ply roofing, we want to suggest to you that you carefully consider these different thicknesses of roofing before definitely deciding which to order. Remember, that while 1-ply and 2-ply roofing cost a trifle less than 3-ply, for the slight additional cost 3-ply roofing will return to you ten times the amount in longer wear and better protection to your roof.

FLINT SURFACED ROOFING

There is a real economy in Hercules guaranteed roofing. Its first cost is the only cost and you save all repair money and all paint money. Your roof will not require it.

Here's the reason why Hercules guaranteed roofings are superior to all others. All prepared roofings should be made from high grade roofing felt, the same as Hercules—some unscrupulous makers work in paper, which weakens the life of the roofing. Pure asphalt is necessary to make a strictly high-grade, lasting roofing—here some manufacturers lower the grade by using tar substitutes. Tar cracks in cold weather, melts in summer. Oil evaporates, leaving the roof dry and brittle, so that it buckles and cracks.

Hercules Roofing contains no substitutes for pure asphalt or felt base. Whenever asphalt roofing is mentioned, the Hercules Guaranteed Flint Surfaced kind is always in the foreground. Its wearing qualities put it there.

When you buy Flint Surfaced Hercules Roofing you are guaranteed an honestly made roofing that will give you complete satisfaction.

HERCULES GUARANTEED ROOFING

MICA SURFACED ROOFING

WEATHER-PROOF — WATER - PROOF — HAIL-PROOF

A very superior roofing of great strength and exceptionally attractive appearance. Made from roofing felt, thoroughly impregnated with lasting asphalt solution, which renders the felt waterproof, strengthens the fibre and makes it elastic. Immediately after the felt has been immersed in the asphalt, while the roofing is still hot and the asphalt yet soft, flaked mica is pressed into the surface on both sides with pressure rollers, firmly imbedding the surfacing into the asphalt so that neither wind, rain, snow nor hail will loosen the flakes. In appearance there is nothing more beautiful than the glistening surface of a roof covered with Hercules guaranteed mica roofing and the finish is as durable as the roofing itself. It can be laid tightly stretched, but will not tear or crack with the changes of temperature or weather. When laid over old shingles, be sure that all shingles are tight, that all nails are driven into the roof, that places where shingles are missing are filled in so that there will be no unevenness. For new roofs the roof boards should be laid close, and the surface clean and free from nails or splinters.

SOLD UNDER OUR IRON-CLAD LEGAL BINDING GUARANTEE OF SATISFACTION.

USE THREE-PLY ROOFING—IT WEARS LONGER.

No. 10K393.	1-PLY.	WT., 35 LBS.	PER ROLL.	GUARANTEED TO WEAR 8 YEARS.	PRICE.....	\$1.72
No. 10K394.	2-PLY.	WT., 45 LBS.	PER ROLL.	GUARANTEED TO WEAR 10 YEARS.	PRICE.....	2.23
No. 10K395.	3-PLY.	WT., 55 LBS.	PER ROLL.	GUARANTEED TO WEAR 14 YEARS.	PRICE.....	2.71

HERCULES COMPOSITE

GUARANTEED ROOFING

Made from felt, saturated and coated with asphalt compounds, that give it wear-resisting qualities and long life, in which mica flakes have been embedded under enormous pressure. It is a tough, pliable roofing, water-proof, heat and cold resisting. Can be used safely in any climate.

Can be laid over old shingles as well as on roof boards. Is very easy to lay and once laid needs no further attention. It makes a very attractive roof.

Comes in rolls of 108 square feet; will cover 100 square feet of roof surface. Nails and cement in sufficient quantity packed in every roll of roofing.

Every roll of Hercules guaranteed composite roofing is sold under our iron-clad, binding guarantee of satisfaction for the terms of years expressed below. It will outlast our guarantee many years.

No. 10K396.	1-PLY.	WT. PER ROLL.	34 LBS.	GUARANTEED TO WEAR 4 YEARS.	PRICE.....	\$1.46
No. 10K397.	2-PLY.	WT. PER ROLL.	41 LBS.	GUARANTEED TO WEAR 6 YEARS.	PRICE.....	\$1.95
No. 10K398.	3-PLY.	WT. PER ROLL.	54 LBS.	GUARANTEED TO WEAR 10 YEARS.	PRICE.....	\$2.46

MARBLE SURFACED ROOFING

NOT AFFECTED BY HEAT OR COLD. CAN BE SAFELY USED IN ANY CLIMATE. YOU TAKE NO CHANCES WHEN YOU BUY IT.

Here is a strikingly novel new roofing-surface. The marble surface is gray, a handsome silver shade that won't bleach out, will always stay the same in color, just the same as the marble it is made from. The surfacing is ground marble chips, so thoroughly imbedded in the asphalt saturated and coated felt body of the roofing that the surface is smooth and even. There is practically no wear out to the marble surfacing. It is unaffected by heat or cold, sun or rain, and will stand up in any climate.

We guarantee every roll to be made of a high grade felt base—saturated with pure asphalt compound. We do not impose impossible conditions. All that is required is that it be laid smoothly and properly nailed and cemented. Anyone can do this.

We furnish it in rolls of 108 square feet or sufficient to cover 100 square feet of roof surface and all lapping. Cement and large headed nails are packed inside of each roll, and you can lay it yourself, even though you had no previous experience. Directions how to lay it come with each roll and you require no tools but a hammer and a knife or a pair of shears.

USE HEAVIEST WEIGHT ROOFING. IT'S THE BIGGEST VALUE FOR YOUR MONEY.

No. 10K399.	2-PLY.	WEIGHT, 45 LBS.	PER ROLL.	GUARANTEED TO WEAR 8 YEARS.	PRICE.....	\$2.02

HERCULES GUARANTEED ROCK SURFACED HIGHLY ORNAMENTAL ROOFING

HERE'S THE VERY BEST ^{ONLY} \$2⁹⁷
ROOFING EVER MADE _{Per Roll of 108 Sq. Ft.}

Hercules Rock Surfaced Roofing will outlast and surpass in beauty any Ready Roofing on the market.

Its popularity is increasing every day, but its wear-resisting qualities and beauty can be fully appreciated only after it has been laid and in use for a number of years.

You can buy roofing for less money—we list such on the preceding pages—but you cannot, at any price, buy any kind of roofing that will afford you better continuous satisfactory service and lasting beauty. These facts make our Hercules Rock Surfaced Roofing the most economical in which you can invest.

Hercules Rock Surfaced Roofing is made from a very high grade felt base. It is of extra heavy strength and weight. The fibre is carefully and mechanically saturated with the greatest water-proofing compound known to the Roofing World—Pure Asphalt. After the process of Pure Asphalt saturation is completed, it is given an additional mechanical treatment, requiring great time and care, to make it still more water-proof and durable.

THE COLORS DO NOT FADE—THEY'RE NATURE'S OWN PRODUCT

The next step in the process of manufacture is to give the roofing a bath of especially prepared high-grade coating which protects the fibres from the weather wear, after which it is coated on both sides with finely crushed rock. This rock surface which will never fade, produces the beautiful appearance shown in the illustration and also materially adds to the fire resisting and lasting qualities of the roofing.

Great Care Is Used in the manufacture of this roofing, as it is necessary that the rock surfacing is so well imbedded into the coating as to make it difficult to remove or rub off.

WILL GIVE MORE THAN 15 YEARS OF ROOFING SATISFACTION

We cannot recommend too strongly the purchase of this roofing, for it will add to the appearance of any building—it is of high quality and manufactured from Pure Asphalt—it is far superior and less expensive to apply than shingles or any other kind of roofing—it will retain its beautiful appearance—its water-proof qualities are the best because of the careful refining to which the asphalt solution is subjected—there is nothing which can be drawn out of the saturation that will discolor the crushed rock finish. Our Fifteen Year Guarantee Protects You Fully.

You cannot possibly make a mistake in ordering this guaranteed ready roofing for your house, barn, sheds or any other buildings because it successfully withstands the elements. Summer heat or arctic cold has little or no influence on its wearing quality. If laid right to begin with, if our directions covering laying and cementing are followed, it will not warp, buckle or rot, and snow, sleet or rain will not affect it in the slightest degree. While the rock surfacing is put on primarily for protection, it gives the roofing a beautiful appearance to be found in no other ready roofing.

MADE IN TWO COLORS:

Hercules Red Rock Surfaced Roofing

A natural deep red rock surface of remarkably striking beauty.

Hercules Green Rock Surfaced Roofing

A quiet, restful greyish green rock surface that is pleasing to the eye.

A BARGAIN "LONGWARE" ALUMINUM OUTFIT

ALUMINUM

IS EVER BRIGHT.
WILL NOT
CORRODE
CHIP OR PEEL.

IS SANITARY
LIGHT IN WEIGHT
WEAR-RESISTING.
HEATS QUICKLY
SAVES FUEL.

A COMPLETE KITCHEN OUTFIT is desired by every housewife, and if you were to purchase this fine, durable, practical seventeen-piece set, piece by piece, you would have to pay far more than the price we quote. Every article that is really essential to proper cooking is contained in this outfit. Don't use insanitary cooking utensils, because the health of the family depends upon what they eat, how their food is prepared and the kind of cooking utensils that are used. This aluminum will not corrode, chip or peel. Furthermore, it is easy to clean and easy to keep clean. It is light in weight, yet is almost indestructible, and with ordinary care will last for a great many years. Will outlast ordinary kinds of utensils several times over. It heats quickly and therefore effects a big saving in fuel over the cheap type of cooking utensils. At a recent investigation it was declared that the use of aluminum cooking utensils was absolutely sanitary, non-poisonous, safe and need occasion no misgiving as to any possible evil effects.

THESE 17 PIECES are made of pure sheet aluminum of a hard and heavy grade—unlike many cheap, thin aluminum utensils commonly sold. For the assistance of those unfamiliar with the proper care of aluminum we send with each set a reference card covering the care of aluminum utensils—so that the user will understand how to keep them properly. The free use of pure soap and hot water will keep them in perfect condition and make them the pride of every home-loving woman. They have no plating to wear off. They heat up evenly, require no stirring of foods and there is no danger of burning. If slight scorching should occur, food is affected only at the bottom. To the right we quote a complete list of the pieces that are included in this low price. It is second in quality to none on the market.

THE ASSORTMENT INCLUDES the seventeen pieces listed below. Each is either full or over capacity.

- 1-qt. Lipped Sauce Pan, 20 gauge, polished outside, nickel plated steel handle.
 - 2-qt. Lipped Sauce Pan, 20 gauge, polished outside, white dip finish inside, nickel plated steel handle.
 - 2-qt. Berlin Sauce Pan, 18 gauge, polished outside, white dip finish inside, nickel plated steel handle. Cover 24 gauge, polished outside, has wooden knob. (2 pieces.)
 - 6-qt. Preserving Kettle, 18 gauge, polished outside, white dip finish inside, steel bail, polished steel ears and tilting handle.

ONE PASSENGER CAR, CROSS-OVER AND 12 PIECES OF TRACK**

Engine is Equipped With
Piston Rods and Brake

144 Inches of Track

Order
this
Outfit
for
The
Children

THE BOY who is mechanically inclined will particularly appreciate this dandy train outfit. Being very strong in construction, it will last a long time, and will always prove a great entertainer for the child and his companions. It consists of an iron, speed governed locomotive with tender; one baggage and one passenger car; one cross over and 12 pieces of track (two straight and ten curved). The track is easily taken apart and just as easily put together. The locomotive is well enameled in black and is thoroughly baked, trimmed with silver bands and green, red and gold decorations.

THIS ENGINE is equipped with piston rods and brake and the gear casing is locked in the engine casting by a steel spring. The key winds up the throttle in the engine. Bear in mind that this is a set of which the children will not tire. The engine and tender over all measures 10 1/2 inches, the baggage and passenger car each measure 5 1/2 inches long and the total length of track amounts to 144 inches. Comes in carton subdivided into 5 sections: engine, tender, tracks, freight and passenger car. Shipping weight, about 6 lbs. **No. 7K1341. Price, complete, \$2.29**

THESE JOY PONIES Horses Have Galloping Motion, Making a Child's Vehicle That Is Ideal

ADD ZEST TO PLAY

REMEMBER what your toys meant to you when you were but a youngster? Just how many little tots are there in your own household, or among the families of your friends? There are some you know that have won your heart and that you would just love to see playing with some gift that came from you. Let us do our share to help you make these little kiddies brimming and beaming with happiness on their birthday or any other occasion when you may elect. See page one for liberal credit terms.

IN THIS book of bargains you will find several appropriate articles, but there is none that will be more to the child's liking than the "Joy Ponies" illustrated to the right. They have a galloping motion, which makes an ideal vehicle for the child in that they exercise both the mind and the body. This attractive article adds zest to the playtime, health to the child and saves the doctor's bill many times over. For full details of this number read the paragraphs to the right.

Manes and Tails of Real Horse Hair

Horses Move Automatically With Galloping And Trotting Motion

Is Easy to Manipulate Steel Frame, Enameled a Bright Red. Wooden Horses With Metal Legs

THEY EXERCISE BOTH MIND AND BODY

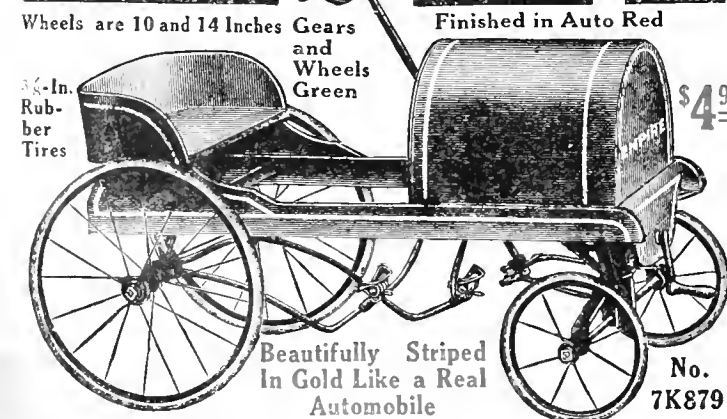

ISEASY to manipulate; has an easy pedal power, is very strongly made and durable in construction; has steel frame enameled in bright red; wooden horses with metal legs, a glossy, dark brown color or with tan or cream harness. Manes and tails light in color or real horse hair. Horses move automatically with a galloping and trotting motion. Two 8-inch wheels under horses, which prevent upsetting. The rear wheels are large in size, measuring 12 inches in diameter. ½ inch rubber tires on all wheels.

BALL BEARING. This ball bearing feature insures easy running quality. Nickel seat rail and handle loop. Length of horse 22 inches, height of horse 15 inches, extreme length of vehicle 45 inches, extreme height 14 inches, extreme width 21 inches. A SPLENDID POCKET GUN

LONG RANGE, SINGLE BARREL

**GUARANTEED, AMERICAN MADE, BREECH
LOADING, SHELL EJECTING FIRE ARM**

This gun is made for us by one of America's most expert manufacturers of firearms. Although we sell it at a very low price, it is not a cheaply constructed weapon, but a gun built for service and accurate shooting. It has a genuine armory steel blued barrel, full choke bored automatic shell ejector, top snap break, rebounding hammer, case hardened frame, finely tempered action, straight grained walnut pistol grip stock. The gun is made in 12 gauge and has a 30-inch barrel. We guarantee this gun. Order this single barrel shotgun, examine and compare it carefully. If you don't find it exactly as described and illustrated you can return it to us and get your money back.

SPLENDID GRADE AMERICAN BAR LOCK HAMMER GUN

\$15⁸⁹

**FULL CHOKE BORED
FOR EITHER BLACK
OR NITRO POWDER**

\$7⁹⁸

This is unquestionably one of the greatest gun bargains we have offered. A genuine American made gun from the factory of a celebrated New England maker, equal to double-barrel breech loading shot guns made and sold by some makers at a higher price.

Has full choke bored barrels of decarbonized blue steel, case hardened locks and frame, top snap break, rebounding hammer, walnut stock with checkered pistol grip. Special patent fore end, positive action and finely tempered springs. Gun is made in 12 gauge and has 30-inch barrels.

No. 8K1368. Price.. **\$15.89**

HAS BREECH LOADING DOUBLE BARREL—HAMMERLESS

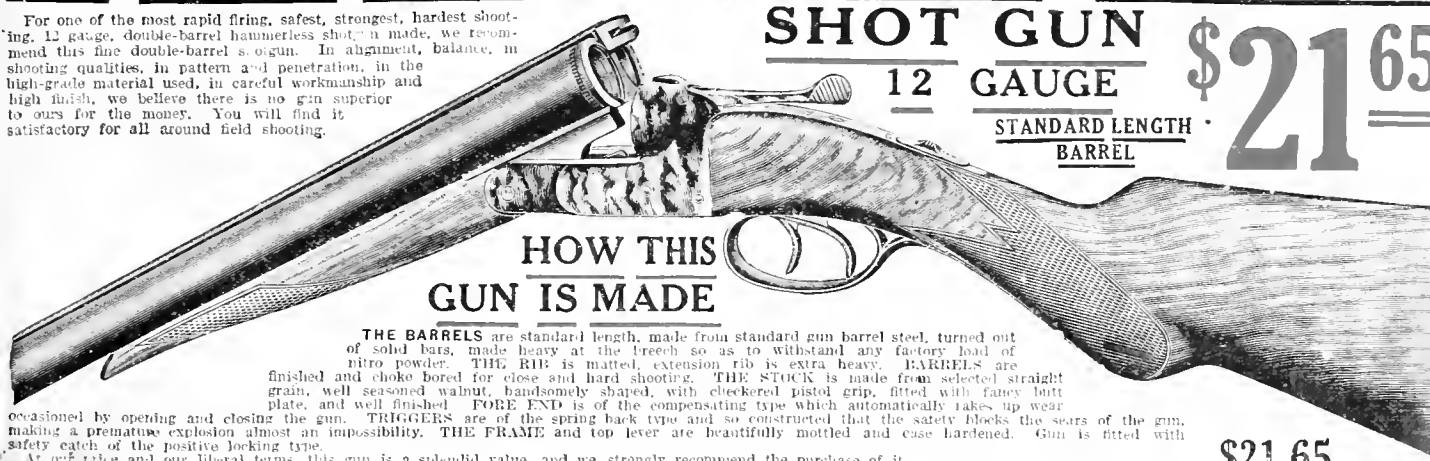

For one of the most rapid firing, safest, strongest, hardest shooting, 12 gauge, double-barrel hammerless shotgun made, we recommend this fine double-barrel shotgun. In alignment, balance, in shooting qualities, in pattern and penetration, in the high-grade material used, in careful workmanship and high finish, we believe there is no gun superior to ours for the money. You will find it satisfactory for all around field shooting.

SHOT GUN

12 GAUGE

**STANDARD LENGTH
BARREL**

\$21⁶⁵

HOW THIS GUN IS MADE

THE BARRELS are standard length, made from standard gun barrel steel, turned out of solid bars, made heavy at the breech so as to withstand any factory load of nitro powder. THE RIB is matted, extension rib is extra heavy. BARRELS are finished and choke bored for close and hard shooting. THE STOCK is made from selected straight grain, well seasoned walnut, handsomely shaped, with checkered pistol grip, fitted with fancy butt plate, and well finished. FORE END is of the compensating type which automatically takes up wear occasioned by opening and closing the gun. TRIGGERS are of the spring back type and so constructed that the safety blocks the sears of the gun, making a premature explosion almost an impossibility. THE FRAME and top lever are beautifully mottled and case hardened. Gun is fitted with safety catch of the positive locking type.

At our price and our liberal terms, this gun is a splendid value, and we strongly recommend the purchase of it

Main frame 1 inch in diameter, head 1 1/2 inch in diameter. Fine quality head fittings. Beautifully enameled in glossy colors with gold hairline stripes. Ladies' models carried in sizes 20 inch and 22 inch only. All Ladies' "Regent" bicycles are equipped with chain guard, dress guard and rubber pedals.

JUVENILE MODELS BOYS' AND GIRLS'

"REGENT" for small boys and girls — there are two sizes, 18-inch frame with 21-inch wheels for child 6 to 8 years old, and 18-inch frame with 26-inch wheels for child 8 to 11 years old. From 11 years up our full size models can be ordered according to the size of the rider.

FRAME. Choice of 20, 22 or 24 inch frame. Full flush joints with strong reinforcements, made throughout of best quality seamless steel tubing. Main frame 1 inch in diameter, head 1 1/2 inch in diameter. Fine quality head fittings, beautifully enameled in glossy colors with gold hairline stripes.

FRONT FORK. Latest approved triple truss pattern with cold swaged seamless steel fork sides, heavily ribbed to give extra strength. Crown and ribs of fork nickel-plated and polished.

WHEELS. Fine quality rock maple one-piece rims, beautifully finished and enameled to match frame; 36 spokes to front wheel and 36 spokes to rear wheel; 28-inch wheel on full adult size.

No. 8K270, Men's "Regent," with coaster brake. Price..... **\$35.85**

No. 8K271, Juvenile "Regent" without coaster brake. Price.. **29.75**

No. 8K272, Juvenile "Regent" with coaster brake. Price.... **32.45**

No. 8K273, Ladies' "Regent," with coaster brake. Price..... **36.85**

GEAR. "73" is regular and always sent unless otherwise specified. "66" or "81" gear optional.

HUB. New Departure front hub—the standard of excellence.

HANDLE BARS. Genuine Shineer pattern with forward extension stem of improved expansion type fitted with best quality wound leather grips and nickeled ferrules.

CHAIN. The peerless Brampton anti-friction roller chain is supplied on all "Regent" bicycles; 1/2 inch pitch by 1/2 inch width.

SADDLE. Latest style genuine SAGER Star, high back cavalry pattern, hand buffed grain leather top, mounted on nickel plated "Universal" coil springs.

PEDALS. Genuine imported Brampton (English make) rat trap pedals. The most improved pedals made.

TIRES. Famous "Hedgehorn" puncture-resisting tires, the quality product of the Record Tire Co., and the most reliable tire of its class.

HANGER. Improved pattern crank hanger with diamond faced, one-piece crank, drop forged. Large ball bearings exclusive design front sprocket.

COLORS. "Regent" bicycle frames can be furnished in handsome, glossy black enamel, with maroon and gold; maroon and yellow; green and yellow, or maroon and blue. Specify which color you desire. Shipping weight from 45 to 55 pounds.

SPECIAL FEATURES. Ladies' model, "Regent" bicycles have rubber pedals, mud and chain guards.

"Oakland" Finest Coaster Brake Bicycle

A WONDERFUL BICYCLE VALUE

BUY THE "OAKLAND," now, while this chance is offered to you. We guarantee your complete satisfaction in every way because this bicycle is well made from high and gold; maroon and yellow; green and yellow, or maroon and blue. Specify which color you desire. Shipping weight from 45 to 55 pounds.

WHEELS. Made with fine grade Excelsior Needle Co.'s double-swaged piano-wire spokes—36 spokes to front wheel, 36 to rear. Best quality one-piece rock-rim rims. Wheels are standard size for 28-inch rims.

FRAMES. 20, 22 and 24-inch; full flush joints re-enforced at all connections. These frames are built with special reference to the extra strength required for a coaster-brake. Head fittings heavily nickeled on copper.

FRONT FORK. Fork crown of latest approved truss pattern with cold swaged seamless steel fork sides. Crown nickel plated and polished.

HANGER. Has an improved pattern crank hanger with diamond faced one-piece crank, drop forged. Large ball cups and cones accurately machined.

GEAR. Regular "73" is always sent unless otherwise specified. Option of "66" or "81" gear if specially requested.

WHEELS. Made with fine grade Excelsior Needle Co.'s double-swaged piano-wire spokes—36 spokes to front wheel, 36 to rear. Best quality one-piece rock-rim rims. Wheels are standard size for 28-inch rims.

CHAIN. 1/2 by 1/2-inch pitch. Celebrated English Brampton Roller Anti-Friction Chain.

SADDLE. Motor Bike saddles, which are far more expensive than the ordinary bicycle saddle. The top is made from genuine English oak-tanned leather. The saddle measures 12 inches long by 9 1/2 inches wide.

PEDALS. They are the strongest pedal ever put on any American bicycle. Will outlast any other.

HANDLE BARS. No. 3 forward extension adjustable. Made from the finest seamless tubing, triple nickel plated over a heavy coating of copper; can be adjusted to any position; corrugated rubber grips.

BEST TIRES. Equipped with the famous Hedgehorn Puncture-Resisting tires, the quality product of the Record Tire Co.

MUD GUARDS. The "Oakland" is regularly equipped with mud guards as shown in picture. These guards are light but strong and durable.

TOOL BAG. Made of fine hand-buffed grain leather, complete with all necessary tools, such as wrench,

Low Priced "Birkshire" Lawn Mower

No. 6K2021 Our "Birkshire" is a surprising bargain in a splendid lawn mower. It has 8-inch driving wheel with spoke ring, making raised tread. It has three crucible steel revolving blades, which are carefully tempered and spirally formed; the bearing is plain. The reel box is fitted with brass adjustment, 1/2-inch cross rod and hardwood roller and handle. The simplicity of the construction of this lawn mower appeals to people who like a machine that will not get out of order. It is mechanically perfect. The blades will cut clean because the steel used is of the proper temper and the adjustment even. This is a thoroughly dependable mower. Shipping weight, about 45 pounds.

12-inch size.	Our Price.	\$3.95
14-inch size.	Our Price.	\$4.25
16-inch size.	Our Price.	4.45

The Famous "Kenwood" Lawn Mower

No. 6K2022. A carefully made machine with parts accurately fitted. The reel spiders are malleable iron, rigidly secured to the steel shafts. This lawn mower is put up to give the kind of service you have a right to expect and it will always cut the grass evenly and run easily if properly cared for. Wheels red and gold, gold reel and bar, green sides, striped, 5/8-inch cross rod, hardwood roller and handle. The blades are made of chisel steel, which allow the user to always keep a perfect cutting edge, as the machine is reground and sharpened. It has 9-inch drive wheels, 6-inch reel, four steel revolving blades, plain bearings, reel box fitted with brass adjustment. Shipping weight, about 50 pounds.

Newly Improved "Illinois" Mower

No. 6K2023 You've no doubt been promising yourself to buy a lawn mower and you've waited to pick out a suitable one. Here's your chance to have a good one at a very close price and on easy terms. The blades of this machine are made of a fine quality of steel. The reel spiders are of malleable iron and attached to the steel shaft by case hardened steel set screws. This is the most practical construction. 10-inch wheels, 6-inch reel. The cones are hardened and especially tempered by a secret process, producing such a hard surface that unless the frame construction is intentionally changed the cone will never require adjustment. It runs with perfect ease and is almost noiseless. A wonderful bargain at this low price and is sure to give good satisfaction. Shipping weight, about 52 pounds.

Hartman's "Best" Lawn Mower

No. 6K2024 This lawn mower is everything the name implies. The reel blades are made with chisel steel edges, which allow the user always to maintain a perfect cutting edge as the machine is reground and sharpened. The bed of the cutter bar is accurately ground to a flat surface for receiving the steel cutting knife, which is attached with rivets headed-up by a new spinning device which draws the blade close to the cast bar. This machine has a hardened cone. It has 11-inch driving wheels, 6-inch reel, five highest grade crucible steel revolving blades, ball-bearing, malleable iron reel spiders, 5/8-inch cross rod of solid steel, adjustable cutter bar. All parts are ground and fitted. Shipping weight, about 54 lbs.

SATISFACTION IN WATCHES

ELGIN-WALTHAM-ROCKFORD
FAMOUS WATCHES
FOR MEN AND WOMEN

HARTMAN'S
JEWELRY DEPARTMENT
39TH ST. & WENTWORTH AVE.,
CHICAGO, ILL.

HARTMAN'S LEGAL WATCH GUARANTEE.

WATCH Guarantee

We Hereby Guarantee every watch we sell to be an accurate timepiece, in perfect running order and to correspond in every detail as pictured and described in this catalog. Cases and movements are positively guaranteed to wear as specified.

We Agree to replace and repair, free of charge, at any time, any part or parts of any watch purchased of us which may give out because of defective material or workmanship.

We Guarantee to ship each and every watch on approval, and if within 30 days from its receipt it does not prove perfectly satisfactory, we will accept its return and when received by us, refund all moneys paid including payment of transportation charges.

HARTMAN FURNITURE & CARPET CO.
JEWELRY DEPT. CHICAGO, ILLINOIS

THE HARTMAN WAY

A YEAR TO PAY

THE WORLD'S GREATEST WATCHES

OUR REASON for handling only the Elgin, Waltham and Rockford watches should be your reason for owning one of these dependable standard makes. We will not carry watches unless they have an established reputation—watches which time and usage have demonstrated to be the very best that the watchmaker's skill can produce—and you cannot afford to own any other than these makes—a watch which will give you a lifetime of satisfactory service; which becomes a family heirloom and can be handed down in perfect working order from generation to generation. Such a watch is either an Elgin, a Waltham or a Rockford.

We were practically forced into the watch selling business. At first we received an occasional request from some customer for a good, accurate timepiece. Later these requests became more numerous and finally they came so thick and fast that nothing was left us but to add a complete Watch Department to our already enormous and extensively departmentized business—the largest of its kind in the world.

IN ORGANIZING our Watch Department, we set about it with the same thoroughness and well-being of our customers in mind, which has for 60 years characterized every policy of the mammoth Hartman institution. We made a careful survey of the entire watch industry. We secured the services of some of the ablest watch experts in the business and placed the department in their entire charge. Personal visits to the leading watch factories were made to note their equipment, processes of manufacture and other phases of the watchmaking business. It might be said that every known make came up for consideration and was subjected to every conceivable test for reliability, dependability, durability—in fact, for every known watch quality.

WHY DID WE go to so much trouble and expense in establishing one of the many departments of this great business with its mammoth mail order department and more than one million, five hundred thousand satisfied customers? Simply because we were determined to carry no make of watch that would not stand up under the Hartman guarantee, and our instruction to our experts in the Watch Department was this:—"Take no chance. We are not in the business to make our profit off of the watches and buy inferior makes on account of making a larger profit, because we expect to make friends by the very quality of the watch we sell; and if we sell anything but a dependable watch it will affect, to a certain extent, the balance of our enormous business."

THE RESULT of this investigation brought out two things—that the best watches in the world are made in America, and the best watches in America are those made by the Elgin, Waltham and Rockford Watch Companies. Therefore, those makes are the ones we selected. Every watch offered in this catalog (except a few bracelet watches) is either an Elgin, Waltham or Rockford watch. Any watch that you select is sent to you with our full assurance of absolute satisfaction. Every watch we show in this catalog is so good a watch that we unhesitatingly give it the protection of our legal binding guarantee, which means you could not possibly buy a better watch anywhere, no matter how much you paid for it, because the Hartman guarantee is the strongest document of its kind ever written. It is not within the power of written words to make it stronger.

We carry no freakish fads, which a person tires of in a month or two when the novelty wears off. The watches we show and offer are watches for a lifetime, guaranteed for lifetime satisfaction.

THE WATCH BUYING PUBLIC has endorsed our plan by making our Watch Department one of the largest watch selling establishments in the world. This is because our watches are right in price and quality, and the people of the country know and trust Hartman's, just as Hartman's knows and unhesitatingly trusts the people. Trust in a literal way by giving them absolutely free credit—free from all restrictions such as the giving of notes, mortgages and other red tape annoyances. Our credit is free. Our prices are lower than the lowest. Our terms are the most liberal ever offered. Those are the reasons why the people order their watches, as well as other merchandise, from Hartman's, and why it will pay you to do likewise.

THE PRICES WE QUOTE on the watches in this catalog are characteristic of the low prices which dominate the entire House of Hartman throughout its every department. That means that these prices are the very lowest at which these world-famous makes can possibly be sold. Our vast purchasing power of more than Ten Million Dollars, and because of it, our ability to undersell all competition, operates in our Watch Department to the same advantage to our customers as it does in every other department. When you buy a watch from Hartman's you not only get the benefit of the lowest price ever made on a watch of the particular make, size and style you select, but you also have a full year to pay for it if you wish. Search the world over and you could not possibly find the equal of the watch bargains here offered you.

REMARKABLE WATCH BARGAINS

THE prices quoted herein are the very lowest at which these watches can be sold. That does not mean the lowest credit prices—it means lowest prices, either cash or credit. You may pay all cash for your watch purchase if you prefer to do so, but you will not save a penny by doing so. Our prices are rock bottom. They represent the very narrowest margin at which dependable watches purchased in stupendous quantities at the very lowest cash prices, can be placed in the hands of customers. Therefore, it doesn't make a bit of difference whether you pay all cash or in easy payments to suit your convenience. The price is exactly the same in either case.

WE WISH it to be distinctly understood that every watch sold by us is brand new, direct from the factory. Not a single one is a "rebuilt" watch—not an old watch which has seen service and been tinkered up, put into a case and sold as new. The watch we send you will be one that comes to you exactly as it leaves the factory—brand new and absolutely perfect in every respect.

We ask you to remember that when you buy a watch from us you have the addition of our guarantee to that of the manufacturer, and you take no risk whatever. You could not possibly ask for greater protection.

A LIFETIME REPAIR GUARANTEE

WE GUARANTEE to keep the watch in perfect order, absolutely free of charge, as long as you own it. This means exactly what it says—buying a watch from Hartman means an insurance policy that at any time your watch needs repairs, we will do it for you free of charge. The watches we sell you must give you lifetime service. This is a part of our guarantee. This is an added feature to our Watch Department, exclusive with us. When you purchase a watch from us you are fully protected in every respect.

If you would rather have some other make than the Elgin, Waltham or Rockford tell us what make you wish, we will supply you at rock bottom price on our regular easy credit terms, providing that upon investigation it proves to be a reliable make and one that we can recommend. We are sure, however, that any one of the three makes here featured will please you perfectly, and the wide range of styles, sizes and prices makes possible any selection you may wish.

SENT ON APPROVAL. You may order us to send you any item you wish from this catalog. Send along remittance for the first payment as indicated in printed table on page 1, with the clear understanding that if for any reason you do not care to keep the watch, you are at liberty to return same to us and we will at once refund what money you have paid. If you decide to keep the watch, then pay the small monthly payment as due. All watches are sent on 30 days' approval test and examination.

HOW TO START AN ACCOUNT. Pick out the goods you want and write your order on one of our printed order blanks. Be sure to mention the price, catalog number, name of the article and catalog page on which it appears, giving any additional information as listed in description. Refer to page 1 which tells you how much money to send with your order, and how to pay the balance. By giving us this information in full we will be able to avoid any possible misunderstanding or delays.

ENGRAVING Watches illustrated in this catalog with engraved or enameled monograms, furnished with your initials without extra cost. Watches illustrated in this catalog without initials or monograms can be hand engraved as you may desire, providing there is suitable space for the engraving. Prices for various engravings are based upon amount of work necessary and range from 25c to \$3.00, according to style and size. To prevent errors print the initials you desire engraved.

ABOUT WATCH CASES. All our 14-karat gold cases are extra fine in quality and pattern. They are better in construction, richer and heavier in gold, finer in every detail of quality and design than any other cases on the market. They are cases any man or woman is proud to own or exhibit—cases that are guaranteed to last a lifetime.

Our gold-filled cases, the 10, 20 and 25 year, are offered in an almost endless variety of fancy engraved designs, Roman, Plain and Polished cases, suitable for fancy initials or elaborate monograms. Stamped in every case is the period of time for which they are guaranteed. If any of these cases do not wear satisfactorily for the full length of time as guaranteed, we will replace the defective case with a brand new one. All our watches are adjusted and regulated before they are sent out to you, assuring time-keeping accuracy and perfect condition when you receive your watch.

CHARGES PREPAID. Whenever possible, we ship watches by express, otherwise by parcel post. We pay the delivery charges on watches and jewelry only. On small purchases (under \$5.00) we request cash in full with your order, as we do not open charge accounts for less than \$5.00. However, our legal, money-back guarantee remains the same in every case, whether you send cash in full on a small or a large order, or use our convenient credit system. We guarantee safe delivery and will replace any damaged watch with a new one, free of charge.

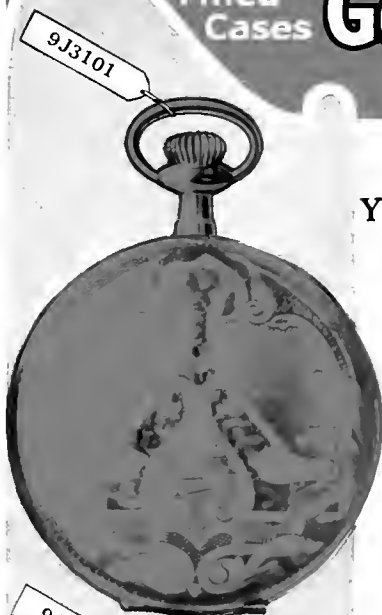

HOW TO SEND MONEY. The safest and best way to send money is by postoffice money-order, express money-order or bank draft. In any case, these must be made payable to the Hartman Furniture & Carpet Company. Currency and coin should ALWAYS be sent by REGISTERED MAIL. We would ask you to kindly avoid sending personal checks. If you live on a R. F. D. route give your money and letter to the rural mail carrier and he will buy a money order for you and send it to us.

NAME AND ADDRESS. Be sure to write your name and address very plainly, giving town, county, state and street number. If your postoffice has a different name from your express office, please mention BOTH. If away from home when ordering, please give permanent as well as temporary address. Women should always prefix their name with Miss or Mrs. (Mrs. using husband's initials) as may be proper. Always write your name in full and the same way each time you write to us.

Solid Gold and Gold Filled Bracelet Watches

Complete with Expansion Bracelets

ELGIN, WALTHAM & SWISS MOVEMENTS

Ladies' Wrist Watches shown on this page are choice selections, illustrated in actual size. Bracelet watches are rapidly growing in popular favor. Those we sell and recommend are dependable for time keeping accuracy. The cases and bracelets are guaranteed for wear and satisfactory service both by the makers and by ourselves. We furnish a handsome presentation box with each watch bracelet, assure safe delivery and prepay all forwarding charges. See our liberal credit terms on these satisfactory, doubly guaranteed watches, shown on page 1.

9J3138 Bracelet watch complete with expansion bracelet. The watch case and bracelet are plain, highly polished Gold Filled and guaranteed for 10 years actual wear. The movement is imported, has ten jewels and is guaranteed to be a dependable time piece. **\$7.40**

9J3140 Convertible Bracelet Watch. Beautifully finished Gold Filled watch and bracelet bearing an unqualified guarantee of satisfaction from the maker and our endorsement as well. This watch is guaranteed for 20 years. The bracelet is expandable and may be detached so the watch can be worn on a chatelaine pin or a chain if preferred. You can depend upon the time keeping accuracy of the movement. It has a patented lever escapement and 15 Jewels. No finer watch bracelet can be obtained at the very low price quoted. Order this watch and you will be convinced of having saved money. Price **\$13.95**

9J3141 The smallest dependable bracelet watch we know of that can be guaranteed for actual service. This watch movement has patented lever escapement, 15 jewels and a record for time keeping accuracy that is only to be expected in much more expensive watches. The makers as well as ourselves guarantee this watch for 20 years. Case and bracelet are plain polished Gold Filled. **\$15.95**

9J3144 We feel safe in claiming this watch bracelet to be the greatest value ever offered and when you consider an Elgin or Waltham movement, 14k Solid Gold Case and Bracelet and read our remarkably low price, you will be convinced. Both watch case and bracelet are solid 14k Gold Throughout. The bracelet is expandable and may be detached so that the watch can be worn as a regular watch. The movement is full nickel 7 Jewel Elgin or Waltham and will keep accurate time. The watch comes to you with a double guarantee. You have the legal Binding Guarantee from Hartman's and the makers as well. The rich, elegant appearance and splendid workmanship, the high quality and extraordinary value of this watch bracelet and an unqualified assurance of wearing excellence and satisfactory service urge us to specially recommend this magnificent watch bracelet. **\$28.55**

9J3144A Same watch as above with 15 Jewel Elgin, Waltham or Rockford Movement. Price **\$33.15**

9J3143 Twenty Year Guaranteed Expandable Watch Bracelet. The watch is fitted at the factory with an Elgin or Waltham 7-Jewel Movement and comes to you with a double Guarantee of complete satisfaction. Note the rich engraving on the watch case and you can form a fairly good idea of the magnificent beauty of the watch. The Bracelet can be detached and the watch worn on a chain or pin as desired. The matchless value of this watch bracelet and our unlimited guarantee of satisfaction and the very low price should be convincing that this is the watch you should order. Price only **\$16.25**

9J3143A Same as above with 15 Jewel Elgin or Waltham or Rockford Movement. **\$20.65**

9J3139 Ten year guaranteed Gold Filled Bracelet Watch. Case has colored enamel decorations. Bracelet is expandable and may be detached from watch so that the watch may be worn on chain or chatelaine pin. The movement is imported and has ten jewels. A great bargain. Price **\$10.50**

9J3142 Magnificently carved and unlaid colored enamel give but a faint idea of the rich beauty of this elegant 20-year guaranteed watch bracelet. The case is highest quality gold filled ornamented as described. The bracelet is expandable and will fit any wrist. The movement has 15 jewels and patented lever escapement. A most beautiful watch can not be had at our price. **\$16.25**

9J3145 A fine Elgin or Waltham 7 Jewel movement in a convertible bracelet watch at a hitherto unheard of price. We have made a bargain price on a 20-year guaranteed bracelet watch and we believe this value is beyond all competition. Both watch and bracelet are plain polished and finished throughout in the best possible manner. The bracelet may be detached and the watch worn separately when desired. Remember this watch is guaranteed by the greatest watch companies in the world and by us. Order this watch. **\$15.95**

9J3145A Same as above with Elgin, Waltham or Rockford 15 Jewel movement. **\$20.50**

How To Select Your Watch

Women never buy men's watches for themselves, but men frequently make the mistake of buying a lady's watch for their own use. Some men say they only want a watch for Sundays. All watches illustrated in our Catalogs are for sale and we want to sell you the kind of watch you prefer but do not buy a "Sunday Watch." A watch that is not durable enough to have with you every hour of every day in the week is not a good investment, no matter what its price may be.

NESTS THAT HARTMAN FEATHERED

SHOWING HOW THE FURNITURE RUGS CARPETS ETC.
ILLUSTRATED IN THIS CATALOGUE
WILL LOOK IN YOUR HOME

Illustrating a Hartman parlor, furnished in good taste and quiet harmony. Each item here shown, including the rug, library lamp, table, etc., is attractively priced on other pages of this catalogue.

Bed room furnishings should be restful and pleasing in color harmony. Note the soft contrast of draperies, rug and curtains; the brass bed and dresser harmonize perfectly. For full descriptions and prices, see merchandise pages.

An example of inexpensive comfort and luxury in a modern living-room or den. The quaint, mission design, oak constructed furnishings go well with the mission bookcase, couch and warm-toned curtains over the door.

The lady of the house will be specially interested in this handy kitchen furniture. The up-to-the-minute, time and labor saving kitchen cabinet; the sanitary linoleum floor covering, will appeal strongly. The strongly built stove means warmth and cooking efficiency. See our stove pages.

Our complete Rug, Curtain and Drapery section, printed in full colors, offers many valuable home-beautifying suggestions. Look through it and note how efficiently we combine rare beauty, high quality and genuine economy.

The dining room should be bright and cheerful. Notice how pleasantly the bright-toned rug shows off the massive table and chairs. The china closet makes a bright, glistening color spot, as does the substantial buffet. Note the hanging Art Lamp, an ornament to any dining room.

Reed and Fibre Furniture make outdoor life attractive and comfortable. Our showing in this line is complete and combines quality, comfort and style. The reed carriage makes a healthful, out-of-doors bed for your baby.

In the efficient, sanitary pantry of to-day we find a sanitary linoleum floor covering a scientifically constructed, sanitary refrigerator, aluminum kitchen utensils and other necessities of the modern home. For full details and prices, see merchandise pages.

The children's playroom or sewing room is bright in color. Dainty frocks and dresses find protection and safe storage in the beautiful cedar chest. Note the handsome, modern sewing machine.
